

**University of Regina Internal Application for L’Oreal Canada For Women in Science Research  
Excellence Fellowships**

The following application mirrors that provided for the external competition. The purpose of submitting this application and acquiring the needed 2 reference letters is so that you can be reviewed to receive the University of Regina’s letter of support for the award. By submitting this application you are not submitting to the award. However, the information entered into this application can be used to apply for the fellowship through the external portal. Please fill out information for all applicable boxes and pay attention to word limits where indicated.

Please list any locations you have studied outside of Canada.

Please list any awards you have held (at the undergraduate and graduate level), including the name of the award and your tenure.

Please list your research activities and/or publications, exhibitions, performances etc.

Please list your present occupation and previous appointments.

Please provide the name of your supervisor.

Please provide the title of your project.

Please provide the names of any collaborators or groups involved in your research.

Please provide details of any grants or other financial support for your project.

Please provide information about your past/current community service related to promoting STEM for women and girls. If you haven’t done any work, please list what you would plan to do in the community if you were offered the fellowship.

Have you ever interrupted your studies for a parental or medical leave?

Please note for the following sections refer to the review criteria available [here](#).

### **Summary of Research**

Please provide a summary of your research including the top ten references that form the basis of your project. (Limit 750 words).

### **Statement of Research/Plan of Study**

Provide a detailed description of your plan including goals, methodology, and significance to your career. (Limit 1000 words).

### **Impact of Research**

Indicate how your project will be significant to your field of research and any potential impact it may have in Canada or internationally. (Limit 500 words).
