RISK ASSESSMENT FORM
(Also available on the Travel Authorization Request Form)

The following form is a planning guide to assist Project Directors to identify the level of risk involved in the fieldwork, and if further steps are required for high-risk activities. The Project Directors should consider all hazards and protective measures that may be unique to the fieldwork.

Section 1 Level of Risk:

Yes No N/A

Does the work only involve low risk activities? Low Risk Activities – Research and work activities that do not pose a higher risk as they are conducted at other accredited institutions. Examples include other universities, hospitals, libraries, etc. in areas that are politically stable, require no additional mandatory vaccinations and are easily accessible via public transportation. Research and work activity of this type does not require the completion of the Fieldwork Safety planning record. [If yes, completion of Safety Planning Record (Form 2) is not required.]

Yes No N/A

Does the work involve high-risk activities? Higher Risk Activities – Research and work activities that pose higher risks and require the completion of a Fieldwork Safety Planning Record. Examples include research at facilities that engage in higher risk operations such as laboratory activities, other activities which include additional training requirements and the use of personal protective equipment, research at remote field locations, diving operations, collecting data in politically unstable countries and travel to areas where additional immunization and vaccines are required. Complete Safety Planning Record (Form 2).

* Students complete the Assumption of Risks (Form 4).

Section 2 Transportation: (see Appendix 4 and 5)
