November 2025

Upcoming Deadlines

November 11th – Remembrance Day. University of Regina is closed

November 9-14th – Fall break. NO classes; NO labs

November 12th – Fall Convocation

November 16th – Final day to withdraw from classes. 0% refund. Grade of "W"

November 19th – Women Engineering Industry Mixer Event

November 20th – Internship applications close

November 30th – Graduation application deadline for students completing their program by December 22, 2026

Remembrance Day…

photo: www.narcity.com

Did you know that Remembrance Day used to be called Armistice Day to commemorate the end of World War I?

Then in 1931, it changed to Remembrance Day to include those who served in other conflicts such as World War II and the Korean War.

The poppy is a symbol of Remembrance Day as they grew in the battlefields of Flanders during WWI.

Why November 11th? Remembrance Day is observed on November 11th at 11:00am, the time when WWI ended.

Congratulations!

Congratulations to those students who are graduating on November 12th! We are very proud of you! Completing an engineering degree takes a lot of time, perseverance, determination and hard work and lots of late nights studying! All the best to you in the next chapter of your life.

Graduation Requirements

Upon completion of all program requirements (or final courses in progress), students are required to apply for graduation. Yes! You must apply to graduate!

Apply to graduate through UR Self-Service.

Check out this website for additional information. **Applying to Graduate**

Completion of classes	*Deadline for Application*	*Approval by Executive Council*	*Convocation Ceremony*
December	*November 30*	*February*	*Spring*
April	*January 31*	*May*	*Spring*
Spring/Summer session	*July 31*	*September*	*Fall*

---

16 Month Internship

Students who will complete Terms 1-7 by the end of April 2027 (prior to the start of the Spring/Summer term) are encouraged to apply for the 16-month Internship Program. Applications will be accepted from November 2 – 20 through **Career Connect**.

Check out the **CESL** website for more co-op and internship program information.

Course withdrawal
Thinking about withdrawing from a class?

November 16th is the last day to withdraw from classes. If you are thinking about dropping a class, ***always*** see an academic advisor for schedule planning. What you are dropping may be a pre-req that is needed for upcoming semesters, so future planning is important! **Book an advising appointment *online*.**

Waitlist Information

If a class is full, it is important to get on the **WAITLIST**. When we know how many students are trying to get into an engineering class, we can make further arrangements if necessary.

Get on the waitlist for non-engineering classes, too!

Waitlists are:

- ✓ First come-first serve
- ✓ For **lectures only**; **not labs**. If your lecture is linked with a lab, you can only get waitlisted for the lecture.
- ✓ Available for all engineering courses.

If you have a HOLD that prevents registration, you cannot register for the class, even if you have been notified of a waitlist opening. You will need to resolve holds before you are able to register.

When a seat becomes available, an email is sent to the first student on the waitlist at their Preferred Email Address (usually your University of Regina email). To check or update your preferred email, log into UR Self-Service under "Personal Information." You are encouraged to check your email regularly. You have the option to setup email forwarding if needed. Avoid Hotmail accounts due to potential technical issues**." – Registrar's Office website**

Writing Support, Tutoring Options Workshops

Computer Lab doors
ED 489 and ED 116.2 labs - Alarm will sound!

Do not prop open the door after 5:00pm as it will set off the security alarm and Protective Services will be notified.

Campus Protective Services

Do you have concerns about walking to your car, bus stop or dorm after a late-night class or study session? Campus Protective Services has a free **Walk Along** program for all students and staff. Protective Services will walk with you to and from these on-campus locations. Call their non-emergency number **306-585-4407** to make arrangements. Be prepared to give them your name, student ID number, and location.

Protective Services also has free **Lone Worker** program to enhance your personal safety while working or studying alone on campus. Give them a call at **306-585-4407**. Together, you will come up with a plan for them to call you or stop by your location to check on you. This is especially important if you're at a higher risk location like a laboratory but is a valuable service for all students in all locations.

At any time, if you are experiencing an active emergency, call **911** and Protective Services' Emergency number **306-585-4999**.

WHMIS Reminder

New students, exchange students and re-admitted students must complete "Undergrad Mandatory WHMIS" on UR Courses. Complete this soon, if you haven't already done so, **and download your certificate.** Otherwise, there is a registration hold on your account and you will not be able to register for the next semester of classes. There is no need to email us, as we are automatically notified when you download your certificate. We will gladly remove the WHMIS hold within 1-2 days.

Capstone students are expected to renew WHMIS. All should already be enrolled on UR Courses, but please contact Engg.Safety@uregina.ca if this is missing from your account. (For ENIN 400, students are completing Chemical & Lab Safety training as part of the project start-ups. Students must complete the online portion of Chemical & Lab Safety prior to November 4, as the workshop

component will be held that day during class time. Chemical & Lab Safety training *includes* WHMIS, so there is no need to renew WHMIS separately. This is for ENIN 400 students only).

Major Declaration

Don't forget…..You must have completed 8 of the 10 first-year classes including ENGG 100, ENGG 123, ENGG 140 and ENGL 100. ***Email*** ***engg.undergrad@uregina.ca*** if you have any questions.
More information on declaring your major **here**.

The Engineering General Office sells DRAFT PAPER. It's $6/pad. Cash only please.
