## **Our Mission Statement**

The social work program of education, research and community service is designed to prepare students for critical generalist social work practice with diverse peoples. Informed by the principles of indigenization, sustainability and social justice, the social work program encourages students to identify the needs of the disadvantaged, marginalized and oppressed. It supports students in developing the commitment, knowledge, values, attitudes, and skills required to confront structural inequalities, and to empower individuals, families, and communities to realize their full potential."

## EXPERIENTIAL LEARNING: PRACTICUM

<u>Practicum</u> is an exciting part of the BSW program. It provides practical experience in an agency working in your chosen profession. Practicum is significant as it constitutes nearly twenty percent of the BSW, and more than a third of the Social Work credit hours you will take during the program. The practicum portion of the BSW consists of SW 348 and SW 448, and it is recommended that you take both practica in the final year of the program: SW 348 in the first semester, and SW 448 in the second semester.

It is very important to do volunteer work throughout your BSW program as it provides you with an opportunity to determine the population you want to work with, and gives you practical experience that may make it easier during the practicum placement process. When you are nearing practicum, you will apply for a placement, and then attend a practicum information session (dates/times are posted on our events calendar online). As a general guideline:

## WINTER PLACEMENT:

May 15th – submit your practicum application

June 30th – submit your international practicum portfolio (only if taking SW 448 internationally) January – begin your practicum placement

## Section 2: Bachelor of Social Work Students

## FALL PLACEMENT:

January 15th – submit your practicum application March 31st – submit your international practicum portfolio (only if taking SW 448 internationally) September – begin your practicum placement

Practicum placements are available in a diverse range of practice settings, including direct practice, policy, community development, and research. Within these areas of practice students may be placed in government or community-based agencies, in locations throughout the province, country and internationally, and across a variety of fields including health care, social services, education, and corrections.

As part of the placement process, students will be guided through a series of steps aimed at identifying the types of placement settings that interest them, the geographic location(s) they are seeking, as well as the communities or populations that they hope to work with during their practicum placements.

## Faculty Regulations SECTION And Information

## STUDENT PROFESSIONAL SUITABILITY

The granting of a degree by the University of Regina constitutes acknowledgment that students are deemed qualified and suitable as social work practitioners upon graduation, and that they will conduct themselves in a professional and ethical manner. Unprofessional conduct by students may have direct repercussions for the people social workers serve and the profession of social work, as well as the Faculty of Social Work and the University.

Action may be taken any time a student (in Pre-Social Work or the BSW) is suspected of unsatisfactory performance of professional responsibilities. If an instructor, faculty member, Field Education Coordinator, Field Liaison, Field Instructor, other staff member or student identifies a student demonstrating unsatisfactory performance of professional responsibilities a complaint can be made in writing and submitted to the Dean of the Faculty of Social Work. All procedures for handling such complaints are outlined in our policy on <u>Student Professional Suitability</u>.

Students may be required to discontinue from their program for reasons of unsatisfactory professional development.

## ETHICAL USE OF SOCIAL MEDIA

Social Work students and professionals are increasingly using and relying upon social media; therefore, guidelines are necessary in order to protect us, and those with whom we work from potentially harmful consequences. Please refer to our policy on <u>Ethical Use of Social Media</u> for guidelines.

## SOCIAL WORK STUDENT SOCIETY

The Social Work Student Society is a non-profit student run organization operating out of the University of Regina's Faculty of Social Work.

There are two Social Work Student's Societies (SWSS), one in Regina and the other in Saskatoon, each of which function as a venue for social work students to gather and pursue common goals and interests, with their ultimate aspiration being the realization of the values and aspects contained in our mission statement at the Faculty, University and community levels.

## Section 3: Faculty Regulations and Information

The SWSS are always looking for new members, and everyone is welcome to attend meetings. To find out more information, please refer to <u>our website</u>.

## SASKATOON CAMPUS

At the University of Regina, students in Saskatoon who wish to complete the Bachelor of Social Work (BSW) or the Master of Social Work (MSW) degree enroll in Social Work courses at the Saskatoon Campus. Saskatoon Campus is housed within Innovation Place in the Concourse Building, which is located slightly north of the main University of Saskatchewan campus. Our Saskatoon Campus is equipped with a full complement of faculty and staff, including academic advisors and practicum personnel.

For full details on the <u>Saskatoon campus</u>, please refer to our website, including the Saskatoon Campus Handbook.

## **OFF-CAMPUS LEARNING**

In our Faculty we strive to make our social work programs accessible, with a particular emphasis on access throughout Saskatchewan as well as Northern Canada (with our program in the Yukon Territory).

Distance delivery of the BSW is generally available on a part-time study basis, but depending on course offerings, may be available full-time. What this means is there may be semesters in which it's possible to

## Section 3: Faculty Regulations and Information

find a full-time course load of distance courses that fit your program, but there may also be semesters in which only 1-2 courses, or no courses fit your program needs as a distance student. This is particularly due to the fact that our part-time students are not taking courses as a cohort (or group), and are all at various stages in their programs.

Regional colleges throughout Saskatchewan offer face-to-face and/or live-streamed courses that contribute to the BSW degree, and it may be possible to complete the entire program through a Regional college, in combination with online and live-streamed courses delivered through the University of Regina's Centre for Continuing Education (Flexible Learning Division).

Currently the majority of the courses in our program can be obtained online / live-streamed, particularly the General University Studies courses; however, **we do not officially offer an 'online program'.** With regard to Social Work courses, there are generally a handful of courses offered online each semester. Notably, practicum placements (SW 348 and SW 448) and SW 390 are not available online, and the first practicum (in your final year) must be completed in Saskatchewan.

In the case that courses are not available at your study location, you have the option of commuting to our Regina or Saskatoon campuses for courses. It may be possible to take courses online through other institutions and transfer them in, as well. Our team of academic advisors will work closely with you to find all possible options for timely program completion.

## **DISTRIBUTING PERSONAL INFORMATION**

Social Work Student Services does not distribute contact information for instructors or students. Instructors may be contacted via information provided to students in course syllabi online. Student contact information can only be provided with written consent from the individual student, using our authorization form.

## MAXIMUM COURSE LOAD

A maximum course load is 5 classes per semester in Fall and Winter. Students have the option of taking courses in the Spring/Summer semesters as well, and the maximum is 2 classes in Spring and 2 classes in Summer. To ensure you complete your degree in 4 years, you would need to take 10 courses (or 30 credit hours) per year; however, you are not required to complete the program within 4 years. Many students take fewer than 10 courses per year. An academic advisor in the Faculty of Social Work can help you determine the best option for you and your situation.

## **FULL-TIME OR PART-TIME STUDIES**

Students may choose to pursue the Bachelor of Social Work full-time or part-time: Full-time (9-15 credit hours per semester); or Part-time (3-6 credit hours per semester)
