Position Summary

The Faculty of Media, Art, and Performance (MAP) at the University of Regina invites applications for an Assistant or Associate Professor for the nomination of a Tier 2 Canada Research Chair (CRC) in Socially Engaged Creative Practices. The successful candidate will be eligible to hold a tenure-track/tenured appointment that could begin as early as January 2021. We are looking for an exceptional artist-researcher who is able to build upon the well-established research and creation strengths in the Faculty.

This position will be directly involved in community engaged art initiatives and collaborative cultural practices. This CRC will help lead an ever-growing area of participatory creative and critical practices at the University of Regina both nationally and internationally, situating the URegina and MAP as a centre of innovation, leadership, and excellence. The CRC will be committed to creative practices and/or scholarship that reflect inclusive excellence in the approaches to research and community engagement. MAP seeks to attract candidates who identify with under-represented groups, and who are able to articulate a research program that aligns with our values, and complements and builds upon the established socially engaged practices MAP is known for. We seek a candidate whose program of research will enhance the University of Regina's growing reputation as an important centre for a variety of research endeavours, including Indigenous art practices, disability/atypical creative practices, community wellness, social justice, cultural policy and arts ecology, curation, or performance practices.

This CRC aligns with the University of Regina's current Strategic Plan, in particular ensuring a 'commitment to our communities', a 'commitment to Indigenization and sustainability', and 'increased research partnerships and projects with First Nations and Métis people, communities and organizations, including the First Nations University of Canada.' Furthermore as we prepare for our new Strategic Plan (2020-25), we will see a continued focus on community engagement and collaboration.

The University of Regina is located in the heart of a vibrant and increasingly diverse mid-sized city in the centre of the beautiful prairies. The University has a student

population of 16,000+ and is home to ten faculties, including a multitude of academic departments and program areas. These units have established national and international reputations for excellence and innovative programs leading to bachelor's, master's, and doctoral degrees. The University has three federated colleges: First Nations University of Canada, Campion College, and Luther College. Our Colleges bring further excellence and diversity to the educational experiences we offer.

The University of Regina is situated on Treaty 4 lands with a presence in Treaty 6. These are the territories of the nêhiyawak, Anihšînāpēk, Dakota, Lakota, and Nakoda, and the homeland of the Métis/Michif Nation. In Regina our main campus and historic College Avenue campus are located in Wascana Centre, one of the largest urban parks in North America. The University of Regina's research profile continues to grow as it fosters multidisciplinary approaches to finding solutions to a broad range of societal challenges.

With a faculty complement of 37 full-time professors, including some of the most celebrated contemporary artists in the country, the Faculty of Media, Art, and Performance enjoys a long-standing reputation as one of Western Canada's foremost environments for artistic research at the undergraduate and graduate levels. Emphasizing the importance of studio production and theory, we offer BA, BFA, BMus, MMus, MA, MFA, and an Interdisciplinary Studies PhD in Media and Artistic Practices. MAP's range of disciplines and its emphasis on interdisciplinarity, means the CRC can move between and around conventional departments, artistic practices, and historical disciplines in non-conventional ways. MAP created one of the first required courses for program majors at the University of Regina "Indigenous Issues in the Arts". We have developed courses, held symposia, collaborated with community partners with a focus on disability and the arts, and recently hosted 'Disability Artivism Across the "Flyover Provinces" A Celebration of Disability Art and Activism on the Prairies'. Our faculty, staff, and students represent diverse communities, and we have undergraduate and graduate students from around the world.

In building research capacity, the CRC will foster exciting opportunities for collaboration outside the Faculty of Media, Art, and Performance, working with other units such as Women and Gender Studies, Social Work, Arts Education, Kinesiology and Health Studies, the Humanities Research Institute, and the First Nations University of Canada, among others. MAP is home to the IMP Lab (Interactive Media and Performance), the VOICE Lab (Vocally Oriented Investigations in Creative Expression), RISC (Regina Improvisation Studies Centre), and we host the Michele Sereda Artist Residency for Socially Engaged Practices. This CRC provides an opportunity to initiate university-wide investigations of socially engaged artistic practices, while building on the Institution's commitment to Indigenization, our communities beyond the campus, and to linking regularly with arts institutions such as the MacKenzie Art Gallery, Regina Symphony Orchestra, Sâkêwêwak Artist Collective, Dunlop Art Gallery, Art Gallery of Regina, Regina Public Library, Neutral Ground, New Dance Horizons, Saskatchewan Film Pool, Common Weal, among others. MAP has numerous international partnership universities with many innovative mobility initiatives for both faculty and students in Mexico City and the UK, among other locations.

The successful candidate for the CRC position in Socially Engaged Creative Practices will be offered a tenure-track/tenured appointment at the rank of Assistant or Associate Professor, as appropriate. The candidate will then work with the Faculty and the University to prepare the formal CRC nomination according to the CRC program guidelines. The University will submit the nomination to the CRC Secretariat at the earliest opportunity. All Chairs are subject to review and final approval by the CRC Secretariat.

The University of Regina is strongly committed to employment equity within its community, and to recruiting a diverse faculty and staff. We are committed to an inclusive workplace that reflects the richness of the community we serve. The University welcomes applications from individuals within the University's employment equity categories of Indigenous persons, women, persons with disabilities, members

Page 4

of visible minorities, individuals of diverse gender and sexual orientation and all groups protected by the Human Rights Code. A Canada Research Chair entails a reduced teaching load, research and salary stipends, as well as access to infrastructure grants for the duration of the five-year chair, renewable once, for a total of ten years. All qualified candidates are encouraged to apply; however, Canadians and Permanent Residents will be given priority. The University's accommodation policies are available at: <https://www.uregina.ca/policy/browse-policy/policy-EMP-080-005.html> (contact: Neil Brotheridge, neil.brotheridge@uregina.ca, 1-306-585-4452).

Position Requirements

The ideal candidate will have an active scholarly and/or creative practice grounded in deep community engagement. You will already be making contributions to the critical conversations and dialogue toward social change through participatory socially engaged practices. Evidence of the ability to build on existing research at the faculty level, coupled with the potential to establish a strong externally funded research program is important. The capability to attract, mentor, and support exceptional graduate students is essential. This chair will be dedicated to the sustainability of art and culture in our society, as well as committed to social justice.

The candidate should hold a PhD in a cognate field or an MFA. Applicants should possess evidence of strong creative output, publication, or curation; a record of service to the community; and ideally post-secondary teaching experience. The successful candidate for the CRC (Tier 2) in Socially Engaged Creative Practices will be appointed to the Faculty of Media, Art, and Performance at the rank of Assistant or Associate Professor, and will teach in our undergraduate and graduate programs.

Tier 2 Chairs are intended for exceptional emerging scholars and/or artists with less than 10 years of active research in their field post terminal degree. Applicants who are more than 10 years from having earned their highest degree (and where career breaks exist, such as maternity, parental, extended sick leave or family care) may request the University of Regina have their eligibility for a Tier 2 Chair assessed through the program's Tier 2 justification process (contact: Michelle Beitel, michelle.beitel@uregina.ca, 1-306-337-2479). The nominee must meet the requirements for the position of Tier 2 Chair as defined by the CRC program. Please consult the Canada Research Chairs website for full program information, including further details on eligibility criteria.

Prospective candidates are encouraged to submit their applications as soon as possible. Review of applications will begin 1 May 2019 and will continue until a CRC nominee is selected through a candidate appraisal and interview process. To apply, applicants must electronically submit the following documents:

- 1) a cover letter describing how the applicant meets the criteria for the position;
- 2) a statement of teaching philosophy and evidence of teaching effectiveness;
- 3) an up-to-date curriculum vitae;
- 4) research article reprints or preprints;
- 5) unofficial transcripts; and
- 6) a proposed five-year research plan in Children and the Justice System that addresses the objectives of the CRC program (maximum 2,500 words). This plan should include a proposal for developing or enhancing interdisciplinary research strengths, and a plan for developing externally funded research projects and/or other projects appropriate to the CRC mandate.

Special Instructions to Applicants

Candidates should also arrange for letters from three (3) referees and official university transcripts to be sent directly to: Dr. Rick Kleer, Dean Faculty of Arts, University of Regina, 3737 Wascana Parkway, Regina SK, S4S 0A2, or to Arts.Deans.Office@uregina.ca

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority. Applicants representing designated diversity groups are encouraged to self-identify on their application.

CUPE Information (CUPE postings only)

Department/Unit	Arts-Psychology
Employee Group	Canada Research Chair (CRC)
Category	Academic
Position Title	Canada Research Chair Tier 2 - Children and the Justice System
Salary Range	As per URFA Collective Agreement
Status	Permanent
Duration (if term)	
Full-Time/Part-Time	Full-Time
Part-Time %	
Work Hours	
Pay Grade	Faculty Assistant Professor

The Department of Psychology in the Faculty of Arts at the University of Regina invites applications for a tenure-track appointment at the rank of Assistant Professor; the successful applicant will be nominated for a Tier II Canada Research Chair in the area of Children and the Justice System, with an expected appointment date of July 1st, 2020. The ideal candidate would develop a research program that uses the methods of experimental forensic psychology to investigate children's experiences within the justice system. Examples of such research programs could include the development of evidence-based practices to guide how police/attorneys collect information from children; perceptions of child witnesses; or, research that advances theory in the development of memory and morality/lie-telling in children.

The University of Regina provides excellent institutional infrastructure to support the research program of the Chair. It houses the Collaborative Centre for Justice and Safety, which brings together researchers from Psychology, Justice Studies, Engineering, Economics, Computer Science, History, and other disciplines to carry out research that can be disseminated directly to the justice community nation-wide and internationally. The successful applicant will be able to leverage the University's extensive network of relationships with virtually every major organization involved in justice and community safety in Saskatchewan, including the Saskatchewan Ministry of Justice; Royal Canadian Mounted Police; Saskatchewan Police College; and, the Correctional Service of Canada. It is also home to the Child Trauma Research Centre (CTRC), an interdisciplinary centre developed in strategic partnership with community organizations that is designed to improve the lives of children who experience trauma.

Position Summary

The Faculty of Arts is home to approximately 100 full-time faculty members in fourteen departments and seven interdisciplinary programs in social sciences and humanities, and several research chairs, including the Saskatchewan Law Foundation Chair in Police Studies. The Faculty supports collaboration with community organizations through its Community Research Unit (CRU); the CRU plays a very important role in assisting researchers in mobilizing their research findings in the justice community.

The Department of Psychology offers a vibrant, diverse research environment that has yielded some of the University's greatest research successes, including attracting nearly 54 million dollars in external funding in the last decade. The Chair will find a rich network of potential faculty collaborators with a variety of forensic research interests and will have the opportunity to contribute to our graduate programs in Experimental and Applied Psychology, Clinical Psychology, Police Studies, and Justice Studies.

The Canada Research Chairs (CRCs) were established by the Canadian Government as part of a national strategy to foster research excellence. Tier 2 Chairs are intended for exceptional emerging scholars with less than 10 years of active research in their field. Applicants who are more than 10 years from having earned their highest degree (and where career breaks exist, such as maternity, parental or extended sick leave, clinical training, etc.) are encouraged to provide any relevant information about their experience and/or career interruptions to allow for a fair assessment of their application. Candidates may have their eligibility for a Tier 2 Chair assessed through the program's Tier 2 justification process.

Applicants must submit the following documents through the University of Regina's online system at <https://www.uregina.ca/hr/careers/opportunities.html> (under Academic Positions) by May 6, 2019:

- Cover letter describing their qualifications and interest in the position;
- Curriculum Vitae;
- 5-year research plan (up to 5 pages) that addresses the objectives of the CRC program;
- A teaching statement (up to 2 pages), including philosophy, teaching experience and interests in biochemistry;
- The names and contact information for three referees.

Special Instructions to Applicants

All qualified candidates are invited to apply. The University of Regina is committed to employment equity, diversity, and inclusivity, and strongly encourages applications from women, Indigenous persons, visible minorities, and persons with disabilities. Preference will be given to those who self-identify as members of one or more of these groups in the application process. The University's accommodation policies are available at: <https://www.uregina.ca/policy/browse-policy/policy-EMP-080-005.html> (contact: Neil Brotheridge, neil.brotheridge@uregina.ca or 1-306-585-4452).

Department/Unit	Science-Chemistry and Biochemistry
Employee Group	URFA
Category	Academic
Position Title	Canada Research Chair Tier 2 - Chemogenomics and Host-Pathogen Interactions
Salary Range	Per Collective Agreement.
Status	Permanent
Duration (if term)	
Full-Time/Part-Time	Full-Time
Part-Time %	
Work Hours	N/A
Pay Grade	Faculty Professor

Position Summary

The Faculty of Science at the University of Regina invites applicants for nomination as a Tier 2 Canada Research Chair in Chemogenomics and Host-Pathogen Interactions in the Department of Chemistry & Biochemistry. The appointment is subject to review and final approval through the Canada Research Chair (CRC) Program. CRC awards are tenable for 5 years and renewable once, after which time, the CRC will become a full-time faculty member in the Department of Chemistry & Biochemistry.

The CRC Program (<http://www.chairs-chaire.gc.ca>) was established by the Government of Canada to foster research excellence in Canada. CRC researchers (Tier 2) are emerging world-class researchers who have been recognized by their peers as having the potential to lead in their field. This CRC will aid the University of Regina in achieving the goals of the Human Health foci of the Strategic Research Plan 2015-2020 by aligning with research goals of the Integrated Human Health: Equity, Disease, and Prevention Research Cluster. The CRC will help link researchers in the Department of Chemistry & Biochemistry with those in other departments (Biology, Computer Science), as well as with health care practitioners in Saskatchewan (e.g., Regina Qu'Appelle Health Region and Roy Romanow Provincial Laboratory) or Canada.

The successful CRC candidate will have expertise in chemogenomics and host-pathogen interactions, and will be expected to establish a novel research program centered on the development of advanced therapeutic strategies to counter the rapidly emerging threat of antibiotic-resistant "superbugs".

Tier 2 CRCs are intended for exceptional emerging researchers (i.e., candidates, at the time of nomination, must be no more than 10 years from having earned their highest degree). The University recognizes the legitimate impact that leaves (e.g., parental leave, leave due to illness) can have on a candidate's record of research and achievement and commits that these leaves will be taken into careful consideration during the assessment process. Candidates with more than 10 years since their highest degree for which career breaks exist, such as maternity, parental or extended sick leave, clinical training, family care, or other leaves are encouraged to provide any relevant information about their experience and/or career interruptions to allow for a fair assessment of their application. Candidates may have their eligibility for a CRC assessed through the program's Tier 2 justification process. Please consult the University of Regina Research Office for more information. Full program information, including details on eligibility criteria, can be found on the CRC website: <http://www.chairs-chaire.gc.ca/home-accueil-eng.aspx>. CRCs are offered a reduced teaching load, an additional salary stipend, an operating grant, start-up funds, and an opportunity to apply to the Canada Foundation for Innovation (CFI) funding for additional instrumentation needs. The Department of Chemistry and Biochemistry will work with the successful candidate to complete their CRC application. Ideally, a full draft will be ready for internal departmental review by early October 2019, with the CRC nomination deadline of October 21, 2019. Once approved by the CRC Program, the candidate is likely to take up their CRC in July 2020 or January 2021.

Qualifications, responsibilities, and expectations of the successful candidate include, but are not limited to:

- a Ph.D. in biochemistry or closely related field;
- demonstrated leadership, collaboration, and networking skills;
- potential to attract and train high quality personnel in biochemistry, chemical biology, microbiology, or pharmacology;
- engage in academic and scholarly activity, including the teaching of undergraduate or graduate courses in biochemistry;
- an exceptional track record of peer-reviewed publications;
- commitment to preparing a CRC application that articulates an original, innovative, and high quality research program.

As an employer committed to employment equity, we are seeking applications from women scientists for this position. As the 2016 evaluation of the CRC program noted, "more work is needed to address barriers to access for designated groups". In order to alleviate the under-representation of women in Tier I CRC and senior faculty positions, this position has been targeted to women. Additionally, NSERC is in a consultation process for a "made-in-Canada" Athena SWAN program (www.nserc-crsng.gc.ca/NSERC-CRSNG/EDI-EDI/Athena-SWAN_eng.aspl), as part of the Government of Canada's efforts to improve equity, diversity and inclusion in the research community.

Applications for this position are made online: www.uregina.ca/hr/careers/opportunities.html (under Academic Positions).

Special Instructions to Applicants

Applications should include a cover letter, a curriculum vitae, a summary of research achievements to date, a brief outline of the proposed research, and the names and contact information of three referees. Review of applications will commence on 06 May 2019. Candidates must formally self-identify to be considered for the position. Questions about the position should be addressed to Peter Leavitt (peter.leavitt@uregina.ca).

The University of Regina is committed to development of a representative and inclusive workplace that reflects the richness of the community that we serve. For this competition, the University welcomes applications from all qualified women, including women with disabilities, members of visible minorities, and Indigenous persons. The University's accommodation policies are available at www.uregina.ca/policy/browse-policy/policy-EMP-080-005.html (contact: Neil Brotheridge, neil.brotheridge@uregina.ca, 1-306-585-4452).

Faculty Professor

The Faculty of Science at the University of Regina invites applications for nomination to a Tier 1 Canada Research Chair (CRC) in Water, Environment and Sustainability. The home academic department of the successful candidate will be determined by the applicant's specific areas of expertise.

The Canada Research Chair Program (www.chairs-chaires.gc.ca) has been established by the Government of Canada to foster research excellence in Canada. Tier 1 chairs are for a term of seven years, and are renewable for up to one additional seven-year term. Thereafter, the chairholder will hold a regular faculty appointment, although in exceptional circumstances, a second CRC renewal is possible (the renewal must contribute to the meeting of institutional equity and diversity targets). Tier 1 chairs are outstanding and innovative world-class researchers whose accomplishments have had a major impact in their field and are recognized internationally. Given that scholars have varying career paths and that career interruptions can be part of an excellent academic records, candidates are encouraged to provide any relevant information about their experience and/or career interruptions to allow for a fair assessment of their application. All chairs are subject to review and final approval by the Canada Research Chairs Program.

Position Summary

The CRC in Water, Environment and Sustainability will use a combination of process-based experimentation, modeling, paleoecological analyses, macroecology, biogeochemistry, or multi-decadal environmental monitoring to investigate factors that regulate the structure and function of freshwater and surface water, and improve strategies for their protection. The candidate will be a global leader in climate change, human-environmental interactions, and/or adaptive management strategies for surface waters. Areas of research strength at Regina include nutrient pollution and water quality, climate and lakes, paleoecology, major element biogeochemistry, ecosystem sustainability and lake management. The successful candidate will demonstrate excellence in interdisciplinary collaboration and possess the visionary leadership necessary to replace the current director of the Institute of Environmental Change and Society (IECS) after a period of co-direction.

The University of Regina's Strategic Research Plan 2016-2021 emphasizes 'Water, Environment and Clean Energy' as a strategic priority and the U of R is a global leader in environment and sustainability, particularly in the area of aquatic resources. IECS (www.iecs-uregina.ca) is home to the 25-year Qu'Appelle Valley Long-Term Ecological Research Program (QU-LTER), one of Canada's longest-running non-governmental freshwater research programs. IECS is supported by three PhD-level research staff and 13 million dollars of infrastructure. The Faculty of Science has a long history of collaboration with research agencies in regional, national and international arenas.

For additional information about the position and the research environment in support of the position, see: www.uregina.ca/science/crc-search-2019.html.

Requirements

Qualifications, responsibilities, and expectations of the successful candidate include, but are not limited to:

- commitment to preparing a CRC application that articulates an original, innovative, and high quality research program;
- an exceptional track record of peer-reviewed publications in freshwater

Page 15

(surface water) science;
- demonstrated leadership and interdisciplinary collaboration skills.

Faculty Assistant Professor

The Faculty of Media, Art, and Performance at the University of Regina invites applications for a tenure-track/tenured position at the Assistant or Associate Professor level for the nomination of a Tier 2 Canada Research Chair in Post-TRC Artistic and/or Curatorial Practices commencing September 2019.

Position Summary

The successful candidate will be an exceptional Indigenous emerging artist-researcher with strong connections to Indigenous communities, with an ability to bring those voices and ways of knowing/making into their teaching and research. We seek an artist and/or scholar with a critical curatorial and/or artistic background who will enhance the University of Regina's growing reputation as an important centre of Indigenous art practices. The successful candidate will deepen the processes of knowing and [un]knowing in performative, embodied, enacted, and curated ways of understanding the world thus fostering new knowledge.

A Canada Research Chair entails a reduced teaching load, research and salary stipends, as well as access to infrastructure grants for the duration of the five-year chair, renewable once, for a total of 10 years.

The successful candidate for the CRC position in Post-TRC Artistic and/or Curatorial Practices in the first instance, will be offered a conditional tenure-track appointment at the rank of Assistant or Associate Professor, as appropriate. The candidate will then work with the Faculty and the University to prepare the formal CRC nomination according to the CRC program guidelines. The University will submit the nomination to the CRC Secretariat at the earliest opportunity. All Chairs are subject to review and final approval by the CRC Secretariat.

The candidate should hold a PhD in a cognate field or an MFA. Applicants should possess evidence of strong creative output, publication, or curation; a record of service to the community; and ideally post-secondary teaching experience. The successful candidate for the CRC in Post-TRC Artistic and/or Curatorial Practices will be appointed to the Faculty of Media, Art, and Performance at the rank of Assistant or Associate Professor, and will teach in our undergraduate and graduate programs.

Requirements

The ideal candidate will have an active creative and/or curatorial practice grounded in deep community engagement, using Indigenous knowledge in non-extractive ways. Evidence of the ability to build on existing research at the faculty level, coupled with the capability to establish a strong externally-funded research program is important. The potential to attract, mentor, and support exceptional graduate students is also essential. This chair will conduct research that addresses Indigenous themes/issues, and will be dedicated to the sustainability of art and culture in our society, as well as committed to social justice.

Tier 2 Chairs are intended for exceptional emerging scholars and/or artists with less than 10 years of active research in their field. Applicants who are more than 10 years from having earned their highest degree (and where career breaks exist, such as maternity, parental, extended sick leave or family care) may have their eligibility for a Tier 2 Chair assessed through the program's Tier 2 justification process. The nominee must meet the

Page 18

requirements for the position of Tier 2 Chair as defined by the CRC program. Please consult the Canada Research Chairs website for full program information, including further details on eligibility criteria: www/chairs-chaires.gc.ca/program-programme/admin_guide-eng.aspx

Position Summary

The Johnson Shoyama Graduate School of Public Policy (JSGS) invites applications for a Professor position for the nomination of a Tier 1 Canada Research Chair (CRC) in Energy Policy, commencing January 1, 2018. The CRC in Energy Policy is expected to coordinate research by multidisciplinary teams on all aspects of energy issues from a global perspective. Candidates should normally have reached the rank of full Professor but Associate Professors who are expected to be promoted to the full Professor level within one or two years of the nomination may also be considered.

Through participation in one of the Centre for the Study of Science and Innovation Policy (CSIP)'s founding research cluster categories focused on energy, this CRC will directly contribute to the achievement of U of R strategic and research objectives by:

- Advancing U of R priorities outlined in the 2015-2020 Strategic Plan, peyak aski kikawinaw, relating to research impacts, commitment to communities and student success;
- Supporting institutional commitments with respect to Indigenization and sustainability;
- Furthering university research objectives relating to high impact outcomes, advancing research profile and awareness, and increasing partnerships and projects with First Nations and Metis people, communities and organizations; and,
- Contributing as a critical and essential component of U of R activity and success in its research cluster area pertaining to Water, Environment, and Clean Energy.

More specifically, this CRC will contribute to the advancement of multiple institutional goals by increasing demonstrable outcomes in policy related areas; enhancing JSGS and the U of R's international reputation; helping to recruit highly qualified academic and student researchers; leveraging government, Tri-Council and industry funding; and, increasing research collaboration with Indigenous researchers and partners.

Requirements

The successful candidate will have a PhD, will be an established leader in his/her field as evidenced by an exceptional record of research, funding, scholarship, teaching and mentorship with demonstrated knowledge and understanding of energy policy. The selected candidate will be a leader in fostering and enhancing interdisciplinary and collaborative research partnerships that support and advance innovative energy policy locally, nationally, and internationally.

The Canada Research Chair is established by the Government of Canada to foster research excellence (<http://www.chairs-chaires.gc.ca>). Tier 1 Chairs are intended for exceptional established scholars who are outstanding and innovative world-class researchers whose accomplishments have made a major impact in their fields; who are recognized internationally as leaders in their fields; who have superior records of attracting and supervising graduate students and postdoctoral fellows (taking into account different practices in the relevant field or discipline) and, as chair holders, will attract, develop and retain excellent trainees, students and future researchers; and who propose an original, innovative research program of the highest quality.

The University of Regina is committed to creating a culture that celebrates the strengths of diversity. The U of R is committed to employment equity and achieving a representative workforce that is representative of Indigenous persons, persons with disabilities, persons who because of their race or colour are a visible minority in Canada, and women. Qualified diversity group members are encouraged to self identify on their application. All qualified candidates are encouraged to apply; however, Canadians and Permanent Residents will be given priority.

Impact on research profile of unit and university:

It is anticipated that this CRC will build on the following JSGS research strengths and analytic capacities to substantially impact the research profile of JSGS and the U of R in addressing challenges relating to energy policy:

Strategic assessment:

- Prospective analyses and retrospective assessments to test governance systems and identify potential options to improve performance in the energy sector will focus on improving understanding between scientific definitions of risk, public understandings of uncertainty and institutional evaluative methods for assessing related technologies and techniques.

Societal engagement:

- Increasing social engagement, including among rural and Indigenous communities, in discourse around the energy sector in ways that address perceptions of risk and framing of choices will include focus on knowledge mobilization and democratic engagement to develop strategies and opportunities for informed public participation in controversial issues relating to energy production/consumption.

Support for decision making:

- Understanding how perceptions about risks and benefits intersect with goals to have science-based and evidence-informed energy policies, along with regulatory and other decision systems will provide insight on how stakeholders use evidence within decision-making structures and how new knowledge is accessed, interpreted and translated in areas relating to energy policy.

All Chairs are subject to review and final approval by the CRC Secretariat.

Faculty Assistant Professor

Position Summary

The Faculty of Arts at the University of Regina invites applications for an Assistant or Associate Professor position for the nomination of a Tier 2 Canada Research Chair in Indigenous Peoples and Global Social Justice, commencing 1 January 2018.

The Canada Research Chair in Indigenous Peoples and Global Social Justice will focus on Indigenous issues in the international context and will be concerned with Indigenous cultural, economic and political demands, rights, and aspirations from the perspective of global social justice. Not only does this area of research seek to investigate the global connections of historical and contemporary challenges experienced by Indigenous peoples around the world, it also recognizes and engages Indigenous peoples as both active agents and claimants of international rights. The perspective of global social justice expands the scope of intellectual inquiry beyond state-bound social justice and international justice between states; it investigates the structures of power and domination that operate simultaneously from the local to the global levels. The successful candidate will also have a demonstrated knowledge of North American Indigenous perspectives and issues. The candidate will be a leader in building interdisciplinary and collaborative research projects or partnerships that contribute to knowledge production and mobilization in the area of Indigenous Peoples and Global Social Justice.

The University of Regina's Strategic Plan 2015-2020 (peyaski kikawinaw - together we are stronger) emphasizes Indigenization as a strategic priority. The Faculty of Arts is committed to taking initiatives in meeting the objective of Indigenization in accordance with the University's Strategic Plan. The Faculty of Arts is home to about 100 full-time faculty members in fourteen departments and seven interdisciplinary programs in social sciences and humanities. It has major research strengths in the fields of "interculturalism and identity" and "international and social justice", which provide significant opportunities for interdisciplinary collaborative research relevant to the CRC's mandate. The Community Research Unit, which is housed in the Faculty of Arts, provides support for community-engaged research. The Faculty of Arts also closely collaborates with the First Nations University of Canada. The candidate's research program can benefit from and further contribute to this collaboration.

Salary will be commensurate with the qualifications of the successful candidate. In addition, the Chair will receive research funding and reduced teaching load for the duration of the CRC position.

Requirements

The successful candidate will have a PhD and a strong record of research accomplishment (as evidenced by publications and research grants) in any relevant social sciences and humanities.

The Canada Research Chairs (CRCs) are established as part of a national strategy to foster research excellence. The nominee must meet the requirements for the position of Tier 2 Chair as defined by the CRC program. 1) Tier 2 Chairs are intended for exceptional emerging scholars (i.e., candidates must have been an active researcher in their field for fewer than 10 years at the time of nomination). 2) Applicants who are more than 10 years from having earned their highest degree (and where career breaks exist, such as maternity, parental or extended sick leave, clinical training, etc.) may have their eligibility for a Tier 2 Chair assessed through the program's Tier 2 justification process. Please consult the Canada Research Chairs website for full program information, including further details on eligibility criteria (<http://www.chairs-chaires.gc.ca/home-accueil-eng.aspx>).
