The consultants delivered a presentation to the Board on the Non-Academic Pension Plan.

Discussion followed. Topics included:

- 3.69% of the 18.35% total 2022 contribution is funding past deficits rather than improvements for the future
- Long term investment performance is 80-90% attributable to asset mix (e.g. investments in Canadian equities, US equities, real estate and bonds, etc.) while active management typically improves performance by 10-20%
- Discount rate has significant impact on pension obligation, and is expected to decrease slightly at the next valuation

All questions were addressed by management and the consultants from Aon.

The Acting Chair thanked the consultants for their presentation.

*(E. Achtemichuk, J. Schwartz, and R. Vandersanden withdrew from the meeting at 9:15 a.m.)*

## 8. Strategic Items

### 8.1 Performance Measurement Framework Update (GOV&NOM)

Smadu – Klein

*That the Board of Governors approve the attached ("PMF Scorecard") targets for use in the 2021-22 Performance Management Framework (PMF), the second year in the five-year life of the 2020-25 Strategic Plan, kahkiwaw kiwâhkômâkaninawak: All Our Relations.*

M. Smadu introduced the item to the Board and noted that the metrics were approved last year, and are based on the new strategic plan. The recommendation is to continue with the same metrics for the coming year, although work will continue on the full definition of a few of the metrics. The item also includes reporting on those metrics for which data is available.

Discussion followed on metric 5a. and the possibility that field weighted citations may result in an underrepresentation of certain types of research productivity. It was noted that this indicator is to measure the University's performance against other institutions, and that it isn't possible to completely measure all things that are valued at an institution the size of the University.

The question was called on the motion.

CARRIED

## **8.2 Tuition Proposal – Jay Treaty (A&RM)**

Lang – Opseth

*That the Board of Governors approve the University of Regina to honour the Jay Treaty, 1794 and therefore allow Indigenous peoples from the United States to access domestic tuition rates.*

M. Lang introduced the item to the Board and noted that the proposal supports the University's commitment to Truth and Reconciliation.

Discussion followed. Topics included:

- The University has had limited success in recruiting students from the United States and this is an opportunity to increase recruitment, especially of Native American students with an interest to attend the University of Regina, including through the First Nations University of Canada
- Risk of Canadian Indigenous students being recruited by institutions in the United States is considered low at this time due to lack of knowledge of the Treaty

The question was called on the motion.

CARRIED

## **8.3 SREP Capacity Building Program Application (F&F)**

Bosgoed - Londoño Sulkin

*That the Board of Governors approve the creation of a Carbon Neutral Plan, Sustainability Office and Facilities Energy Manager position at a total cost of \$2,550,000, subject to approval of the pending SREP grant application to Natural Resources Canada that will cover \$2M of this cost.*

G. Bosgoed introduced the item to the Board and summarized the discussion held by the Committee the day prior.

The question was called on the motion.

The question was called on the motion.

CARRIED

### **8.6 Operating Fund – 2<sup>nd</sup> Quarter Report (A&RM)**

M. Lang introduced the 2<sup>nd</sup> Quarter update to the Board and noted that the University had proactively managed the projected 2021-2022 deficit, but that there is now an additional unfunded shortfall due to declining enrolment. As the Winter enrolment numbers become more certain and the full financial impact is determined, the Senior Leadership Team will work to address the unfunded shortfall through carry forward management or other means.

Discussion followed. Topics included:

- Mitigation of reduced revenue due to enrolment losses cannot continue long-term using carryforward without impacting future-focused initiatives such as infrastructure planning, research investment, etc.
- Increased in-person classes and services will improve revenue, especially related to ancillaries
- Vaccination requirements have been almost unanimously well-received by students, who are appreciative of the continued focus on the health and safety of the campus community
- Management is carefully looking at opportunities for efficiencies and cost reduction

Additional projections and options for response will be provided to the Board in advance of their planned retreat in early 2022.

All questions were addressed by management.

### **8.7 Multi-Year Funding Accountability Report (A&RM)**

M. Lang provided an update to the Board and noted that formal submissions for funding have been received from various academic and administrative units. These have been assessed using rigorous criteria (provided in the agenda material), with several approved for funding.

Discussion followed. Topics included:

- Agent Commission Incentive Program cost is projected over the four year funding period
- The University currently has one dedicated global recruiter, who has typically undertaken only limited travel. The additional investment will enable focused attention to international recruitment in priority markets

The next report to the Ministry of Advanced Education is due January 31, 2022.

All questions were addressed by management.

## 9. Administrative Items

### 9.1 Budget Process Policy (GOV-090-055) (A&RM)

*That the Board of Governors approve the revised policy GOV-090-005 Annual Budget Process, as attached (Attachment A).*

M. Lang introduced the item to the Board and noted that there were no major changes to the intent of the policy, and changes were largely reflective of current practices.

It was noted that the conservatism reflected in the practice to underestimate revenues and overestimate expenses is not always well understood by the University community.

The question was called on the motion.

CARRIED

### 9.2 Provincial Auditor's Audit Planning Memorandum (A&RM)

Lang – Opseth

*That the Board of Governors approves the 2022 Audit Planning Memorandum prepared by the Office of the Provincial Auditor of Saskatchewan.*

CARRIED

This provides authorization to proceed with design and construction based on the total project budget of \$1,000,000 and a target completion date of December 15, 2022.*

G. Bosgoed introduced the item to the Board and noted that this project results partly from a sustained major utility outage in November 2020, which highlighted a number of risks. This project was also selected by the Ministry of SaskBuilds and Procurement for funding under the Strategic Preventative Maintenance and Renewal (SPMR) Program, and the University will receive \$500,000 to help fund this critical work.

*That the Board of Governors provide Level 3 Approval (Approval to Tender the Work) for the College Building Basement Slab project. This provides authorization to continue with design and construction based on the total project budget of \$800,000 and a target completion date of spring 2023.*

G. Bosgoed introduced the item to the Board and noted that the need for this work is due to moisture and soil conditions.

In response to a question related to the source of the problem, management observed that site changes, soil characteristics and changes in moisture conditions may all have an impact.

The question was called on the motion.
