Purpose

The information provided below offers guidance to students who test positive for COVID-19 or are experiencing COVID-19 like symptoms to prevent the spread of the virus.

Ill Student Immediate Response Procedures

General Procedure

- All students must be self-monitoring daily for the development of COVID-19 like symptoms. Regular rapid antigen testing is also strongly encouraged. Testing kits are available for students, free of charge, at Campus Security (UofR main campus), Research and Innovation Centre 120.
- All students must practice good respiratory/hand hygiene while on campus and follow appropriate cleaning/disinfection instructions of their instructors. Wearing a mask is no longer required in any indoor spaces on our campuses, however, will continue to be encouraged and welcomed. Please respect the choices of others.
- Students must not come to campus if they feel unwell, test positive for COVID-19, or are experiencing COVID-19 symptoms.

Procedure if a student is experiencing COVID-19-like symptoms or tests positive for COVID-19

- If a student becomes unwell or tests positive for COVID-19 while on campus, they should separate from others, leave their class/lab or workspace immediately and return home to their residence. If the student lives on campus in shared accommodations, advise the student to contact Housing Services at (306) 585-5450 to be moved to an isolation room.
- If a student is experiencing COVID-19 like symptoms or tests positive for COVID-19, they should follow the guidelines provided in the Illness Flowchart here.
- Students are encouraged to report an illness to Health, Safety, and Wellness by using the Report an Illness page or email health.safety@uregina.ca. All medical information will be kept confidential.
- Follow all recommendations provided by Public Health here.
- If a student is unable to complete course work and/or exams due to illness, they should submit the Self-Declaration of Illness form found here. This form should be submitted to their faculty, federated college, or academic unit office.
- Remind all class participants to self-monitor for COVID-19 symptoms, be vigilant with hand hygiene, respiratory hygiene, cleaning, and disinfection practices.

Take care to not disclose a student’s illness or name to others or compromise their privacy.
