4.2 President

President Timmons provided the following report.

- The President gave a press conference last week on the First Nations University of Canada. The President’s statement was distributed at the Senate meeting. (Appended to the Minutes as Appendix 1)
- Reported that 549 students graduated at Fall Convocation
- The President traveled to many communities in the province last fall which included Swift Current, Moose Jaw, Weyburn, Estevan, North Battleford, Yorkton and Prince Albert. There are plans to visit LaRonge, Saskatoon and Lloydminster this year.
- Progress continues with the Strategic Plan and the President reported on her six key objectives to support the plan.

1. Establish a strategic planning implementation process that is focused on campus engagement
2. Improve administrative efficiencies
   - It was noted that there are approximately 10 to 15 faculty vacancies due to the budget restraints.
3. Build a strong senior leadership team at the University and contribute to the continued development of a strong leadership team at the Board
4. Continue to focus on stabilizing enrolments
5. Continue to focus on building relationships with the campus, city, provincial and national communities
6. Engage with the First Nations and Metis communities

The floor was open for discussion.

4.3 University Secretary

4.3.1 In-progress Report of Admissions and Registrations for Winter 2010, and Final Report on Graduation and Convocation for Fall 2009, Appendix I of the Agenda

John D. Smith, Associate Vice-President (Student Affairs) presented the report for information and provided a brief overview.

Undergraduate admissions are down 30 applications, or 3.9% compared to the same date in 2009. It was noted that this was due to the extension of deadlines in order to allow more students to enter in the fall as full time students instead of having them start in January 2010.

Out of province transfer students from Canadian post-secondary institutions applied at a rate of 25% higher than the year prior, resulting in an increase of 33%. The increase is mostly due to students moving back home.
The Faculty of Graduate Studies and Research received 20.65% more applications than winter 2009 resulting in 23% more admission offers.

Dr. John Metcalfe, Registrar is Chairing a team from the Office of the Registrar, Admissions, the Faculty of Graduate Studies and Research, and the Office of Resource Planning in order to develop an enrolment system that can track better statistics.

The current undergraduate registration is up by 2.67% from the number of registered in early winter 2009. Undergraduates are taking an average of 10.8 credits or 3.6 courses in winter 2010.

The current graduate registration is up 6% more than were registered in early winter 2009.

The University graduated 548 students during the cycle ending fall 2009 which is up slightly (1.1%) compared to last year. There were 134 Graduate and 415 Undergraduates awarded.

It was noted there is a correction on the chart on Appendix I, Page 3, it should read “Fall Convocation”, not “Spring Convocation”.

4.3.2 2010 Senate Election, Appendix II of the Agenda

Annette Revet, University Secretary presented the report for information and provided a brief overview. The date for the election is set for April 12, 2010, with nominations closing on March 1, 2010. Senators are encouraged to speak to candidates in their districts in order to get nominations sent in.

There have been no nominations received from District 2, District 8 or District 12. Chancellor Ready noted that Patrick Maze and Marsha Barteski-Hoberg have expressed interest to run for a second term in their districts and Chancellor Ready has expressed interest to run for a second term as Chancellor.

If there are any Senate members who are interested to volunteer as scrutineers during the Senate election, please contact the University Secretariat office.

Timmons - Chamberlin

Moved that, effective 201020, the BKin program be revised as outlined in Appendix V, Pages 30, 31, 32 and 33 of the Agenda.

Dr. Craig Chamberlin, Dean of Faculty of Kinesiology and Health Studies presented the item for decision.

Today marks an important day in the progression of the Faculty of Kinesiology and Health Studies at the University of Regina. What is being brought forward for approval is a significantly redesigned curriculum for our flagship program – the Bachelor of Kinesiology.

The base undergraduate curriculum has not changed significantly over the past 20 years. There have been some minor and cosmetic changes; most notably a change in name from physical activity studies to kinesiology in 2001, but the basic structure has remained the same. The current degree has worked well, producing outstanding graduates who have experienced successful career in our field. However, with the rapid changes in our field, with the increasing external accreditation opportunities, both legal and non-legal, and with the growing knowledge base we have reached a critical point in the evolution of our program. As identified in an external review conducted in 2007, there is a need to change our basic curriculum.

What we are presenting for your approval today is a curriculum that responds to the changes in our field, that meets the need of external accrediting bodies, and most importantly, serves the best interest of our students. We are looking to Senate to provide their support for the efforts in reforming our undergraduate curriculums.

The question was called on the motion.     CARRIED

7. Briefs, Submissions, or Recommendations from Elected or Appointed Senate Members

7.1 Verbal Presentation on the “School of Wellness Community Health Challenge” by Dr. Craig Chamberlin, Dean, Faculty of Kinesiology and Health Studies.

The School of Wellness program was a collaboration among several groups and organizations to promote health and wellness in First Nations communities of Standing Buffalo and Peepeekisis. Members involved in the project included the Saskatchewan Association of Health Organizations (SAHO), the Regina Qu’Appelle Health Region, the File Hills Qu’Appelle Tribal Council, Pharmasave, and the Faculty of Kinesiology and Health Studies at the University of Regina.

The members worked with partners and elders of the First Nations communities in order to develop a fun and competitive event that was intended to create health and wellness opportunities for residents of these two communities.

The initiative consisted of a 12 week program that had the two communities compete in improving their health and wellness status over the course of the program. Teams of 10 participants from each community engaged in the program of education and physical activity. Participants were measured on a number of health dimensions at the beginning, half-way point and at the end of the 12 week period. The critical measure that was used for the competition was waist circumference. The team that lost the most centimeters from the waist received a prize of $5,000 that was to be put towards a health and wellness endeavour in their community. The team that lost the least number of centimeters received a $1,000 prize. The Peepeekisis team won with an average waist circumference reduction of 8 cm and Standing Buffalo team had an average waist circumference reduction of 4 cm.

Dr. Chamberlin reported that the program was a success. The faculty is very proud of this program and the impact it has had on the lives of the participants in the Peepeekisis and Standing Buffalo communities and believes this is a terrific example of what can be achieved through partnership, relationship building and community engagement.

8. Academic and Administrative Reports

8.1 Presentation on “It’s About Action not Reaction: the Interactive Media and Performance (IMP) Labs” by Dr. Charity Marsh, Canada Research Chair, Interactive Media and Performance

Dr. Sheila Petty, Dean of Fine Arts introduced Dr. Charity Marsh, Canada Research Chair in Interactive Media and Performance.

Dr. Marsh presented on a research program called the “Hip Hop Project”. The project was
started in the fall of 2008 in the Interactive Media and Performance (IMP) Labs at the University of Regina with students from Scott Collegiate. The research consisted of working with aboriginal students in a hip hop cultured environment. The students attended classes at the IMP Labs two days per week to work towards an Art and English high school credit.

The program has been very successful. Some of the outcomes include aboriginal students having an interest in; building relationships, expanding community togetherness, success in education, attending post secondary education and contributing to societies.

The IMP Labs are open to the public three times per week so you are welcome to stop by to visit Dr. Marsh and check out the equipment.

Chancellor Ready and President Timmons thanked Dr. Charity Marsh for her presentation.
