

UNIVERSITY OF REGINA
Senate

Item for Information

Subject: Annual Enrolment Report 2015-2016

Background and Description:

The following report is presented for information. The 2015-2016 academic year comprises the spring/summer term of 2015, the fall term of 2015, and the winter term of 2016.

This report sets out the enrolment and registration numbers of the University of Regina for the 2015-2016 academic year in comparison to the previous 4 years. Registration rises as we approach the first few days of lectures and falls soon thereafter. For the sake of consistency during each of the five years in the tables that follow, the numbers provided are taken on or about the fifth weekday of classes in each term represented. While the count of enrolment on this date does make the numbers volatile, it provides a general framework of enrolment trends at the University. Final counts are published on the University of Regina website by the Office of Resource Planning at www.uregina.ca/orp/statistics/index.html.

Enrolment Highlights

- The University of Regina system, including the federated colleges, has seen a steady growth in undergraduate full load equivalent (FLE) students in all three terms over the past five years. In the spring/summer of 2015 there was an increase of 5% over 2014 and 40% over five years. In the fall of 2015 there was an increase of 3% over 2014 and 11% over five years. In the winter of 2016 there was an increase of 2% over 2015 and 11% over five years.
- Total headcounts for the University of Regina system (including graduate studies) saw year over year increases, as well. The spring/summer headcount increased by 6% over 2014 with a five year increase of 31%, the fall headcount increased by 4% over 2014 with a five year increase of 12% , and the winter headcount increased by 4% with a five year increase of 11%.
- The University of Regina proper undergraduate and graduate headcounts show increases over the prior academic year of 5% in the spring/summer term, 3% in the fall term, and 3% in the winter term.
- The highest percentage of growth is the Centre for Continuing Education which can be attributed to an expansion of the High School Accelerated program.
- Other noteworthy areas of growth include Engineering, Kinesiology and Health Studies, and Science.
- The academic unit of La Cité universitaire francophone was established effective fall 2015 term which included the transfer of the Department of French and

Francophone Intercultural Studies from the Faculty of Arts. This move has had an expected effect on the totals for the Faculty of Arts.

- Effective the winter 2016 term, the Faculty of Fine Arts officially became the Faculty of Media, Art, and Performance.
- During the spring/summer term headcounts increased at Campion College by 6%, First Nations University of Canada by 4%, and Luther College by 15%. The fall term saw a decrease in headcounts by 3% at Campion College, but increases of 12% at First Nations University and 8% at Luther College. During the winter term headcounts increased at Campion College by 2%, First Nations University by 9%, and Luther College was up by 21% over the year prior.
- The headcount increases for graduate studies were .5% for spring/summer, 4% for the fall, and 11% for the winter.

Five-Year Enrolment Details as of the 5th Day of Classes for Each Term

Population Segments

The following counts include only students taking courses for credit and were done at the end of the 4th week of lectures. They do not include students taking non-credit courses such as those in the ESL program. The numbers of aboriginal students reflect only those who self-declare their ancestry. This systematically under-represents the actual number of aboriginal students. Information on the top 10 nations for international students has also been included.

N.B. Information on the spring/summer term on Population Segments has not been previously reported and is unavailable. The information provided has been adapted from the Office of Resource Planning – Registration Statistics & Supplemental Reports. See www.uregina.ca/orp/statistics/registration/index.html

Population Segment Highlights

- The number of self-declared Aboriginal students within the University system increased by 6% in the fall term and 5% in the winter term.
- The five year increase in self-declared Aboriginal students was 45% in both the fall and winter terms.
- International visa students increased by 9% in the fall and 6% in the winter.
- The five year increase for international students was 57% for the fall and 58% for the winter.
- International graduate students decreased by 2% in the fall and increased by 1% in the winter.
- The top 3 nations for international students are China, Nigeria, and Saudi Arabia. The United States replaces South Korea as one of the top 10 nations.

Aboriginal Self-declared
