

Empty Chemical Bottles to be Removed from Inventory

To keep chemical inventory as up to date as possible, please use **one** of the methods below **immediately** after a chemical container is empty and needs to be removed from inventory:

- 1 Enter information from the empty bottle into the [Barcode Removal from Chemical Inventory Form](#) or scan the QR code provided here

OR

- 2 Remove barcode sticker from bottle(s) and place in the chart below. If the barcode cannot be removed, write the barcode number in the space provided below.
 - i) Bring this sheet to **UR Stores** (Research and Innovation Centre 110)
 - ii) Email a picture of this sheet to health.safety@uregina.ca or upload a picture of the form below using the QR code or Barcode Removal from Chemical Inventory Form.

Barcode #	Chemical Name and/or CAS #
