

UR Learner Pathway and Transfer Opportunities

Program Articulation and Joint Program Pathways

The University of Regina has established a variety of pathways for students who have completed programs at another post-secondary institution. Students must ensure they meet the minimum transfer GPA requirement of the program they are applying to and the minimum grade required for transfer eligibility.

Students must have an official transcript sent from the institution from which they took their program directly to the University of Regina.

Don't see your program listed here? Check out the many course by course transfer credit opportunities which can be searched in our [Transfer Credit Database](#). You can also contact an [Academic Advisor](#) about the potential your completed course work has at the University of Regina.

Sending Institution	Credential	U of R Program	Recognition	Faculty/Department
