GRADUATE SEMINAR

Ndulaka Uchenna Anthony

Time Series Models

MSc Student Supervised by Dr. Andrei Volodin

March 18, 2019
3.30 pm
Mathematics and Statistics Lounge, CW307.20

Abstract: Whenever we are interested in computing how much effect the past has on our today's outcome, we will need autoregressive model analysis. Join us and have a good knowledge of how to relate the past with the future mathematically through AR(1) model.
