

**this summer 2021**

# **NEW GES Programs**

**Bachelor of Arts/Bachelor of Arts Honours in  
Geography and Environmental Studies,**

- **Bachelor of Science/Bachelor of Science Honours in  
Geography and Environmental**

The Department of Geography and Environmental Studies is excited to launch two new programs this summer 2021. They replace the old Geography and Environmental Studies programs and offer a more streamlined approach.

The new GES programs require a reduced number of mandatory classes creating flexibility for students and enable them to create programs based on their own interests. *Click [here](#) for more information.*

Our new programs will also create flexibility for students outside of the discipline, and will satisfy student demand for a Minor in Geography and Environmental Studies.

**GEOG and ENST now  
GES**

With the launch of our new programs the class acronyms of our classes change from GEOG or ENST to **GES**.

All GEOG and ENST courses are now **GES**, the class numbers do not change.

As an example : GEOG 120 is now **GES 120**; ENST 200 is now **GES 200**
