

UNIVERSITY OF REGINA
DEPARTMENT OF CHEMISTRY AND BIOCHEMISTRY
Fall Seminar Schedule: 2026-30
Thursdays | 1:15 p.m.- 2:15 p.m. | Location: RI 208

Date	Speaker	Title
September 10	Dr. Hamel Jean denys Department of Chemistry and Biochemistry, University of Lethbridge.	Selective Defluorination as an Entry Point to Unique Reactivity
September 17	Dr. Guoxiang Chi Department of Earth Sciences, University of Regina.	How Did the World's Largest High-Grade Uranium Deposits Form in the Athabasca Basin, Northern Saskatchewan? Where Geology Meets Chemistry
September 24	Dr Asim Jilani Clean Energy Technologies Research Institute (CETRI), University of Regina. (Online Seminar)	TBD
October 1	Ben Egan Department of Earth Sciences, University of Regina.	Stable Isotope Geochemistry of Dinosaurs and Amber
October 8	Dr. Zachary M. Hudson Department of Chemistry, University of British Columbia.	Impurities in Organic Semiconductors Can Induce Persistent Afterglow
October 15	Dr. Joyce McBeth Department of Earth Sciences, University of Regina.	Permeable Reactive Barrier Column Experiments for Removal of Metals from Neutral Mine Wastewater: Insights on Optimizing Biogeochemistry from Microbiological, Geochemical, and Spectroscopic Analyses
October 22	Abdulrahman Mukadam Department of Chemistry and Biochemistry, University of Regina.	TBD
October 29	Dr. Annegret Ulke-Lemee Calgary Metabolomics Research Facility Department of Biological Sciences, University of Calgary. (Online Seminar)	Mapping Molecular Signatures Using Metabolomics and Lipidomics Analyses at the Calgary Metabolomics Research Facility

November 5	Sheena Sumat Department of Chemistry and Biochemistry, University of Regina.	Photocontrol of Ion Permeation in Lipid Vesicles with First-Generation Donor Acceptor Stenhouse Adduct Derivatives
November 12	Reading week	(No Seminar)
November 19	Dr. Gwen Grinyer Department of Physics, University of Regina	The Science of Rare Isotopes
November 26	Dr. Derek Lung Department of Earth Sciences, University of Regina	TBD
December 3	Dr. Anny Leudjo Taka Department of Chemistry and Biochemistry, University of Regina.	TBD
