Other dates to know in February…

February 2 – 50% refund deadline

February 14 – VALENTINES DAY. Love your neighbor.

February 19 – Family Day – UR Closed

February 19-24 – Winter Break. No classes.

Remember….

Please make academic appointments with your Engineering Academic Advisor; *not* other Faculty Advisors *or* Student Success Centre Advisors.

Face-to-Face walk-in Academic Advising anytime! You can also make an appointment with us through our website. https://www.uregina.ca/engineering/students/advising.html

Full year registration is coming soon! Check your classes and start planning!

At the beginning of February students will have access to view the upcoming semester time schedules on UR Self-Service.   Watch out for that on UR Self-Service!

Registration will open **March 5th** for Spring/Summer 2024, Fall 2024 *and* Winter 2025.

Check your **time-tickets** for when you can register. Go to UR Self-Service-Registration-Check your Registration Status.

Full year registration will simplify registration, secure courses a full year ahead of time and will make your life a little easier when it comes to planning finances, work commitments, job schedules, athletics and extra-curricular activities and personal time.

Full year registration FAQ's can be found on the Registrar's Office website. Check it out!

https://www.uregina.ca/student/registrar/registration-withdrawal/full-year-registration-questions-and-answers.html

Dean's Honour List for Fall 2023

Students eligible for the Dean's Honour List must obtain an 85% Term GPA on at least 12 credit hours. Congratulations to all those who made this list in Fall 2023! We are proud of you! Engineering is a challenging program so good for you!

12 Month Internship

The Engineering Co-operative Internship Program is set to begin a new intake of students, with placements commencing in September 2024 for 12 months. We will be accepting applications from March 1st through March 24th, 2024. Applications for Fall 2024 Internship must be made by completing the application form in Career Connect. Afterwards, a coordinator will reach out to book an entrance meeting with you.

Eligibility: completion of or given credit for no less than 72 and no more than 102 credit hours towards a Systems Engineering degree, prior to going out on internship. Students are expected to have successfully completed academic semesters 1-7 of the Systems Engineering program before the internship placement.

If you would like to book an appointment with Diana Sharpe to discuss your eligibility or any questions you may have about the Co-operative Internship program, please do so online: http://www.uregina.ca/engineering/students/advising.html

The Mitchell Workshops are OPEN to STUDENTS

Student Shop

- Available to all Engineering students, currently open between the hours 1-4pm Monday to Friday. FOB access required. For FOB access, a 15 minute shop orientation training is required. Please contact the Mitchell Workshop staff at engg.workshop@uregina.ca to schedule your training.

3D Printing

- For 3D printing requests, please contact the Mitchell Workshop staff at engg.workshop@uregina.ca

Electronics & Instrumentation Shop and Machine Shop

- Mitchell Workshop staff will be available for walk in assistance Monday to Friday from 1:30-3:30pm. This assistance includes consultations on professional services offered, repair and/or build requests, and Student Shop guidance. Mitchell Workshop staff can also be contacted at engg.workshop@uregina.ca

Have a great Winter Break
