

Saskatchewan: Geographic Perspectives

Edited by Bernard D. Thraves, M.L. Lewry,
Janis E. Dale, and Hansgeorg Schlichtmann

Saskatchewan: Geographic Perspectives is Saskatchewan's first comprehensive geography textbook. Eighteen chapters provide an excellent overview of the province from a variety of geographic perspectives, while twenty-nine focus studies explore specific topics in depth. Designed for use in post-secondary geography programs, this book is also appropriate for high school research projects and for the general public.

Included are more than 150 figures (maps, charts, illustrations, photographs), 70 tables, and over 60 full-colour plates.
