LIMITLESS OPPORTUNITIES AT THE U OF R

Regina is a great place to gain international work experience, and we will help you get a job.

YOUR PATHWAY TO A PROFESSIONAL FUTURE IN CANADA

The UR International Team sets you up with knowledge and skills to find career-related employment while you study or after you graduate. We’ll help you look for that perfect job.

THE CO-OPERATIVE EDUCATION & INTERNSHIP PROGRAM

The U of R pioneered the Co-operative (Co-op) Education Work Experience Program in western Canada. Co-op gives you valuable experience-based learning while you’re taking almost any undergraduate degree. In 2017, these programs helped our students earn over $10 million.

• Learn while you earn. Co-op students earn, on average, $11,500 per four-month placement: as much as $45,000 to help pay for their education. Participating students alternate between work and study semesters for the last three years of their program.
• Explore your career options. See what it’s like to work in a specific field, and meet future employers.
• Develop a network of contacts in your field. Most co-op students get permanent job offers from their employers before they graduate.
• Increase your earning potential. The U of R makes more co-operative education and internship placements than all other post-secondary institutions in Saskatchewan combined.
• Co-op Programs are offered in: Liberal Arts, Business Administration, Engineering, and Science.
