**Biographical Sketch:** Visual artist Ted Godwin was born in Calgary, Alberta in 1933. He attended the Southern Institute of Technology and Art, 1951-1955, and studied with Barnett Newman, John Ferren, and Jules Olitski at the Emma Lake Artists Workshop, 1959-1965. Godwin was employed as a commercial artist by private companies in both Alberta and Saskatchewan before joining the School of Art at the University of Saskatchewan, Regina Campus in 1964. During this time in Regina, he became part of a group of young artists who were producing significant and exciting art. When their works were exhibited together at the National Art Gallery in 1961 they became known as the "Regina Five". The members of the group, including Ken Lochhead, Art McKay, Ron Bloore, Godwin and Doug Morton, eventually went their separate ways, but their early association was vital to the development of their art and to prairie art. Ted Godwin remained at what became the Visual Arts Department at the University of Regina for the rest of his teaching career. Following the "Regina Five" era, he became known for his large "Tartan" paintings. A heart condition (which eventually forced him to retire in 1985) produced the "Dying Orchids" series in 1974. From the mid-1970's to the present, Godwin produced several series of large and vivid landscape paintings, including "The Lower Bow" series. His work has appeared in solo and group exhibitions at public and private galleries across Canada, and is represented in the collections of several major institutions. Ted Godwin resides in Calgary. He married Phyllis Wanda Goota (also an artist) in 1956, and has two daughters, Teddi Ruth Driediger and Tammi Lynn Shanahan.

**Custodial history:** The records comprising the Ted Godwin Fonds were collected, created and held by Ted Godwin and then transferred to the University Archives.

**Scope and content:** The records in the Ted Godwin Fonds consist mainly of correspondence between himself and friends, including the Regina Five, and other business contacts. Also included are exhibition catalogues, invitations to gallery openings for his and other artists shows; newspaper clippings about himself and other artists, project correspondence, futuristic, and other designs created specially for friends as well as correspondence regarding his wilderness concerns, Alcoholics Anonymous, donations, and loans of artwork. Manuscripts and other correspondence pertaining to the Lower Bow publication and exhibition; personal, travel and other memorabilia; as well as minutes and agendas for the Calgary Allied Arts Foundation meetings can also be found. Financial information and inventory records for Hiloac Enterprises and the Hard Art Moving and Storage Company as well as photographs, slides and videotapes are also present.

There is a list that identifies some of the correspondents and describes their relationship with Ted Godwin. Researchers should see the University Archivist for further information.

**Arrangement:** The original order was adjusted to collocate like files, some adjustments were made to file titles that did not strictly conform to contents. For the most part, the collection is arranged alphabetically.

**Restrictions:** The fonds is restricted to permission from the Donor. The University Archives will contact the artist on researcher's behalf for permission. The series of records relating to Alcoholics Anonymous is permanently closed.

**Related Collections:** 87-41

**SLIDES**

N.B. The photographer is assumed to be Ted Godwin unless noted otherwise; all slides format is from 35mm camera.

- Slide 1 Title: Bloore, Ronald  
Colour  
Additional Information: "These slides seem to be for some sort of possible exhibition of Regina Five twenty-fifth Anniversary show that never materialized. I think it was to be called Five Times Five. A work from each decade and five current works. My reasoning for the show was that it showcase the growth and current status of imagery that each of the Five were dealing with. Due to the divisiveness and in-fighting the show never materialized. Perhaps when we are dead and no longer at each others throat someone will be able to do something." Ted Godwin

- Slide 1314 Title: Lochhead, Ken  
Colour  
Additional Information: "These slides seem to be for some sort of possible exhibition of Regina Five twenty-fifth Anniversary show that never materialized. I think it was to be called Five Times Five. A work from each decade and five current works. My reasoning for the show was that it showcase the growth and current status of imagery that each of the Five were dealing with. Due to the divisiveness and in-fighting the show never materialized. Perhaps when we are dead and no longer at each others throat someone will be able to do something." Ted Godwin
