- 1. Welcome and call to order at 8:30 am. Agenda approved as received. Meeting notes of 29 March 2019 received without emendation.**

OPERATIONS AND OTHER ISSUES

- 2. Round-table discussion**

IAU follow-up

Held on 6-7 May with 50 participants. UR is the first to have a conference with presentations from IAU in Paris (the general secretary). The IAU Secretary General and Executive Director of the International Universities Bureau, Ms Hilligje van't Land, was able to attend this event, the RCE Awards, and also went to U of S. She spoke about general principals – involves a whole institutional approach as well as a cultural approach.

2019 RCE Awards

There were 29 Awards presented in Candle Lake at the Sask Polytechnic Hannin Creek Education and Applied Research Centre (which formally opened about a year ago). Over 20 of the awarded project teams attended in person – impressive since it was at Candle Lake. Full footage of the ceremonies is available online. Yet again, this event was very successful and had the collaboration of the IAU/RCE/U of S Climate Change – the people who came in from IAU had an eventful and worthwhile week in Saskatchewan.

Future of Sustainability Support

PACS discussed various possibilities and noted that hiring a student and utilizing Facilities Management where we can, is an option.

UR utility portfolio: quick clips update

Communications is to meet with Emmet and Neil to work on this and hope to have something ready for Sustainability Month in October. Ideas for these quick clips includes: Visual references, SDG Goals, Greywater research information, coffee grounds project.

- 3. ADJOURNMENT at 9:05 am**

NEXT MEETING: FRIDAY 27 SEPTEMBER 2019 8:30 – 10:00 AM (AH 206)
