Consultation with the campus and broader community to assist with development of the presidential position profile has also commenced. The search firm, Boyden, engaged with the University's Executive of Council at its meeting of May 20 and will undertake similar consultation with the Senate at its next meeting on June 3. Many other individuals and stakeholder groups will also be contacted for their input, and the online survey will remain open until June 5.

We invite all interested students, faculty, staff and community members to complete the online survey here: <https://www.uregina.ca/presidential-search/search-process/consultation.html>

Sincerely,

Roger Brandvold
