GRADUATE STUDENT HANDBOOK

2020-2021

GRADUATE PROGRAM
DEPARTMENT OF
SOCIOLOGY AND
SOCIAL STUDIES

STATEMENT OF PURPOSE

This Handbook describes the graduate programs that are offered by the Department of Sociology and Social Studies, and the administrative practices that pertain to these programs. It is presented as a working guide to graduate students and their supervisors. For general university rules and procedures, please refer to the current Faculty of Graduate Studies and Research Calendar. Students should be familiar with the regulations therein and note that they take precedence over all Departmental regulations. Regulations contained in this Handbook are also subject to revision.

REVISED OCTOBER 2020

ADMINISTRATIVE CONTACTS

DEPARTMENT OF SOCIOLOGY AND SOCIAL STUDIES

Head

Dr. Rozzet Jurdi-Hage
Associate Professor of Sociology & Social Studies
Office: CL 229
Phone: 306.585.4052
E-mail: Rozzet.Jurdi@uregina.ca

Graduate Program Co-ordinator

Dr. Henry Chow
Professor of Sociology & Social Studies
Office: CL 231
Phone: 306.585.5604
E-mail: Henry.Chow@uregina.ca

Administrative Assistant

Stacey Leader
Office: CL 230
Phone: 306.585.4186
Fax: 306.585.4815
E-mail: Stacey.Leader@uregina.ca

FACULTY OF ARTS

Dean

Dr. Shannon Dea
Professor of Philosophy
Office: CL 426
Phone: 306.585.4895
E-mail: Arts.Dean@uregina.ca

Associate Dean (Research and Graduate)

Dr. Raymond Blake, FRSC
Professor of History
Office: CL 426
Phone: 306.585.4336
E-mail: Arts.AssocDean-RG@uregina.ca

FACULTY OF GRADUATE STUDIES AND RESEARCH

Interim Dean

Dr. Nicholas (Nick) Jones
Professor of Justice Studies
Tel: 306-585-4835
Email: Nick.Jones@uregina.ca

Associate Dean (Graduate Studies)

Dr Fanhua (Bill) Zeng
Professor of Petroleum Systems Engineering
Tel: 306-585-5186
Email: Fanhua.Zeng@uregina.ca

academic

Graduate study in the Department of Sociology and Social Studies at the University of Regina traces its origins to the 1960s, a time of political and social rebellion in the community and the university. Along with many 'foundational' beliefs and structures, this was a time when disciplinary boundaries were questioned. The result was the growth of interdisciplinary studies and an increased emphasis on social relevance and public service within the university. Originally, Social Studies and Sociology were two 'committees of instruction' with the social studies committee focusing upon heavily interdisciplinary areas such as methodology, ecology and communications and spawning research centres, while the sociology committee focused upon disciplinary studies. Still, in both areas, cross-listed courses, interdisciplinary programs and critical inquiry were the norm. In fact, sociology had no graduate program until the early 1970s, choosing to work through social studies in order to facilitate its graduate instruction. By 1976, when the two departments merged, over two dozen master's students had graduated.

As it revised and expanded its graduate programs over the years, the department has been mindful of these traditions. Today, the graduate program retains the balance between disciplinary and interdisciplinary studies. The department regularly offers a core of theory and methodology courses, as well as courses in the four substantive areas in which the department feels it has particular teaching and research strengths: environment and development, social justice, knowledge, science and technology, and political economy. Professors may also offer the occasional special topics or reading classes based on their or students' particular interests. It is important to keep in mind, however, that the department is small, so that the capacity to offer graduate courses beyond the core areas remains limited. The interests of faculty members are described in Section IX below. Students are expected to discuss their interests and plans with faculty and the Graduate - Coordinator before their program is finalized or changed. Given this structure, the graduate program works best for students who are self-starters, able to carry through much of the work on their own.

The department offers graduate programs leading to the degrees of Master of Arts in Social Studies and Master of Arts in Sociology. While technically these programs can be completed in one year, two years is a more realistic goal. Faculty regulations allow five years for their completion. Each program requires both course work and a thesis, which is defended (see Sections VI and VII below). A course work only program is under consideration. The Graduate Faculty also provides for a 'special case' doctoral program and the department has accepted a few of these students over the years.

II. Sociology Program

The Master of Arts in Sociology program intends to give students a solid background in disciplinary approaches and methodologies and may include training in practical research techniques depending upon what research projects are underway in the university. To be admitted, students are normally expected to have an honours degree in Sociology or equivalent. The program can lead to a ‘final’ degree – graduates often become researchers and administrators in government or the private sector – or to a ‘preparatory’ degree for doctoral or other advanced studies. Details of the program are outlined in Section VI.

III. Social Studies Program

The Master's program in Social Studies is an interdisciplinary program that provides an opportunity for a student to bridge social science disciplines. The program requires a course work component that is interdisciplinary and typically the members of the thesis supervisory committee will come from more than one department or faculty. To be admitted, students may have honours or four-year undergraduate degrees from the social sciences, or even from the humanities, sciences or professional faculties with some coherent concentration in the social sciences. The Master of Arts in Social Studies program can also lead to a ‘final’ degree for potential researchers and administrators, and it has been well received as a ‘preparatory’ degree for doctoral and other advanced studies. See the details for this program in Section VI.

All M.A. candidates in Social Studies are required to take four courses of three credit hours each, two seminars (SOC 800), and write a thesis (eighteen credit hours). This program has no core classes, although Social Studies students often take Sociology 802 or 804, the core classes for the Sociology program. Social Studies students are required to take at least one course in another traditional social science discipline besides sociology.

IV. Application and Entrance

Applications to the graduate program are accepted at any time, with entry to the program usually occurring in September or January.

Potential applicants apply to the Faculty of Graduate Studies and Research (<http://www.uregina.ca/gradstudies/future-students/index.html>). The application process has now become entirely self-administered, with all forms being accessible through the website of the Faculty of Graduate Studies and Research. As part of the application, the Department strongly encourages applicants to submit a short (one to two page) statement of their interests and goals in pursuing a masters program. This will help the Department decide if it has the faculty capability to supervise the student, as well as help the department decide what the structure of the student's graduate program should be.

When all the materials required for the application have been submitted to the Faculty of Graduate Studies and Research, the application is sent to the Department for consideration. All members of the Department are invited to review the application and comment on the acceptability of the student. The Graduate Program Committee reviews these comments and

makes a recommendation to Graduate Studies concerning acceptance or non-acceptance into the graduate program. The factors considered by the Committee are the academic record and background of the student, the letters of recommendation, the student's proposed area of concentration, the comments of Department members, the availability of a supervisor, and the number of applicants.

The Faculty of Graduate Studies and Research makes the final decision concerning a student's entrance to the program. Recommendations of the Department are normally accepted and acted upon by the Faculty.

If a student is not considered fully qualified for entrance to a Master's program, the Department may require the student to complete a number of undergraduate classes, with a specified grade point average, in order to become fully qualified. Students with less than the normal four-year undergraduate program or with limited background in sociology or the social sciences should consult with the Department concerning the classes that are to be taken in order to become fully qualified.

If a student is considered by the Department to be very close to being fully qualified, the Department may recommend admission as a Qualifying or Probationary student. In this case, the student is admitted to a graduate program, but must fulfill certain requirements before being considered fully qualified. For example, a student who has completed a four year degree in English and has taken eight social science classes might be admitted to the Master's program in Social Studies as a qualifying student, with the requirement that three 300 or 400 level classes in Sociology be completed with an average of 75 per cent in order to become a fully qualified graduate student.

The Department and the Faculty of Graduate Studies and Research have responsibility for deciding how many students will enter the program, which students will be recommended for acceptance, and the status of the student upon admission (fully qualified, qualifying, or probationary).

V. Advisor and Supervisor

Each student admitted to the program is paired with a faculty member who advises the student. The Graduate Program Committee assigns an initial advisor to the student upon entrance to the program. The student works closely with the advisor during the period when the student is primarily involved in course work. The initial advisor may become the student's thesis supervisor.

For planning and writing the thesis, each student must have a thesis supervisor or two co-supervisors. In addition, each student is required to have a thesis committee of three or more faculty members. The supervisor or co-supervisors are members of this committee and it is advisable to have the full committee formed in the planning stages of the thesis. In the case of Social Studies committees, students should consider asking faculty members in other departments to serve on their committees.

The supervisor should be a faculty member with an interest and specialty in the same area as the student plans to research for the thesis. Through a listing of specialties of faculty members, the Department is responsible for providing students with information

concerning potential supervisors. Where two faculty members jointly have the expertise associated with the thesis topic, these two faculty members may become co-supervisors of the student. When the thesis committee is formed, the supervisor or the student is expected to consult other faculty members with expertise in the area the student is researching, with a view to including them as members of the thesis committee.

Supervisors are selected jointly by the student and the supervisor, and approved by the Graduate Program Committee. A student may approach a faculty member to request that the faculty member becomes the supervisor. It is incumbent on both the student and the supervisor to provide the Committee with information concerning who is the proposed supervisor or co-supervisors. Alternatively, the Committee may assign a faculty member to supervise a student.

A faculty member may be unable to supervise a particular student because of absence (sabbatical, retirement, or leave); limited interest and expertise; or because the faculty member is already supervising several other students. The Graduate Program Committee has the ultimate responsibility of finding a supervisor for the student, if the student cannot find one. The Graduate Program Committee and the student jointly select a supervisor, considering the availability and areas of interest and expertise of faculty members.

If a student wishes to change supervisors, a student may make such a request to the Graduate Program Committee. The Committee considers factors such as expertise and interest, number of graduate students currently being supervised, and faculty workloads when deciding whether or not a proposed supervisor is appropriate for the graduate student. The Committee can withhold approval and recommend an alternative supervisor.

VI. Graduate Program Committee

The Graduate Program Committee is a committee of the Department of Sociology and Social Studies. All decisions of the Committee are reported to the Department and are ultimately Departmental decisions. Any member of the Department or any student in the Department can request that the Department reconsider a decision of the Committee.

FGSR WEBSITE

<http://www.uregina.ca/gradstudies/thesis-defense/thesis/supervisor-responsibilities/supervision-masters.html>

The Supervisory Committee for Master's Candidates

Supervisory Committee consists at least of the following:

1. Supervisor of the student's principal academic unit or program area
2. One member of the student's principal academic unit or program area. Adjuncts cannot be the sole committee member.

VII. Graduate Program

After a student is admitted to either the Sociology or Social Studies Master's programs, a *Master's Course Outline* form must be completed. This form summarizes the student's program: the proposed classes of the student, the proposed thesis topic, and the proposed research supervisor. (With on-line registration, it is particularly important that students understand which courses are deemed necessary for their programs, as the registration form that would alert advisors as to which courses students are registering in no longer exists.) The *Master's Course Outline* form is completed by the student and his or her advisor, and then is reviewed by Graduate Committee. The form is then submitted by the Department for approval by the Admissions and Studies Committee of the Faculty of Graduate Studies and Research. If the Graduate Committee does not consider the proposed program acceptable, that Committee can recommend changes in the proposed program. The Graduate Committee of the Department and the Faculty of Graduate Studies and Research must approve revisions to the program.

According to Graduate Studies regulations, a grade of 70% or better is required in all coursework. As well, a minimum of one-half of all course credit hours must be in 800-level courses that are not offered in conjunction with undergraduate courses. These regulations also note that students are required to take at least one-half of their course work hours from instructors other than the primary thesis supervisor. Students should consult the current Academic Calendar of Graduate Studies and Research to familiarize themselves with other academic regulations of the University. It may be accessed on-line at www.uregina.ca/gradstudies/.

The list of specific courses offered by the Department is provided in Section VIII. Following is a short summary of the types of courses offered.

- A. Seminars.** All masters' students must take Sociology 800 twice as part of their program. Soc800 is a departmental seminar course where graduate students and faculty members discuss research that is being conducted in the Department. Sociology 800 is primarily intended for Honours and graduate students to present and discuss their research proposals. There is also an all-department seminar where faculty members and graduate students come to present and discuss the results of their research.

- B. Theory and Methods.** The theory and methods courses, Sociology 802 and 804, are required of all Sociology Master's students and are recommended for Social Studies Master's students. For the Sociology Master's, these are the core of the program, the seminars where the master's students study and discuss sociological issues. Sociology 802 is a seminar where classical and contemporary sociological theories are examined in detail. Sociology 804 is a seminar where methodological issues related to sociological research are examined in detail. Each of these courses is taught once a year.

C. Other Regular Graduate Courses. In addition to theory and methods courses, the graduate program of Sociology and Social Studies offers students the possibility of taking courses in four areas of concentration in which faculty members in the Department have particular expertise: environment and development; social justice; knowledge, science and technology; and political economy. Since the Department has limited resources, it is not in a position to offer all listed courses on a regular basis. The Department, however, aims to offer at least one graduate course from these streams as a regular class or seminar each semester. Each year the Department will announce which course(s) is/are to be offered in the subsequent year. Master's students are strongly encouraged to take this/these course(s) as part of their program.

D. Reading Classes and Upgraded Undergraduate Courses. Given the limited resources of the Department, some graduate courses can only be offered as directed reading classes or as integrated courses (senior undergraduate and graduate courses offered jointly). When working out a graduate program, students may be requested to take one or more of these types of classes as part of their program. Alternatively, students may have an interest in a particular topic and request a faculty member to offer a directed reading course. Students should not necessarily expect faculty members to agree. Given the time commitments that such a course involves, a faculty member may not find it possible.

E. Undergraduate and Other Courses. From time to time, students may wish to take an extra course (beyond the fifteen required credit hours) or may be required to take an extra course as part of their program. These may be undergraduate courses in areas where the student's background needs upgrading, or they may be extra courses in which the student has a special interest.

F. Courses in Other Disciplines. Students in Sociology may, and in Social Studies must, take graduate courses in other disciplines as a required part of their program. This is particularly encouraged in cases where the student's research spans several disciplines. Students in Sociology may take courses in other disciplines where this has been approved as part of the Master's Course Outline.

VIII. Thesis

A. General procedures

The Master's thesis is a major part of the Master's program, since the thesis is the primary research project in the program and the credit hours for the thesis constitute one-half of the total credit hours in the program. The topic of the thesis may guide the selection of courses, supervisor, and the structure of the student's program. For many students, the Master's thesis is a summation of their work in Sociology or Social Studies, and will be used to define an area of lifelong interest and expertise.

The Department expects that each student will identify a topic area for the thesis early in the graduate program, preferably in the first or second semester. The student is expected to do this in coordination with the initial advisor so that the Master's program can be successfully structured. The selection of a thesis topic is associated with the selection of a thesis supervisor or co-supervisors, and the topic is further defined as the student consults with the supervisor. It is expected that the supervisor will be a faculty member with expertise or ability in the student's thesis research area.

Students cannot expect to find a supervisor for any possible topic. Rather, the student should be guided by the interests and expertise of the faculty members in the Department when selecting a thesis topic. Sometimes a faculty member is conducting a research project and recommends that the student select a thesis topic in this area. At other times, the student identifies a research area and obtains the agreement of a faculty member to supervise the thesis. In some circumstances, two faculty members may be co-supervisors of the thesis.

Each student will have a thesis committee of three persons – the thesis supervisor and two other faculty members. In the case of a Sociology program, this committee is usually composed of three department members, although one or more members may be from outside the Department.

In the case of a Social Studies program, the committee is normally expected to have at least one member from another department or faculty. In a Social Studies Master's program, the supervisor or one of the co-supervisors must be a member of the Department of Sociology and Social Studies.

The members of the thesis committee are to be selected on the basis of their expertise, interest, and availability. For example, a thesis dealing with farm women's organizations might have faculty members with expertise in the areas of rural sociology, feminism, and history as supervisors.

The student and his or her supervisor should carefully consider the range of expertise of all Department faculty members when constructing the thesis committee, to ensure that the committee is the most knowledgeable possible. The Graduate Program Committee is to be informed of the membership of the thesis committee and must approve that membership.

The second and third thesis committee members should be selected early in the planning or writing stages of the thesis. While the supervisor or co-supervisors are primarily responsible for ensuring that the thesis is of high quality, the other committee members are expected to contribute their knowledge and expertise to the student as the thesis is being written. The role of the other committee members is not merely that of a rubber stamp, but committee members should have the opportunity to participate in all stages of development and writing of the thesis.

The first stage in writing a thesis is to present a thesis proposal (see section B). Following this, and considering the comments of the supervisor and committee members on the thesis proposal, the student should begin the research and writing of the thesis. As the thesis is written, the student should give sections of the initial draft to the supervisor and other thesis committee members regularly. It is the responsibility of the supervisor and thesis committee members to provide comments and suggestions to the student promptly. Comments from the supervisor and thesis committee members should be constructive, pointing out any weaknesses in the argument, suggesting areas where there are gaps in the research and solutions to these, and commenting on the style and organization of the thesis. The student should welcome the comments and corrections suggested by the committee members, consider them carefully, and revise the thesis in a way that addresses the comments. The student should remember that there might have to be several drafts of the thesis before it is considered acceptable by the members of the thesis committee.

Once all three members of the thesis committee consider the thesis completed, the student at an oral defense can present the thesis. See Department of Graduate Studies and Research regulations concerning the oral defense of the thesis.

http://www.uregina.ca/gradstudies/main/theses_procedures.shtml

B. Thesis proposal

The student's thesis proposal is the first stage in the construction of a thesis. The thesis proposal (or work leading up to it) is to be presented at the Department seminar (Sociology 800). In any case, the thesis proposal should be reviewed and judged to be satisfactory by the student's thesis committee. A thesis proposal should be a short paper of between five and ten pages that outlines the topic and argument of the thesis. It should provide a clear statement of the thesis topic, or of the issue to be investigated, along with a summary of the argument that the student will make in the thesis. In the Department, we sometimes refer to this as "the thesis of the thesis." The student should be able to explain in a few paragraphs—perhaps a page or so—the essential points that he or she will demonstrate in the thesis.

The proposal should include a short review of the relevant literature and set the topic of the thesis within a theoretical or analytical framework. The proposal might indicate how the topic relates to what others have done in this field, how the student might address issues differently than others, or state the hypotheses the student plans to investigate in the thesis. This section need not be as complete as in the thesis itself, because the literature review may not be complete at this stage, and the thesis research may not yet have begun. A thesis proposal should summarize the research methods to be used. If the thesis is entirely theoretical, then the structure of the argument should be the focus of the proposal. A thesis proposal should also have a list of chapters, a short summary of what is to be examined in each chapter, and the anticipated number of pages in each chapter.

The thesis proposal should be relatively short and succinct, outlining the student's research and writing plans. The thesis proposal is only a plan, and while it provides a general outline, there will be undoubtedly many details to complete and modifications of the argument as the research is being conducted. As the thesis is written, it may be necessary to complete several drafts, following advice of the supervisor and thesis committee. As a result, the completed thesis may be quite different from the proposal.

C. Structure of thesis

The student should aim at writing a thesis that is no more than about 100 pages. Tables, supplementary material, and bibliography or references could be in addition to this. Many Master's theses exceed this in length, but it is best to aim at 90 to 100 pages. Each student should make sure they consult the current rules of Graduate Studies and Research to ensure that the final draft of the thesis conforms to the format required. Students are encouraged to examine already-completed theses in the Departmental office or the University Library. These give an idea of the way other students have approached and organized their research and writing.

While there is great variation in how a thesis is structured, there are several common elements. Among the common elements of any thesis are the following:

- **Acknowledgements** – committee members and others who contributed; any financial support provided during graduate program should be mentioned.
- **Table of contents** – list of chapters, tables, figures, appendices.
- **Introduction** – overview of argument. The initial draft of this might be similar to, or a revised version of the thesis proposal. Once the remaining parts of the thesis have been completed, the introduction should be rewritten in a manner consistent with the final draft of the thesis.
- **Review of literature.** This should be relatively short and to the point, but could represent the result of much time spent reading and considering what others have written. An initial draft of the issues raised in the relevant literature may be an important aspect of focusing the research topic. But remember that the supervisor and committee members have likely read much of this material themselves, so the final draft should be a succinct summary of the literature. The literature review should focus on key issues raised by other writers; summarize similarities and differences in their approach, and present hypotheses, claims, or questions that emerge from their analyses.
- **Thesis of the thesis** – this is the key argument, thesis, or set of hypotheses and claims to be addressed in the thesis. A Master's thesis should have an argument to present or a set of hypotheses that are examined. That is, the thesis should not just be an amalgamation of literature review, theoretical and methodological approaches, and research results. Rather, these should be organized around a claim or set of claims, focusing on prior arguments and claims, pointing in a particular direction, and leading to a conclusion. While a Master's thesis does not need to be path breaking in terms of

providing dramatic and original new research findings, it should bring evidence to bear on a particular set of claims and should be set within a theoretical or analytical framework.

- **Theoretical or analytical approach** – this is the framework within which the research findings and analysis are set. Each thesis needs a theoretical or analytical framework, and it may take each student considerable time to construct a theoretical or analytical approach, and be able to become familiar with the approach and master it. But remember that the supervisor and committee are likely familiar with this framework, so the final draft of the theoretical section of a thesis is best kept relatively short.

- **Methodological approach** – discussion of methodological issues and approach. This might be of considerable length in the case of applied research, relatively short in the case of an historical analysis, and minimal in the case of a more theoretical thesis.

- **Presentation and analysis of research findings.** This is the core of the thesis, and likely the most interesting section for others to read in that this is where new findings are presented. This is where the student presents the research and analyses the research findings. These should be organized around the theoretical or analytical framework adopted, addressing the hypotheses or claims of the thesis, constructing the argument the student is presenting, and pointing toward the conclusions to be drawn. As a result, this may constitute the majority of pages and chapters of the thesis.

- **Conclusions.** A short summary of the findings, how the research findings and analysis relate to the “thesis of the thesis,” and what practical or applied social implications emerge from the research. Speculations about broader implications and issues can also form part of the conclusion, but where these have not been researched, they should be addressed as informed speculations.

- **Bibliography, references, appendices.**

The above list should not be considered a chapter list; since there are many ways these elements can be organized. But a thesis is expected to deal with each of these items.

XI. Calendar Description:

M.A. in Sociology & Social Studies (Thesis-based)

Department Description

The department has particular strengths in the following general areas: political economy; Marxist and critical theory; political sociology; sociology of environment, development and sustainability; social justice; sociology of knowledge, science and technology; social science methodology and quantitative social research techniques; Canadian studies; social history; gender and women's studies; and rural sociology. As well, the department maintains a commitment to a strong interdisciplinary social science program, which can draw on the resources of other department and academic areas.

The department offers a graduate program leading to the M.A. degree in Sociology or in Social Studies. Successful applicants for entrance to the Master's program will be advised and supervised in their work by a committee of faculty.

M.A. Program in Sociology

Successful candidates for admission may pursue the M.A. degree in Sociology if they have a B.A. Honours degree or equivalent in Sociology.

M.A. Program in Social Studies

The M.A. program in Social Studies is an interdisciplinary program that provides the candidate with the opportunity to develop a program bridging two or three social science disciplines. Students with a variety of social science backgrounds may be eligible for this program. Students interested in this program should write to the Head of the department.

M.A. Program Description

In addition to theory and methods courses, the graduate program of Sociology and Social Studies offers students the possibility of taking courses in three areas of concentration: environment and development, social justice, and knowledge, science and technology. Students will be allowed to mix and match, or follow just one stream according to their interests and goals.

All M.A. candidates in Sociology and Social Studies are required to take 4 three credit hour courses and to take SOC 800 twice. For M.A. candidates in Sociology, two of these courses must be SOC 802 and SOC 804. The balance of the program consists of at least 18 credit hours of thesis research.

MA (Sociology) - Thesis Based

SOC 802	3 credit hours
SOC 804	3 credit hours
2 SOC 8XX or approved 8XX approved social sciences	6 credit hours
SOC/SOST 800 (Seminar)	0 credit hours
SOC/SOST 800 (Seminar)	0 credit hours
SOC 901 (Thesis Research)	<u>18 credit hours</u>
Total	30 credit hours

MA (Social Studies) - Thesis Based

Any 4 8XX approved social science	12 credit hours
SOC/SOST 800 (Seminar)	0 credit hours
SOC/SOST 800 (Seminar)	0 credit hours
SOST 901 (Thesis Research)	<u>18 credit hours</u>
Total	30 credit hours

Course Descriptions

SOC 800 Graduate Seminar

A weekly seminar devoted to discussion of special issues in Sociology, reports of research projects, and the presentation of papers by students and faculty. Students are expected to register in the graduate seminar in two (fall and winter) semesters.

SOC 802 Advanced Sociological Theory I (3) (Can be offered with SOC 480)

An advanced theory course with special consideration given to modern sociological theory.

SOC 803 Advanced Sociological Theory II (3)

An advanced theory course with special consideration given to classical sociological theory.

SOC 804 Advanced Research Methods I (3) (Can be offered with SOC 404)

An advanced research methods course with special focus on controversies in social science methodology.

SOC 805 Advanced Research Methods II (3)

Research design and the application of statistical techniques in social science research.

SOC 806 Advanced Studies in Canadian Social Theory (3)

An examination of Canadian contributions to the development of sociological theory.

SOC 808 Seminar on Class and Political Economy (3)

Development of and changes in the class structure of Canadian society and relations between class, class conflict and socio-economic growth, development and depression.

SOC 830 Seminar on Development and the Environment (3)

This seminar investigates relationships between environmental issues and development processes. Drawing upon theories such as political ecology, discourse analysis and eco-feminism, it provides a foundation for discussions of social, political and economic factors in environmental change and conflict. Issues explored may include water, agriculture, common property, and climate change.

SOC 831 Seminar on Development and Underdevelopment (3)

This seminar provides a critical examination of theory and case studies of development and underdevelopment throughout the world. A comparative, historical perspective will be emphasized. Topics may include modernization/neo-liberalism, dependent development, world systems theory, the developmental state, global commodity chains, globalization, development discourses, gender and development, culture, and new social movements.

SOC 840 Seminar on Knowledge, Science, and Technology (3)

This seminar discusses works of major figures in the sociology of knowledge, science, and technology. Issues covered will include the nature of scientific work, the organization of science, drawing boundaries between science and non-science, gender and science, social relations of technology, and the epistemological and political authority of science.

SOC 841 Sociological Issues in Knowledge Production (3)

This course examines issues in the production, transmission, and use of knowledge. Topics may include debates in the sociology of knowledge, the evolution of knowledge institutions and/or knowledge work, case studies of knowledge production, and the implications of various regimes governing knowledge production and dissemination and their alternatives.

SOC 850 Social Justice Issues in Gender, Race and Ethnic Relations (3)

This course analyses social justice issues in gender, race and ethnicity. It provides an advanced perspective on such topics as construction of difference, discrimination, racialization, assimilation and the interplay of gender, ethnicity, race, and other social factors.

SOC 851 Social Justice Issues in Crime, Deviance, and Normalization (3)

This course examines explanation, theory construction, measurement procedures, and techniques for data collection and analysis within the sociology of crime and deviance.

SOC 880AA-ZZ Selected Topics in Sociology

Selected topics in sociology to be offered as required.

SOC 890AA-ZZ Directed Readings (Variable credit 1-3)

Directed readings in selected topics.

SOC 901 Research (Variable credit 1-15)

Thesis research.

SOST 800 Graduate Seminar

A weekly seminar devoted to discussion of special issues in Sociology/Social Studies, reports of research projects, and the presentation of papers by students and faculty. Students are expected to register in the graduate seminar in two (fall and winter) semesters.

SOST 801 Interdisciplinary Issues in the Social Sciences

A framework for interdisciplinary studies in the social sciences, examining the roles of complexity, uncertainty, and change in areas of social reality not normally covered by established disciplines. An emphasis on conceptual and methodological integration, developing alternative forms of conceptualization, constructing interdisciplinary research questions, and devising unique research strategies.

SOST 811 Social Research Projects (Variable credit 1-3)

A research project to be supervised by faculty. The project could involve research within the University or be done in cooperation with government agencies or other groups outside the University.

SOST 880AA-ZZ Selected Topics in Social Studies

Selected topics in social studies to be offered as required.

SOST 890AA-ZZ Directed Readings (Variable credit 1-3)

Directed readings in selected topics with an interdisciplinary focus.

SOST 901 Research (Variable credit 1-15)

Thesis research

Summary of Graduate Curriculum in Sociology and Social Studies

SOC 800 Graduate Seminar (Fall and Winter Semesters)
SOC 802 Advanced Sociological Theory I
SOC 803 Advanced Sociological Theory II
SOC 804 Advanced Research Methods I
SOC 805 Advanced Research Methods II

M.A. (Social Studies) - Course Based

This program requires the completion of 30 credit hours in courses, including 9 hours of required core courses. The remaining courses (21 hours) are selected from two or more of the social sciences, or approved courses in graduate programs other than the social sciences. A faculty advisor is assigned to advise the student in developing a program of courses. The proposed program will be submitted to the Department's Graduate Program Committee for approval.

SOST 801 Interdisciplinary Issues in the Social Sciences	3 credit hours
One 8XX social science theory course (list below)	3 credit hours
One 8XX social science methods course (list below)	3 credit hours
SOC/SOST 800 (Graduate Seminar) Fall semester	0 credit hours
SOC/SOST 800 (Graduate Seminar) Winter semester	0 credit hours
7 - 8XX social sciences or other approved courses	21 credit hours
Total	30 credit hours

Social Science Theory Courses:

ANTH 808, ECON 802, GEOG 822, GEOG 834, HIST 800, INDG 800, JS 801, PSCI 812, PSCI 813, PSCI 814, PSYC 800, PSYC 820, RLST 802, SOPT 800, SOPT 801, SOC 802, SOC 803, SOC 806, WGST 800

Social Science Methods Courses:

ANTH 853, ECON 830, GEOG 805, HIST 900, PSYC 801, PSYC 802, RLST 810, SOC 804, SOC 805

In addition to selecting courses from the social sciences, the following courses from other graduate programs are acceptable. Request to substitute any of these courses in the core requirements must be approved by the student's Program Advisor, the Graduate Program Coordinator, and the FGSR.

ED 800, ED 801, ED 805, ED 808, ED 810 (cross-listed with EAHR 850), ED 815, ED 816, EADM 815, EADM 817, JSGS 806, JSGS 822, KHS 801, KHS 802, KHS 803, PLST 801, PLST 810, PLST 820, SW 810, SW 820, SW 831

Reading Courses: A maximum of five reading courses are permitted. Each of these must be approved by the student's Program Advisor and the instructor of the course. Reading courses will only be approved when a course can be made that such courses are of key importance to the student's program.

Hybrid Courses: Students are reminded that if they received credit for a hybrid course (a combined senior undergraduate and graduate course) during their undergraduate programs, they may not take the course again for credit at the graduate level.

Additional courses approved by Graduate Committee in 2015

- EAHR 870 International & Transnational Perspectives in Adult Learning
- ED 823 Introduction to Post-colonial Theories
- GEOG 831 Climate Change Impacts, Adaptation, and Vulnerability
- JSGS 803 Quantitative Methods
- JSGS 817 Health Policy
- JSGS 835 Health Law and Policy
- JSGS 863 Aboriginal Peoples and Public Policy
- JSGS 864 Social Policy: Interdisciplinary Perspectives
- JSGS 867 Advanced Policy Analysis
- PLST 800 Research Design in Police Studies
- PSY 803 Psychological Measurement
- SW 880 Advanced Research Methods
- SW 881 Qualitative and Applied Research Methods
- SW 840AI Social Work and the Environment: Theory and Practice
- WGST 801 Advanced Research Methods

X. Faculty Members and Fields of Specialty

BIEZENSKI, R. BA (Hons) (Liverpool), MA (Memorial), PhD (Toronto); *Instructor*

Analog theory and analog sociology; sociological theory

CHOW, H. BA (Hons), MA, PhD (Toronto), Grad Cert BS (Ontario Theological Seminary), Dip CPC (Institute of Counselling, UK); *Professor & Graduate Program Co-ordinator*

Criminology and criminal justice; ethnic studies; the sociology of education; the sociology of religion; social gerontology; survey research methods

CIUPA, K. BA (Hons) (Brock), MA (York), JD (Windsor), PhD (Queen Mary U. of London); *Assistant Professor*

Political economy; development; extractive industries; Latin America; environment; international law; social movements; indigenous rights

FLETCHER, A. BA, PhD (Regina), MA (York); *Associate Professor*

Gender; sociology of disaster; environment; climate change; agriculture; rural communities; qualitative research methods; critical realism

HANSON, C. B Ed (Saskatchewan), MAEd (St. Francis Xavier), PhD (British Columbia); *Professor*

Gender, feminism and intersectionality; social movements; indigenous rights; international development; community-and arts-based research; participatory methodologies

HURLBERT, M. BAdm (Regina), LLB, LLM (Osgoode Hall, York University), PhD (Amsterdam); *Professor*

Cross-appointed to Department of Justice Studies

Critical legal studies – the study of law as a social structure; environmental justice; climate change and water; Aboriginal justice

JAFFE, J. AB (Hons) (Ohio), MS, PhD (Cornell); *Professor*

Sociology of development and underdevelopment; sociology of the environment; sustainable/alternative development; gender; farming systems research; rural household studies; social ecology; peasant economics; agrarian social structure; Haiti; Caribbean; Costa Rica; Chile; rural Saskatchewan

JURDI, R. BA, MS (American U. of Beirut), PhD (Western Ontario); *Associate Professor & Head*
population health; health information, statistics & survey; at risk & vulnerable
populations; risk, causation, & prevention; immigration & settlement; postsecondary
students' experiences and outcomes

MAGNAN, A. BSc (Saskatchewan), MA (Regina), PhD (Toronto); *Associate Professor*
Political economy; Sociology of agriculture and food; globalization; social
movements; sociology of the environment; sociological theory

POLSTER, C. BA (Queen's), MA, PhD (York); *Professor*
Sociology of education - particularly higher education; the sociology of knowledge;
social policy; and women's issues

PROFESSOR EMERITI

CONWAY, J. BA (Hons), MA (Saskatchewan), PhD (Simon Fraser)

DIAZ, H.P., BA (Chile), MA, PhD (York)

GINGRICH, P.A., BA (Western Ontario), MA (Toronto)

HAYFORD, A.M., BA (Barnard College), MA, PhD (Michigan)

KNUTTILA, M., BA, MA (Regina), PhD (Toronto)

STIRLING, R.M., BSA (Saskatchewan), MA (Alberta), PhD (Indiana)

XI. Past Masters Students and Thesis Titles

All past Sociology and Social Studies MA students and their thesis titles are listed at:
<http://www.uregina.ca/gradstudies/convocated-graduate-students.html>

XII. Financial Assistance

Faculty of Graduate Studies and Research. Each year the department is apportioned a number of Graduate Teaching Assistantships, Graduate Scholarships, and Research Awards. Graduate students are urged to apply for these each year. The applications are submitted directly to the department on forms provided by the faculty.

<http://www.uregina.ca/gradstudies/scholarships/fgsr-funding.html>

FGSR Funding/Special Awards

- [FGSR - Aboriginal Graduate Awards Program](#)
- [FGSR - Graduate Student Travel Award](#)
- [FGSR - Graduate Studies Research Fellowship \(GRF\) \(by nomination only\)](#)
- [FGSR - Graduate Studies Scholarship \(GSS\)](#)
- [FGSR - Graduate Teaching Assistantship \(GTA\)](#)
- [FGSR - Graduate Teaching Fellowship \(GTF\)](#)
- [FGSR - Saskatchewan Innovation and Opportunity Graduate Scholarship](#)
- [FGSR - Saskatchewan Innovation Entrance Scholarship \(by nomination only\)](#)
- [FGSR - Tri-Council Enhancements](#)
- [Governor General's Academic Gold Medal \(Convocation Award - Spring\)](#)
- [President's Distinguished Graduate Student Award \(Convocation Award - Fall\)](#)

Doctoral-level Rates of Pay

	Total Salary
Graduate Scholarships **	
Teaching Assistantships* (Effective January 2020)	\$2,662.74
Teaching Fellowships* (Effective January 2020)	\$6,842.04

Master-level Rates of Pay

	Total Salary
Graduate Scholarships **	
Teaching Assistantships* (Effective January 2020)	\$2,538.12
Teaching Fellowships* (Effective January 2020)	\$6,842.04

* Assistantships and fellowships are paid according to the CUPE 2419 (Academic Assistants) collective agreement and students awarded these positions will pay union dues. The figures given include holiday pay. Please know the University pays out on bi-weekly schedule.

**** To be determined by the Department based on allocation of funds from FGSR
Departmental Student Assistance Budget**

The department has base budget funding from the Faculty of Arts for teaching assistants. These funds are used to hire seminar leaders and markers in the undergraduate program, with priority given to the large introductory sections and the core classes in statistics and methodology. High enrolment 200 level classes also receive support if there are sufficient funds. These funds are granted on a priority basis to active graduate students who are eligible to receive the equivalent of 2 seminars per during each of the fall and winter semesters. After graduate students have been awarded funding, the balance is apportioned to Honours and senior undergraduate students. These jobs are posted each semester on the department's bulletin board with a closing date for applications.

Research Grants – up to \$700

- **graduate students in the active research phase of their Sociology or Social Studies program (including PhD dissertations, MA theses, or research practicum courses) may apply for a research grant**
- **students are eligible to apply for only one grant per project**
- **students who have received no previous grant will be given preference over those who have**

Procedures:

- **a written application must be submitted to the Department Chair, outlining the research to be supported and detailing the anticipated expenses**
- **a letter of support from the supervising faculty member must be submitted**
- **all research plans must have received approval from the Ethics Review Committee, when applicable**
- **recipients must submit a report upon completion of the project outlining the use of the funds and providing receipts documenting expenditures**
- **no grant may exceed \$700**
- **the committee has the discretion to determine the size of the grant in order to ensure fairness in the distribution of limited funding**

Travel Awards – up to \$700

- graduate students may apply for an award to support travel related to the student's program of study
- students are normally eligible to apply for one travel award in each academic year
- awards will be granted based on the availability of funds, hence students who have received no previous award will be given preference over those who have

Procedures:

- a written application must be submitted to the Department Chair outlining the purpose of the proposed travel and its relationship to the student's program
- a letter of support from the supervising faculty member must be submitted
- recipients must submit a Travel Expense Claim form upon completion of the travel outlining details of the expenditures and, where applicable, submitting receipts
- no award may exceed \$700
- normally one award per student per academic year will be approved (exceptions can be made at the discretion of the committee)
- the committee has the discretion to determine the size of the award in order to ensure fairness in the distribution of limited funding

Entrance Scholarship \$2,000

The Department of Sociology and Social Studies will normally award up to three \$2,000 entrance scholarships each academic year to the most promising students entering the program, subject to the availability of funding.

Scholarship for Continuing Students \$2,000

The Department of Sociology and Social Studies will normally offer thesis-based students registered in Maintenance of Candidacy a maximum of three \$2,000 scholarships, subject to the availability of funding.

Note: All financial assistance – both that from the Faculty of Graduate Studies and from the department – is awarded in accordance with provisions of the Collective Agreement between CUPE 2419 and the University of Regina.

For additional sources of funding, students may check:
www.uregina.ca/gradstudies/forms/index.shtml.

XIII. Departmental Resources

Library

The University of Regina Library <http://www.uregina.ca/library/index.html#page=page-1> has an ever-expanding list of resources, databases, and capabilities. In particular, the electronic capacities of the library are increasing almost daily. The library subscribes to numerous electronic databases of social science research resources, as well as provides access to a variety of bibliographic and abstracting indexes, such as “Sociological Abstracts.” It is important to keep up-to-date with the possibilities for research in order to optimize the potential contribution the library can make to learning and research. Reference staff answer questions of an informational and in-depth nature in person at the Information Desk on the main floor of the Archer Library, by phone (585-4134), fax (585-4493) and e-mail. One-on-one consultations with librarians are also available by appointment. The subject liaison librarian for information on library collections and support for Sociology and Social Studies is Robert Thomas.

E-mail: Robert.Thomas@uregina.ca

Phone: 306.585.4398

Fax: 306.585.4493

Computer Labs (Public Labs and Printing)

For a complete listing of computer labs, their hours, and software capabilities, see:
<http://www.uregina.ca/is/student/public-labs/>

Information Service

Information Services provides computing, audio-visual, and printing services to the University of Regina.

<http://www.uregina.ca/is/>

XIV. Graduate Studies Regulations

Graduate Studies and Research Academic Calendar.

An updated copy of the Graduate Studies Calendar may be found at:
<http://www.uregina.ca/gradstudies/index.html>

Ethics. All research involving human subjects is subject to review and clearance by the Ethics Review Board before proceeding. To understand the process and access the relevant forms, go to: <http://www.uregina.ca/research/REB/main.shtml>

Graduate Student Rights and Responsibilities. The Graduate Students' Association has developed a document on the Rights and Responsibilities of Graduate Students. The policy has been approved by Executive of Council. The Policy is available at: <http://www.uregina.ca/gradstudies/grad-calendar/rights-and-responsibilities.html>

XV. Time Limit Requirements and Extension Application

Time Limit Requirements (Master's Program)

Students in thesis-based Master's degree programs are expected to work with reasonable continuity and complete their program in a timely manner but have up to five years to do so from the time of first registration. In non-thesis based master's degree programs, students have a maximum six years from first registration.

Extensions

Students must be registered in their program in order to request an extension. Time extensions may be granted for one semester or a period of up to four (4) months, and are granted to students who encounter problems while actively trying to finish their programs. The request is to be made at least two (2) months prior to the end of the semester. If no request is received, the student will be discontinued and must seek reinstatement to the program. A student who is seeking an extension must make the request through his/her supervisor. The supervisor will provide a letter defining his/her perspective on why the work was not completed in the allotted time.

Evidence of sufficient progress to warrant an extension, as well as a statement of what remains to be done, and the time-frame for its completion, are required in order for an extension to be granted. The letter and request are to be given to the Graduate Program Coordinator for comment, who will then send all materials to the Dean of FGSR for

consideration. Full time Graduate students who have received approval for an extension must register in GRST 996AA in each corresponding semester. Part time Graduate students who have received approval for an extension must register in GRST 996AB in each corresponding semester. Students must register in any formal remaining credit hours in addition to an extension course.

NOTE: STUDENTS ARE RESPONSIBLE FOR INITIATING AND COMPLETING EXTENSION REQUESTS PRIOR TO THE EXHAUSTION OF PREVIOUS TIME DEADLINES.

XVI. Program Changes and Program Transfer

<http://www.uregina.ca/gradstudies/grad-calendar/program-transfers.html>

Program Changes.

Requests for changes to an approved program of studies must be initiated by the student, supported by the student's supervisor, the Graduate Program Coordinator and the Associate Dean (Grad) of the faculty associated with the program. The student should complete the [Request for Change\(s\) to Approved Graduate Program](#). All program changes must be approved by the Dean of FGSR and in some instances vetted by an FGSR committee before they are considered official. If a student wishes to take a course outside of the approved course outline, it must be judged relevant to the student's research focus and not compromise the program in any way. The minimal percentage passing grade in all courses is 70% irrespective of whether the course is considered a formal course requirement.

Program Transfers.

Students are to complete a [Request for Graduate Transfer Within a Graduate Program Form](#). Requests for a transfer is to be initiated by the student, supported by the student's supervisor, the Graduate Program Coordinator, and the Associate Dean, (Grad) of the faculty associated with the program. Program transfers include:

- transfer of program route (thesis, project, practicum, course based, internship),
- transfer from one area of study to another within the same degree
- transfer in level (Master to Doctoral or vice versa)

Students seeking to change from one degree to another, or to a different academic unit, must submit a new application and pay the associated fee.

Transfer from a Thesis-based Master's Degree to a Ph.D. Program

Academic units are expected to reserve this option for only those students with demonstrated superior scholarly performance at the undergraduate and graduate levels. The request is to be vetted through the appropriate graduate committee in the academic unit and the recommendation is to be made by the Head (or Dean as appropriate). Only after an academic unit is satisfied that a prospective Ph.D. student has demonstrated a standard of excellence in study and research consistent with the requirements for the degree will a recommendation be forwarded to the Dean of FGSR.

The following conditions are to be met before a transfer request will be considered:

- 1. The request will normally be made between 12 and 24 months of full-time study towards a thesis-based master's degree. This is to allow sufficient time to evaluate both the course work and thesis research progress of the candidate.**
- 2. The student's academic performance in undergraduate and graduate classes must be of uniform first class (i.e. 80% or more) standing. It is normally expected that such candidates would be at the level sufficient to obtain, or be in very serious contention, for a national award, if eligible.**
- 3. The student's research progress during the period of the master's program under consideration must exceed normal expectations. Typically, a research report written by the student will be provided to support this claim.**
- 4. The proposed Ph.D. research topic should be a natural extension of, or be closely related to, the master's research topic. Therefore, it is expected that in most instances the already completed master's research will form part of the Ph.D. thesis.**
- 5. The request must receive the approval of the candidate's supervisor(s) as well as the Head of the academic unit.**

The completed recommendation for transfer will be sent to the Dean of FGSR for consideration. The proposed supervisory committee should be identified at the time the request is forwarded.

XVII. THESES & DISSERTATIONS COMPLETED 1999-2017

Web-link to theses completed 2018-2020: <https://ourspace.uregina.ca/handle/10294/2899>

2017

- Akram Kangourimollahajlou (M.A. in Social Studies) defended her thesis on August 31, 2017.
Thesis: The Depiction of Expert Women in Canadian Newspapers
Supervisor: Dr. Amber Fletcher
Committee Members: Dr. John Conway and Dr. James Warren
External Examiner: Dr. Claire Carter (Women's and Gender Studies)

2016

- Stephanie Fathi (M.A. in Social Studies) defended her thesis on June 10, 2016.
Thesis: The Caregiver Program: How Social Relations of Childcare are recognized to the Detriment of Canadian Women
Supervisor: Drs. Rozzet Jurdi and Amber Fletcher
Committee Member: Dr. John Conway
External Examiner: Dr. Iryna Khovrenkov (Johnson-Shoyama Graduate School of Public Policy)
- Marins Onyejike (M.A. in Sociology) defended his thesis on April 7, 2016
Thesis: Pesticide Utilization Practices, Exposure and Vulnerability of the Cocoa Farming Community of Ikwuano in Abia State, Nigeria
Supervisor: Dr. H. Diaz
Committee Member: Prof. M. Hurlbert and Dr. A. Magnan
External Examiner: Dr. K. Arbuthnott (Campion College)
- Brianna Verhelst (M.A. in Sociology) defended her thesis on March 16, 2016
Thesis: The Systemic Nature of Personal Debt: A Critical Realist Approach to Analyses and Solutions
Supervisor: Dr. C. Polster
Committee Members: Dr. A. Fletcher and Dr. A. Magnan
External Examiner: Dr. M. Sanchez (Social Work)

2015

- Jones-Delcorde, Brooke
Thesis Title: Mental Health Deterioration Among Western Canadian Post- Secondary Students: An Analysis of the Contextual Stressors and Obstacles to Utilizing Effective Coping Mechanisms
Master of Arts in Sociology (2015, Fall)
Supervisor(s): Dr. R. Jurdi

2014

- Brockett, Terra
Thesis Title: Embodied Social Capital: An Analysis of the Production of African-Canadian Women's Identity and Social Network Access
Master of Arts in Social Studies (2014, Spring)
Supervisor(s): Dr. J. Jaffe
- Gordon, Brian
Thesis Title: Brewing Identity: Fair Trade Coffee, Image, Style and Consumerism in Late Capitalism
Master of Arts in Social Studies (2014, Fall)
Supervisor(s): Dr. A. Magnan
- Yu, Julie
Thesis Title: Rural Chinese Restaurants: Current Perspectives on Family and Business Structure
Master of Arts in Sociology (2014, Spring)
Supervisor(s): Dr. H. Chow

2013

- Black, Lauren
Thesis Title: Rethinking Social Assistance Policy to Reflect Modern Socio- Economic Realities
Master of Arts in Sociology (2013, Spring)
Supervisor(s): Dr. H. P. Diaz
- Ozog, Cassandra
Thesis Title: Fear Rises from the Dead: A Sociological Analysis of Contemporary Zombie Films as Mirrors of Social Fears
Master of Arts in Sociology (2013, Spring)
Supervisor(s): Dr. J. F. Conway
- Rud, Helen
Thesis Title: Reconciling the Divide: An Analysis of Farmers' Land Strategies Within The Corporate-Environmental Food Regime
Master of Arts in Sociology (2013, Spring)
Supervisor(s): Dr. J. Jaffe

2012

- Rodenbush, Jenifer
Thesis Title: The Optimal Workplace: Organizational and Managerial Structures Supporting Individual Role Quality in the Workplace
Master of Arts in Sociology (2012, Spring)
Supervisor(s): Dr. R. Jurdi

2011

- Lane, Virginia Lee
Thesis Title: Social Determinants of Breastfeeding Among Costa Rican Women
Master of Arts in Social Studies (2011, Spring)
Supervisor(s): Dr. J. Jaffe
- McGovern, Katherine
Thesis Title: Disability and Employability: An Examination of Barriers to Employment Among Vulnerable Groups Who Have Participated in Employment Support and Training Programs in Regina, Saskatchewan
Master of Arts in Social Studies (2011, Spring)
Supervisor(s): Dr. H. P. Diaz

2010

- Ewart, Garry Ashworth
Thesis Title: The Saskatchewan Children's Dental Plan: Is it Time for Renewal?
Master of Arts in Social Studies (2010, Spring)
Supervisor(s): Dr. K. Knuttila
- Hage, H. Sam
Thesis Title: Academic Dishonesty in the Canadian Classroom: Examination of the Attitudes and Behaviours of a Sample of University Students in Regina
Master of Arts in Sociology (2010, Fall)
Supervisor(s): Dr. H. P. Chow
- Johnson, Dawn Annette
Thesis Title: Class Struggles and Worker Co-operatives in English Canada: 1844-1914
Master of Arts in Sociology (2010, Fall)
Supervisor(s): Dr. J. F. Conway

2009

- Alfaro, Laura Flor de María
Thesis Title: Practicing Resistance: Textiles, Tourist Markets and Gender Relations Among Maya Women
Master of Arts in Social Studies (2009, Spring)
Supervisor(s): Dr. K. Knuttila
- Dudar, Jeffery Scott
Thesis Title: Alone in a Crowd: An Ethnography of the Development and Maintenance of Community Among Bingo Players
Master of Arts in Sociology (2009, Fall)
Supervisor(s): Dr. A. M. Hayford

- **Gates, Trevor James**
Thesis Title: The Paradox of the Patriarchal Dividend
 Master of Arts in Sociology (2009, Fall)
 Supervisor(s): Dr. K. Knuttila

- **Skelding, Shelley Tannice**
Thesis Title: An Investigation into the Prevalence of Gender Ideologies in Canada, the Influence of these on Fertility Decision-Making and the Implications for Women Without Children
 Master of Arts in Sociology (2009, Fall)
 Supervisor(s): Dr. A. M. Hayford

2008

- **Bourassa, Carrie Ann**
Thesis Title: Destruction of the Métis Nation: Health Consequences
 Doctor of Philosophy in Social Studies (2008, Spring)
 Supervisor(s): Dr. R. M. Stirling, Dr. J. F. Conway

- **Evert, Lori Ann**
Thesis Title: Mother Knows Breast: An Examination of Breastfeeding Knowledge and Experiences
 Master of Arts in Sociology (2008, Fall)
 Supervisor(s): Dr. J. Jaffe

- **Hadden, Paol**
Thesis Title: Trash Talk: The Social Construction of the Cache Creek and Ashcroft Ranch Landfills
 Master of Arts in Sociology (2008, Spring)
 Supervisor(s): Dr. W. Stahl

- **Hippe, Janelle Diane**
Thesis Title: Choice or Regulation? An Exploration of the Importance of Social Difference to Women's Experiences of the Medicalization of Their Pregnancies
 Master of Arts in Sociology (2008, Spring)
 Supervisor: Dr. J. Jaffe

2007

- **Chloubova, Zdenka**
Thesis Title: Profiling Society: Worldmakers and Their Worlds
 Master of Arts in Sociology (2007, Spring)
 Supervisor(s): Dr. H. Chow, Dr. J. Jaffe

2006

- Knuttila, Erin Anne Lenore
Thesis Title: A Sociological Analysis of Some of the Impacts of Neo- Conservatism in Saskatchewan, 1980-1998
Master of Arts in Sociology (2006, Spring)
Supervisor(s): Dr. C. Polster, Dr. J. F. Conway
- Sellers, Cora Paige
Thesis Title: Evading Racism: Commissions and Inquiries into the Relationship Between the Criminal Justice System and Aboriginal Peoples in Canada
Master of Arts in Sociology (2006, Fall)
Supervisor(s): Dr. J. F. Conway

2005

- Neilsen, Leslie Ellen
Thesis Title: Who's Doing the Housework? Sex and Gender in Divisions of Labour in Dual-Earner Households
Master of Arts in Sociology (2005, Spring)
Supervisor(s): Dr. A. M. Hayford

2004

- Conway, Liam
Thesis Title: The 'Starlight' Tours: A Study of Racist Dynamics in a Prairie City
Master of Arts in Social Studies (2004, Fall)
Supervisor(s): Dr. H. P. Diaz, Dr. D. R. Miller
- Tomporowski, Barbara Anne
Thesis Title: Exploring Restorative Justice in Saskatchewan
Master of Arts in Social Studies (2004, Fall)
Supervisor(s): Dr. C. Polster
- Yamaguchi, Kenichi
Thesis Title: Poststructuralist Political Ecology: Cultural and Ecological Destruction and Modern Discourses in the Case of Colonization and Development of the Ainu and Hokkaido
Master of Arts in Social Studies (2004, Fall)
Supervisor(s): Dr. J. Jaffe

2003

- Asherbranner, Wesley A. (Andy)
Thesis Title: Toys as an Agent of Change: A Historical Survey of the Sears Christmas Wish Book 1940-2000
Master of Arts in Social Studies (2003, Spring)
Supervisor(s): Dr. W. Stahl
- Kilbride, Joel
Thesis Title: An Examination of the Need for Pay Equity Legislation in Saskatchewan
Master of Arts in Sociology (2003, Fall)
Supervisor(s): Dr. J. F. Conway

2002

- Ito, Takahiko
Thesis Title: The Impact of Employment Agencies on the Functioning of Labour Markets: The Case of Canada
Master of Arts in Sociology (2002, Spring)
Supervisor(s): Prof. P. A. Gingrich
- Magnan, André
Thesis Title: Social and Political Implications of Genetically Modified Crops in Saskatchewan
Master of Arts in Social Studies (2002, Fall)
Supervisor(s): Dr. R. M. Stirling

2001

- Clarke, Elizabeth A.
Thesis Title: Confronting Barriers to the Practice of Participation in International Development: A Call to Internal Revolution
Master of Arts in Social Studies (2001, Fall)
Supervisor(s): Dr. J. Jaffe
- Diamantopoulos, Dimitrios C.
Thesis Title: Legitimation, Hegemony and the Media: A Gramscian Account of the Rise of the New Right in the U.S. and Canada
Master of Arts in Social Studies (2001, Spring)
Supervisor(s): Dr. J. Conway
- Hildebrand, Denise
Thesis Title: Convergence: The Impact of Capital, Race, Ethnicity and Gender on Labour Migration in South Africa
Master of Arts in Social Studies (2001, Spring)
Supervisor(s): Dr. J. Jaffe

2000

- Gates, Robert
Thesis Title: Critical Theory, Neo-Conservatism and the Voluntary Unemployment Hypothesis: On the Discursive Practices of Ordinary Language as a Basis for Ideology-Critique
Master of Arts in Social Studies (2000, Spring)
Supervisor(s): Dr. M. Knuttila
- Malcolm, Edith
Thesis Title: SHIN: A Case Study into Privacy and Technology
Master of Arts in Social Studies (2000, Fall)
Supervisor(s): Dr. B. Stahl
- Stanford, Christina
Thesis Title: Saskatchewan ~ 1980s "Lest We Forget"
Master of Arts in Sociology (2000, Fall)
Supervisor(s): Dr. R. Stirling
- Valenzuela, Maria Eugenia
Thesis Title: Loosening the Nailed Hand: A Critical Analysis of the Pentecostal Movement in Mexico
Doctor of Philosophy in Sociology (2000, Fall)
Supervisor(s): Dr. J. Conway, Dr. R. Stirling

1999

- Gatin, Lauren
Thesis Title: Restructuring the Saskatchewan Wheat Pool
Master of Arts in Sociology (1999, Spring)
Supervisor(s): Dr. M. Knuttila
- Kouri, Denise
Thesis Title: Health Care Regionalization in Saskatchewan: An Exercise in Democracy
Master of Arts in Social Studies (1999, Fall)
Supervisor(s): Prof. P. Gingrich, Dr. J. Conway
- Lamb, Pamela Marie
Thesis Title: The View from Further Below: A Theoretical Perspective on the Real Status of Women in the Postmodern Era
Master of Arts in Social Studies (1999, Fall)
Supervisor(s): Dr. R. Stirling
- Pandya, Rupen
Thesis Title: Critique, Ethics and Discourse in an Age of Unreason
Master of Arts in Sociology (1999, Fall)
Supervisor(s): Dr. W. Stahl

- **Rounce, Andrea**
Thesis Title: Student Loan Programs in Saskatchewan, Alberta, and at the Federal Level: An Examination using the Neo-institutionalist Approach
Master of Arts in Social Studies (1999, Fall)
Supervisor(s): Dr. M. Knuttila

- **Yu, Zewei**
Thesis Title: Environment in China: A Challenge to Subsistence and Development
Master of Arts in Social Studies (1999, Spring)
Supervisor(s): Prof. P. Gingrich, Dr. G. Sperling

RIGHTS & RESPONSIBILITIES OF GRADUATE STUDENTS

<https://www.uregina.ca/gradstudies/current-students/Rights%20/index.html>

The Graduate Student's Association (GSA) has put together a section of the calendar about students' [rights and responsibilities](#).

- [Working with a Supervisor](#)
- [Intellectual Property Policy](#)
- [Conflict of Interest](#)
- [Academic Misconduct](#)
- [Appeals Guide for Students](#)
- [Travel and Fieldwork Safety](#)
- [Workers Compensation](#)
- [Student Accessibility](#)
- [Student Advocate](#)

PROPOSED CHANGES TO MA COURSE-BASED PROGRAM SELECTION OF COURSES FROM OTHER ACADEMIC UNITS

This motion was approved by the Research and Graduate Studies Committee at the meeting of 27 March 2018 and by Arts Faculty Council at the meeting of 16 May 2018.

Courses from other faculties, schools and programs

In addition to courses from the social sciences, courses in other faculties, schools and programs whose subject matter is significantly based on, or closely aligned to, the social sciences may be included in a student's program. The following faculties, schools and programs contain such courses: Education, Johnson Shoyama School of Public Policy, Journalism, Justice and Police Studies, Kinesiology and Health Studies, and Social Work. The selection and inclusion of such courses must be approved by the student's advisor and the Department's Graduate Program Committee.

Rationale

When the Department developed the course-based program in 2012 there were many small but strong graduate programs in the key areas on which the program depended, both in the social sciences and related faculties, schools and programs. Alas after years of increasing austerity this is less and less true. Due to a lack of faculty, many graduate programs have been forced to cut back on their offerings, some even had to temporarily abandon their programs altogether. As a result the pool of relevant courses for use in the course-based program has receded. Graduate course offerings have become unpredictable on a semester by semester basis. It has become difficult to engage in the meaningful long range planning. Hence the Department often does not learn what is on offer in other programs until the last minute, making it difficult to advise students for whom the courses might be relevant. Although the Department's view remains that the course-based program is sustainable in the present, and into the foreseeable future, there is a need for more flexibility.

The current calendar copy is no longer a realistic guide to prospective and present students. The core theory and methodology courses in the social sciences are less and less routinely and reliably offered. Other programs have been affected by many changes in courses, including cuts in old courses and the frequent creation of new courses. Hence any effort to freeze a list of acceptable courses into the calendar copy is futile. In these times of austerity many graduate programs must innovate as they find ways to use their declining faculty resources effectively to sustain an ability to offer their programs.

The Department believes the suggested changes to the calendar copy addresses these concerns.

GRADUATE CO-OPERATIVE EDUCATION

<https://www.uregina.ca/gradstudies/current-students/co-op.html>

At the master's level there are two ways that a student can participate in a co-operative education experience. The first way is to register in one of the co-operative education programs offered at the University of Regina. Alternately, some units offer Graduate Co-operative Education courses, outside of a co-operative education program. Students who complete either a Co-operative Education Program, or complete two approved Graduate co-op work term courses will have a **Co-operative Education Designation** added to their transcript.

The student's academic unit has to provide approval for the student to enroll in a co-operative education program or work term. You must be a full-time Master's student in good standing to be eligible to take a co-op work term. Academic units may have additional requirements for the students who are granted permission to take a graduate work term (these can be found in the course descriptions or with the academic unit).

Process for registering in a co-op course:

1. **Student Applies for Graduate Co-op.**
 - Student completes the "[Graduate Students Admission Application for Co-operative Education Work Term](#)" form.
 - This form is signed by the student's supervisor (if applicable) and the relevant academic administrator for the student's unit.
2. **Student works with Career Office to find a Work Placement**
 - Once the student has their application approved, they will work with their unit and the Career Education Office to find a placement.
3. **Approval of Work Term**
 - Once the student has an offer of employment, the Career Education Office informs the student's academic unit and the Faculty of Graduate Studies and Research of the offer.
 - The student registers for their unit's co-operative education course (ex. ARTS 601/602, SCI 601/602, etc).
4. **Student Goes on Work Term**
5. **Assigning the Final Grade**
 - When the student returns from their work term, the person who has signed the Approval of the Graduate Co-op Work Term form will be responsible for submitting a final grade for the student. Departments may require a report or a presentation.
6. **Co-operative Education Designation**
 - When the student applies to graduate, FGSR will check if the student has completed the courses required to earn a Co-operative Education Designation. If so, the student will receive a "Co-operative Education" designation which will appear on the student's parchment and transcript.

Notes

- The career office will help find placements for students enrolled in graduate co-operative education. The career office will attempt to find graduate co-operative education placements with either more responsibilities and obligations than an undergraduate co-operative education placement, or a research aspect that complements the student's graduate education. Obviously, the career office cannot promise research positions. Professors are encouraged to use their contacts to help in this process.
- Graduate students will follow the same work term requirements pertaining to undergraduate students, such as length of terms, suitability of work placements, and codes of conduct.
- International students should apply for a work visa two terms before they anticipate starting their first placement. The career office can provide students with a letter for CIC stating that their co-op course is essential for the student to earn the Co-operative Education Designation.

ARTS 601 – Graduate Co-op Work Term I

This is the first one semester co-op placement for graduate students in the Faculty of Arts. To register in this class a student must be in good standing and enrolled full-time in a Masters program in the Faculty of Arts. A student who completes both ARTS 601 and ARTS 602 will have the designation "Co-operative Education" added to their degree. A "Credit" grade requires both a satisfactory work-term report and a satisfactory employer's evaluation. 6 credit hours, Credit / No Credit.

Prerequisite: Completion of two graduate level courses in the student's graduate program, CGPA minimum of 75% and permission of the student's academic unit.

ARTS 602 – Graduate Co-op Work Term II

This is the second one semester co-op placement for graduate students in the Faculty of Arts. To register in this class a student must be in good standing and enrolled full-time in a Masters program in the Faculty of Arts. A student who completes both ARTS 601 and ARTS 602 will have the designation "Co-operative Education" added to their degree. A "Credit" grade requires both a satisfactory work-term report and a satisfactory employer's evaluation. 6 credit hours, Credit / No Credit.

Prerequisite: ARTS 601, CGPA of minimum 75%, and permission of the student's academic unit.

SCI 601 Graduate Co-op Work Term I

The first one semester co-op placement for graduate students in the Faculty of Science. To register, a student must be in good standing and enrolled in a Master's program in the Faculty of Science. Completion of both SCI 601 and SCI 602 leads to the designation "Co-operative Education" on the degree. A "credit" grade requires both a satisfactory work-term report and a satisfactory employer's evaluation.

Prerequisite: Set by the individual academic units.

SCI 602 Graduate Co-op Work Term II

The second one semester co-op placement for graduate students in the Faculty of Science. To register, a student must be in good standing and enrolled in a Master's program in the Faculty of Science. Completion of both SCI 601 and SCI 602 leads to the designation "Co-operative Education" on the degree. A "credit" grade requires both a satisfactory work-term report and a satisfactory employer's evaluation.

Prerequisite: Set by the individual academic units.
