November 2025

Dates to Remember

November 7th and 8th –
Engineering Competition

November 11th –
Remembrance Day.
University of Regina is closed

November 10-15th – Fall
break. NO classes; NO labs

November 13th – Fall
Convocation

November 17th – Final day
to withdraw from classes.
0% refund. Grade of “W”

November 21st – APEGS
– Industry Guests and
Student networking event

November 22nd – Vanier
Cup @ Mosaic Stadium

November 30th – Convocation
Application deadline IF you
are finishing your program
by December 22, 2025

November 2025

IMPORTANT DAYS

Remembrance Day

Did you know that Remembrance Day used to be called Armistice Day to commemorate the end of World War I.

Then in 1931, it changed to Remembrance Day to include those who served in other conflicts such as World War II and the Korean War.

The poppy is a symbol of Remembrance Day as they grew in the battlefields of Flanders during WWI.

Why November 11th? Remembrance Day is observed on November 11th at 11:00am, the time when WWI ended

Vanier Cup - November 22

For the FIRST TIME in its 60 year history, Regina, SK is hosting the [Vanier Cup](#). That's where the best 2 football teams (East and West) come together and challenge one another for the ultimate prize in U Sports football. Get your tickets!

November 2025

CONGRATULATIONS!

Congratulations to those students who are graduating this month! We are very proud of you! Completing an engineering degree takes a lot of time, perseverance, determination and hard work and lots of late nights studying! All the best to you in the next chapter of your life.

Dean's Medal and University Prize

Jaxon Fuchs (he/him) is graduating from Industrial Systems Engineering with Distinction having earned the highest UGPA of the fall 2025 graduating class with 82.88%. This is an exceptional accomplishment considering engineering's very demanding program and the fact that Jaxon played for the RAMS Football Team for 6 consecutive years as a defensive back. Jaxon began his academic career in the fall of 2019 with an Entrance Scholarship and continued to receive the Academic All Canadian Scholarship (2020, 2022, 2023, 2024), Academic Silver Scholarship (2021, 2023), Viterra Athletic Award in Engineering and Applied Science (2022) and many RAMS Athletic Awards and Varsity Sports Awards throughout his years on campus as a student and athlete.

Jaxon spent endless hours on and off the field committed to varsity football while still able to maintain a very impressive academic average in engineering. His leadership, dedication, focus and commitment all reflected in his athletic and academic accomplishments. In addition to academics and football Jaxon still managed the time to give back to the community by volunteering for Regina Minor Football and working full time each summer.

Jaxon will complete his Certificate in Administration Level II through the Centre of Continuing Education at the end of December. He plans to travel before settling into a full-time working position.

November 2025

DO YOU WANT TO WITHDRAW FROM A CLASS?

November 17th is the last day to withdraw from classes. If you are thinking about dropping a class, **always** see an academic advisor for schedule planning. What you are dropping may be a pre-req that is needed for upcoming semesters, so re-scheduling is important! Book an advising appointment [online](#).

DO YOU NEED TO GET INTO A CLASS BUT IT'S FULL?

It is so important to get on the WAITLIST! When we know how many students are trying to get into an engineering class, we can make further arrangements if necessary.

Get on the waitlist for non-engineering classes, too! It's so important!

Waitlists are:

- First come-first serve
- For lectures only; not labs. If your lecture is linked with a lab you can only get waitlisted for the lecture.
- Only available for specific courses

If you have a HOLD that prevents registration, you cannot register for the class, even if you have been notified of a waitlist opening. You will need to resolve holds before you are able to register.

When a seat becomes available, an email is sent to the first student on the waitlist at their Preferred Email Address (usually your University of Regina email). To check or update your preferred email, log into UR Self-Service under "Personal Information." You are encouraged to check your email regularly. You have the option to setup email forwarding if needed. Avoid Hotmail accounts due to potential technical issues." – Registrar's Office website

ISE STUDENTS!

ENIN 370 - Introduction to Mechatronics -this is a technical elective and is offered for the Winter 2026 term.

Description: Introduction to mechatronics; sensors and transducers, signal conditioning, mechanical and electrical actuation systems. Control of DC/servo motors using Pulse Width Modulation; system modeling, dynamic response of systems, closed-loop controllers, microcontrollers, digital logic, and programmable logic controllers. *** Prerequisite: ENEL 280 and ENEL 361. ***

Offered

Tuesday & Thursday - 8:30-9:45

Thursday – 11:30-2:15 (LAB)

Please check UR Self Service for details .

Note: ED 489 and ED 116.2 labs – Alarm will sound!

Do not prop open the door after 5:00pm as it will set off the security alarm and Protective Services will be notified.

PEER MENTORSHIP PROGRAM

The Engineering Peer Mentor Program offers the opportunity for new undergraduate engineering students to be paired with a senior undergraduate student. Peer Mentors volunteer to support Mentees in making a successful transition into university life by connecting them with on-campus events, services and resources that are available. Providing social support and practical advice as new students pursue their academic life on campus is the goal of all Mentors. Both Mentors and Mentees benefit from leadership and social support as they fully engage in university life and all that it has to offer.

November 2025

WHMIS

New students, exchange students and re-admitted students must complete “Undergrad Mandatory WHMIS” on UR Courses. Complete this soon, if you haven’t already done so, and download your certificate. Otherwise, there is a registration hold on your account and you will not be able to register for the next semester of classes. There is no need to email us, as we are automatically notified when you download your certificate. We will gladly remove the WHMIS hold within 1-2 days.

Capstone students are expected to renew WHMIS. All should already be enrolled on UR Courses, but please contact Engg.Safety@uregina.ca if this is missing from your account. (For ENIN 400, students are completing Chemical & Lab Safety training as part of the project start-ups. Students must complete the online portion of Chemical & Lab Safety prior to November 4, as the workshop component will be held that day during class time. Chemical & Lab Safety training includes WHMIS, so there is no need to renew WHMIS separately. This is for ENIN 400 students only).

MAJOR DECLARATION

Don’t forget.....You must have completed 8 of the 10 first-year classes including ENGG 100, ENGG 123, ENGG 140 and ENGL 100. Email engg.undergrad@uregina.ca if you have any questions. More information on declaring your major [here](#).

GRAD CHECKS

Upon completion of all program requirements, or final courses in progress, students are required to apply for graduation. [Apply to graduate](#) through UR Self-Service. Before you apply, check out the student's guide [here](#).

Janice Savoie does grad checks. Send her an email requesting a grad check, if you have any questions, email: Janice.Savoie@uregina.ca.

Completion of classes	Deadline for Application	Approval by Executive Council	Convocation Ceremony
December	November 30	February	Spring
April	January 31	May	Spring
Spring/Summer Term	July 31	September	Fall

16 MONTH INTERNSHIPS

Students who will complete Terms 1-7 by the end of April 2026 (prior to the start of the Spring/Summer term) are encouraged to apply for the 16 Month Internship Program. Applications will be accepted from November 4 – 22 through CareerConnect.

Check out the CESL website for more co-op and internship program information

If you have questions regarding your eligibility, please email Diana.Sharpe@uregina.ca.
