## 24.1 PREAMBLE

The Course Catalogue is a list of approved courses currently available at the University. This is not a list of scheduled classes to register in; rather, it is a list of potential courses that may be scheduled in a term. To find the classes that are scheduled for registration in a specific term, please search the Class Schedule. To find an up to date list of courses please view the online course Catalogue. See links below to the Course Catalogue, the Class Schedule, building abbreviations, and degree and program abbreviations.

## 24.2 HOW TO READ COURSE DESCRIPTIONS

**ARTS 001**  
1:0-0  
**Arts Co-op Work Term**  
Four-month, not for credit. Co-op work term approved by the Faculty and arranged by the co-op coordinator.  
***Prerequisite: Acceptance into the Arts Co-operative Education Program.***  
**Permission of the Co-op Coordinator is required to register.**  
*Note: This course is graded on a pass/fail basis.*

The formatting of each course is as follows:

1. The first line is the Subject Code and Course Number. To the far right are the Credit Hours and Contact Hours, which are formatted using a 3-digit code.
2. The first digit represents the number of Credit Hours the course is worth.
3. The second digit represents the maximum number of lecture hours per week.
4. The third digit represents the maximum number of hours per week spent in labs, seminars, ensembles, studios, or directed readings.

The second line is the Full Course Title. If there is a dash followed by “an AA-ZZ series”, this means that various topics may be offered under this base course. The base course does not get scheduled – only the courses offered within the series.

The following lines are the Course Description. This is a brief summary of the content to be covered in the course. The course description is followed by required prerequisites, corequisites, special approvals, and any special notes.

1. Three asterisks (*** bracket all required prerequisites and corequisites with prerequisites appearing first followed by corequisites.
2. Two asterisks (**) bracket all required special approvals and follow the pre/corequisites,
3. One asterisk (*) brackets any additional information related to the specific course and follows special approvals.

## 24.3 HOW TO SEARCH COURSES ONLINE

The first step is getting to the Course Catalogue online, which can be found at: [https://banner.uregina.ca/prod/sct/bwckctlg.p_disp_dyn_ctlg](https://banner.uregina.ca/prod/sct/bwckctlg.p_disp_dyn_ctlg)

The catalogue term you choose will give you information relevant to that term. Once the term has been selected, click on “Submit”. This will take you to the Search function. The Subject is the only required field that must be entered. By clicking on one subject, and then, while holding the shift button, on another subject above or below, you can select several subjects at once.

You may wish to submit a Course Number Range.

If you enter a number into the “from” box, then only that course will be outputted.

If you enter a number in the “from” box AND the “to” box, both courses, and all courses in between, will be outputted.

*Note: All output will be in alphabetical order by Subject Code and then by Course Number.*

You may also search by “Title”. You do not have to enter the full title. If you search for a word, it will give you ALL titles that contain that word.

*Note: The search is case sensitive. If you search for MaTH, no courses will be retrieved.*

You may search by “Level”. If you enter a “Subject”, and then choose “Level Undergrad”, all undergrad courses for the subject will display.

You may search by “Credit range”, which is the number of credits you are looking for, for each course.

Once your search criteria are entered, select “Get Courses” to retrieve the result.

## 24.4 FORMAT OF ONLINE COURSE CATALOGUE

The online format is slightly different.

Appearing will be the “Subject Code”, “Number”, and a dash with the “Full Course Title”.

Below that will be the “Course Description”, which is the same description as printed in this section. This is the location where you will see the description, prerequisites, corequisites, approvals, and any special notes.

After the description will be the “Hours”. The “Credit”, “Lecture”, “Lab”, and “Other hours” will be clearly labelled.

Following will be the “Level” of the course, the possible “schedule types”, and the “Faculty” and “Department” to which the course belongs.

The final information on this page is “Course Attributes”. A Course Attribute is used to identify courses that fall into a specific group.

*Note: You can click on anything that is underlined.*

You can click on the title, which will show Registration Restrictions placed on the course.

*Note: It is the restriction that is on at the Section level that affects registration (which can be different from that of Catalogue).*

A schedule type that is underlined means there are sections scheduled for this course during the semester that you chose as the Catalogue Term. If you click on one, you will get a list of the CRNs and the information about the sections for that specific course.

The Self Service Class Schedule works the same and is located in the same area. The only difference is there are more search options and there is more information that relates directly to the section. When searching the Class Schedule, you can get to the course’s catalogue record (to check out the description, prerequisites, co-requisites, approvals, etc.) by clicking on the View Catalogue Entry link.
