The Department of Biology invites applications for a tenure track laboratory instructor position starting July 1, 2015. Applicants must possess, at minimum, a M.Sc. in Biology or related discipline. The ideal candidate will have demonstrated excellence in teaching, especially in a biological laboratory setting.

We are seeking an individual with initiative, who is conversant in modern ecological (terrestrial/aquatic) theory and techniques. The successful candidate will coordinate, teach, and develop our undergraduate ecology laboratories. Teaching duties will also include coordinating/teaching animal physiology laboratories. The position will entail both the teaching and development of undergraduate labs, setting up of equipment, ordering supplies, and supervision of teaching assistants. Experience with personnel and/or laboratory management is an asset. We are looking for someone who is innovative, enthusiastic and collegial, and able to deal with colleagues and students in a fair-minded and open manner.

Applications accepted by February 28, 2015 at: http://www.uregina.ca/hr/careers.
