

# Disposal Procedures for: Sharps & Broken Glass

## Broken Glass Pail

1. No liner is required.
2. This pail is to be used for broken glass that is lightly contaminated with biological and/or chemical materials. **DO NOT** use for intact glass or chemical jugs/bottles.
3. **ONLY** fill pail  $\frac{3}{4}$  full.
4. Ensure the lid is firmly secured to the pail prior to transporting.

## Yellow or Red Sharps Containers

1. These containers are used for needles, scalpels, razor blades, etc. (contaminated or non-contaminated)
2. As per instructions on the container, close the container prior to transporting.
3. **Only** fill container  $\frac{3}{4}$  full.
