LEVENE MBA WITH SPECIALIZATIONS

Courses are firmly focused on developing technical expertise, and tactical integration, with higher level strategy. The Levene MBA will help you see above and beyond small detail towards the big picture, and is ideal for students on a trajectory towards mid-career management.

MASTER OF BUSINESS ADMINISTRATION - ENGINEERING MANAGEMENT (MBA ENGINEERING MANAGEMENT)

Working within the context of engineering is a complex and demanding task. Ensuring these environments are managed properly is only part of the picture. With the MBA Engineering Management you will learn how to innovate and influence your workplace, taking an active role in ensuring that your team and organization are capable of being leaders in your industry. The MBA Engineering Management is designed to provide professionals working in engineering environments with core business skills to enable them to excel and lead as part of an executive team. Our MBA Engineering Management specialization provides students the fundamentals of business with a focus on technology intensive industries. Industry specific training is offered in project management, economics, business law, and risk management.
SEE THE WORLD BEFORE YOU CHANGE IT.

The World is Your Classroom.
Learning to lead in a global context is crucial for senior managers today. As a student in the MBA Engineering Management program, you are eligible to participate in our highly valued international study tour which will expand your horizons - giving you an extended world view. Recent Levene trips have included Finland, Estonia, and China. On your tour you will meet local leaders, tour businesses in multiple economic sectors, and participate in a consulting project with other MBA students from the Levene GSB and international host schools.
