This catalog is not intended to be and should not be regarded as a contract between the University and any student or other person. It is intended for the guidance of persons applying or considering application for admission to the University of Regina and for the guidance of University students and faculty. This Catalog sets forth in general the manner in which the University intends to proceed with respect to the matters set forth herein, but the University reserves the right to depart without notice from the terms of this catalog.

The electronic version may be found on the University’s website at: www.uregina.ca/gencal/
1. UNDERGRADUATE COURSE CATALOG

1.1 PREAMBLE

The course catalog provides an alphabetical listing of undergraduate courses that are offered at the University of Regina. The list and course detail is based on information available at the time of printing. An up-to-date listing of new courses, changes, and deletions, may be found in the online Course Catalog on the Web Services for Students page, within the University of Regina WebPages at www.uregina.ca.

1.2 FORMATTING

The formatting of each course is as follows:

- The Subject abbreviation and Course number appear.
- To the far Right are the Credit Hours and Contact Hours. The first digit represents the number of Credit Hours the course is worth. The second digit represents the number of lecture hours per week, including time between classes. The last digit represents the time per week spent in labs, seminars, studios, etc.
- The next line is the Full Course Title. This is the title of the course. If there is a dash followed by “an AA-ZZ series”, this means that various topics may be offered under this base course. The first topic covered will be labelled AA.
- The following lines are the Course Description. The course description is a brief summary of the content that will be covered in the course.
- Prerequisites, corequisites, special approvals, and any special notes are found at the end of the course description.
- Prerequisites and corequisites are bracketed by 3 asterisks with corequisites appearing first.
- Special approvals, bracketed by 2 asterisks, will follow the Pre/Corequisites.
- Notes follow Special approvals and are bracketed with only 1 asterisk.

1.3 SUBJECT TABLE – DESCRIPTION AND CODE

The code is the identifier printed in the Course Catalog. The online Course Catalog uses the subject description for searching. The output will display the subject code.

1.4 How to Search Courses on the Web

- The first step is getting to the Course Catalog online, which is available on the University's home page at www.uregina.ca. The Course Catalog link is on the Web Services for Students page, which can be accessed by either using the Quicklinks, other menu tags, or by searching Course Catalog using the search function. The Course Catalog can be found on the left menu of the Web Services page.

- Click on “Course Catalog” and the “Catalog Term” will appear. The catalog term you choose will give you information relevant to that term. You should look at the Term in which you are planning to register.

- Once the term has been selected, click on Submit. This will take you to the Search function. The Subject is the only required field that must be entered. By clicking on one subject, and then, while holding the shift button, on another subject above or below, you can select several subjects at once. Note: You must search by “Subject Description”. The output will be the “Subject Code” (see table above).

- You may wish to submit a Course Number Range.

- If you enter a number into the “from” box, then only that course will be outputted.

- If you enter a number in the “from” box AND the “to” box, both courses plus all courses in between will be outputted. Note: All output will be in alphabetical order by Subject Code and then by Course Number.

- You may also search by “Title”. You do not have to enter the full title.

- If you search for a word, it will give you ALL titles that contain that word. Note: The search is case sensitive. If you search for MaTH, no courses will be retrieved.

- You may search by “Level”. If you enter a “Subject”, and then choose “Level Undergrad”, all undergrad courses for the subject will display.

- Lastly, you may search by “Credit range”, that is the number of credits you are looking for, for each course.

- Once your search criteria is placed, select “Get Courses” to retrieve the result.

1.5 Format of Online Course Catalog

University of Regina Undergraduate Course Catalog – Spring • Summer • Fall 2006
The online format is slightly different. 

Appearing will be the “Subject Code”, “Number”, and a dash with the “Full Course Title”.

Below that will be the “Course Description”, which is the same description as the printed Course Catalog. This is the location where you will see the description, prerequisites, corequisites, approvals, and any special notes.

After the description will be the “Hours”. The “Credit”, “Lecture”, “Lab”, and “Other hours” will be clearly labelled.

Following will be the “Level” of the course, the possible “schedule types”, and the “Faculty” and “Department” to which the course belongs.

The final information on this page is “Course Attributes”. Please ignore this information. It is to be used for future reference and may not currently be held true.

Note: Anything that is underlined you can click on.

- You can click on the title which will take you to basically the same page, but shows Registration Restrictions placed on the course.

Note: It is the restriction that is on at the Section level that affects registration (which in most cases is different from that of Catalog).

- A schedule type that is underlined means that there are sections scheduled for this course during the semester that you choose as the Catalog Term. If you click on one, you will get a list of the CRNs and the information about the sections for that specific course.

The Self Service Class Schedule works the same and is located in the same area. The only difference is there are more search options. Plus there is more information that relates directly to the section. When searching the Class Schedule, you can get to the course’s Catalog record (to check out the description, prerequisites, corequisites, approvals needed, notes, etc.) by clicking on the View Catalog Entry link.

1.6 Glossary of Terms

Alternate Credit
Only one of two possible credit values which may be granted for a course.

Approvals
Courses which are restricted and which require prior approval from an authorized designate before registration.

Audit (AU)
To audit a course is to attend without working for or expecting to receive formal credit. An Audit grade carries no credit.

Catalog Term
A term that identifies which rules to follow. A course may have a different prerequisite in the catalog term 2006 Winter than it does in the catalog term 2006 Fall.

Challenge Credit
Credit granted for demonstrating mastery of the content of a course and hence obviating the need to take the course.

Class
An individual meeting of the instructor with the students enrolled in a section of a course.

Cognate Course
A course with content closely related to and supporting the content of another course.

Concurrent Enrolment
Usually referred to as a prerequisite where enrolment is permitted in two courses at the same time. For example, if a student is deficient a prerequisite course, it may be taken simultaneously with the course for which it is the prerequisite.

Corequisite
A required course that has to be taken simultaneously with another.

Course
A set of lectures or directed readings, and related sessions (such as labs and seminars) dealing with a particular topic or a number of related topics. Normally courses at the University of Regina run over a whole semester and carry 3 credit hours.

Credit Hour
The unit measuring educational credit, usually consisting of one weekly period lasting approximately one hour, or a given number of periods of laboratory work throughout one semester. A course timetabled to run three hours each week will therefore usually carry 3 credit hours. Some courses carry fewer credit hours, some more.

Deferred Examination (DE)
Postponement of an examination for legitimate reasons.

Department
An academic unit within a faculty concerned with a specific branch of instruction or study.

Discipline (as subject area)
A branch of learning or field of study. A precise area of academic study.

Effective Term
The point at which changes are effective. For example, if a course is deleted effective 200610, it may not be offered in 200610.

Elective
A course of the student’s choice.

Equivalent Course
A course with a content that is the same as or similar to another course. Credit will be given for only one of these courses.

Faculty
Faculties comprise related disciplines grouped for the purpose of administration and academic planning.

Federated College
A college federated with the University is a post-secondary institution, legally and financially independent, but academically integrated with the University.

Full Course Load
Fifteen credit hours (normally five three-credit-hour courses) is considered to be a full course load for one semester for undergraduate students.

Full-Time Student
Except for scholarship purposes, for undergraduate students, a full-time student is one who is registered in 9 or more credit hours of study per semester.

Grading Mode
The manner in which a course is graded. Examples: normal, pass/fail, credit/no credit, non-graded, and maintenance of candidacy.

Incomplete (IN)
An interim grade assigned when term work is deferred for legitimate reasons.

International Exchange Agreements
Agreement between a postsecondary institution outside of Canada and the University of Regina that includes the general objectives of the exchange, the start and completion dates of the agreement, and the terms of agreement of the exchange. Exchange agreements may involve students, research, instructors, etc.

Letter of Permission
A letter confirming that a student will be granted transfer credit for a certain number of credit hours based upon successful completion of courses at another post-secondary institution.

Non-Contributory Courses - Pass/Fail Grading
In some faculties, students may have the privilege of designating a limited number of credit courses as being non-contributory to the computation of their GPA. This means that they will not be included in the calculation of their GPA. Courses to be taken on a non-contributory basis must be approved by the student’s faculty or college. For more information on non-contributory (pass/fail) courses, students should contact their faculty offices.

No Paper (NP)
When a student fails to write the final examination or fails to complete a mandatory component of a course, a grade of NP is assigned. An NP is a failing grade and is treated as 40% in the calculation of a student’s GPA.

Numerically-Graded Course
A course graded on the percentage scale. Grades of 0-100%, NP and XF are considered numeric grades.

Open Elective
A course of the student’s choice from any faculty.

Overload
More than the full course load. Must be approved in advance by the student’s faculty or federated college.

Part-of-Term (POT)
A code used to designate the length of time over which a course section is to be offered. It normally does not include examination days. For example, in the Fall and Winter semesters, Part of Term 1 runs from the first day of classes to the last day of classes.

Part-Time Student
For undergraduate students, one who is registered in fewer than 9 credit hours of study per semester.
1.7 COURSE DESCRIPTIONS

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Schedule Type</th>
<th>Title</th>
</tr>
</thead>
</table>
| ACSC 217    |                | **ACSC 217**  
**Introduction to Actuarial Mathematics**  
Topics include: economics of insurance, applications of probability to problems of life insurance, life annuities, and life tables.  
*** Prerequisite: ACSC 116, and STAT 251 or 351 with a grade of at least 60% ***
| ACSC 317    |                | **ACSC 317**  
**Actuarial Models I**  
Probabalistic and deterministic contingency mathematics in life insurance and pensions. Topics include: benefit premiums, benefit reserves, multiple life functions, multiple decrement models.  
*** Prerequisite: ACSC 217 with a grade of at least 60% ***
| ACSC 418    |                | **ACSC 418**  
**Loss Models**  
Topics Include: model based approach to actuarial science, loss distributions, frequency distributions, aggregate loss models.  
*** Prerequisite: ACSC 318 and STAT 351 with a grade of at least 60% ***
| ACSC 419    |                | **ACSC 419**  
**Risk Theory**  
Topics Include: individual risk models for a short term, collective risk models for a single period and extended period, application of risk theory.  
*** Prerequisite: ACSC 318 and STAT 351 with a grade of at least 60% ***
| ACSC 456    |                | **ACSC 456**  
**Applied Stochastic Processes**  
Markov chains discreet and continuous, counting processes (Poisson), renewal theory, simulation.  
*** Prerequisite: STAT 251 or 351 with a grade of at least 60% ***

**ACSC 041-044**  
**Actuarial Science Internship Term 1-4**  
Four month term of Actuarial Internship program.  
** Permission of the Department Head is required to register. **

**ACSC 116**  
**Mathematics of Finance I**  
This course provides a basis of financial mathematics. Topics include measurement of interest, basic and general annuities, yield rates, amortization schedules, and sinking funds.  
*** Prerequisite: MATH 103 or 105 or 110 with a grade of at least 60% ***

**ACSC 216**  
**Mathematics of Finance II**  
This course is a continuation of Mathematics of Finance I and covers more advanced topics ranging from the theory of interest to principles of corporate finance. Specific topics include bonds, securities, analysis or risk and basic principles of pricing theory.  
*** Prerequisite: ACSC 116 with a grade of at least 60% ***

**ACSC 400**  
**Actuarial Internship**  
One year internship program that allows students to gain valuable work experience before completing their undergraduate degree.  
Permission of the Department Head is required to register.  
**

**ACSC 417**  
**Introduction to Casualty Insurance and Credibility**  
An introduction to property/casualty loss reserving techniques. Topics include: reserves in casualty insurance, ratemaking process, credibility and ruin theory.  
*** Prerequisite: ACSC 317 with a grade of at least 60% ***

**ACSC 418**  
**Loss Models**  
Topics Include: model based approach to actuarial science, loss distributions, frequency distributions, aggregate loss models.  
*** Prerequisite: ACSC 318 and STAT 351 with a grade of at least 60% ***

**ACSC 419**  
**Risk Theory**  
Topics Include: individual risk models for a short term, collective risk models for a single period and extended period, application of risk theory.  
*** Prerequisite: ACSC 318 and STAT 351 with a grade of at least 60% ***

**ACSC 456**  
**Applied Stochastic Processes**  
Markov chains discreet and continuous, counting processes (Poisson), renewal theory, simulation.  
*** Prerequisite: STAT 251 or 351 with a grade of at least 60% ***

**ADMN 001 - 004**  
**Co-operative Administrative Work/Study I-IV**  
This zero-credit hour course is for those students in a work term.  
Registration in this course enables students completing work terms to enjoy the same privileges (e.g. use of University facilities) enjoyed by students registered for the semester.  
*** Prerequisite: ADMN 260 and ADMN 285. ***

**ADMN 007**  
**Administration Computer Lab**  
This compulsory pass/fail laboratory will familiarize students with microcomputers and the application software available for personal computers. Students will be instructed in the use of word processing, spreadsheets and communication packages. The emphasis of the lab will be on managerial applications of the software so that students will
be able to use the computer for their remaining administration courses.

**ADMN 100**  
Introduction to Business  
This course will introduce students to the functional areas of business in a variety of organizations. Course enrolment is limited to pre-Administration students in their first 30 credits of university studies.

**ADMN 203**  
Comparative Management in an Indian Setting  
This course deals with the relationship between organizational forms, business and government institutions, economic development and values and cultures of societies. The roles and responsibilities of the business manager and public administrator are examined in the context of the impact of changing technologies and institutions on values and cultures. Case studies from Indian business and public administration will be used. *** Prerequisite: ADMN 260 or BUS 260 ***  
Corequisite: Pre-administration year. ***

**ADMN 205**  
Management Communication  
This course is designed to assist students to improve their skill and confidence as effective communicators in an organizational context. As well, students will explore the issues faced by organizations in communicating internally with employees and externally with diverse publics. The course focuses on both oral and written communications.

**ADMN 210**  
Introduction to Marketing  
This course presents the fundamentals of marketing theory and practice at the introductory level. Drawing upon contributions from the social sciences, the course introduces the students to the generic nature of marketing activity. In particular, attention is directed toward the study of the price, promotion, place, and product components of the "marketing mix." Attention is also directed toward the social and legal environment within which the marketing system functions. *** Prerequisite: ADMN 260 or BUS 260, concurrent enrolment is allowed. ***

**ADMN 220**  
General Band Administration Principles of Band Management  
This survey course is designed to present the managerial implications of a band government administrative structure. Major concepts and findings in the field of management will be compared with band management and its unique demands. Similarities and differences in band management structures will be compared with corporate management and public administration models. *** Prerequisite: ADMN 260 or BUS 260, and ADMN 285 or BUS 285 ***

**ADMN 225**  
Band Business Development  
This course is designed to evaluate the strengths and weaknesses of various approaches to band entrepreneurial development undertaken by government agencies, research and planning groups, band organizations, band councils and individual band entrepreneurs themselves. Problem areas and alternative approaches will be investigated in relation to the physical and social environments, external factors, and the socio-cultural environment. The specific types and levels of skills, experience and knowledge needed by band entrepreneurs will be presented in terms of: 1) abilities and motivation requirements; 2) local knowledge and experience; 3) regional knowledge; and 4) specialized knowledge and skills. *** Prerequisite: ADMN 260 or BUS 260, and ADMN 285 or BUS 285 ***

**ADMN 228**  
Indian Public Administration  
This survey course focuses on Indian government, its concepts, issues and rapidly emerging and changing systems. Special emphasis is given to the policy, financial and personnel aspects of Indian public sector administration. Topics in this area include the Federation of Saskatchewan Indian Nations (FSIN) Convention Act (Jan. 1985), Financial and Personnel Management Acts, Treasury Board, Budget Bureau, Public Service Commission and Program Management. This perspective throughout the course is that of managers in the Indian government public service. *** Prerequisite: ADMN 260 and BUS 285 ***

**ADMN 250**  
Introduction to Human Resource Management and Industrial Relations  
This introductory course addresses basic concepts and processes of the field of human resource management. Topics include: human resource planning, job analysis, recruitment, selection, orientation, training and development, performance management, compensation management, workplace health and safety, and employee and labour relations. *** Prerequisite: ADMN 260 or BUS 260 ***

**ADMN 260**  
Introduction to Organizational Behaviour  
This introductory course addresses basic concepts and processes of organizational behaviour. The topics include: individual level variables, such as perception, personality, attitudes, and motivation; interpersonal and group processes, such as communication, teams, leadership, and power; and organizational level factors such as organizational design, culture, and change. *** Prerequisite: ENGL 100 (Education students may use EPS 116 in lieu of ENGL 100, Certificate students may use AE 019 in lieu of ENGL 100). Concurrent enrolment is allowed. ***

**ADMN 270**  
Introduction to Quantitative Analysis  
An introduction to the use of quantitative techniques as an aid to organizational decision making. Emphasis will be on the formulation and solution of resource allocation, inventory, scheduling, and decision making and on the suitability of such methods. *** Prerequisite: MATH 103 and STAT 151 ***

**ADMN 275**  
Operations Management  
An introduction to the management of the operations function in organizations. Topics include forecasting, planning, scheduling, layout, control over quality and quantity of output. Problems of production of both goods and services will be considered. *** Prerequisite: STAT 151 ***

**ADMN 285**  
Introduction to Financial Accounting  
This course presents the fundamentals of financial accounting theory and practice at the introductory level. It considers basic accounting principles, their application in modern business organizations and the preparation of business records and financial reports.

**ADMN 288**  
Introduction to Managerial Accounting  
This course introduces the student to the use of accounting systems for managerial information and control purposes. It also provides an introduction to some of the problems inherent in assigning valuations to various cost objects. *** Prerequisite: ADMN 285 or BUS 285 ***

**ADMN 290**  
Introduction to Finance  
An introduction to the fundamental valuation techniques used in finance. Topics include discounted cash flow analysis, net present value, capital budgeting, risk, asset and security valuation, corporate capital structure. *** Prerequisite: STAT 151 and ADMN 285 (concurrent enrolment allowed). ***

**ADMN 302**  
Small Business Management  
This course explores small business as a career alternative. It addresses the nature of entrepreneurship and the elements of start-up: opportunity identification, feasibility analysis, the integration of marketing and operating strategies, venture finance, and the business plan. *** Prerequisite: Administration students: completion of all 200-level administration courses in the B.Admin program, Science, Engineering, and Education students: Third or fourth year students. ***

**ADMN 307**  
Business Law  
The course provides the student with an introduction to Canadian legal institutions and processes. Topics discussed are the judicial system, law making, contracts, torts and civil liability, constitutional and administrative law, and criminal law. *** Prerequisite: 45 credit hours of university studies. ***

**ADMN 310**  
Strategic Marketing  
The purpose of the course is to introduce the students to the types of decisions that they would be facing in a marketing-related job. Emphasis will be placed on the application of theoretical concepts to real world problems by using case studies. The course will focus on the major decisions facing marketing executives in their attempt to harmonize the objectives and resources of the organization with the opportunities found in the marketplace. *** Prerequisite: ADMN 210 or BUS 210 ***

**ADMN 312**  
3:3-0
Consumer Behaviour
Survey of noteworthy contributions of the behavioural sciences to the understanding and prediction of consumer behaviour. Contributions of the various research techniques in the social sciences to the understanding of consumer purchasing and decision-making processes, with particular attention to formal and informal influence patterns. Includes a survey of models of consumer purchasing behaviour, brand loyalty, and product cycles. *** Prerequisite: ADMN 210 or BUS 210 *** * Note: This course may not be taken by students who previously enrolled in ADMN 412. *

ADMN 320
Band Planning
This course will enable participants to better understand the community planning process and the techniques and methods of analysis utilized in comprehensive community planning. The course also provides a focus on organizational principles and approaches that will enable bands to initiate effective processes to assume control of their own planning. *** Prerequisite: ADMN 220 or permission of the department head. ***

ADMN 328
Planning and Control in Indian Public Organizations
An advanced course in Indian public administration. Topics include: strategic planning; program development; budgeting; program implementation and evaluation; funds accounting; financial reporting; management control; and financing and financial management for Indian governments and related organizations. *** Prerequisite: ADMN 228 ***

ADMN 340
Government Finance
This course examines the basic principles and practices of government finance in Canada. Topics include the role of government expenditures, basic principles and structure of taxation, and intergovernmental transfers. *** Prerequisite: ECON 101 or 100 or 201 and ECON 102 or 202. *** * Note: Students will not receive credit for both ECON 232 and ADMN 340. ADMN 340 is required in the BAdmin program. *

ADMN 341
Public Sector Management in Canada
An examination of public administration models and concepts from the perspective of the public sector manager. The demands of the public sector organization and environment, including employers, citizens, politicians, unions, and other government departments, will be analyzed through lectures, discussions, and case studies. *** Prerequisite: ADMN 260 or BUS 260 ***

ADMN 352
Negotiations in an Indian Setting
Negotiation as a means of conflict resolution is examined in the context of intergovernmental relationships, intra-organizational relationships, and business-client relationships. The course is enhanced with cases and materials reflecting the Indian experience and perspective. *** Prerequisite: ADMN 260 or BUS 260 ***

ADMN 375
Managing Information Systems
An overview of management and organizational issues surrounding the IS/IT function, in its interaction with business functions within and between organizations. Topics will include the evolution of the IS/IT functions, functional area systems, current trends, strategy, managing and acquiring IS resources and ethical issues surrounding IS/IT. *** Prerequisite: CS 100, ADMN 210 or BUS 210, ADMN 250 or BUS 250, ADMN 275 or BUS 275, ADMN 288 or BUS 288, and ADMN 290 or BUS 290 ***
will develop an appreciation for the important link between communication and organizational effectiveness.

<tr>
<td>ANTH 100 Introduction to Anthropology</td>
<td>3:3-1</td>
</tr>
<tr>
<td>An introduction to the anthropological concept of culture, its uses in the explanation of human behaviour, and its impact on our understanding of human nature, language, and society. The course will explore cultural diversity through the comparative perspective that makes anthropology unique within the humanities and social sciences. It will also show how anthropologists analyse the connections between politics, economics, gender, kinship, and religion within particular cultures.</td>
<td></td>
</tr>
</tbody>
</table>

| ANTH 202 Anthropology of Language | 3:3-0 |
| An introduction to the anthropological study of language. Synchronic and diachronic perspective in linguistic analysis. The relationships of language to mind, culture, and society. *** Prerequisite: ANTH 100 or a linguistics course. *** |

| ANTH 203 Social Organization | 3:3-0 |
| An analysis of the political, economic, and ideological aspects of social organization, with particular emphasis on kinship, gender, and social stratification in non-industrialized societies. *** Prerequisite: Any 100-level course in the social sciences. *** |

| ANTH 230 Ethnography of Southeast Asia | 3:3-0 |
| This course surveys the rich cultural diversity of Southeast Asia, ranging from the head-hunting and opium-growing tribal hill peoples to Hindu-Buddhist and Islamic civilizations. The course will provide some historical background to the area, and cover such topics as social and political organization, gender, religion, and aesthetics. *** Prerequisite: One course from ANTH 100, GEOG 100, HIST 100, PSCI 100, or SOC 100. *** |

| ANTH 231 Andean Ethnography | 3:3-0 |
| This course covers the ethnography of the Andes. Particular attention will be given to indigenous communities and their relations to urban centres and nation-states. Topics will include political economy, state formation, social movements, class, ethnicity and racism, rural-urban migration, community organization, kinship, gender, ritual, dance and music, community organization, kinship, gender, religion, ritual, dance and music. *** Prerequisite: One course from ANTH 100, GEOG 100, HIST 100, INDG 101, PSCI 100, or SOC 100. *** |

| ANTH 233 Ethnography of the Himalayas | 3:3-0 |
| This course surveys the Himalayas as a culture area, investigates the economic, social, and religious strategies of various Himalayan peoples, and traces the influences of Tibetan culture and Buddhism in the region. The course will provide historical and geographical overviews of the area. *** Prerequisite: One course from ANTH 100, GEOG 100, HIST 100, PSCI 100, or SOC 100. *** |

| ANTH 236 Ethnography of Mesoamerica | 3:3-0 |
| This course examines the ethnography of Central America. It focuses upon a variety of rural and urban communities throughout the area with particular emphasis on indigenous groups. Topics include nationalism, ethnicity, state formation, social organization, cosmology, and material culture. *** Prerequisite: One course from ANTH 100, GEOG 100, HIST 100, INDG 101, PSCI 100, or SOC 100. *** |

| ANTH 237 Ethnography of Europe | 3:3-0 |
| Comparative analysis of processes and directions of social and cultural change in a selected area of Europe, particularly since World War II. *** Prerequisite: One course from ANTH 100, GEOG 100, HIST 100, PSCI 100, PSCI 101, SOC 100, or HIST 110. *** |

| ANTH 238 Ethnography of India | 3:3-0 |
| This course is an ethnographic survey of rural and urban India. It will explore connections between hierarchical social organizations (such as caste) and "popular Hinduism". The processes of urbanization and industrialization, and the establishment of India as a nation state, will be related to the emergence of new social identities and organizations such as class. Other topics to be covered include jajmani exchange relationships, festivals, pilgrimage, sects and cults, aesthetics, household and kinship systems. *** Prerequisite: One course from ANTH 100, GEOG 100, HIST 100, PSCI 100, or SOC 100. *** |

| ANTH 239 Ethnography of Amazonia | 3:3-0 |
| This course explores ethnographic and theoretical issues in the social anthropological study of indigenous Amazonian peoples. Privileged topics include the exploration of native understandings of sociality, cosmology, selfhood, morality and emotions. The course also addresses issues in regional history, social organization, and political and economic anthropology. *** Prerequisite: One course from ANTH 100, GEOG 100, HIST 100, INDG 101, PSCI 100, or SOC 100. *** |

| ANTH 240 Popular Culture | 3:3-0 |
| This course will survey the popular culture of "modern" societies, particularly as expressed through mass media, music, speech, dress, consumption and recreation. It will explore how popular culture overlaps with and diverges from elite and scientific discourses, and how it helps articulate such pervasive modern world views as individualism and nationalism. *** Prerequisite: One course from ANTH 100, GEOG 100, HIST 100, PSCI 100, or SOC 100. *** |

| ANTH 241 - 245 Culture Area Studies - an AA-ZZ series. | 3:3-0 |
| Ethnology of the peoples of a selected culture area. Area to be announced. *** Prerequisite: One course from ANTH 100, GEOG 100, HIST 100, PSCI 100, or SOC 100. *** |

| ANTH 261 Andean Ethnohistory | 3:3-0 |
| This course focuses on the history of indigenous Andean peoples from the rise of the Inca empire to the end of Spanish colonialism. It will examine the transformation of Andean culture and society under Inca and then under Spanish rule, and the role of boundaries between the Hispanic and indigenous. *** Prerequisite: One course from ANTH 100, GEOG 100, HIST 100, INDG 101, PSCI 100, SOC 100. *** |

| ANTH 266 Mesoamerican Ethnohistory | 3:3-0 |
| This course examines indigenous societies and Spanish colonialism in the Mesoamerican area. It includes the study of various pre-Columbian political regimes, social organizations, and cosmologies (e.g., Aztec, Maya and Mixtec). Their conquest(s) and incorporation into the Spanish empire and colonial regime is explored through a variety of local studies. *** Prerequisite: One course from ANTH 100, GEOG 100, HIST 100, INST 101, PSCI 100, or SOC 100. *** |
ANTH 300
Theory in Anthropology I
An examination of the major ideas and prominent figures in the development of anthropological thought. Although other areas will be covered, emphasis will be placed on the period from 1850 to 1950. *** Prerequisite: ANTH 202 and 203 ***

ANTH 301
Economic Anthropology
The study of human livelihood from various theoretical perspectives including substantivism, formalism, Marxism, and symbolic anthropology: cross-cultural approaches to production, circulation, and property; folk economic models and their relation to western economic theories. *** Prerequisite: ANTH 100 and any 200-level course in the social sciences. ***

ANTH 302
Political Anthropology
Political power and process in cross-cultural perspective, including societies without specialized political institutions; analysis of the social organization of factionalism, dispute and violence, class and ethnic conflict, state formation, the colonial experience and political problems of emerging nations, legitimation, hegemony and ideology. Prerequisite: ANTH 100 and any 200-level course in the social sciences. ***

ANTH 304
Anthropology of Gender
How different cultures make distinctions between female, male and other gender categories; cross-cultural variation in gender definitions and roles; how gender shapes and is shaped by other aspects of culture and society. *** Prerequisite: ANTH 100 and any 200-level course in the social sciences. ***

ANTH 305
Anthropology of Religion
Religion will be examined in its functional relations to other aspects of culture, especially in relation to the contrast between "primitive" society and "civilization". Anthropological approaches to the study of magic, witchcraft, myth, ritual, ethics, religious movements and cults will be reviewed. *** Prerequisite: ANTH 100 and any 200-level course in the social sciences. ***

ANTH 306
Anthropology of Art
A cross-cultural and inter-cultural exploration of aesthetic. This course compares the role of art in our own society to aesthetic expressions in other societies. It will also explore connections between anthropological and modern art movements. Various aesthetic forms may be addressed, including visual and performing arts as well as architecture. *** Prerequisite: Any 200-level course in the social sciences or art history. ***

ANTH 307
Anthropology of Ritual
How we distinguish ritual from other kinds of activity, the role of religious and secular rituals in social action, and the challenges they present to notions of articulate belief and rationality. The course will discuss the variety of rituals within and across cultures, and cover theories that explain them, including intellectualist, functionalist, and performative approaches. *** Prerequisite: Any 200-level course in the social sciences. ***

ANTH 308
Symbolic Anthropology
Introduction to theories of symbolism and methods of interpretation in anthropology, including debates over rationality, language and culture, structuralism, metaphor theory, and pragmatism. *** Prerequisite: ANTH 100 and any 200-level course in the social sciences. ***

ANTH 309
The Anthropology of Personhood
An exploration of diverse cultural understandings of personhood. This course will locate Western ideologies of individualism and agency within a broader range of notions about the self provided by comparative ethnography. It will discuss "culture and personality" and life history approaches to personhood from the perspective of more recent developments in anthropology. *** Prerequisite: ANTH 100 and any 200-level course in the social sciences. ***

ANTH 310
Race, Ethnicity, and Nation
How anthropologists analyze notions of race, ethnicity, and nation as constructions of social difference and identity in the modern world. This course will critically explore the social processes that both naturalize and politicize issues of culture and group membership in modern nation states. It will also discuss how social scientific theories have been involved in these developments. *** Prerequisite: ANTH 100 and any 200-level course in the social sciences. ***

ANTH 312
Anthropology of Colonialism and Post-Colonialism
Cultural practices, service labor systems, forms of rule, and indigenous responses to colonialisms and their influences in post-colonial settings. Ethnographic and historical accounts of colonialism and their relation to the academic perspective called "post-colonialism." Special emphasis is placed on understanding how colonial categories, practices, and identities have been formulated, resisted, and reconfigured in the lives of the (formerly) colonized and colonizing. *** Prerequisite: ANTH 100 and any 200-level course in the social sciences. ***

ANTH 313
Material Culture and Consumption
A study of the investment of social values in the material world, including the cultural politics of "styles" in architecture, interior decoration, dress, etc. Consumption is approached ethnographically, in relation to modern personhood, kinship, and household formation. Practices such as collecting are studied in terms of the cultural politics of value in various societies. Emphasis is placed on modernity, with reference to ethnographic records of material culture in pre-industrial societies. *** Prerequisite: ANTH 100 and any 200-level course in the social sciences. ***

ANTH 320 - 329
1-3:1-3-0
Selected Topics in Anthropology - an AA-ZZ series.
Courses designed as required for groups of senior undergraduates. *** Prerequisite: Any 200-level course in the social sciences. *** Permission of the Department Head is required to register. **

ANTH 333
3:3-0
Ethnographic Research
This course will explore how socio-cultural anthropologists do ethnographic fieldwork, and the methodological, epistemological, and ethical issues they encounter in such research. Topics covered may range from the technical aspects of participant observation, ethnographic interviewing, and the writing of fieldnotes, to the broader issues of how a researcher’s point of view and relation to the community under study influence the creation of ethnographic knowledge. *** Prerequisite: One of ANTH 202, 203, 230-245, SOST 203, or permission of department head. ***

ANTH 340
3:3-0
Anthropology and Contemporary Human Problems
The contribution of anthropological methods and principles to search for practical and ethical solutions to contemporary social and administrative problems involving intercultural communication and social change. *** Prerequisite: Any 200-level course in the social sciences. *** " Note: ANTH 340 is not regularly offered. *

ANTH 343
3:3-0
Medical Anthropology
The comparative study of medical systems and how they interact with their social and cultural context, including such issues as the healer-patient relationship, the socio-cultural construction of health and illness, and medical pluralism. *** Prerequisite: ANTH 100 and any 200-level course in the social sciences. ***

ANTH 390-395
1-3:1-3-0
Directed Reading and Research - an AA-ZZ series.
Courses designed for individual students. ** Permission of the Department Head is required to register. **

ANTH 400
3:3-0
Theory in Anthropology II
An overview of the principal schools of thought that have shaped the work of anthropologists since 1950. *** Prerequisite: ANTH 300 ***
ANTh 410 Anthropology Seminar - an AA-ZZ series. 3:3-0
A seminar devoted to the study of special topics in anthropology. Topics to be announced. *** Prerequisite: A 300-level course in anthropology. *** ** Permission of the Department Head is required to register. **

ANTh 490-495 Directed Reading and Research - an AA-ZZ series. 1-3:1-3-0
Courses designed for individual students.

ANTh 496 Special Topics in Anthropology - an AA-ZZ series. 1-3:1-3-0
Courses designed as required for groups of students.

ANTh 498-499 Honours Thesis 3:3-0
An original exposition of a topic approved by the department. ** Permission of the Department Head required to register. **

ART Faculty of Fine Arts Department of Visual Arts

ART 100 Introduction to Art 3:3-0
Art practices and traditions of the present and the past, criticism and aesthetics from the viewpoint of the artist. Discussions by artists and gallery visits will be included.

ART 200 Methods and Media 3:0-4
The basic historical problems of reference in relation to the use of various methods and media in the visual arts. Basic studio exercises and selected reading will be assigned. *** Prerequisite: ART 100 ***

The following courses are restricted to Visual Arts, Indian Art and Arts Education majors or permission of the Department Head.

ART 220 Two-Dimensional Form 3:0-4
The elements and principles of two-dimensional form, focusing on the development of visual perception and familiarity with basic art vocabulary. One-half of the semester will involve colour theory. *** Prerequisite: ART 100 is required for students who are not Visual Arts, Indian Art or EVIS majors. ***

ART 221 Three-Dimensional Form 3:0-4
An introductory course addressing the elements of art, nomenclature, and principles of three dimensional concepts. *** Prerequisite: ART 100 is required for students who are not Visual Arts, Indian Art or EVIS majors. ***

ART 222 Introduction to Photography I 3:0-4
An introductory studio course introducing the techniques and theories of black and white photography. Students will learn to use a 35mm camera and to develop and print black and white photographs. Photographic history, critical and formal analysis and presentation of work will be addressed. *** Prerequisite: ART 220 or INA 220 and ARTH 100. ***

ART 230 Drawing I 3:0-4
Basic drawing skills through a broad range of drawing media, utilizing live models as well as studio still lifes. *** Prerequisite: ART 220 or INA 220 ***

ART 231 Drawing II 3:0-4
A second level studio course in drawing building on the skills and theory learned in Art 230. Formal and critical analysis will be addressed in individual and group critiques. *** Prerequisite: ART 230 and ARTH 100 ***

ART 240 Painting I 3:0-4
Development of basic painting skills and techniques. Class assignments, individual and group critiques will explore traditional and contemporary painting concerns. *** Prerequisite: ART 230 ***

ART 250 3:0-4

Sculpture I
The development of a personal and expressive use of form. Studio exercises will include work in the following media: clay, wax, plaster, wood, metal, and stone. *** Prerequisite: ART 230, and ART 221 or INA 230 ***

ART 260 Ceramics I 3:0-4
A course dealing with the basic properties of clays and their uses. Studio practice will include throwing, glazing, kiln loading and firing. Lectures on history of ceramics. *** Prerequisite: ART 221 or INA 230 ***

ART 270 Printmaking I 3:0-4
An introduction to the basic elements of printmaking with emphasis on composition and drawing. The fundamentals of a variety of printmaking media will be undertaken. *** Prerequisite: ART 230 ***

ART 280 Intermedia II 3:0-4
An introduction to the theoretical framework and practical application of Intermedia practice, involving several of the following: time-based electronic and digital media, performance art, artist's books and installation. *** Prerequisite: VART Majors: ARTH 100, ART 220 and 221. Other majors in FA: ARTH 100 and two 200-level courses or higher in the student's major. ***

ART 330 Drawing III 3:0-3
A third level drawing course with further exploration into media and techniques. Individual expression and critical discourse will be developed through group and individual critiques. *** Prerequisite: ART 231 and ARTH 204 ***

ART 340 Painting II 6:0-6
A second-level painting course. Class assignments will emphasize stylistic and conceptual concerns combined with self-critical ability through regular individual and group critiques. *** Prerequisite: ART 240 ***

ART 350 Sculpture II 6:0-6
The development of personal interest and capability. Group discussion and criticism combined with studio exercises. Ideas related to assemblage and mixed media will be introduced. *** Prerequisite: ART 250 ***

ART 360 Ceramics II 6:0-6
Hand building and advanced throwing problems. A study of the basic properties of glazes and kiln firing will also be dealt with. *** Prerequisite: ART 260 ***

ART 370 Printmaking II 6:0-6
An exploration of printmaking techniques in etching and lithography. *** Prerequisite: ART 270 ***

ART 380 Intermedia III 6:0-6
This course will develop Intermedia concepts and skills focusing on the planning and organization of increasingly elaborate projects. Collaborative and visualization techniques such as storyboarding and model building. Individual and group assignments/projects. *** Prerequisite: ART 280 ***

ART 390-395 Directed Study - an AA-ZZ series. 1-6:0-1-6
Directed Study for Seniors. Electives can be taken in third and fourth year concurrently. Individual research in specific disciplines under the direction of an instructor chosen by the student.

ART 396-399 Selected Topics - an AA-ZZ series. 1-6:1-6-0
Course designed as required for groups of senior undergraduates.
ART 400 Professional Issues I 1.5:0-2 Hands on skill development and practical information about art as a profession. *** Prerequisite: Graduating year of BFA. *** Permission of the Department Head is required to register. **

ART 401 Professional Issues II 1.5:0-2 For graduating BFA students in their final semester. Continued discussion of professional issues and practices and preparation of graduating exhibition and artist statement. *** Prerequisite: ART 400 ***

ART 430 Drawing IV 6:0-6 A third-level drawing course focusing on conceptual and technical issues pertinent to contemporary practice. Individual projects. Critical discussion will take place regularly. *** Prerequisite: ART 330 ***

ART 431 Drawing V 6:0-6 This fourth-level drawing course will concentrate on the development of individual expression and self-critical ability in self-initiated projects as well as regular critical discussion. *** Prerequisite: ART 430 ***

ART 432 Drawing VI 6:0-6 Advanced studio exploration in drawing, allowing greater attention to individual student needs. *** Prerequisite: ART 431 ***

ART 433 Drawing VII 6:0-6 Advanced studio exploration in drawing, allowing greater attention to individual student needs. *** Prerequisite: ART 432 ***

ART 434 Drawing VIII 6:0-6 Advanced studio exploration in drawing, allowing greater attention to individual student needs. *** Prerequisite: ART 433 ***

ART 440 Painting III 6:0-6 Third-level painting course with assignments and individual projects, focusing on individual expression and techniques. Contemporary concerns through critical discussion. *** Prerequisite: ART 340 ***

ART 441 Painting IV 6:0-6 Fourth-level painting course will concentrate on the development of individual expression and self-critical ability in self-initiated projects and regular critical discussion. *** Prerequisite: ART 440 ***

ART 442 Painting V 6:0-6 Advanced studio explorations in painting, allowing greater attention to individual student needs. *** Prerequisite: ART 441 ***

ART 443 Painting VI 6:0-6 Advanced studio explorations in painting, allowing greater attention to individual student needs. *** Prerequisite: ART 442 ***

ART 450 Sculpture III 6:0-6 Studio projects will be assigned individually in consultation with the instructor. Individual and group discussion and criticism will be encouraged. *** Prerequisite: ART 350 ***

ART 451 Sculpture IV 6:0-6 Advanced studio explorations in sculpture, allowing greater attention to individual student needs. *** Prerequisite: ART 450 ***

ART 452 Sculpture V 6:0-6 Advanced studio explorations in sculpture, allowing greater attention to individual student needs. *** Prerequisite: ART 451 ***

ART 453 Sculpture VI 6:0-6 Advanced studio explorations in sculpture, allowing greater attention to individual student needs. *** Prerequisite: ART 452 ***

ART 460 Ceramics III 6:0-6 Advanced ceramic techniques and aesthetics relating to the medium of clay. Kiln construction, methods of firing and an evaluation of different fuels will also be undertaken. *** Prerequisite: ART 360 ***

ART 461 Ceramics IV 6:0-6 Advanced studio explorations in ceramics, allowing greater attention to individual student needs. *** Prerequisite: ART 460 ***

ART 462 Ceramics V 6:0-6 Advanced studio explorations in ceramics, allowing greater attention to individual student needs. *** Prerequisite: ART 461 ***

ART 463 Ceramics VI 6:0-6 Advanced studio explorations in ceramics, allowing greater attention to individual student needs. *** Prerequisite: ART 462 ***

ART 470 Printmaking III 6:0-6 A continuation of Printmaking II. *** Prerequisite: ART 370 ***

ART 471 Printmaking IV 6:0-6 Advanced studio explorations in printmaking, allowing greater attention to individual student needs. *** Prerequisite: ART 470 ***

ART 472 Printmaking V 6:0-6 Advanced studio explorations in printmaking, allowing greater attention to individual student needs. *** Prerequisite: ART 471 ***

ART 473 Printmaking VI 6:0-6 Advanced studio explorations in printmaking, allowing greater attention to individual student needs. *** Prerequisite: ART 472 ***

ART 480 Intermedia III 6:0-6 Advanced intermedia projects concentrating on individual conceptual skills and self critical evaluation. Discussion of contemporary art practices culminating in individual projects (instructors may authorize collaborative projects). *** Prerequisite: ART 380 and ARTH 204 ***

ART 481 Intermedia IV 6:0-6 Concentrated studio explorations in intermedia with emphasis on Student-initiated projects. *** Prerequisite: ART 480 ***

ART 482 Intermedia V 6:0-6 Concentrated studio exploration on intermedia with emphasis on student-inspired projects. *** Prerequisite: ART 481 ***

ART 490-495 Directed Study - an AA-ZZ series. 1-6:0-1-6 Electives can be taken in third and fourth year concurrently. Individual research in specific disciplines under the direction of an instructor chosen by the student.

ART 496-499 Selected Topics - an AA-ZZ series. 1-6:0-1-6 Course designed as required for groups of senior undergraduates.

ARTH 100 Introduction to Art History 3:3:0 A survey of visual culture from prehistoric times to the present.

ARTH 201 Prehistoric and Ancient Art 3:3:0 A survey of selected works of art and architecture from the prehistoric to the end of the Roman period. Various forms of visual communication will be discussed in relation to their social context and in relation to the theoretical and contemporary issues (the ‘western’ tradition of art, race, gender, class, body imagery, visual propaganda, etc.) *** Prerequisite: ARTH 100 ***
ARTH 202 3:3-0
Medieval Art History
Medieval art from the early Christian era to the end of the high Gothic style in Europe. *** Prerequisite: ARTH 100 ***

ARTH 204 3:3-0
Modern Art and the Avant-Garde
A survey of Modern art from the neo-classical period to the 1960s. Art practices will be discussed in the context of Modernity and of the succession of Avant-garde movements in the nineteenth and twentieth centuries. *** Prerequisite: ARTH 100 ***

ARTH 212 3:3-0
Art and Identity in the Renaissance
A survey of the visual culture of Italy and Northern Europe from around 1300 to 1600. Lectures, readings and discussions will focus on the uses of visual representations in the formation of individual and group identities. *** Prerequisite: ARTH 100 ***

ARTH 213 3:3-0
17th-Century Art and Culture
Survey of the visual culture of 17th-century Western Europe. This course explores the uses of cultural forms within an ever-shifting context that included tensions between absolutism and capitalism, religious conflicts, colonial violence, the growth of cities and the exchange of new forms of knowledge. *** Prerequisite: ARTH 100 ***

ARTH 250 3:3-0
Art of the Soviets
A history of Russian and Soviet art from the nineteenth century to the present. The course will focus on Soviet art and institutions. *** Prerequisite: ARTH 100 ***

ARTH 270 3:3-0
Asian Art
A survey of the highlights of the visual culture of Asia in relation to its religions and societies from the pre-modern period. *** Prerequisite: ARTH 100 ***

ARTH 280 3:3-0
History of Ceramics
Cross-cultural perspectives on ceramics, examining ceramics traditions in various cultures, mainly the West and Asia. *** Prerequisite: ARTH 100 ***

ARTH 290 3:3-0
Selected Topics in Art History - an AA-ZZ series.
Varying topics in art history for undergraduates. *** Prerequisite: ARTH 100 or permission of department head. ***

ARTH 300 3:0-3
Methodology and Bibliography of Art History
Introduction to research methodology for the study of art history. *** Prerequisite: One of ARTH 201,202,212,213 or 204 and two 300-level art history courses. ***

ARTH 301 3:3-0
Art Theory and Art Criticism
History and practice of critical thought, from the classical notion of beauty to contemporary concerns related to the body, power, race, gender, etc. Students will be introduced to conceptual tools and vocabulary of Marxism, semiotics, psychoanalysis and deconstruction. *** Prerequisite: ARTH 204 ***

ARTH 313 3:3-0
Visual Culture of the 16th and 17th Centuries
This course will explore selected topics in the art and culture of the 16th and 17th centuries (wonder and curiosity, print and popular culture, portraiture and identity, the body and the city, etc.) *** Prerequisite: ARTH 212 or 213 ***

ARTH 314 3:3-0
Art in the Postmodern Era
An exploration of art practices from the 1960s to the present with a specific focus on new media. Students will familiarize themselves with theoretical issues and critical terms associated with contemporary art. *** Prerequisite: ARTH 204 ***

ARTH 324 3:0-3
Canadian Art and Cultural Identity
Art in Canada from the colonial period to the present. Students will be introduced to issues of culture, ethnicity and gender, in relation to the Canadian context. *** Prerequisite: ARTH 204 ***

ARTH 350 1-6:1-6-0
Special Seminar
The study of various fields of the history of art involving visits to major art museums and required individual research by the participating students. Conducted by members of the faculty. *** Prerequisite: Any 200-level art history course. ***

ARTH 361 3:3-0
Gender, Race and the Histories of Art
Seminar on the impact of feminist and post-colonial critiques on the discipline of art history. Readings, discussions and papers will focus on topics such as body imagery, the gaze, sexuality, primitivism, orientalism, the canon and culture wars, the studying of non-Western cultures, etc. *** Prerequisite: WMST 200 or any 200-level art history course. ***

ARTH 370 3:3-0
Modernity and the Arts of East Asia
This course surveys the impact of modernity on the visual culture (painting, comics, film and animation) of East Asia and its diaspora, touching on issues such as ethnic identity, regionalism, nation, Orientalism and postmodernism. *** Prerequisite: ARTH 270 ***

ARTH 371 3:3-0
Japanese Art
A survey of Japanese art from prehistoric times to the present. *** Prerequisite: ARTH 270 ***

ARTH 372 3:3-0
Cross-Cultural Perspectives on Painting
Cross-cultural perspectives on painting, examining the meaning of painting in various cultures, mainly the West and Asia. *** Prerequisite: One 200-level art history course ***

ARTH 375-389 3:3-0
Select Topics in Art History - an AA-ZZ series.
Varying topics art history. Courses designed as required for groups of senior undergraduates.

ARTH 380-389 3:3-0
Directed Study - an AA-ZZ series.
Directed studies in history of art under the supervision of an instructor of the student's choice.

ARTH 390-395 3-6:3-0
Internship - an AA-ZZ series.
Supervised Internship with an academic component. ** Senior standing and qualifying scholarship record is required to register. Seek permission from the Department Head. **

ARTH 396 3 or 6:6-3
Internship - an AA-ZZ series.
Supervised Internship with an academic component. ** Senior standing and qualifying scholarship record is required to register. Seek permission from the Department Head. **

ARTH 400 3:3-0
The Literature of Art History and Art Criticism
Critical writings about art by Aristotle, Vasari, Woelflin, Ruskin, and others will be discussed as well as writings by some artists and architects. *** Prerequisite: ARTH 300 ***

ARTH 490-499 1-6:3-0
Directed Study - an AA-ZZ series.
Directed studies in history of art under the supervision of an instructor of the student's choice.

ARTS 001-004 1-0-0
Arts Co-op Education
Four-month, Co-op work term approved by the Faculty and arranged by the Co-op Coordinator. *** Prerequisite: Acceptance into the Arts Co-operative Education Program. *** ** Permission of the Co-op Coordinator is required to register. **

<td>The biological basis for environmental change and its impacts on human society. Lecture-based course will review the patterns, causes and consequences of human-induced and natural environmental change. Topics include global warming, acid rain, ozone depletion, fisheries collapse, sustainable forestry, agriculture, biodiversity and conservation for Biology and Environmental Science Majors. Prerequisite: BIOL 100 and 101.</td>
</tr>
</tbody>
</table>
BIOL 385  3:3-3  
Vertebrate Animal Biology  
The anatomy, evolution, taxonomy, distribution, phylogeny and fossil history of vertebrate animals. Laboratories will involve dissections to illustrate diversity of body form and function.  *** Prerequisite: BIOL 265 or BIOL 276 ***

BIOL 390  3:3-3  
General and Comparative Endocrinology  
Principles and concepts in vertebrate and invertebrate endocrinology including the principal actions of hormones, neurohormones, hormone interactions and the evolution of hormones and their action.  *** Prerequisite: BIOL 265 ***

BIOL 395  3:3-3  
Animal Developmental Biology  
Animal developmental biology provides an overview of the major cellular and molecular events during early embryonic development in animals. Following discussions from fertilization to an outline of the body plan, the development of selected organ systems will be studied in greater depth. The role of gene activity in development will be considered.  *** Prerequisite: BIOL 288 ***

BIOL 401  3:3-3  
Molecular Evolution and Systematics  
An introduction to fundamental concepts in evolution and systematics with an emphasis on computer-assisted analysis of DNA and protein sequences. Course provides opportunities for learning applied aspects of molecular approaches to, for example, biogeography, ecology and paleontology.  *** Prerequisite: One of BIOL 305, 318, 405, BIOL 422, 423 with a minimum grade of 65%,***

BIOL 403  3:3-3  
Microbial Ecology  
Ecology of micro-organisms in soil and water.  *** Prerequisite: BIOL 275 and 300 ***

BIOL 405  3:3-3  
Molecular Genetics  
Anatomy of the genome in prokaryotes and eukaryotes, evolution of genomes, molecular phylogenies, gene expression and its regulation in pro- and eukaryotes, recombination, and modern molecular methods.  *** Prerequisite: BIOL 305 ***

BIOL 410  3:3-3  
Bacterial Genetics  
A focus on prokaryotic genetics that will include topics on: genome organization/structure, gene regulation with particular emphasis on its role in bacterial development, principles of gene transfer, genetic mutation including transposition, and applied bacterial genetics.  *** Prerequisite: BIOL 305 ***

BIOL 425  3:3-1  
Ecological Methodology  
A research framework for investigating ecological patterns and processes in natural populations and communities. Observational and experimental methodologies will be covered which enable the researcher to develop and test hypotheses.  *** Prerequisite: BIOL 275 and, STAT 152 or BIOL 341 ***

BIOL 435  3:3-3  
Advanced Aquatic Ecology  
Regulation of plankton communities in freshwater and saline lakes. Experimental evidence for population control by predation, competition, and the physical environment. Experimental design. There will be individual field research projects.  *** Prerequisite: BIOL 335 ***

BIOL 455  3:3-3  
Developmental Endocrinology  
An integrative study of the hormonal signaling systems regulating developmental processes with a focus on metamorphosis. Topics will vary annually with emphasis being placed on the importance of gene expression in the regulation of developmental programs.  *** Prerequisite: BIOL 305 or BIOL 395, and BIOL 390 ***

BIOL 465  3:3-3  
Comparative Physiology  
Physiological mechanisms employed by organisms at the cellular, tissue and whole body levels emphasizing similarities and differences among phylogenetically related organisms.  *** Prerequisite: BIOL 265 ***

BIOL 475  3:3-3  
Population and Community Ecology  
Advanced topics in population and community regulation. Compulsory field work at Cypress Hills Field Station 7 days prior to start of lectures.  *** Prerequisite: BIOL 275, MATH 105 or 110, STAT 151 and 152 ***

BIOL 476  3:3-3  
Quaternary Ecology and Palynology  
Analysis and ecological significance of Quaternary changes in biological distribution. Emphasis on study of pollen grains, spores and other microfossils in Quaternary, especially Holocene, ecology.  *** Prerequisite: BIOL 275 ***

BIOL 477  6:72-72  
Northern Canada Plant Identification and Vegetation Communities  
Survey of the flora of northern Canada, including the vegetation of forests, grasslands, alpine and subalpine, and wetlands. An overview of vegetation sampling methods useful in northern plant communities. A field-based course with daily field trips and laboratory work. Students will complete a final project in consultation with the instructor. Transportation to, and accommodation in, the Yukon are charged in addition to normal fees.  *** Prerequisite: BIOL 275 or GEOG 325 ***

BIOL 478  3:0-0  
Boreal Field Ecology  
Students will learn field techniques to assay biotic and abiotic composition of forests and wetland habitats including: Ecosite classification, plant identification, soil science, forest mensuration, live trapping of birds and mammals, population estimation, faunal surveys, and biodiversity assessment. Data collection will be used for a major research paper. Additional fees may apply.  *** Prerequisite: BIOL 275 and STAT 151 or equivalent. ***

BIOL 485  3:3-3  
Ornithology  
Classification, anatomy, physiology, behaviour, ecology and conservation of birds. Compulsory field work for several days prior to the start of lectures.  *** Prerequisite: BIOL 385 ***

BIOL 488  0:1-0  
Seminars in Biology  
All majors and honours students in their fourth year must attend the departmental seminar series.

BIOL 490-495  1-3:1-3-0  
Selected Topics/Reading Courses - an AA-ZZ series.  Courses used to offer topical material.

BIOL 498  3:1-0  
Honours Research  
Individual student research under the direction of a faculty member in the final year of the BSc Honours program.

BIOL 499  3:1-0  
Honours Thesis  
Preparation and defense of honours thesis. The defense will consist of a seminar on the research conducted, which will be attended by all other current honours students. The seminar will be followed by an oral examination of the thesis by a faculty committee.

BUS 007  0:0-2  
Business Computer Lab  
This compulsory pass/fail laboratory will familiarize students with microcomputers and the application software available for personal computers. Students will be instructed in the use of word processing, spreadsheets, presentation software, databases and communication packages. The emphasis of the lab will be on managerial applications of the software so students will be able to utilize the computer for their
remaining business administration courses. * Note: Students must take this course during their first semester in the Business Administration Program. *

BUS 100 Introduction to Business 3:3-0
This course will introduce students to the functional areas of business in a variety of organizations. * Note: Course may be taken only by Pre-Business Administration students and Excellence students in their first 30 credits of university studies. Students may not receive credit for both BUS 100 and ADMN 100. *

BUS 205 Management Communication 3:3-0
This course is designed to assist students to improve their skills and confidence as effective communicators in an organizational context. As well, students will explore the issues faced by organizations in communicating internally with employees and externally with divergent publics. The course focuses on both oral and written communications. * Note: Students may only receive credit for one of BUS 205, ADMN 205, and ADMN 265. *

BUS 210 Introduction to Marketing 3:3-0
This course presents the fundamentals of marketing theory and practice at the introductory level. Drawing upon contributions from the social sciences, the course introduces the students to the generic nature of marketing activity. In particular, attention is directed toward the study of the price, promotion, place, and product components of the “marketing mix.” Attention is also directed toward the social and legal environment within which the marketing system functions. *** Prerequisite: BUS 260 or ADMN 260 (concurrent enrolment is allowed). *** * Note: Students may not receive credit for both BUS 210 and ADMN 210. *

BUS 250 Introduction to Human Resource Management and Industrial Relations 3:3-0
This introductory course addresses basic concepts and processes of the field of human resource management. Topics include: human resource planning, job analysis, recruitment, selection, orientation, training and development, performance management, compensation management, workplace health and safety, and employee and labour relations. *** Prerequisite: BUS 260 (or ADMN 260) *** * Note: Students may not receive credit for both BUS 250 and ADMN 250. *

BUS 260 Introduction to Organizational Behaviour 3:3-0
This introductory course addresses basic concepts and processes of organizational behaviour. The topics include individual level variables, such as perception, personality, attitudes, and motivation; interpersonal and group processes, such as communication, teams, leadership, and power; and organizational level factors such as organizational culture, change. *** Prerequisite: EPS 116 or ENGL 100 or AE 019 (concurrent enrolment is allowed). *** * Note: Students may not receive credit for both BUS 260 and ADMN 260. *

BUS 270 Introduction to Quantitative Analysis 3:3-0
An introduction to the use of quantitative techniques as an aid to organizational decision making. Emphasis will be on the formulation and solution of resource allocation, inventory, scheduling, and decision making and on the suitability of such methods. *** Prerequisite: MATH 103 and STAT 151 *** * Note: Students may not receive credit for both BUS 270 and ADMN 270. *

BUS 285 Introduction to Financial Accounting 3:3-2
This course presents the fundamentals of financial accounting theory and practice at the introductory level. It considers basic accounting principles, their application in modern business organizations and the preparation of business records and financial reports. * Note: Students may not receive credit for both BUS 285 and ADMN 285. *

BUS 288 Introduction to Managerial Accounting 3:3-0
This course introduces the student to the use of accounting systems for managerial information and control purposes. It also provides an introduction to some of the problems inherent in assigning valuations to various cost objects. *** Prerequisite: BUS 285 (or ADMN 285) *** * Note: Students may not receive credit for both BUS 288 and ADMN 288. *

BUS 290 Introduction to Finance 3:3-0
An introduction to the fundamental valuation techniques used in finance. Topics include discounted cash flow analysis, net present value, capital budgeting, risk, asset and security valuation, and corporate capital structure. *** Prerequisite: STAT 151 and BUS 285 (285 may be taken concurrently) *** * Note: Students may only receive credit for one of BUS 290, ADMN 290, and ACSC 216. *

BUS 302 Small Business Management 3:3-0
This course explores small business as a career alternative. It addresses the nature of entrepreneurship and the elements of startup: opportunity identification, feasibility analysis, the integration of marketing and operating strategies, venture finance, and the business plan. *** Prerequisite: BUS 210 (or ADMN 210), BUS 250 (or ADMN 250), BUS 275 (or ADMN 275), BUS 288 (or ADMN 288), and BUS 290 (or ADMN 290). Science, engineering, and education students only: Completion of a minimum of 60 credit hours of university studies. *** * Note: Students may only receive credit for one of BUS 302, ADMN 302, and ENG 436. *

BUS 306 Ethical Issues in Business 3:3-0
A study of ethical concerns facing managers at all levels within different types of business enterprises. The course will take a multidisciplinary approach to knowledge, concepts and analytical tools in investigating contemporary social issues within business. *** Prerequisite: BUS 210 (or ADMN 210), BUS 250 (or ADMN 250), BUS 275 (or ADMN 275), BUS 288 (or ADMN 288), and BUS 290 (or ADMN 290). *** * Note: Students may not receive credit for both BUS 306 and ADMN 306. *

BUS 307 Business Law 3:3-0
The course provides the student with an introduction to Canadian legal institutions and processes. Topics discussed are the judicial system, law making, contracts, torts and civil liability, constitutional and administrative law, and criminal law. *** Prerequisite: 45 credit hours of university studies. *** * Note: Students may not receive credit for both BUS 307 and ADMN 307. *

BUS 308 International Business 3:3-0
The rapid growth of international business and competition requires business executives to view business management from a global perspective. This course focuses upon the nature of international business and the distinctive opportunities and problems that arise in a global business environment. Topics include international trade, the international monetary system, multinational business operations, economic integration, and business relations with host countries. *** Prerequisite: BUS 210 (or ADMN 210), BUS 250 (or ADMN 250), BUS 275 (or ADMN 275), BUS 288 (or ADMN 288), and BUS 290 (or ADMN 290). *** * Note: Students may not receive credit for both BUS 308 and ADMN 308. *

BUS 310 Strategic Marketing 3:3-0
The purpose of the course is to introduce students to the types of decisions that they would be facing in a marketing-related job. Emphasis will be placed on the application of theoretical concepts to real world problems by using case studies. The course will focus on the major decisions facing marketing executives in their attempt to
harmonize the objectives and resources of the organization with the opportunities found in the marketplace. *** Prerequisite: BUS 210 (or ADMN 210) *** * Note: Students may not receive credit for both BUS 310 and ADMN 310. *

**BUS 312 Consumer Behaviour**
Survey of noteworthy contributions of the behavioural sciences to the understanding and prediction of consumer behaviour. Contributions of the various research techniques in the social sciences to the understanding of consumer purchasing and decision-making processes, with particular attention to formal and informal influence patterns. Includes a survey of models of consumer purchasing behaviour, brand loyalty, and product cycles. *** Prerequisite: BUS 210 (or ADMN 210) *** * Note: Students may only receive credit for one of BUS 312, ADMN 312, and ADMN 412. *

**BUS 340 Government Finance**
This course examines the basic principles and practices of government finance in Canada. Topics include the role of government expenditures, basic principles and structure of taxation and inter-governmental transfers. *** Prerequisite: ECON 201 and ECON 202 *** * Note: Students may only receive credit for one of BUS 340, ADMN 340, and ECON 232. *

**BUS 355 Introduction to Industrial Relations**
This course concerns the employment relationship and in particular the union management relationship. The economic, social and political context of collective bargaining is examined as well as the processes used by the parties. While the primary focus is on Canadian public and private organizations, comparisons with some other nations will be made. *** Prerequisite: BUS 250 (or ADMN 250) *** * Note: Students may not receive credit for both BUS 355 and ADMN 355. *

**BUS 356 Staffing Organizations**
This course takes the perspective of human resources professionals and is concerned with recruitment, selection, placement in the workplace, and career patterns within the organization. The focus is on the design, implementation, and operation of staffing systems. *** Prerequisite: BUS 250 (or ADMN 250) *** * Note: Students may only receive credit for one of BUS 356, ADMN 356, ADMN 435AA. *

**BUS 357 Compensation**
This course takes the perspective of human resources professionals and is concerned with the policies, objectives and techniques of designing and implementing compensation systems. The topics include providing for internal and external equity, performance pay, indirect pay systems as well as international compensation considerations. *** Prerequisite: BUS 250 (or ADMN 250) *** * Note: Students may not receive credit for both BUS 357 and ADMN 357. *

**BUS 358 Training and Development**
This course takes the perspective of human resources professionals and is concerned with the design, implementation, and evaluation of training and development programs. The topics include: performing needs analysis, applying learning models in designing and implementing programs, and evaluating the costs and benefits of training and development. The course also considers career development issues and practices. *** Prerequisite: BUS 250 (or ADMN 250) *** * Note: Students may only receive credit for one of BUS 358, ADMN 358 and ADMN 435AL. *

**BUS 361 Management of Performance**
This course takes the perspective of human resources professionals and is concerned with the design, development, implementation, and evaluation of systems that measure, support, review and appraise individual performance. These systems can help managers improve workforce effectiveness and address performance problems. *** Prerequisite: BUS 250 (or ADMN 250) *** * Note: Students may not receive credit for both BUS 361 and ADMN 361. *

**BUS 362 Management Skill Development**
This course concerns the development of managerial skills such as: managing stress, organizing work, creating motivating work environments, interacting with others, leading others, building a high-performance team, and making effective decisions. The course involves self-assessment, analysis, practice, and application directed at improving students' personal effectiveness as managers. *** Prerequisite: BUS 250 or ADMN 250 *** * Note: Students may only receive credit for one of BUS 362, ADMN 362, and ADMN 462. *

**BUS 363 Organizational Analysis**
This course concerns the structures and processes of organizations and their sub-units as they influence and are influenced by their technology and environment. The topics include: organizational structure and strategy, organizational decision-making, conflict, life cycles, innovation, and emerging forms. *** Prerequisite: BUS 250 (or ADMN 250) *** * Note: Students may only receive credit for one of BUS 363, ADMN 363 and ADMN 463. *

**BUS 364 Managing a Diverse Workforce**
This course concerns the increasing diversity of the work force and the major challenges and opportunities faced by organizations and their managers in this regard, such as maintaining fairness and justice, making effective decisions for performance improvement, allowing flexibility, and managing in the global environment. The course also examines the legal frameworks in place that value and protect employee and employer rights related to gender, race, age, religion, sexual orientation, ability, etc. *** Prerequisite: BUS 250 (or ADMN 250) *** * Note: Students may only receive credit for one of BUS 364, ADMN 364, and ADMN 435AP. *

**BUS 375 Managing Information Systems**
An overview of management and organizational issues surrounding the IS/IT function, in its interaction with business functions within and between organizations. Topics will include the evolution of the IS/IT functions, functional area systems, current trends, strategy, managing and acquiring IS resources and ethical issues surrounding IS/IT. *** Prerequisite: BUS 210 (or ADMN 210), BUS 250 (or ADMN 250), BUS 275 (or ADMN 275), BUS 288 (or ADMN 288), and BUS 290 (or ADMN 290). *** * Note: Students may only receive credit for one of BUS 375, ADMN 375, and ADMN 435AI. *

**BUS 384 Introduction to Taxation for Business Decisions**
This course provides an introduction to the business aspects of taxation from the perspective of the business manager. *** Prerequisite: BUS 285 (or ADMN 285) *** * Note: Students are encouraged to have completed BUS 340 (or ADMN 340). Students may not receive credit for both BUS 384 and ADMN 384. *

**BUS 385 Intermediate Financial Accounting I**
This course continues and builds upon the study of financial accounting begun in BUS 285. It extends students' understanding of generally accepted accounting principles through an in-depth examination of asset, liability and shareholders' equity valuation, income measurement and financial statement analysis. It provides a greater awareness of the underlying rationale of existing practice and an appreciation of the characteristics and limitations of accounting. *** Prerequisite: BUS 285 (or ADMN 285), and BUS 290 (or ADMN 290) (concurrent enrolment is allowed in BUS 290) *** * Note: Students may not receive credit for both BUS 385 and ADMN 385. *

**BUS 386 Auditing Theory and Application**
This course emphasizes the philosophy of auditing and its importance in the acceptance of financial statements by society. Areas covered will include audits, the responsibilities of auditors and the objectives of independent audit. *** Prerequisite: STAT 151, and BUS 385 (or ADMN 385) (concurrent enrolment is allowed in BUS 385) *** * Note: Students may not receive credit for both BUS 386 and ADMN 386. *

**BUS 387 Intermediate Financial Accounting II**
This course continues and builds upon the study of financial accounting begun in BUS 385. It extends students' understanding of
generally accepted accounting principles through an in-depth examination of complex measurement issues. *** Prerequisite: BUS 385 (or ADMN 385) ***  * Note: Students may not receive credit for both BUS 387 and ADMN 387. *

BUS 388 3:3-0
Cost Accounting
This course expands on the introductory cost accounting material covered in BUS 288. Emphasis is placed on cost accounting systems and cost accumulation methods. Topical coverage will also include an examination of uses and limitations of quantitative techniques and the behavioural implications of internal financial systems. *** Prerequisite: BUS 288 (or ADMN 288), and BUS 270 (or ADMN 270) ***  * Note: Students may not receive credit for both BUS 388 and ADMN 388. *

BUS 395 3:3-0
Finance: Theory and Application
Theoretical models and their applications are discussed. Topics include capital structure, cost of capital, dividend policy, market efficiency, portfolio theory, and asset pricing. *** Prerequisite: BUS 290 (or ADMN 290) or ACSC 262 with a minimum grade of 60% ***  * Note: Students may not receive credit for both BUS 395 and ADMN 395. *

BUS 400 3:3-0
Business Strategy
This course focuses on the formulation and implementation of policy and strategy. It centers on the role and responsibilities of the general manager in formulating the goals and objectives of an organization; on integrating policies, plans, and programs; and on using structures and systems of personal influence so that the organization can operate with a sense of direction and purpose.  *** Prerequisite: All core business administration courses and a minimum of 90 credit hours. ***  * Note: Students may not receive credit for both BUS 400 and ADMN 400. *

BUS 405 3:3-0
Business, Government and Society
This course provides the student with an understanding of the institutional framework of the Canadian economy and society. *** Prerequisite: All required business administration courses, and a minimum of 90 credit hours. ***  * Note: Students may not receive credit for both BUS 405 and ADMN 405. *

BUS 408 3:3-0
International Study Trips - an AA-ZZ series.
The course involves a study tour to a foreign country. The objective of the course is to examine the concepts and current practice related to doing business in an international environment. The course will develop an understanding of the people, culture and history of the particular country being visited. The course includes an examination of business, finance, politics and business culture.  *** Prerequisite: Completion of 60 credit hours. ***  * Note: Students may not receive credit for both BUS 408AA-ZZ and an equivalent ADMN 408AA-ZZ or ADMN 435AA-ZZ study trip to the same country. *

BUS 410 3:3-0
Advanced Marketing Strategy
In this course real world cases describing complex marketing situations will be used to teach strategic thinking. Students will conduct in-depth analysis of business cases in order to practice marketing and business decision-making skills. *** Prerequisite: BUS 310 (or ADMN 310), and BUS 312 (or ADMN 312 or ADMN 412) ***  * Note: Students may not receive credit for both BUS 410 and ADMN 410. *

BUS 413 3:3-0
Marketing Research
This course is designed to introduce the student to the fundamentals of marketing research, including concepts of general applicability to management research. The course includes a survey of contemporary research techniques as well as detailed study of marketing research procedures including questionnaire design, sampling and data collection, analysis, interpretation, and the application of findings.  *** Prerequisite: BUS 210 (or ADMN 210), BUS 270 (or ADMN 270), and STAT 152 ***  * Note: Students may not receive credit for both BUS 413 and ADMN 413. *

BUS 414 3:3-0
Management of Promotion
The course combines concepts in advertising, personal selling and other marketing communications tools to provide an overall promotional mix. It focuses on the theory and rationale behind various structures, and keeps the purely descriptive content to a reasonable minimum. Problems are viewed through the eyes of the promotions manager rather than from the technician's perspective.  *** Prerequisite: BUS 210 (or ADMN 210) ***  * Note: Students may not receive credit for both BUS 414 and ADMN 414. *

BUS 415 3:3-0
International Marketing
This course will concentrate on the problems associated with conducting business in a foreign market. How should a company, large or small approach an export market? How significant are the cultural differences and how will these differences affect the selection of a marketing strategy? How should this strategy be selected and what retaliation can be expected from the domestic competition?  *** Prerequisite: BUS 310 (or ADMN 310) ***  * Note: Students may not receive credit for both BUS 415 and ADMN 415. *

BUS 416 3:3-0
Sales Management and Personal Selling
This course addresses the formulation and implementation of the strategic sales program, including evaluation and control of corporate sales performance. Topics include: organization and integration of the company's personal selling efforts within the total marketing effort; selection, training and direction of sales personnel; and monitoring, evaluation and adjustment of performance and programs.  *** Prerequisite: BUS 210 (or ADMN 210), and BUS 250 (or ADMN 250) ***  * Note: Students may only receive credit for one of BUS 416, ADMN 416, and ADMN 435AE. *

BUS 417 3:3-0
Internet Marketing
This course examines the impact of the Internet on marketing and related business functions that enable and support it. The focus will be on investigating the role marketing has on the utility of the Internet as a tool for business to increase effectiveness, efficiency, and competitiveness.  *** Prerequisite: BUS 210 (or ADMN 210) ***  * Note: Students may only receive credit for one of BUS 417, ADMN 417, and ADMN 435AC. *

BUS 432 3:3-0
This course consists of directed readings in selected topics in business.  *** Prerequisite: Dependent on each class offering (Please see Faculty of Business Administration General Office). ***  * Note: Students may not receive credit for both BUS 432AA-ZZ and an equivalent ADMN 432AA-ZZ covering the same topic. *

BUS 435 3:3-0
Selected Topics in Business - an AA-ZZ series.
Courses designed as required for individuals or groups of undergraduates.  *** Prerequisite: Dependent on each class offering. (Please see Faculty of Business Administration General Office). ***  * Note: Students may not receive credit for both BUS 435AA-ZZ and an equivalent ADMN 435AA-ZZ covering the same topic. *

BUS 453 3:3-0
Strategic Human Resource Management
This course concerns the development and integration of human resource management practices and policies in an organization to achieve broader organizational goals and to further the strategic direction of the organization. The course addresses: HR forecasting and planning, succession management, strategic approaches to other human resource management functions, and current HRM issues such as emerging organizational mergers, downsizing and restructuring, and mergers and acquisitions.  *** Prerequisite: BUS 250 (or ADMN 250) ***  * Note: Students may only receive credit for one of BUS 453, ADMN 453, and ADMN 353. *

BUS 455 3:3-0
Conflict Resolution in Employee-Management Relationships
This course involves understanding the nature, origins and state of conflict commonly found within the employment relationship. It identifies the processes that must be put in place to handle conflict appropriately in both unionized and non-unionized environments. Facilitation and negotiation skills will be emphasized.  *** Prerequisite: BUS 355 (or ADMN 355) ***  * Note: Students may not receive credit for both BUS 455 and ADMN 455. *

BUS 461 3:3-0
Organization Change and Development
This course provides students with an understanding of the basis for planned change in both sub-units and organizations. It provides a conceptual foundation for the diagnosis and analysis of organizational issues, and the development and implementation of strategies to introduce change in order to improve organizational effectiveness. It examines interventions that enhance opportunities for employees and result in creating high-performing organizations. *** Prerequisite: BUS 250 (or ADMN 250) *** * Note: Students may not receive credit for both BUS 461 and ADMN 461. *

BUS 471 Selected Topics in Accounting - an AA-ZZ series.
This course consists of directed readings in selected topics in accounting. *** Prerequisite: Dependent on each course offering. (Please see Faculty of Business Administration General Office). *** * Note: Students may not receive credit for both BUS 471AA-ZZ and an equivalent ADMN 471AA-ZZ covering the same topic. *

BUS 472 Selected Topics in Finance - an AA-ZZ series.
This course consists of directed readings in selected topics in finance. *** Prerequisite: Dependent on each course offering. (Please see Faculty of Business Administration General Office). *** * Note: Students may not receive credit for both BUS 472AA-ZZ and an equivalent ADMN 472AA-ZZ covering the same topic. *

This course consists of directed readings in selected topics in human resources. *** Prerequisite: Dependent on each course offering. (Please see Faculty of Business Administration General Office). *** * Note: Students may not receive credit for both BUS 473AA-ZZ and an equivalent ADMN 473AA-ZZ covering the same topic. *

BUS 474 Selected Topics in Marketing - an AA-ZZ series.
This course consists of directed readings in selected topics in marketing. *** Prerequisite: Dependent on each course offering. (Please see Faculty of Business Administration General Office). *** * Note: Students may not receive credit for both BUS 474AA-ZZ and an equivalent ADMN 474AA-ZZ covering the same topic. *

BUS 475 Selected Topics in Management Information Systems - an AA-ZZ series.
Discussion of current or special interest topics in Management Information Systems from a managerial orientation. *** Prerequisite: BUS 375 (or ADMN 375) or ADMN 435AA *** * Note: Students may not receive credit for both BUS 475AA-ZZ and an equivalent ADMN 475AA-ZZ covering the same topic. *

BUS 476 Advanced Taxation
This course provides an in-depth analysis of income and commodity taxes in Canada. *** Prerequisite: BUS 384 (or ADMN 384) *** * Note: Students may not receive credit for both BUS 484 and ADMN 484. *

BUS 485 Advanced Financial Accounting
This course covers the accounting for long-term investments, business combinations, parent-subsidiary relationships, and foreign currency transactions and the translation of foreign operations. As well, this course examines cases integrating material from the prerequisite financial accounting courses. *** Prerequisite: BUS 387, concurrent enrollment is required. *** * Note: Students may not receive credit for BUS 485 and ADMN 485. *

BUS 487 Accounting Theory
This course examines a variety of approaches to accounting theory and research, related accounting measurement issues, and the relationship between accounting theory and policy. *** Prerequisite: BUS 385 (or ADMN 385) *** * Note: Students may not receive credit for both BUS 487 and ADMN 487. *

BUS 488 Advanced Managerial Accounting
This course is designed to integrate and evaluate managerial planning and control concepts. System design, control in large organizations and the impact of internally generated information on capital markets are emphasized. *** Prerequisite: BUS 386 (or ADMN 386) *** * Note: Students may not receive credit for BUS 488 and ADMN 488. *

BUS 489 Contemporary Issues in Accounting - an AA-ZZ series.
This course will offer senior students an opportunity to explore in depth a particular current issue (or issues) in accounting. The topics will vary according to student and joint areas of interest. *** Prerequisite: BUS 387 (or ADMN 387) *** * Note: Students may not receive credit for both BUS 489AA-ZZ and an equivalent ADMN 489AA-ZZ covering the same topic. *

BUS 491 International Financial Management
This course develops a broad conceptual framework for making international financial decisions. Topics include purchasing power parity, spot and forward exchange rate fundamentals, and foreign exchange risk. *** Prerequisite: BUS 395 (or ADMN 395) *** * Note: Students may not receive credit for both BUS 491 and ADMN 491. *

BUS 492 Topics in Financial Management - an AA-ZZ series.
An intensive study of selected topics in financial management. Coverage may vary from year to year depending upon the current needs of the students. *** Prerequisite: BUS 395 (or ADMN 395) *** * Note: Students may not receive credit for both BUS 492AA-ZZ and an equivalent ADMN 492AA-ZZ covering the same topic. *

BUS 495 Financial Analysis and Decision Making
An exploration of analytical techniques using financial information for decision making. Topics include identification and forecasting of relevant cash flows; project, firm and equity valuation; optimal financial leverage; sensitivity analysis. *** Prerequisite: BUS 395 (or ADMN 395) *** * Note: Students may not receive credit for both BUS 495 and ADMN 495. *

BUS 497 Investment Analysis and Portfolio Management
An analysis of the principles and techniques of investing in financial assets. Topics include asset allocation, security selection, performance measurement, stocks, bonds, options, and futures. *** Prerequisite: BUS 395 (or ADMN 395) *** * Note: Students may not receive credit for BUS 497 and ADMN 497. *

BUS 498 Capital Markets and Financial Institutions
The way capital markets function and the pivotal role played by financial institutions are examined. Particular emphasis is placed on coverage of Canadian markets and institutions, coverage of risk management, and risk-return tradeoffs available to investors. *** Prerequisite: BUS 395 (or ADMN 395) *** * Note: Students may not receive credit for BUS 498 and ADMN 498. *

CA Certificate in Administration

Centre for Continuing Education

CA 021 Organizational Behavior I
This course introduces current and contemporary concepts that will assist the student to understand, predict and manage the behavior of people within an organization. This course will analyze and explore the behavior of the individual inside an organization through topics such as motivation, performance, perception, attitudes, communication and decision making processes.

CA 022 Organizational Behavior II
This course introduces current and contemporary concepts that will assist the student to understand group behavior within an
organizational effectiveness. This course analyzes and explores the way individuals interact through topics such as team dynamics, power, politics, leadership and organizational structures. *** Prerequisite: CA 21 ***

CA 023 Principles of Economics 1.5:2.5-0
This course provides an introduction to the theories of micro and macroeconomics. Students will be exposed to the role of economics in individual and firm behavior as well as in the functioning of the Canadian economy.

CA 024 Financial Accounting I 1.5:2.5-0
This course provides an introduction to fundamental accounting theories, principles and procedures. Topics covered include the study of accounting cycle, journal, statement and balance sheet, merchandising firms, cash control, accounts receivable, inventory valuation and depreciation.

CA 025 Financial Accounting II 1.5:2.5-0
This course is a continuation of CA 24 (Financial Accounting I). The course covers accounting theories, principles and procedures in the areas of partnerships, corporate organization and operations, shareholders' equity, bonds payable including amortization or premium and discount, statement of changes in financial position, and analysis and interpretation of financial statements. *** Prerequisite: CA 024 ***

CA 027 Introduction to Personnel Administration 1.5:2.5-0
The purpose of this class is to provide an overview of the basic elements, principles and approaches to Personnel Administration. *** Prerequisite: CA 021 and 022, or ADMN 260 ***

CA 028 Methods of Personnel Administration 1.5:2.5-0
This course will introduce the issues, trends and methods used to manage Human Resources in contemporary organizations. *** Prerequisite: CA 027 ***

CA 034 Managerial Accounting I 1.5:2.5-0
To introduce the student to accounting for decision making. The class covers the difference between internal and external accounting, the use of internal financial information for planning and control of operations and introduces the basic managerial accounting concepts such as variable and fixed cost and product costing. *** Prerequisite: CA 021 and 022, or ADMN 260. CA 024 and 025, or ADMN 285 ***

CA 035 Managerial Accounting II 1.5:2.5-0
This course will continue the student's introduction to accounting for decision making. The class will cover standard costs and variance analysis, flexible budgets, pricing of products and services, relevant costs, capital budgeting. *** Prerequisite: CA 034 ***

CA 037 Industrial Relations 1.5:2.5-0
The class will create an awareness of the history, theory, models and legal framework used in Collective Bargaining as it applies in Canada and Saskatchewan. *** Prerequisite: CA 021 and 022, or ADMN 260, and CA 027 ***

CA 041 Interpersonal and Group Processes in Administration 1.5:2.5-0
This course provides the student with an opportunity to assess applicability of various management & human resource management approaches and theories. The course focuses on the examination of content and process of organization & personal management activities, examination of the student's management temperament, leadership styles, and group process skills. A number of individual & group assignments focusing on students' work places will be required. *** Prerequisite: CA 021 and 022, or ADMN 260 ***

CA 042 The Marketing Function 1.5:2.5-0
The purpose of this course is to provide students with a solid understanding of theories, concepts and applications of marketing in a business environment. Upon completion, students will be familiar with strategic marketing, the marketing mix, consumer behaviour and marketing ethics. *** Prerequisite: CA 021 and 022, or ADMN 260 ***
group members; and analyzing successful organizations in relation to how they set short and long-term goals, gain community support, and plan for action.

CDEV 046 1.5:2.5-0
Community Economic Development I
The focus is on concepts and perspectives. You will look at the limits and potential of community economic development (CED); explore the interests and claims of government, business and voluntary sectors; and examine the roles and responsibilities of CED practitioners.

CDEV 047 1.5:2.5-0
Community Economic Development II
This course focuses on some of the technical knowledge required of community economic development (CED) practitioners. You will study structures in CED, and reflect on processes used to organize CED initiatives. *** Prerequisite: CDEV 046 ***

CDEV 048 1.5:2.5-0
Community Education
This course begins with theoretical and historical perspectives, moves on to discussion of contemporary issues, initiatives and community education institutions in Saskatchewan, and explores future possibilities and directions.

CDEV 049 1.5:2.5-0
Community Health
This course explores theory, beliefs and practices, and examines community health initiatives in Saskatchewan. You will develop your capacity to analyse situations and make constructive recommendations on how health programs can be strengthened using community development principles.

CDEV 050 1.5:2.5-0
Community Justice
A critical examination of community justice in Saskatchewan. The course integrates theory and practice in the discussion of: emergence of community justice, creating safer communities; victimization, human services, Aboriginal justice, street prostitution, community policing, violence against women, and youth and community justice.

CDEV 051 1.5:2.5-0
Basic Reality Therapy
This 25-hour intensive course teaches the basic theory and techniques of Reality Therapy. The major emphasis is on small group work, where the major activity is practicing the use of Reality Therapy through role playing. ** Permission of the Head of Certificates Division or designate for CDEV students OR Permission of the Head of School of Human Justice or designate for HJ students is required to register. **

CDEV 052 1.5:3-0
Conflict Resolution
This course looks at the practical aspects of interest-based negotiations - conflict resolution. Using a theoretical framework for collaborative law practice, students will explore and participate in conflict theory, "rescuer's dilemma",orny negotiations, introduction to interest-based problem solving, constructive approaches to dispute resolution and simulation exercises.

CDEV 053 1.5:1.5-0
Selected Topics in Community Development - an AA-ZZ series.
Additional courses may be included as new issues and interests in community development practice arise.

CFST 200 3:3-0
Culture and the Acquisition of Language and Literacy
This course provides students with an understanding and analysis of how culture influences the development of language, literacy and communication skills with a particular focus on the language experiences of Aboriginal peoples in Canada.

CFST 202 3:3-0
The Whole Child: Contextual Aspects of Child Development
The intent of the course is to study the impact that culture, family, schools, and community all have on early child development. The course will examine these multiple contexts in a transdisciplinary manner. It will also provide an integration of theoretical and practical knowledge.

CFST 204 3:3-0
Understanding Diversity
This course introduces culturally relevant and anti-bias approaches to working with young children and their families in multiple human service contexts stressing the importance of professional attention to diversity and equity issues including Aboriginal Peoples. It is appropriate for helping professionals and others interested in understanding and working in this area.

CFST 206 3:3-0
Expressive Arts and Play
This is an interdisciplinary course that introduces art, dance, drama, music, narrative and play as expressive approaches to work in the helping professions. The emphasis in this course is on use of the expressive arts and play as means of communication for a broad cross section of the population.

CHEM Faculty of Science  Chemistry Department of Chemistry
CHEM 051 - 054 1:0-0
Chemistry Co-op Work Term I - IV
Four-month co-op work term approved by the department and arranged by the co-op coordinator.

CHEM 100 3:3-0
Introductory Chemistry
This course covers basic principles, to a level approximately equivalent to Chemistry 30; it is intended primarily for science students who require it as background material or as a prerequisite for CHEM 102/103. It will serve as a refresher course for those who took high school chemistry some years ago. * NOTE: Persons who have completed Chemistry 30 or equivalent within the last four years, with a grade of 70% or higher, may not take this course for credit, except by permission of the department head. *

CHEM 102 3:3-3
Chemistry
This course extends the treatment of chemical fundamentals: nomenclature, stoichiometry, thermochemistry, and atomic structure. In addition, it covers chemical bonding, molecular geometry, equilibria, kinetics, and thermodynamics. It is a prerequisite for all higher level courses in chemistry and biochemistry. *** Prerequisite: Chemistry 30, completed within the last 4 years with a grade of at least 70%, or CHEM 100 with a grade of at least 60%. ***

CHEM 103 3:3-3
Chemistry
This course provides the same fundamental background in atomic structure, chemical bonding and molecular structure as CHEM 102, but the applications of these concepts will be in areas of particular interest to engineers. This course serves as a prerequisite for all higher-level courses in chemistry and biochemistry. *** Prerequisite: Chemistry 30, completed within the last 4 years with a grade of at least 70%, or CHEM 100 with a grade of at least 60%. *** * NOTE: A student may not receive credit for both CHEM 102 and CHEM 103. *

CHEM 210 3:3-3
Analytical Chemistry I
An introduction to theoretical and practical aspects of analysis, with emphasis on quantitative measurements and instrumental methods; primary analyses, errors and the handling of data; solution equilibria and acid/base titrations; spectrophotometry; gas chromatography. *** Prerequisite: CHEM 102 or 103, and PHYS 109 or Physics 30. ***

CHEM 230 3:3-3
Inorganic Chemistry I
Structure and bonding in polyatomic molecules and solids. Periodic trends and relationships in chemical behavior, with some emphasis on the main group elements. Strengths of acids and bases; oxidation and reduction potentials and the stability of oxidation states. *** Prerequisite: CHEM 102 or 103 ***

CHEM 240 3:3-3
Organic Chemistry I
Lectures will discuss the structure, chemistry, and spectroscopy of common functional groups including aliphatic and aromatic compounds. Mechanisms of organic reactions, fundamentals of stereochemistry and the synthesis of some simple organic compounds.
will also be discussed. The laboratory will illustrate the fundamental techniques of organic chemistry, including the synthesis and analysis of organic compounds. *** Prerequisite: CHEM 102 or 103 ***

CHEM 241 Organic Chemistry II
3:3-3
The structures, properties and chemistry of organic compounds possessing the carbonyl function, aromatic compounds (including polyaromatic compounds) and heterocyclic compounds will be discussed. Discussions will also include the description of the preparation of these compounds and their use in organic synthesis. The laboratory will involve the synthesis of aromatic and heterocyclic compounds, and the use of the carbonyl function in organic synthesis. *** Prerequisite: CHEM 240 ***

CHEM 250 Chemical Thermodynamics
3:3-3
An introduction to the principles of chemical thermodynamics and their applications in thermochemistry, chemical equilibria and phase equilibria. ***Prerequisite: CHEM 102 or 103, and MATH 105 or 110. ***

CHEM 251 Chemical Kinetics
3:3-3
An introduction to the principles of kinetics in the gas phase, in solution and at solid surfaces. Examples will be from biochemistry, organic and inorganic chemistry. *** Prerequisite: CHEM 102 or 103, MATH 105 or 110. ***

CHEM 260 Structure and Bonding
3:3-0

CHEM 290-495 Directed Readings
1-3:1-3-0
A study of radioactivity, chromatography, electrophoresis, sedimentation and analytical pyrolysis, emphasizing methods and applications in separations and analyses, with particular reference to biochemical materials. *** Prerequisite: CHEM 102 or 240 ***

CHEM 300 Inorganic Chemistry II
3:3-3
The lectures will discuss co-ordination chemistry; structure, bonding, reactions, mechanisms and spectroscopic properties. Organometallic chemistry will be introduced. The laboratory will deal with the preparation and analysis of several co-ordination compounds. *** Prerequisite: CHEM 230, 260 and 310 ***

CHEM 341 Conformational Analysis and Stereochemistry
3:3-3
The lectures will deal with the fundamental concepts of the relationship of stereochemistry and conformation to the chemical and physical properties of compounds including the importance of stereochemistry to organic reactions. The laboratory will consist of experiments on the stereochemistry of organic reactions and conformational analysis. *** Prerequisite: CHEM 241 ***

CHEM 390 Directed Readings - an AA-ZZ series
3:3-3
Selected topics in Chemistry as defined by the individual instructor for courses at the intermediate level.

All students beginning 300 level chemistry or biochemistry courses who have appropriate grades should obtain academic advising from the Department of Chemistry on their programs so that they are prepared for Chemistry 401/402 if they choose to take these courses.

CHEM 310 Analytical Chemistry II
3:3-3
A discussion of spectroscopic methods for structural analysis: infrared, mass spectrometry, nuclear magnetic resonance, ultraviolet - visible. This course will emphasize the practical aspects of spectroscopic methods. The laboratory will involve the investigation of the various spectroscopic methods. *** Prerequisite: CHEM 210 and 240 ***

CHEM 312 Separations and Analysis
3:3-3
A study of radioactivity, chromatography, electrophoresis, sedimentation and analytical pyrolysis, emphasizing methods and applications in separations and analyses, with particular reference to biochemical materials. *** Prerequisite: CHEM 210 and 240 ***

CHEM 330 Inorganic Chemistry II
3:3-3
The lectures will discuss co-ordination chemistry; structure, bonding, reactions, mechanisms and spectroscopic properties. Organometallic chemistry will be introduced. The laboratory will deal with the preparation and analysis of several co-ordination compounds. *** Prerequisite: CHEM 230, 260 and 310 ***

CHEM 341 Conformational Analysis and Stereochemistry
3:3-3
The lectures will deal with the fundamental concepts of the relationship of stereochemistry and conformation to the chemical and physical properties of compounds including the importance of stereochemistry to organic reactions. The laboratory will consist of experiments on the stereochemistry of organic reactions and conformational analysis. *** Prerequisite: CHEM 241 ***

CHEM 390 Directed Readings - an AA-ZZ series
3:3-3
Selected topics in Chemistry as defined by the individual instructor for courses at the intermediate level.

All students beginning 300 level chemistry or biochemistry courses who have appropriate grades should obtain academic advising from the Department of Chemistry on their programs so that they are prepared for Chemistry 401/402 if they choose to take these courses.

CHEM 310 Analytical Chemistry II
3:3-3
A discussion of spectroscopic methods for structural analysis: infrared, mass spectrometry, nuclear magnetic resonance, ultraviolet - visible. This course will emphasize the practical aspects of spectroscopic methods. The laboratory will involve the investigation of the various spectroscopic methods. *** Prerequisite: CHEM 210 and 240 ***

CHEM 312 Separations and Analysis
3:3-3
A study of radioactivity, chromatography, electrophoresis, sedimentation and analytical pyrolysis, emphasizing methods and applications in separations and analyses, with particular reference to biochemical materials. *** Prerequisite: CHEM 210 and 240 ***

CHEM 330 Inorganic Chemistry II
3:3-3
The lectures will discuss co-ordination chemistry; structure, bonding, reactions, mechanisms and spectroscopic properties. Organometallic chemistry will be introduced. The laboratory will deal with the preparation and analysis of several co-ordination compounds. *** Prerequisite: CHEM 230, 260 and 310 ***

CHEM 341 Conformational Analysis and Stereochemistry
3:3-3
The lectures will deal with the fundamental concepts of the relationship of stereochemistry and conformation to the chemical and physical properties of compounds including the importance of stereochemistry to organic reactions. The laboratory will consist of experiments on the stereochemistry of organic reactions and conformational analysis. *** Prerequisite: CHEM 241 ***

CHEM 390 Directed Readings - an AA-ZZ series
3:3-3
Selected topics in Chemistry as defined by the individual instructor for courses at the intermediate level.

All students beginning 300 level chemistry or biochemistry courses who have appropriate grades should obtain academic advising from the Department of Chemistry on their programs so that they are prepared for Chemistry 401/402 if they choose to take these courses.
course for credit. Refer to the Department of International Languages section for details. *

CHIN 100 3:3-0
** Introductory Mandarin Chinese I **
A continuation of CHIN 101, this course will further the development of communicative skills using more complex structures in a culturally appropriate manner. Ability to read and write Chinese characters will be further developed. *** Prerequisite: CHIN 101 or 110 *** * Note: Students may not receive credit for CHIN 102 and CHIN 210 *

CHIN 110 6:6-2
** Intensive Chinese (Mandarin) for Beginners **
This course combines the material of CHIN 100 and CHIN 101. * Note: Students should have no background in a Chinese dialect. Students who speak Mandarin or another Chinese dialect must register in CHIN 211 or 311. Students may not receive credit for CHIN 100 or CHIN 101 and CHIN 110. *

CHIN 200 3:3-1
** Intermediate Mandarin Chinese I **
This course is designed to reinforce and further develop the material covered in introductory-level courses. Every day speech patterns are stressed in order to strengthen communicative competence. The student is expected to read and write Chinese characters beyond sentence level to be able to work with paragraphs. *** Prerequisite: CHIN 102 *** * Note: Students may not receive credit for CHIN 200 and CHIN 210 *

CHIN 201 3:3-1
** Intermediate Mandarin Chinese II **
A continuation of CHIN 200, this course will enhance the student's ability to comprehend and produce more complicated speech patterns. Students begin to be able to read modified short stories and write letters and biographic information in characters. *** Prerequisite: CHIN 200 or 210 ***

CHIN 202 3:3-1
** Intermediate Mandarin Chinese III **
A continuation of CHIN 201, this course further improves the student's ability to communicate orally in practical and cultural situations by increasing the knowledge of vocabulary, structure, grammar and cultural elements. Reading and writing abilities are further developed. *** Prerequisite: CHIN 201 ***

CHIN 210 6:6-2
** Intensive Intermediate Mandarin Chinese **
This course combines the material of CHIN 102 and CHIN 200. *** Prerequisite: CHIN 101 or 110 *** * Note: Students who speak Mandarin or another Chinese dialect must register in CHIN 211 or 311. Students may not receive credit for CHIN 202 or CHIN 200, CHIN 210, and CHIN 211. *

CHIN 290 1-3:1-3-0
** Tutorials and Directed Readings in Mandarin Chinese - an AA-ZZ series. **
These courses are designed to increase students' skills in reading, writing, comprehension and communication. ** Permission of the Department Head is required to register. **

CHIN 300 3:3-1
** Advanced Mandarin Chinese I **
This course involves the comprehension of more complex topics that are closer to normal native speed and require extended vocabulary and knowledge of structure, grammar and culture. It develops reading ability in specialized areas. *** Prerequisite: CHIN 202 ***

CHIN 301 3:3-1
** Advanced Mandarin Chinese II **
This course will strengthen students overall language and cultural proficiency. Students will have opportunities to speak with native Mandarin speakers. Authentic materials such as newspapers, magazines, news broadcasts, movies, TV shows and Chinese computer software will be used to improve communicative competence. *** Prerequisite: CHIN 300 ***

CHIN 311 9:9-3
** Intensive Advanced Mandarin for Speakers of Non-Mandarin (Putonghua) Chinese Dialects **
This course is a continuation of CHIN 211. It focuses on the achievement of native-like pronunciation, and the ability to read complex materials and write simplified characters. Students will also develop the ability to converse on a variety of topics while coping with cultural complications. *** Prerequisite: CHIN 211 *** * Note: This course is restricted to speakers of non-Mandarin (Putonghua) Chinese dialects. *

CHIN 390 3:3-0
** Tutorials and Directed Readings in Mandarin Chinese - an AA-ZZ series. **
These courses are designed to increase student's skills in reading, writing, comprehension and communication. ** Permission of the Department is required to register. **

CHIN 490 3:3-0
** Advanced Tutorials and Directed Readings - an AA-ZZ series. ** Permission of the Department Head is required to register. **

CLAS Classical Studies

Faculty of Arts

Department of Philosophy and Classics

CLAS 100 3:3-0
** An Introduction to the Civilizations of Greece and Rome **
Topics include: Minans and Mycenaeans; development of democracy in Greece; Persian wars; Peloponnesian war; daily life in Greece and Rome; Roman Republic and Empire. Other topics will be selected from: pagans and Christians; Greek and Latin literature and philosophy: women in the ancient world; sport, art and architecture.

CLAS 110 3:3-0
** Greek and Latin Elements in English **
The contribution of the classical languages to modern English, including the vocabulary of the sciences. The course is intended for students in any discipline as a practical means of enhancing English vocabulary.

CLAS 150 3:3-0
** Latin Language I **
Introduction to the Latin language.

CLAS 151 3:3-0
** Latin Language II **
A continuation of CLAS 150. *** Prerequisite: CLAS 150, with a minimum grade of 60%, or permission of department head. ***

CLAS 160 3:3-0
** Greek Language I **
An introduction to the language, literature, and civilization of ancient Greece.

CLAS 161 3:3-0
** Greek Language II **
A continuation of CLAS 160. *** Prerequisite: CLAS 160, with a minimum grade of 60%, or permission of department head. ***

CLAS 200 3:3-0
** Greek Mythology **
Cosmic and divine myth; saga, folktales; study of recurrent motifs; the relationship of the myths to history, archaeology, and art; myth as a medium for the expression of beliefs about religion and human services. *** Prerequisite: ENGL 100 and 110, or permission of department head. ***

CLAS 210 3:3-0
** Greek and Roman Epic **
A study of the works of Homer, Vergil and Ovid, in English translation, with particular emphasis on their mythological content. *** Prerequisite: ENGL 100 and 110, or permission of department head. ***

CLAS 211 3:3-0
** Greek Drama **
A study of selected Greek plays in English translation, with particular emphasis on their treatment of myth. *** Prerequisite: CLAS 200, or permission of department head. ***

CLAS 220 3:3-0
** Women in Greece and Rome **
A survey of the different lives, roles and representations of women in Greece and Rome within the context of changing historical circumstances. The course examines the subject through such categories as myth, class and sexuality and draws on evidence from a wide range of cultural production. *** Prerequisite: Completion of 15 credit hours. ***
CREE 100  
**Elementary Cree I**
Introduction to Cree: Basic grammar, reading, writing, oral expression, and practice with electronic learning materials. No prior knowledge of Cree is assumed. *NOTE: Students with standing in CREE 100 will not receive credit for CREE 104.*

CREE 101  
**Elementary Cree II**
A continuation of CREE 100. Further grammar and oral practice in Cree. This course completes preparation for CREE 102. ***Prerequisite: CREE 100***

CREE 102  
**Structure of Cree I**
A survey of major word and sentence structure of Cree with some attention to dialect variation. Composition and reading of stories. ***Prerequisite: CREE 101***

CREE 103  
**Structure of Cree II**
A continuation of CREE 102. Further study and analysis of grammatical structures, dialect variation, and more composition and reading of short stories. This course completes preparation for other Cree courses. ***Prerequisite: CREE 102***

CREE 104  
**Cree Grammar and Orthography I**
This course is designed for students who already speak Cree. Emphasis is on writing in the standard Roman orthography and on grammatical structures. An introduction to short composition. ***Prerequisite: Fluency in Cree.*** *Note: Students with standing in CREE 100 will not receive credit for CREE 104.*

CREE 105  
**Cree Grammar and Orthography II**
A continuation of CREE 104. Further writing practice, grammar, and short compositions. This course completes preparation for other Cree courses. ***Prerequisite: CREE 104***

CREE 110  
**Intensive Cree for Beginners**
This course will focus on listening and speaking skills by integrating linguistic functions with cultural knowledge. Students will acquire the level of competence needed to be functional within a relatively narrow range of familiar topic area. *Note: Students may not receive credit for CREE 110 and CREE 100, 101, or 102.*

CREE 202  
**Cree Literature and Grammar**
Analysis of complex grammatical structures, with an introduction to oral and written literature such as ordinary stories and traditional tales. ***Prerequisite: CREE 103 or 105***

CREE 205  
**Expository Writing in Cree**
Study and analysis of non-fiction literature in Cree, such as biography, history, politics, news stories, narratives, and technical writing; practice in writing and revision. ***Prerequisite: CREE 103 or 105***

CREE 206  
**Cree Linguistics**
Linguistic concepts for the scientific analysis of Cree. Development of linguistic terminology in Cree for language teachers. ***Prerequisite: CREE 103 or 105***

CREE 209  
**Creative Writing in Cree**
Standard Roman orthography will be used by students to compose original writing in Cree. Students will critique each other's work as well as published examples. ***Prerequisite: CREE 202***

CREE 300  
**Cree Phonology**
The study of the sound system and phonological processes of Cree and its dialects with reference to contemporary phonological theory. Application to Cree writing systems. ***Prerequisite: CREE 206***

CREE 310  
**Cree Morphology**
The study of the internal structure of Cree words. Morphological processes of Cree will be examined with reference to contemporary linguistic theory. ***Prerequisite: CREE 206***

CREE 312  
**Cree Semantics**
The study of meaning as applied to the Cree language. The investigation of meaning at the level of the morpheme, word, phrase, and sentence. The exploration of Cree semantic components, domains and roles. Meaning variation, context and pragmatics. ***Prerequisite: CREE 206***

CREE 313  
**Cree Syntax**
The study of grammatical morphology and word order in Cree with reference to contemporary syntactic theory. The structure of Cree phrases, clauses and sentences. ***Prerequisite: CREE 206***

CREE 330  
**Cree Syllabics**
Introduction to the Cree syllabics writing system. Reading and writing in syllabics. ***Prerequisite: CREE 202***

CREE 340  
**Oral Tradition of Cree**
Stories and legends on audio and video cassettes will be analyzed and transcribed by students. Storytelling sessions by students and elders. Visiting lecturers will also be included in the course. ***Prerequisite: CREE 202***

CREE 390-395  
**Directed Studies in Cree – an AA-ZZ series.**
Topics may be chosen from a list open to students. ***Prerequisite: A 300-level Cree course***

CREE 410  
**Seminar in Cree Phonology**
Advanced discussion of phonological theory and its applications to the Cree sound system. Investigation of complex phenomena in Cree phonology at the word, phrase and sentence levels. ***Prerequisite: One of LING 210 or CREE 310***
CREE 411 3:3-0
Seminar in Cree Morphology
Advanced discussion of morphological theory and its application to Cree word structure. Investigation of complex phenomena in Cree morphology. *** Prerequisite: One of LING 211 or CREE 311. ***

CREE 480 3:3-0
Cree Language Field Methods
Advanced survey of field method techniques, including the conducting of interviews, the gathering of linguistic material, and the recording, transcription, and translation of Cree texts. *** Prerequisite: CREE 340 and LING 380 ***

CREE 490-495 1:3-1-3-0
Directed Research in Cree - an AA-ZZ series.
Courses designed as required for senior undergraduates. *** Prerequisite: Three 300-level Cree courses. *** * Permission of the Department Head is required to register. **

CS 051 - 055 0:0-0
Computer Science Co-op Work Term I - V
Four-month co-op work term approved by the department and arranged by the co-op co-ordinator.

CS 100 3:3-1
Introduction to Computers
Introduction to the development of computers and computer applications. Impact of computers on society. Computer organization and operation. The construction and representation of algorithms. Applications of computers in the problem-solving process. * Note: This class may not be taken for credit if CS 115 or any class above CS 130 has been successfully completed. *

CS 109 3:3-2
Programming and Problem Solving for Engineering
An introduction to problem-solving techniques, the fundamental concepts of programming using C or C++, and the software design process. Topics include data types, control structures, scope rules, functions, files, and the mechanics of running, testing and debugging software. Problems will be drawn from various engineering disciplines. *** Prerequisite: Mathematics B30 and C30 *** * Note: Students will receive credit for only one of CS 109 and CS 110.*

CS 110 3:3-2
Programming and Problem Solving For Natural Sciences
An introduction to problem-solving techniques, the fundamental concepts of programming, and the software design process. Topics include data types, control structures, scope rules, functions, files, and the mechanics of running, testing and debugging. Problems will be drawn from various science disciplines. *** Prerequisite: Mathematics B30 and C30 *** * Note: Students will receive credit for only one of CS 110 and CS 109.*

CS 115 3:3-2
Object-Oriented Design
This course focuses on the concepts of object-oriented programming. Topics include data abstraction, composition and inheritance, dynamic binding, polymorphism and dynamic memory management. Other topics include fundamental data structures, searching and sorting algorithms, language translation, and software engineering issues. *** Prerequisite: MATH 105 or 110 (may be taken concurrently) plus either CS 110 with a minimum grade of 65% or CS 130 with a minimum grade of 65%. *** * Note: Students may not receive credit for CS 115 and CS 170. *

CS 201 3:3-2
Introduction to Digital Systems
History of digital systems architecture, logic expressions and minimization, sequential and combinational circuits, register transfer notation. Numerical data representation, number bases, floating-point and twos-complement representation, representation of non-numeric data, records and arrays. Von Neumann architecture, control units, instruction sets, assembly language programming, addressing modes, subroutine calls, I/O and interrupts. *** Prerequisite: CS 109 or CS 110 ***

CS 215 3:3-2
Web Oriented Programming
This course shows how interactive client/server web applications are designed and implemented. Appropriate languages for web computing will be discussed. Human-computer interfaces, data models, and database connectivity will be explored in the context of web computing. *** Prerequisite: CS 210 ***

CS 250 3:3-2
Elements of Computer Hardware and Software
Introduction to computer architecture. Investigation of an actual computing system - peripherals, CPU configuration and device interfaces. Assembly language programming. Interrupt I/O and A/D, D/A device programming. *** Prerequisite: CS 109 or 110 *** * Note: Students will receive credit for only one of CS 201 and CS 250. *

CS 261 3:3-0
Methods in Numerical Analysis
Number systems and errors. Solutions of polynomial and other nonlinear equations. Interpolation. Numerical differentiation and integration. *** The cubic spline. *** Prerequisite: CS 110 or 170, MATH 111 and 122. *** * Note: Students will receive credit for only one of CS 261 or CS 345. *

CS 270 3:3-0
Management Information Systems
Types, sources and uses of data in organizations. The steps required and the types of equipment available to store and recover data. Analysis of the steps required in the development of a data processing system. Feasibility studies and system analysis techniques. Introduction to data base systems. Management of data processing systems. *** Prerequisite: CS 100 or 109 or 110, and ENGL 100 ***

CS 271 3:3-1
Programming for Business Applications
An introduction to the basic elements of file processing and structured COBOL programming. Modular design of programs and documentation techniques are presented. The student becomes familiar with the syntax and logical structure of COBOL by applying it to a sequence of increasingly complex business applications programs. *** Prerequisite: CS 109 or 110, and 270 ***

CS 280 3:3-0
Social and Professional Aspects of Computer Science
History of computing and the social context of computing. Methods and tools of analysis. Professional and ethical responsibilities. Risks and liabilities of computer-based systems. Intellectual property, privacy and civil liberties. Computer crime. Economic issues in computing. *** Prerequisite: ENGL 100 plus CS 109 or 110 ***

CS 290-295 1:3-1-3-0
Selected Topics - an AA-ZZ series.
Selected topics courses are used to offer courses in topical material. No more than a total of 6 credit hours of CS 290-295 may be credited towards a major in Computer Science.

CS 301 0:3-3-2
Digital Systems Architecture
Local storage systems, data compression, latency and bandwidth, cache memory, virtual memory, fault handling. Fundamentals of I/O, handshaking, buffering, interrupts, external storage, busses, networks, multimedia support. Datapath implementations, control units, pipelining. Multiprocessor and parallel architectures, SIMD/MIMD, VLIW, EPIC, shared memory systems, interconnection networks, cache coherence, memory consistency. *** Prerequisite: CS 201 ***
CS 305 Human Computer Communications
This course stresses the importance of good interfaces and the relationship of user interface design to human-computer interaction. Other topics include: interface quality and methods of evaluation; interface design examples; dimensions of interface variability; dialogue genre; dialogue tools and techniques; user-centered design and task analysis; prototyping and the iterative design cycle; user interface implementation; prototyping tools and environments; I/O devices; basic computer graphics; color and sound. *** Prerequisite: CS 215 ***

CS 310 Discrete Computational Structures
Finite and discrete algebraic structures relating to computers; sets, functions, relations. Machine-oriented logic. Combinatorial problems and algorithms. Finite automata and formal language theory. *** Prerequisite: MATH 110 or 105, 122, 221 and CS 210. *** * It is recommended that students take STAT 151 in addition to prerequisite before attempting CS 310. *

CS 320 Introduction to Artificial Intelligence
Foundations, history, and main methods of Artificial Intelligence. Intelligent search and optimization techniques with a special focus on greedy, randomized, and evolutionary algorithms. Neural networks as an example of data-based learning approach. Comparison of classical, fuzzy, and probabilistic reasoning and knowledge representation methodologies. *** Prerequisite: CS 210, STAT 151, and MATH 221 ***

CS 325 Introduction to Multimedia Systems
Multimedia is the use of computers to integrate texts, graphics, video, animation, and sound in an interactive experience. The course introduces these elements of multimedia and their associated technologies. Students will gain an appreciation of each element and be able to combine them into a finished work. *** Prerequisite: CS 215 *** * Note: Students may not receive credit for more than one of CS 390AI, CS 490BM, and FILM 385AB. *

CS 330 Introduction to Operating Systems

CS 335 Computer Networks

CS 340 Advanced Data Structures and Algorithm Design
Design, implementation, and manipulation of complex abstract data types, including trees and graphs. Fundamental algorithms: sorting, searching, depth- and breadth-first traversals, string manipulation, pattern matching, and graph algorithms. Algorithmic strategies: brute-force, greedy, divide-and-conquer, backtracking, branch-and-bound, dynamic programming, randomized, and parallel. Introduction to algorithm analysis and complexity theory. *** Prerequisite: CS 210 and MATH 221 ***

CS 345 Numerical Engineering Problem Solving in C
Advanced "C" language programming techniques applied to electronic engineering problems using techniques in numerical analysis. Errors, systems of linear equations, solutions of polynomials and other nonlinear equations. *** Prerequisite: CS 201 or 250 *** * Note: Students will receive credit for only one of CS 261 and CS 345. *

CS 350 Programming Language Concepts
Programming language genealogy and design. Imperative, functional, logic, object-oriented, and 4GL language paradigms. Data/control structures, exception handling, I/O, program verification, data abstraction, information hiding, concurrency and non-determinism. Metallanguages, parsing, and pattern matching. *** Prerequisite: CS 210 ***

CS 361 Numerical and Symbolic Computing
Least squares and other approximations. Difference equations. Solutions of algebraic systems. Symbol manipulators - Mathematica. *** Prerequisite: CS 261 or MATH 261, and MATH 213 with grades of at least 60%. ***

CS 372 Software Engineering Methodology
Fundamental principles of designing programs and developing large software systems that meet specifications and are safe, secure, reliable and dependable. Strategies and techniques of structured systems design and development. Prototyping, 4GL. Metrics. Project scheduling. Quality control. *** Prerequisite: CS 215 ***

CS 375 Database and Information Retrieval
History and motivation for database systems. Components of database systems and their functions. Data modeling to achieve good database design. Relational databases and database query languages. Transaction processing. Other topics include distributed databases, physical database design, and information retrieval systems. *** Prerequisite: CS 215 ***

CS 390-395 Selected Topics - an AA-ZZ series.
Selected topics courses are used to offer courses in topical material. No more than a total of 6 credit hours of CS 390-395 may be credited towards a major in Computer Science.

Completion of CS 170, CS 210 and CS 230 is a condition for taking any 400 level CS courses.

CS 401 Advanced Digital Systems Architecture
Advances in computer architecture. Topics selected from performance enhancements, digital signal processing architectures, architectures for networks and distributed systems, architectures for mobile devices, and recently proposed architectures. *** Prerequisite: CS 301 ***

CS 405 Computer Graphics
Discussion of the means in which the computer can be used to visually enhance understanding of different kinds of information. Issues include representation of objects, methods for viewing and the use of graphics tools to understand complex numerical data. *** Prerequisite: CS 340 and MATH 122 ***

CS 408 Animation Software Design
Principles of Animation. Features and architecture of animation software. Graphics file formats. Timelines, motion pathways, parametric keyframing, and kinematics. Digital special effects. Requirements and applications. *** Prerequisite: CS 305 or CS 325 or CS 405 ***

CS 409 Interactive Entertainment Software
This course teaches the design and implementation of interactive entertainment software, including computer games. Topics include: interactivity, principles of interactive entertainment, hardware platforms, current software development tools and languages, game loop, real-time requirements, design of virtual worlds and characters, incorporation of multimedia resources, evaluation, and aesthetics. *** Prerequisite: CS 305 and 330 ***

CS 410 Introduction to Compiler Design
High-level programming language specification. Lexical and syntactic structure, regular expression, finite automata and lexical analyzer.
CS 411  3:3-0
Computability and Formal Languages

CS 412  3:3-0
Algorithm Analysis
A formal algorithmic language. Measures of complexity for time and space. Worst-case, average-case, and best-case analysis. Lower and upper bounds of algorithms (techniques include comparison trees, adversary arguments, and reduction). P and NP classes. NP-hardness and NP-completeness. Introduction to parallel computational models and algorithms. *** Prerequisite: CS 310 and 340 ***

CS 421  3:3-0
Advanced Artificial Intelligence
Advanced Artificial Intelligence approaches to approximate reasoning and machine learning. Decision trees and other selected data-based knowledge models. Topics may include: logic programming and PROLOG, LISP, Artificial Intelligence in games, data mining, natural language processing, pattern recognition and planning. *** Prerequisite: CS 310, 320, and 340 ***

CS 425  3:3-0
Image Processing
Introduction to image processing systems. Image transformation. Image enhancement. Image coding and compression. Feature extraction and image segmentation. *** Prerequisite: CS 340, MATH 111 and 122 ***

CS 430  3:3-0
Advanced Topics in Operating Systems
Advanced operating system concepts. Topics include one or more of the following: distributed operating systems; real-time operating systems; intelligent networks; communications protocols; database process control within a client-server framework. *** Prerequisite: CS 330 ***

CS 435  3:3-0
Cryptography and Network Security
Classical cryptosystems, data encryption standards, advanced encryption algorithms; public key cryptosystems, digital signatures, IP security and web security. *** Prerequisite: CS 335 ***

CS 461  3:3-0
Advanced Topics in Numerical Analysis
Numerical solutions of ordinary differential equations. Numerical solutions of partial differential equations. Linear and non-linear problems. *** Prerequisite: CS 361 (with a final mark of 60% or higher) or equivalent. ***

CS 473  3:3-0
Management Support Systems
Strategic and tactical rewards resulting from effective use of corporate information systems will be presented. Topics include techniques and tools for developing management support systems. Case studies on development and use of the systems will be discussed. *** Prerequisite: CS 372 ***

CS 475  3:3-0
Advanced Topics in Database Systems
Advances in database systems. An in-depth study of relational query languages, including the algebraic, logic, and logic programming paradigms. Inclusion dependency and semantic data models. Other topics may include Datalog, complex values, object-oriented databases, probabilistic databases, and Web databases. *** Prerequisite: CS 375 ***

CS 490-495  3:3-0
Selected Topics/Directed Readings - an AA-ZZ series.
A course in special topics in which the student makes an independent study in computer science under the supervision of a faculty member in the department. ** The student and the supervisor must present a detailed outline of the proposed study to the head of the department for approval before registration. **
**DENE 325**
**Éducation des jeunes enfants**
Principes du développement et de l'apprentissage des jeunes enfants. Applications à un environnement scolaire centré sur l'apprenant dans les écoles francophones et les programmes d’immersion. ***
Préalable: Au moins un cours en prime enfance. ***

| DENE 100        | Conversational Dene I  
Introduction to the Dene language, with emphasis on oral expression and on writing in standard Roman orthography. Basic grammar and vocabulary. No prior knowledge of Dene is assumed. |
| DENE 101        | Conversational Dene II  
A continuation of DENE 100. Further grammar and conversation practice for Dene. *** Prerequisite: DENE 100 *** |
| DENE 104        | Dene Grammar and Orthography I  
This course is designed for students who speak some Dene. Emphasis is on standard Roman orthography and basic grammar, with some attention to dialect variation. ** Permission of the Department Head is required to register. ** |
| DENE 105        | Dene Grammar and Orthography II  
A continuation of DENE 104. Further study of grammar and orthography. An introduction to short composition. *** Prerequisite: DENE 104 *** |

**DEPH 215**
**Développement physique**
La didactique de l'éducation physique et de l'hygiène à l'élémentaire  
Ce cours vise à familiariser l'étudiant.e aux méthodes, contenu et ressources se rapportant à l'enseignement de l'hygiène et de l'éducation physique au niveau élémentaire. *** Préalable: Accepter au programme du Bac. ***

**DESO 215**
**Didactique des études sociales**
Analyse des programmes d'enseignement des sciences humaines à l'élémentaire  
Le cours vise à approfondir la nature, les buts et les tendances qui caractérisent l'enseignement des sciences humaines à l'élémentaire. Une analyse des programmes d'étude sera complétée par le développement de la planification d'unité et des ressources. *** Préalable: Etre dans sa 3e année de programme du Bac élémentaire. ***

**DEVS 400**
**Transdisciplinary Dialogues on Development**
An interdisciplinary seminar where students and professors both present and discuss research on Development Studies and relevant emergent topics from the literature and research methods. ** Permission of the Coordinator is required to register. **

**DFRN 335**
**Didactique français**
La méthodologie de l'enseignement dans une école francasque ou française  
Ce cours vise à préparer l'étudiant.e à enseigner dans une école fransaskoise. Il étudie la philosophie, les objectifs et les attentes de cette école. ***Préalable: Internat ou permission de la direction du Bac. ***

**DFRN 350**
**Enseignement pour développer la compétence**
Ce cours se fonde sur la compétence langagière comme principe organisateur du cours de langue seconde. Il prépare les futur.e.s enseignant.e.s du secondaire à enseigner et à évaluer la compétence. *** Préalable: Avoir terminé la deuxième année du Bac niveau secondaire ou équivalent. ***

**DFRN 351**
**Principes de l'apprentissage et de l'enseignement de la langue seconde**
Ce cours étudie les principes et théories de l'apprentissage et de l'enseignement d'une langue seconde. Il prépare l'étudiant.e à établir des liens entre recherche, théorie et pratique pédagogique en français de base au niveau secondaire. *** Préalable: Avoir terminé la deuxième année du Bac niveau secondaire ou équivalent. ***

**DLEC 215**
**Didactique lecture**
Introduction à l'enseignement de la lecture à l'élémentaire  
Ce cours vise à préparer les futur.es enseignant.es à l'enseignement de la lecture à l'élémentaire en milieu francophone et immersion. *** Préalable: EPS 215, EPSY 205 ***

**DLEC 332**
**Enseignement de la lecture au secondaire**
Introduction à l'enseignement de la lecture dans les autres matières du secondaire en milieu francophone et immersion. *** Préalable: DLANG 300 ***

**DLNG 300**
**Didactique en langue et littérature**
Les étudiants se familiariseront avec les techniques d'enseignement de la langue et de la littérature françaises en milieu francophone et immersion. Il y aura des applications pratiques. *** Préalable: Etre admis à l'année du prénomination. ***
**DLNG 325**  
Enseignement de l'écriture  
Théorie et pratique de l'enseignement de l'écriture à l'élémentaire. L'étude du processus et des stratégies de l'écriture en situation d'immersion ou francophone par le biais de l'atelier d'écriture. *** Préalable: Admis à la deuxième année du Bac. ***

**DLNG 335**  
Enseignement et apprentissage en deux langues  
Ce cours examine l'acquisition de la première et deuxième langue; l'analyse du discours; le bilinguisme; l'interférence langagière et ses implications pédagogiques. *** Préalable: Avoir complété l'internat. ***

**DLNG 351 (formerly DLNG 390AA)**  
Enseignement de l'écriture et de la grammaire au secondaire  
Ce cours aborde la théorie et la pratique de l'enseignement de l'écriture et de la grammaire par le biais de l'atelier d'écriture au secondaire tant en situation d'immersion qu'en milieu francophone. Le portfolio d'écriture est étudié en tant que stratégie d'évaluation. *** Préalable: DLNG 300 ***

**DLNG 400 (formerly DLNG 490)**  
Fondements historiques et approches contemporaines de l'immersion française au Canada  
Ce cours vise à préparer l'étudiant.e à enseigner dans une école d'immersion française. Il/elle étudiera les fondements historiques, la philosophie, la méthodologie et les attentes de l'immersion française au Canada. *** Préalable: EFLD 400 ou EFLD 405 ou approval of instructor. ***

**DMTH 215**  
L'enseignement de la mathématique à l'élémentaire  
Les nouvelles orientations en mathématique sont analysées par rapport aux buts et aux principes d'apprentissage de cette discipline. Étude des concepts enseignés au niveau élémentaire et préparation du matériel didactique. *** Préalable: Etre admis à l'année du préinternat élémentaire du Bac. ***

**DSCI 215**  
L'enseignement de la science à l'élémentaire  
La philosophie, le but, la structure et l'enseignement de la science au niveau élémentaire. Les caractéristiques des méthodes d'enseignement en science, emphase sur les activités. *** Préalable: Etre admis à l'année du préinternat élémentaire du Bac. ***

**EADM 310**  
Administration éducationnelle: Structure et processus  
Ce cours comprend l'étude de l'administration de l'éducation publique par rapport à des considérations constitutionnelles, légales et économiques ainsi que les rapports étudiants/enseignants à l'intérieur de la structure du système scolaire.
Instructional Technology: Introduction
An introduction to the planning and implementation of instructional technology in training and adult education environments. Primary focus is given to the development of instructional strategies and techniques appropriate to training organizations. This course includes opportunities for developing, applying, assessing, and refining instructional design.

EAHR 213 3:3-0
Introduction to Educational Leadership for Training and Development
This course will serve as an introduction to the theory and practice of educational and administrative leadership. The course will focus on theories of leadership and their application in education and training communities of practice.

EAHR 350 (formerly EAHR 390) 3:3-0
Theory and Practice in Adult Instruction
Examines qualities, roles, characteristics, styles, techniques, skills, philosophies and methods of effective adult instructors. Theories of adult instruction and learning, the instructional design process, the characteristics of effective adult learning environments and principles of adult facilitation will be explored, including the use of interactive information technology in adult instruction.

EAHR 410 3:3-0
Program Planning and Evaluations
A study of planning and evaluation models relevant to adult education. Includes labour market analysis, needs assessment, program design and program evaluation.

EAHR 411 3:3-0
Instructional Technology: Advanced
An examination and application of multimedia technology in the training and education environments. Current theory will be linked to practise in exploring the uses of multimedia hardware and software across post-secondary, business, business and industry sectors.

EAHR 413 3:3-0
Educational and Administrative Leadership in Training and Development
This course will study educational and administrative leadership in the field of human resource development and adult education. The course will focus on models of organization and the administrative and leadership practices that support them.

EAHR 415 3:3-0
Work Based Education
An exploration of work-based education and training programs with a focus on theories and practises. The Saskatchewan Training Strategy will serve as the basis of course discussion, reflection and exploration.

EAHR 440 3:3-0
Critical Adult Education and Training
Relationships between dialectics, critical theory, and critical social science are examined as a basis for a critical adult development curriculum. Various critical approaches to training and development are considered.

EAHR 442 3:3-0
Trends and Issues in Training and Development
An exploration of contemporary trends and issues shaping the fields of training and development and adult education environments. Among others, topics include workplace, societal, economic, political and global trends, the change role of trainers and educators as consultants and career counsellors, and gender, cultural and ethnic diversity and equity.

ECON 354   3:3-0  Economics of Cities  
Applies economic analysis to important questions regarding urban areas: why do they exist? What determines their location? What is their role in the Canadian Economy? Other issues considered are: zoning policies, local government spending and taxation, urban economic development policy, and urban transportation policy. *** Prerequisite: ECON 201 ***

ECON 360   3:3-0  Economics of War  
Examines the economic problems caused by major wars (and the attempted solutions): budget deficits (taxation, borrowing, black markets); trade deficits (exchange controls, central bank cooperation); inflation (wage and price controls); post-war reconstruction (foreign aid); and repatriation (hyperinflation). *** Prerequisite: 45 credit hours or 3 ECON courses ***

ECON 361   3:3-0  Economics of Public Enterprise & Regulation  
A study of public policy toward big business: advantages and disadvantages of crown corporations, causes and effects of government intervention in private economic activities, regulation of the pricing and investment activities of firms. *** Prerequisite: 45 credit hours or 3 ECON courses. ***

ECON 362   3:3-0  Economics of Collective Behaviour  
Examines the cases in which people choose to achieve their economic goals collectively rather than individually, through institutions such as social partnerships (e.g. marriage, clubs), corporations, and governments. Particular attention will be given to the circumstances that lead people to opt for a collective solution (e.g. market failure). *** Prerequisite: 45 credit hours or 3 ECON courses. ***

ECON 363   3:3-0  Population Economics  
Examines the impact of changing population age structures on economic performance and public well-being. *** Prerequisite: 45 credit hours or 3 ECON courses ***

ECON 372   3:3-0  Natural Resource Management on the Prairies  
Problems in the prairie oil/gas, timber, uranium, potash, power generation and water management sectors; preservation of prairie ecosystems; application of theory to determine how best to deal with these problems. *** Prerequisite: ECON 201 ***

ECON 380   3:3-0  Writing for Economists  
Students will work, individually and collaboratively, in classroom and library, on numerous and varied small writing assignments. Exercises will be based on current economic policy issues. Students will improve their research and writing skills and debate economics. *** Prerequisite: 3 ECON courses and ENGL 100. *** * Note: Registration is restricted to ECON majors only. *

ECON 396   1-3:1-3-0  Selected Topics II - an AA-ZZ series.  
Current interest and occasional offerings, designed for upper-year students. *** Prerequisite: 45 credit hours or 3 ECON courses ***

ECON 401   3:3-0  Advanced Microeconomic Theory  
Selected advanced topics in microeconomic theory. Topics may include: general equilibrium theory, game theory, welfare economics, economics of information. *** Prerequisite: ECON 301 and MATH 103 or equivalent. ***

ECON 402   3:3-0  Advanced Macroeconomic Theory  
Selected advanced topics in macroeconomic theory. Topics may include growth theory and policy, business cycle theory, and fiscal sustainability. *** Prerequisite: ECON 302 and, MATH 103 or equivalent. ***
Dance in Cultural Contexts
Planning of experiences which explore dance in cultural contexts for pupils, K-12. The students will be involved in the study of resources, in interviews, observation and analysis of dance milieux. *** Prerequisite: EDAN 101 and 202 *** * Note: Normally offered in winter only.*

EDAN 303
Dance Composition
An introductory course in the basic principles of dance composition. Both practical and critical work will be applied to explore the creative process and to develop the skills of choreography. *** Prerequisite: EDAN 101 and 202, or permission of instructor. *** * Note: Normally offered in fall only. *

EDAN 401
Movement Notation
This course is an introduction to the theory and practice of movement notation. Emphasis on developing reading skills through the study of scores. *** Prerequisite: EDAN 101 and 202, or permission of instructor. ***

EDAN 402
History of Dance Education
An introduction to the themes and issues in dance education, emphasizing major developments of dance teaching in theatrical dance, elementary and secondary education, community settings and university training. *** Prerequisite: EDAN 101 and 202, or permission of instructor. ***

EDRA 101
Introduction to Drama Education
This course is an introduction to the theory and practice of group/contextual drama in the K-12 classroom. *** Prerequisite: THEA 100 *** * Note: Normally offered in fall only. *

EDRA 202
Introduction to Drama Education Part II
This course involves students in the exploration of collective creation as both process and product. *** Prerequisite: EDRA 101 *** * Note: Normally offered in winter only. *

EDRA 203
Drama in the Curriculum: I
Curriculum in drama education for prospective teachers. The course will survey existing drama curricula and provide beginning experiences in drama curriculum development for elementary and high schools. *** Prerequisite: EDRA 202 *** * Note: Normally offered in fall only. *

EDRA 204
Drama in the Curriculum: II
This course examines the possibility of drama in other curriculum areas with special emphasis on English Language Arts. ** ** Prerequisite: EDRA 101 and 203, or permission of instructor. ** ** * Note: Normally offered in winter only. *

EDTE 100
Teaching Strategies and Professional Development in Dance
Participants will focus on professional development in dance and learn and enhance skills and strategies of dance teaching. Topics will include the role of the dance teacher, creating an environment for learning and teaching, and specific teaching strategies for dance.

EDTE 101
Mentorship and Practicum
Participants will have the opportunity to be linked to a mentor, and to practice teach in their selected dance form under the supervision of a registered, certified or otherwise qualified educator. *** Prerequisite: EDTE 100 with a minimum grade of 60%. ** ** * Note: Pass/fail grade. *
This course will offer an intensive and introspective look at Arts Education Curriculum with special reference to dance and dance resources. Participants will consider their relationship to the curriculum and the support that they can offer to the teaching of dance in public schools.

**EDTE 130**

Héritage de la francophonie canadienne - French-Canadian Heritage
Aperçu des coutumes, traditions, croyances populaires, légendes, contes, et chansons folkloriques. Survey of customs, traditions, popular beliefs, legends and folk songs of French Canada. *** Préalable : HIST100 et FR 230 ou permission de l’Institut français *** *** Prerequisite: HI 100 and FR 230 or permission of the Institut français ***

**EFC 400** 3:3-0
Études en culture canadienne francophone I - Studies in French-Canadian Culture I
Analyse des discours intellectuels et culturels de la société canadienne française aux XIXE et XXE siècles. Analysis of intellectual and cultural ideas current in French-Canadian society during the 19th and 20th century. *** Préalable : EFC 200 ou HIST 215, FR 270 et un cours de niveau 300 en sciences politiques, sociologie, histoire ou littérature française. *** *** Prerequisite: EFC 200 or HIST 215, FR 270 and a 300-level course in political science, sociology, history, or French literature. ***

**EFC 401** 3:3-0
Études en culture canadienne francophone II - Studies in French-Canadian Culture II
Analyse des discours intellectuels et culturels de la société canadienne française aux XIXE et XXE siècles. Analysis of intellectual and cultural ideas current in French-Canadian society during the 19th and 20th centuries. *** Préalable : EFC 400 *** *** Prerequisite: EFC 400 ***

**EFC 400** 6:3-0
Travaux dirigés - Directed Reading and Research
Les étudiants choisiront un sujet de recherche sur lequel ils rédigeront un travail d'envergure. Students will select a special project and will write a major paper. *** Préalables : EFC 200 ou HIST 215, FR 270 et un cours de niveau 300 en sciences politiques, sociologie, histoire ou littérature française, ou la permission du Département de français ou de l'Institut français. *** *** Prerequisite: EFC 200 or HIST 215, FR 270 and a 300-level course in political science, sociology, history, or French literature, or permission of the Department of French or l'Institut français. ***

**EFDN 300** 3:3-0
Histoire des idées en éducation
Genèse des faits éducatifs en Occident des origines judaïques et gréco-romaines jusqu’au dix-neuvième siècle. L’emphase est mise sur les dimensions religieuses et culturelles exprimées par les grands penseurs. *** Préalable : 3e ou 4e année. ***

**EFDN 301** 3:3-0
Philosophical Analysis of Education
Use of philosophical analysis to clarify education, schooling, teaching, knowledge, curriculum, discipline, authority; and basic principles of reasoning to justify aims, content, values. *** Prerequisite: Third or fourth-year standing, or permission of the subject area. LGC 100 or PHIL 100 is recommended. ***

**EFDN 303** 3:3-0
Moral Education
Brief exploration of the moral domain: nature of moral values, judgement, and reasoning. A critical examination of theory and practice in contemporary models of moral education. *** Prerequisite: Third or fourth year standing, or permission of the subject area. ***

**EFDN 306** (formerly EFDN 392) 3:3-0
Schooling & Sexual Identities
This course will provide a rationale, background, and strategies for understanding sexual identity and the social constructions of inclusivity and difference in schools. This course will examine the pedagogical and curricular implications for all educators of gay, lesbian, bisexual, and transsexual (GLBT) students and teachers in our schools. *** Prerequisite: Students will have completed two years of undergraduate study. ***

**EFDN 307** 3:3-0
Education and the Multicultural Society
This course will examine multicultural education in the context of social interaction and change. The implications for school policies and practices at national and provincial levels will be considered. *** Prerequisite: Third or fourth year standing, or permission of the subject area. *** * Note: This course remains an option for Semester 3 Elementary Program students to meet the cross-cultural requirement. *

**EFDN 307** 3:3-0
Le multiculturalisme en éducation
Ce cours vise à une ouverture d’esprit sur les phénomènes culturels et les changements qui affectent la société canadienne contemporaine; son but principal est de permettre aux futurs enseignants d’identifier la diversité culturelle dans les écoles et de s’y adapter. On se penche à la fois sur les différences et les similarités qui s’expriment à l’intérieur du système scolaire, et on met en relief les processus d’analyse et de réflexion.

**EFDN 308** 3:3-0
Women and Education
This course examines women and education from historical, philosophical and sociological perspectives. Topics include women’s experiences as teachers, issues of access and equity, feminist views on educational goals, curriculum, pedagogy, and schools, and the politics of teaching. *** Prerequisite: Third or fourth-year standing, or permission of the subject area. ***

**EFDN 309** 3:3-0
Sociology of Education
(Cross-listed for 200-level credit in sociology)
Study of classroom, school, and schooling as social systems; the cultural function of educational institutions. Concepts such as social organization, stratification, mobility, role, and values are applied. *** Prerequisite: SOC 100 recommended. ***

**EFDN 311** 3:3-0
Philosophical Ideas in Education
Comparative and critical study of selected 20th-century schools of educational philosophy (eg., realism, pragmatism, behaviourism, existentialism) and their representative thinkers. *** Prerequisite: Third or fourth year standing, or permission of the subject area. ***

**EFDN 314** 3:3-0
The Curriculum: Its Foundations and Development
Study of historical, philosophical, social, and psychological factors influencing curriculum formation; objectives and procedures for content selection including the features of Sask. Core Curriculum. ***

** Faculty of Education
Elementary Practicum
An alternate field experience for elementary students in programs leading to a BEd or certificate. Open to students whose goals require a unique form of practicum. ** Consent of the co-ordinator of professional development is required to register. ** Note: Students must fill out the Workers' Compensation Agreement form. Pass/fail grade mode. *

EFLD 406
Stage élémentaire
Ceci constitue un alternatif à l'internat de l'élémentaire menant à un diplôme de BEd ou un certificat. Ce stage offre une variété d'expériences à ceux qui visent une pratique unique en son genre. Accessible aux étudiants sur l'avis du conseiller et l'approbation du co-ordonateur du développement professionnel. * Les étudiants doivent remplir le formulaire d'entente de la Commission des accidents de travail. Évaluation: Réussite/échec. *

EFRN French Education
Faculty of Education

EFRN 300
Core French Education-Grades 7 to 12
This course examines various FSL programs, the Saskatchewan Curriculum guide and the application of curriculum principles to the teaching of Secondary Core French. *** Prerequisite: FR 201. *** * Note: This course is taught in French. Normally offered in fall only. *

EHE 350
School Health Education
An advanced course on methods and materials designed to meet the needs of the health, physical education, or classroom teacher. *** Prerequisite: EHE 258, or permission of health and physical education subject area. ***

EHE 385
Introduction to Drug Education
The physical, social and psychological aspects of drug use, misuse and abuse, including pharmacological and rehabilitation problems. Particular emphasis is given to the methods of teaching. *** Prerequisite: EHE 258 or EHE 215 ***

EHE 215
Elementary School Health Education: Methods, Content and Materials
The purpose of this course is to acquaint the students with the health programs, methods, content, and materials in both the elementary and middle years school levels. *** Prerequisite: Selection into elementary program. ***

EHE 258
Personal and Community Health
The course focuses on basic background and content in health education, covering such major areas as environment, drugs, sex, consumer health, safety, mental health, nutrition, fitness, and aging. * Note: Normally offered in winter only. *

EHE 300
Curriculum Construction in Health Education
An advanced course in the development of a health curriculum. *** Prerequisite: Minimum of 9-12 hours in health education courses. EPS 100, EPS 200, acceptance into pre-internship year, or permission of the health and physical education subject area. *** * Note: Exceptions will be made for elementary education students. *

EHE 205
Introduction to Indian Education
The implications of culture and cultural change for education are examined using examples from Indian cultures. Ways of integrating Indian culture into classroom practice are examined. *** Prerequisite: EPS 116, or permission from the department head. ***

EINE 305
Curriculum and Instruction Adaptation for Indian Education
Culturally relevant teaching methodologies for Indian pupils are examined. Planning skills are developed for integration of Indian content across the curriculum. *** Prerequisite: EINE 205 ***

EINE 405
Foundations of Indigenous Knowledge
This course will explore Aboriginal ways of knowing and being through an experiential approach in a cultural immersion setting. The respect, the dignity and the wisdom of Aboriginal peoples will frame the students' foundational understandings for teaching and learning in schools. *** Prerequisite: One of CREE 100, SAUL 100, DENE 100, NAK 100, or DAK 100. *** * Note: Accommodation Fee $125.00. *

EIHE Indian Health Education
Faculty of Education

EIHE 215
Introduction to Indian Health Education in Elementary School
Introduction to methods and materials for effective health education, particularly for Indian pupils. Basic health concepts are studied within the framework of the traditional Indian philosophy of health and wellness. *** Prerequisite: EPS 100 or permission from First Nations University of Canada, Indian Education department head. ***

EIHE 355
Educational Administration: Indian Education Structure and Process
An overview of administration in federal, provincial, and band-controlled schools with reference to constitutional, legal, and economic components. *** Prerequisite: EPS 225 ***

EIAD Indian Educational Administration
Faculty of Education

EIAD 355
Indian Educational Administration
3:3-0
Educational Administration: Indian Education Structure and Process
An overview of administration in federal, provincial, and band-controlled schools with reference to constitutional, legal, and economic components. *** Prerequisite: EPS 225 ***
language learning. *** Prerequisite: An introductory course in the principles of teaching English as a second language or EINL 225. ***

EINL 335
Community Based Curriculum Development for First Nations (K-12) Languages
This course will focus on community based curriculum development and implementation procedures for First Nations language programs. Adaptation and modification of specific community based curriculum models will be examined. *** Prerequisite: EINL 225 or EINL 325 ***

EINL 450
Indian Language Immersion
This course is intended to provide students with increased fluency in an Indian language; to review First Nations languages immersion programs presently in use; and to help students design, implement and evaluate Indian language immersion programs. *** Prerequisite: Fluency in a First Nations language, or Indian language 104, or EINL 325 or permission of the Department of Extension and Northern Operations at First Nations University of Canada. *** * Accommodation Fee $125.00 *

EINS 300
Introduction to Native Studies Education
An introduction to Native Studies Education in secondary schools including a critical examination of Native Studies curriculum, instructional methods, assessment and evaluation. Philosophies of First Nations education will also be explored. *** Prerequisite: 12 credit hours of Indian/Native Studies that are part of the major or minor, or permission of Indian Education department head. ***

EINS 350
Instruction and Evaluation in Secondary Native Studies Education
This course will examine instructional methods and pedagogy for teaching Secondary Native Studies to affect positive personal and social change. Program evaluation and evaluation of student learning will also be examined. *** Prerequisite: 18 credit hours of Indian/Native Studies, or permission of Indian Education department head. ***

EINS 400
Issues in Secondary Native Studies Education
This course will examine issues that impact the teaching of Secondary Native Studies including First Nations historical and contemporary issues. Appropriate methodologies to address the issues of race, culture, identity and ethnicity will be explored. *** Prerequisite: 18 credit hours of Indian/Native Studies, or permission of Indian Education department head. ***

EIOE 215
First Nations’ Outdoor Education: Part I
The course will focus on outdoor education theory, and how to use it to enhance classroom teaching and to foster a healing environment. Students will learn activities and methods for teaching Aboriginal cultural customs and environmental studies for academic, personal, social and cultural growth.

EIOE 225
First Nations’ Outdoor Education: Part II
The course will continue the focus on outdoor education theory, and how to use it to enhance classroom teaching and to foster a healing environment. Students will learn activities and methods for teaching Aboriginal cultural customs and environmental studies for academic, personal, social and cultural growth.
ELNG 325        3:3-0
The Teaching of Writing
Classroom applications of recent theory, research and practice in the teaching of writing for elementary pre-service teachers. Study of writers' processes and strategies through participation in a writing workshop. *** Prerequisite: ELNG 205 ***

ELNG 326        3:3-0
Teaching English as a Second Language
Principles of ESL teaching, methodology of teaching, lesson and unit planning, and examination and preparation of teaching and testing materials at the elementary, secondary, and adult levels. *** Prerequisite: EPS 100 or relevant teaching experience, or permission of subject area. ***

ELNG 350        3:3-1
Secondary English Methodology Literature
This course presents methods for teaching literature, drama, and film at the high school level. It emphasizes the translation of theory and content into classroom practice. *** Prerequisite: ELNG 300 for English Education majors; permission of the subject area for others. *** * Note: Normally offered in winter only.

ELNG 351        3:3-1
Secondary English Methodology: Composition, Language and Media
This course presents methods for teaching English composition, language, and media. It emphasizes the translation of theory and content into classroom practice. *** Prerequisite: ELNG 300 and ELNG 316 for English Education majors; permission of the subject area for others. *** * Note: Normally offered in winter only.

ELNG 450        3:3-0
Issues in Secondary English Education
In-depth consideration of issues in English Language Arts Education chosen from: censorship, gender, language and curriculum, culture and curriculum, response to literature, curriculum reform, linguistic diversity, evaluation, reporting, and others. *** Prerequisite: Completed Internship (EFLD 400). ***

EMTH 200        3:3-0
Implementation and Assessment of Problem Solving in Mathematics
An exploration into teaching mathematics from a problem solving perspective. Classification, representation and retrieval strategies, and their implications for students’ mathematical thinking and classroom teaching are examined. *** Prerequisite: Two university math courses, or permission of the subject area. ***

EMTH 215        3:3-0
Theory and Practice in Teaching Mathematics in the Elementary School
This course examines the structure of mathematics and methodology related to major curriculum topics, including problem solving, rational numbers, and geometry. A critical resource-based approach will be used to enable students to become familiar with, and make wise choices about, a variety of teaching strategies and curriculum materials. *** Prerequisite: For elementary pre-internship students only. ***

EMTH 300        3:3-3
Curriculum Content in Secondary Mathematics I
This course explores four kinds of knowledge (curricular, pedagogical, content, and pedagogical content knowledge), and the relationship of each to the teaching of mathematics. *** Prerequisite: 12 credit hours of mathematics that are part of the major or minor, or permission of the subject area. *** * Note: Normally offered in fall only.

EMTH 325        3:3-0
Mathematics for the Elementary School Teacher
A resource-based, multi-media, experiential approach will be used to involve students in curriculum related mathematical experiences. *** Prerequisite: EMTH 215 or equivalent, or permission of mathematics education subject area. *** * Note: Normally offered in winter only.

EMTH 335        3:3-0
Curriculum and Instruction: Mathematics in the Elementary School
New approaches to structuring content and establishing strategies of teaching. Diagnosis and remediation, individualizing mathematics are included. Laboratory procedures mandatory. *** Prerequisite: 6 credit hours in mathematics and mathematics education courses or permission of mathematics education subject area.

EMTH 350        3:3-1.5
Curriculum Content in Secondary Mathematics II
A follow-up to EMTH 300 dealing with more advanced secondary mathematics topics, assessment, and evaluation. *** Prerequisite: EMTH 300, MATH 223, and at least 9 additional credit hours in mathematics. * Note: Normally offered in winter only.

EMTH 351        3.3-1.5
Theories of Instruction in the Teaching of Secondary School Mathematics
Techniques of secondary mathematics instruction. Discussion of expository, discovery, enquiry, and other approaches to mathematics teaching. Pre-internship school experiences and microteaching. *** Prerequisite: Minimum of 18 credit hours in mathematics or permission of the mathematics education subject area. *** * Note: Normally offered in winter only.

EMUS 300        3:3-0
Curriculum in Secondary School Music
An examination of the theoretical premises, design, and organization of the secondary music curricula. A comprehensive approach explores alternative means of elaborating and adapting the curriculum for classroom use. ** Permission of the Music Education Subject Area is required to register. ** * Note: Normally offered in fall only.
ENEL 384 3:3-3  
Electrical Circuits II  
AC circuits analysis, phasors, impedance, frequency, response, resonance, filters, second order transient analysis, introduction to AC power systems. *** Prerequisite: ENEL 280 ***

Digital Electronics  
The introductory aspects of digital electronic circuits, including: Boolean arithmetic, logic gates, flip flops, counters and registers, combinational and sequential logic design. Circuit configuration and electrical properties of NMOS, CMOS, ECL and TTL logic families. *** Prerequisite: ENEL 282 ***

ENEL 387 3:3-3  
Microcomputer Systems Design  
Design and analysis of microcomputer systems. Memory and peripheral devices are integrated with ASSEMBLER code with the aid of an emulator to produce a working system containing an imbedded microcomputer. *** Prerequisite: CS 250 and ENEL 384 ***

ENEL 389 3:3-3  
Instrumentation  
The study, analysis, and application of sensors and transducers considering the practical aspects of noise, accuracy, precision and calibration. The operation of electronic measuring equipment, instrumentation systems and interfacing. *** Prerequisite: ENEL 280 ***

ENEL 417 3:0-3  
ESE Design Project  
Typically, a functional device or system is to be designed, implemented and tested which incorporates electronic hardware and/or software in a team design. A formal written report, a demonstration of the project and an oral presentation of the work are required. *** Prerequisite: ENGG 400 and ENEL 387 ***

ENEL 484 3:3-3  
Digital Process Control  
Introduction to sampled data control theory. Modelling, analysis and design of digital control systems for industrial processes. Interfacing to instrumentation and control hardware. Applications. *** Prerequisite: ENEL 380 ***
ENEV 486  3:3-3  Analog Systems Design
Analog electronics fundamentals are extended to more complex applications and designs. Feedback amplifiers, oscillators, phase locked loops, high frequency amplifiers, high performance op-amp applications, advanced performance simulation. *** Prerequisite: ENEV 283 ***

ENEV 487  3:3-3  Real Time Industrial Processes
Characteristics, and analysis of real time control systems and their applications in the telecommunication and process control industries. Interfacing, communication links, system architecture and operating systems for real time processes. Industry standards and reliability. *** Prerequisite: ENEV 387 and CS 210 ***

ENEV 489  3:3-3  Application Specific Integrated Circuit Design
Introduction to ASIC chips: circuit design, fabrication, testing, and cost analysis. Advanced synchronous digital design techniques such as pipelining, parallelism, and caching. Application to sorting, encoding, decryption, and digital filters. Student do a design using a high-level design language ( VHDL) and test it on a RAM based FPGA. *** Prerequisite: ENEV 384 ***

ENEV 492  3:3-3  Telecommunication and Computer Networks
ISO-OSI layered model, design issues, protocols and interfaces, network primitives, protocol operation and verification, local networks, IEEE 802 standards, local network design studies, performance, public networks and telephone systems, ISDN. *** Prerequisite: ENEV 390 ***

ENEV 494  3:3-3  Telecommunication Systems Engineering
Approaches to the design of telecommunication systems based on specifications and constraints. Terrestrial and satellite communications. Audio, video and telephone systems. Noise and receiver fundamentals. *** Prerequisite: ENEV 393 ***

ENEV 495  3:3-3  Digital Signal Processing
Review of z transforms and discrete signal analysis, the discrete Fourier transform, digital filter design and analysis, IIR and FIR systems, DSP hardware and applications. *** Prerequisite: ENEV 390 ***

ENEV 496  1-6:1-6-0  Directed Study in Engineering - an AA-ZZ series
A course in special topics in which the student may do directed study in engineering under the supervision of a faculty member. ** A detailed outline of the proposed study must be approved by the program co-ordinator before registration. **

ENEV 261  3:3-3  Engineering Fluid Mechanics
Properties of fluids; fluid statics, mass, energy and momentum principles; steady state flow in pipe systems and open channels; flow measurement, dimensional analysis. *** Prerequisite: ENGV 141, concurrent enrolment is allowed. ***

ENEV 281  3:3-3  Surveying, Mapping and Information Systems
Fundamental principles and methods of surveying field work and computations. Concurrent lectures, field work and office work. Spatial information systems. *** Prerequisite: ENGG 113 and CS 110 ***

ENEV 320  3:3-3  Introduction to Environmental Systems Engineering
An introduction to air pollution engineering, acid rain, global warming, ozone depletion, water resources, water/ wastewater treatment, solid waste management, noise impacts and control, and ionizing radiation. *** Prerequisite: CHEM 103 ***

ENEV 321  3:3-4  Applied Environmental Science
Study of biochemical effects of human activities on the environment; ecology and environmental pollution; materials and energy balances; chemical systems; basic concepts of aquatic and soil chemistry; water resources; transport phenomena; water pollution; human health risk assessment; water quality and treatment; wastewater treatment; public health aspects. *** Prerequisite: ENEV 320 ***

ENEV 322  3:3-3  Applied Microbial Systems
An introduction to microbial structure, physiology and environmental relationships with emphasis on the application of microbial systems to environmental engineering. Includes a survey of microbiological processes that occur within and/or influence the function of engineered and natural systems. *** Prerequisite: ENEV 320 ***

ENEV 334  3:3-3  Applied Probability & Decision Making for Engineers
Probability and decision making for engineering systems and problems such as floods, containment, and traffic. Topics include hazard and risk analysis, regression, testing, distributions, Bayesian decisions, expected costs. *** Prerequisite: STAT 289 ***

ENEV 353  3:3-0  Electro-mechanical Services
Operation and application characteristics of pumps, piping systems, valves, fans, heat exchangers and electric circuits and motors. *** Prerequisite: ENIN 253 and ENEV 261 ***

ENEV 360  3:3-3  Environmental Hydraulics
Momentum, mass and energy balances in the design, synthesis and analysis of flow in pipes, open channels and porous media; pumps; turbines; dams; spillways; culverts; diversion; conveyance and control structures. *** Prerequisite: ENEV 261 ***

ENEV 363  3:3-3  Water and Wastewater Engineering
The theory and design of systems and system components used in water treatment and distribution and in wastewater collection and treatment. *** Prerequisite: ENEV 321 ***

ENEV 372  3:3-1  Transportation Systems
Introduction to transportation as a system; roles of transportation in society; the technology of transportation; the transportation system and its environment; introduction to planning and management of regional transportation facilities. *** Prerequisite: ENGV 141, concurrent enrolment is allowed. ***

ENEV 383  3:3-3  Geotechnical Engineering
Soil properties, water movement and seepage, stress distribution in soil masses, consolidation and settlement, lateral shear stress, slope stability analysis, shallow foundation design and retaining wall design. Emphasis will be on the environmental problems with the soil. *** Prerequisite: ENIN 241 and ENEV 384 ***

ENEV 384  3:3-3  Engineering Materials
Structure and properties of engineering materials, particularly steel, aggregate, and asphalt and Portland cement concretes. Introduction to soils. Environmental aspects of materials. *** Prerequisite: CHEM 103 ***

ENEV 400  1:1-0  EVSE Project Start-up
In this course a team design project for ENEV 415 is selected, preliminary project information gathered and a project plan prepared. Students are advised to coordinate the chosen project topic with their approved electives in order to be better prepared for the completion of their ENEV 415 project. *** Prerequisite: ENEV 321 and ENEV 421 ***

ENEV 408  3:3-3  Basic Structural Design
Design concepts and practices for simple beams, columns, connectors and structures in wood, steel and reinforced concrete. Basic types and problems in design of foundations. *** Prerequisite: ENIN 241 and ENGV 240 ***

ENEV 415  3:0-0
Environmental Systems Engineering Design Project and Communications
Preparation and presentation of a report on an approved systems engineering design project. Basics of preparing and presenting engineering reports. *** Prerequisite: ENGG 400 ***

ENEV 421 3:3-3
Environmental Design and Impact
Environmental factors and their assessment with particular reference to engineering projects. Topics include mitigation measures and standards. *** Prerequisite: ENEV 320 ***

ENEV 422 3:3-1
Solid and Hazardous Waste Management
Legislative trends; sources and characteristics of municipal solid waste; Recycling waste materials; Collection, transfer and transport; Disposal options; Sanitary landfill, incineration, composting and bioconversion; Management and Planning; Hazardous Wastes-Problems, impacts and treatment/disposal. *** Prerequisite: ENEV 320 ***

ENEV 435 3:3-1
Engineering Project Management

ENEV 440 3:3-3
Air Pollution Engineering
Air pollution effects and control regulations, atmospheric chemistry, air quality detection, pollution meteorology, air quality, modelling, air pollution control, techniques, and global atmospheric problems. *** Prerequisite: ENEV 321 ***

ENEV 462 3:3-3
Engineering Hydrology
Introductory engineering hydrology course. Topics include rainfall, snowmelt, infiltration, evaporation, streamflow, flood frequency analysis, flood routing and runoff modelling. *** Prerequisite: ENEV 261, 334 and CS 110 ***

ENEV 463 3:3-3
Water Resources Systems
Water resources planning and management. Topics include planning for hydroelectric, flood control, water supply and irrigation projects; stochastic processes; synthetic streamflow generation; simulation and optimization of water resource systems. *** Prerequisite: ENEV 462 ***

ENEV 465 3:3-3
Advanced Water and Wastewater Engineering
Advanced consideration of water and waste treatment systems and their components; sludge treatment and disposal; wastewater reclamation and reuse; effluent disposal. *** Prerequisite: ENEV 363 ***

ENEV 469 3:3-3
Groundwater Development & Contaminant Transport
Basic principles of fluid flow in saturated and unsaturated materials, well problems, groundwater quality, discussion of salt water intrusion, and modelling of groundwater flow and contaminant transport. *** Prerequisite: ENEV 261, 462, MATH 213 and ENEV 383, which may be taken concurrently. ***

ENEV 475 3:3-1
Traffic Engineering
Study of the characteristics of traffic flow and methods of traffic control: introduction to traffic flow and queueing theory; roadway capacity and level of service analysis; speed and volume studies; traffic signs and signalization; computer control systems; accident analysis. *** Prerequisite: ENEV 372 ***

ENEV 480 3:3-3
Terrain and Site Analysis
The application of airphoto, satellite imagery and geomorphological interpretation to regional engineering problems, to management of resources and to monitoring of the environment. On-site investigation techniques. *** Prerequisite: GEOL 102 ***

ENEV 484 3:3-3
Highway Design
Detailed geometric design of highways; functional and detailed geometric design of at-grade and grade separated intersections; introduction to design of flexible and rigid pavements. *** Prerequisite: ENEV 281, 372 and 384 ***

ENEV 495 1-6:1-6-0
Directed Study in Engineering - an AA-ZZ series.
A course in special topics in which the student may do directed study in engineering under the supervision of a faculty member. A detailed outline of the proposed study must be approved by the program coordinator before registration.

ENGG Faculty of Engineering

ENGG 051 - 054 0:0-0
Engineering Co-op Work Term I - IV
Four-month co-op work terms approved by the Faculty and arranged by the University Co-op Office. Four are required for co-op designation and are normally taken in sequence. *** Prerequisite: ENGL 100 ***

ENGG 100 3:3-4
Engineering Graphics
Fundamentals of graphical communication and analysis. Manual and computer-aided sketching and drawing techniques; orthographic and pictorial projections; multi-view, isometric and oblique drawings; basic descriptive geometry; introduction to working drawings.

ENGG 103 3:3-2
The Impact of Technology on Society
This course will explore the affect that technology has had on society (past, present, and future) with an emphasis on engineering aspects and the engineering profession.

ENGG 113 3:3-2
Engineering Communications and Design
Engineering design as related to the overall process of planning, production, marketing and business operations. Technical writing skills including informal and formal engineering reports and correspondence. Oral presentations. *** Prerequisite: ENGG 100 and ENGL 100 (may be taken concurrently). ***

ENGG 141 3:3-0
Mechanics for Engineers - Dynamics
Engineering applications of mechanical systems; kinematics and kinetics of particles and rigid bodies (such as gears, linkages and other mechanisms), D'Alembert's Principle, work, energy impulse, momentum. Introduction to mechanical vibrations. *** Prerequisite: ENGG 140 and MATH 111 (may be taken concurrently). ***

ENGG 240 3:3-2
Engineering Science I - Mechanics
The application of the principles of mechanics to engineering problems. Topics include resultants of force systems, laws of equilibrium, forces in simple structures, friction, centroids, moments of inertia, kinematics and kinetics. *** Prerequisite: MATH 111 and PHYS 119 ***

ENGG 303 3:3-0
Engineering Economics and Evaluation
Evaluation of engineering systems; economic, social, environmental factors; engineering economics including interest, discounting, methods of comparative costing, capital recovery; assessment of non-economic factors and trade-offs; evaluation presentation. *** Prerequisite: STAT 289, and ECON 100 or ECON 201 ***

ENGG 401 3:3-0
Engineering Law and Professionalism
Canadian law and professional engineering legislation topics include: environmental law, tort liability, contracts, tenders, corporations partnerships, patents, industrial design, copyright, trademarks and code of ethics. *** Prerequisite: One of ENEL 400, ENEV 400, ENIN 400, ENPE 400, or ENSE 400 ***

ENGG 436 3:3-0
Engineering Entrepreneurship
Explores the nature of engineering entrepreneurship; helps assess entrepreneurial potential and career strategy; identifies sources of new venture ideas; develops selection criteria, feasibility studies and
venture proposal plans; addresses technological entrepreneurship in small and large organizations.

**ENGL**
Faculty of Arts
English

**DEPARTMENT OF ENGLISH**

**FIRST-YEAR COURSES IN ENGLISH**

Students with no previous University-level credit in English will take ENGL 100. In addition, students in the Faculties of Arts, Science, and Fine Arts and students who wish to take senior courses in English, must take ENGL 110 (refer also to note 1 following the description of ENGL 110, below).

**ENGL 100**
3:3-0
Critical Reading and Writing I
This course develops students’ proficiency in critical reading and writing through the study of a wide range of non-literary and literary texts, and the study of composition, with emphasis on connections between modes of reading and writing. **Note:** English 100 is a requirement for graduation for all degree programs offered by the University of Regina. Students should be aware that failing English 100 could result in their being ineligible to graduate from any degree program at the University of Regina. Students who are planning to repeat ENGL 100 should seek academic advising before doing so. *

**ENGL 100AA**
0:1.5-0
Critical Reading and Writing I (1st half)
This course carries no credit. ENGL 100AA together with ENGL 100AB cover the same material as is covered in ENGL 100. This course develops students’ proficiency in critical reading and writing through the study of a wide range of non-literary and literary texts, and the study of composition, with emphasis on connections between modes of reading and writing. **Note:** ENGL 100AA and ENGL 100AB are intended for students who want a slower version of ENGL 100. *

**ENGL 100AB**
3:1.5-0
Critical Reading and Writing I (2nd half)
This course is a continuation of ENGL 100AA. Together with ENGL 100AB, it covers the same material as is covered in ENGL 100. This course develops students’ proficiency in critical reading and writing through the study of a wide range of non-literary and literary texts, and the study of composition, with emphasis on connections between modes of reading and writing. **Prerequisite:** ENGL 100AA. **Note:** ENGL 100AA and ENGL 100AB are intended for students who want a slower version of ENGL 100. Students can receive credit for only one of ENGL 100 or ENGL 100AB. *

**ENGL 110**
3:3-0
Critical Reading and Writing II
A study of a special topic in literature, which may include non-literary texts, in conjunction with a continuation of the writing program begun in ENGL 100. **Prerequisite:** ENGL 100 **Note 1:** Students who have passed former ENGL 120, 130, or 140 may not receive additional credit for ENGL 110. **Note 2:** Every section of ENGL 110 has a different focus. Please consult the Department's Supplementary Calendar or the list of current course offerings on the Departmental website at: http://www.uregina.ca/english. **Note 3:** Students who fail ENGL 110 twice would have to contact their faculty or their Federated College immediately. *

**INTERMEDIATE COURSES IN ENGLISH**

Students who have passed ENGL 100 and one of former ENGL 120, 130, or 140, and students who have passed former ENGL 100 (4 credit hours) in lieu of the prerequisite are eligible to take these courses.

**ENGL 211**
3:3-0
Literature Survey I
A survey of literature in English from the Middle Ages to 1800. **Prerequisite:** ENGL 100 and 110 **

**ENGL 212**
3:3-0
Literature Survey II
A survey of literature in English from 1800 to the present. **Prerequisite:** ENGL 100 and 110 **

**ENGL 213**
3:3-0
Survey of Canadian Literature
A survey of Canadian Literature in English from the pre-twentieth-century to the present day. **Prerequisite:** ENGL 100 and ENGL 110 **

**ENGL 221**
3:3-0
Poetry
Practice in the analysis of poetry. Through the study of a wide range of poetic genres, this course provides students with a shared vocabulary of literary terms for the critical discussion of formal, stylistic and historical aspects of individual texts and of poetic traditions. **Prerequisite:** ENGL 100 and ENGL 110 **

**ENGL 222**
3:3-0
Fiction
Practice in the analysis of fiction. Through the study of a wide range of fictional genres, such as the short story, the novella and the novel, this course provides students with methods and a vocabulary for the formal, stylistic, cultural and historical study of both individual texts and traditions of fiction. **Prerequisite:** ENGL 100 and ENGL 110 **

**ENGL 223**
3:3-0
Drama
Practice in the analysis of drama. Through the study of dramatic traditions and selected plays (considered both as written texts and as performance), this course provides students with methods and a shared critical vocabulary, to enhance their understanding, enjoyment, and critique of drama as a ritualized mode of cultural experience. **Prerequisite:** ENGL 100 and ENGL 110 **

**ENGL 251**
3:3-0
Expository and Persuasive Writing
The theory and practice of expository and persuasive writing. Each student will be expected to write several papers in a variety of modes of writing. **Prerequisite:** A combined average of at least 60% in any two English courses numbered 100 or higher, and completion of at least 30 credit hours. **

**ENGL 252**
3:3-0
Creative Writing I
An introduction to the craft of creative writing, with work in poetry, drama, and prose fiction. **Prerequisite:** ENGL 100 and 110. **Permission of the Department Head is required to register.** **Note:** All students wishing to enrol in this course must submit a sample of their creative writing and be interviewed by the instructor before registering. *

**ENGL 260**
3:3-0
The Structure of Modern English
An introduction to the structure of modern English, with emphasis on speech sounds, sound patterns, word formation, sentence structure, and dialect variation. **Prerequisite:** ENGL 100, or a 100-level course in a language or in Linguistics. **Note:** Students who have successfully completed LING 200 or FR 226 are not permitted to enrol in this course for credit. *

**SENIOR COURSES IN ENGLISH**

The normal prerequisites for the courses are ENGL 100 and ENGL 110. Students who have passed ENGL 100 and one of former ENGL 120, 130, or 140, and students who have passed former ENGL 100 (4 credit hours) are also eligible to take these courses. Students who are planning to major in English should if possible complete ENGL 211, and at least one of ENGL 221, 222, or 223 before enrolling in 300-level courses.

Please note that many of the courses listed below will be assigned a more specific title denoting the particular focus to be taken in each section. Students should consult the department’s Supplementary Calendar or the website at http://www.uregina.ca/english for these specific titles and for more detailed course descriptions before registering. Students may take more than one course under the same number, as long as the number is followed by a different letter combination.

**ENGL 250**
3:3-0
Creative Writing I
An introduction to the craft of creative writing, with work in poetry, drama, and prose fiction. **Prerequisite:** ENGL 100 and 110. **Permission of the Department Head is required to register.** **Note:** All students wishing to enrol in this course must submit a sample of their creative writing and be interviewed by the instructor before registering. *

**ENGL 260**
3:3-0
The Structure of Modern English
An introduction to the structure of modern English, with emphasis on speech sounds, sound patterns, word formation, sentence structure, and dialect variation. **Prerequisite:** ENGL 100, or a 100-level course in a language or in Linguistics. **Note:** Students who have successfully completed LING 200 or FR 226 are not permitted to enrol in this course for credit. *

**ENGL 300**
3:3-0
Chaucer
A study of some of the major works of Chaucer, including selections from The Canterbury Tales. **Prerequisite:** ENGL 100 and 110 **
ENGL 301  Shakespeare: Comedies and Romances  3:3-0
A study of five to seven of Shakespeare's comedies and romances. *** Prerequisite: ENGL 100 and 110 ***

ENGL 302  Shakespeare: Histories and Tragedies  3:3-0
A study of five to seven of Shakespeare's histories and tragedies. *** Prerequisite: ENGL 100 and 110 ***

ENGL 303  Milton  3:3-0
A study of some of Milton's major works, including Paradise Lost. *** Prerequisite: ENGL 100 and 110 ***

ENGL 304  Selected Author - an AA-ZZ series.  3:3-0
Studies of the works of an author to be chosen and announced each semester. *** Prerequisite: ENGL 100 and 110 ***

ENGL 309  Methods for the Study of Individual Authors  3:3-0
An exploration of methods used in the study of literary works in the context of their author's canon. Students will be required to write papers which analyze works in this context. *** Prerequisite: ENGL 100 and ENGL 110 ***

ENGL 310  Studies in the Literature of the Indigenous Peoples of North America - an AA-ZZ series.  3:3-0
Studies of selected texts from North American Indigenous literature, with attention given to historical perspective. *** Prerequisite: ENGL 100 and 110 ***

ENGL 312  Canadian Literature: Historical Periods - an AA-ZZ series.  3:3-0
Studies of selected texts from Canadian literature, with attention given to a particular historical period. *** Prerequisite: ENGL 100 and 110 ***

ENGL 313  Canadian Literature: Regional Literatures - an AA-ZZ series.  3:3-0
Studies of selected texts from Canadian literature, with attention given to a particular region. *** Prerequisite: ENGL 100 and 110 ***

ENGL 314  Canadian Literature: Genre - an AA-ZZ series.  3:3-0
Studies of selected texts from Canadian literature, with attention given to a particular genre. *** Prerequisite: ENGL 100 and 110 ***

ENGL 315  Canadian Literature: Special Topics - an AA-ZZ series.  3:3-0
Studies or selected texts from Canadian Literature, with focus to be chosen and announced with each offering. *** Prerequisite: ENGL 100 and 110 ***

ENGL 316-318  Studies in American Literature - an AA-ZZ series.  3:3-0
Studies of selected texts from American literature, with attention given to historical perspective. *** Prerequisite: ENGL 100 and 110 ***

ENGL 319-321  Studies in Women's Literature - an AA-ZZ series.  3:3-0
Studies of selected texts written by women, with attention given to historical perspective. *** Prerequisite: ENGL 100 and 110 ***

ENGL 322  Studies in the World Literatures in English - an AA-ZZ series.  3:3-0
Studies of literature from areas of the world that have experienced colonization. *** Prerequisite: ENGL 100 and 110 ***

ENGL 325-327  Studies in Medieval Literature - an AA-ZZ series.  3:3-0
Studies of selected texts from the Middle Ages, with attention given to historical perspective. *** Prerequisite: ENGL 100 and 110 ***

ENGL 328-330  Studies in Renaissance Literature - an AA-ZZ series.  3:3-0
Studies of selected texts from the Renaissance, with attention given to historical perspective. *** Prerequisite: ENGL 100 and 110 ***

ENGL 331-333  Studies in Restoration and Eighteenth-Century Literature - an AA-ZZ series.  3:3-0
Studies of selected texts from the Restoration period and the eighteenth century, with attention given to historical perspective. *** Prerequisite: ENGL 100 and 110 ***

ENGL 334-337  Studies in Nineteenth-Century Literature - an AA-ZZ series.  3:3-0
Studies of selected texts from the nineteenth century, with attention given to historical perspective. *** Prerequisite: ENGL 100 and 110 ***

ENGL 338-341  Studies in Twentieth-Century Literature - an AA-ZZ series.  3:3-0
Studies of selected texts from the twentieth century, with attention given to historical perspective. *** Prerequisite: ENGL 100 and 110 ***

ENGL 342  Special Studies in Historical Approaches to Literature - an AA-ZZ series.  3:3-0
Studies of selected texts in a specially defined context. The particular focus of the course will be chosen and announced each semester. *** Prerequisite: ENGL 100 and 110 ***

ENGL 349  Methods for the Study of Literary History  3:3-0
An exploration of methods used in the reading of literary texts in a historical context. Students will be required to write papers which analyze literary texts by means of historical approaches. *** Prerequisite: ENGL 100 and 110 ***

ENGL 351  Advanced Expository Writing  3:3-0
An advanced course in the theory and practice of writing. Each student will be required to write several papers. *** Prerequisite: ENGL 251 or permission of the department head. ***

ENGL 352  Creative Writing II - an AA-ZZ series.  3:3-0
An advanced course in the craft of creative writing. The course will specialize in one genre of writing each semester. *** Prerequisite: ENGL 252 *** ** Permission of the Department Head is required to register. ** * NOTE: All students wishing to enrol in this course must submit a sample of their creative writing and be interviewed by the instructor before registering.*

ENGL 353  Creative Writing III  3:3-0
An advanced course in the craft of creative writing. Each student will be expected to produce a substantial body of work as the main assignment for the course. *** Prerequisite: ENGL 352 *** ** Permission of the Department Head is required to register. ** * NOTE: All students wishing to enrol in this course must submit a manuscript of their creative writing and be interviewed by the instructor before registering. *

ENGL 354  Creative Non-Fiction  3:3-0
An advanced class in the craft of writing creative non-fiction. *** Prerequisite: ENGL 251 *** ** Permission of the Department Head is required to register. All students wishing to enrol in this course must submit samples of their creative writing and be interviewed by the instructor before registering. **

ENGL 360  History of the English Language  3:3-0
The development of the English language from Germanic to Modern English, including changes in phonology, morphology, syntax, and vocabulary. *** Prerequisite: ENGL 260 or LING 100 or LING 200 ***

ENGL 361  Old English I  3:3-0
A basic introduction to the Old English language, in conjunction with a study of short prose and verse texts. *** Prerequisite: ENGL 100 and 110 ***

ENGL 362  Old English II  3:3-0
A continuation of ENGL 361, with emphasis on reading literary texts, including selected parts of Beowulf. *** Prerequisite: ENGL 361 *** ENGL 363  3:3-0
History of Rhetoric
A chronological study of theories of rhetoric and rhetorical practice. *** Prerequisite: ENGL 100 and 110 ***

ENGL 365  
Discourse Analysis
An introduction to the analysis of units of language larger than the sentence, such as paragraphs, dialogues, monologues, written essays, and stories. *** Prerequisite: ENGL 100 and 110, or LING 220 ***

ENGL 367  
Gender and Language (crosslisted with WMST 367)
A study of issues related to gender and language, including stylistic variation between the sexes, differing male and female strategies for dealing with social context, and sexist language. *** Prerequisite: ENGL 100 and 110, or LING 220 ***

ENGL 368  
Special Studies in Language and Writing - an AA-ZZ series.
Studies of specific issues in language and/or writing. The particular focus of the course will be chosen and announced each semester. *** Prerequisite: ENGL 100 and 110 ***

ENGL 369  
Methods for the Study of Linguistics and Literature
An exploration of methods used in reading and interpreting literary texts through linguistic analysis. Students will be required to write papers which interpret literary texts by the methods of linguistics. *** Prerequisite: ENGL 100 and ENGL 110 ***

ENGL 371-373  
A study of several novels from a generic perspective, with the particular focus to be chosen and announced each semester. *** Prerequisite: ENGL 100 and 110 ***

ENGL 374-376  
Studies in the Short Story - an AA-ZZ series.
A study of several short stories from a generic perspective, with the particular focus to be chosen and announced each semester. *** Prerequisite: ENGL 100 and 110 ***

ENGL 377-379  
Studies in Drama - an AA-ZZ series.
A study of several plays from a generic perspective, with the particular focus to be chosen and announced each semester. *** Prerequisite: ENGL 100 and 110 ***

ENGL 380-383  
A study of several poems from a generic perspective, with the particular focus to be chosen and announced each semester. *** Prerequisite: ENGL 100 and 110 ***

ENGL 384-385  
A study of several narrative texts, with a focus to be chosen and announced each semester. *** Prerequisite: ENGL 100 and 110 ***

ENGL 386-387  
Special Studies in Genre - an AA-ZZ series.
A study of various literary texts, with a specialized approach to the question of genre. The specific focus of the course will be chosen and announced each semester. *** Prerequisite: ENGL 100 and 110 ***

ENGL 388  
Methods for the Study of Literary Genre
An exploration of methods used in the study of literary genres. Students will be required to write essays which analyze literature according to generic approaches. *** Prerequisite: ENGL 100 and 110 ***

ENGL 390  
History of Criticism
A chronological study of theories of literary criticism from Plato to T.S. Eliot. *** Prerequisite: ENGL 100 and 110 ***

ENGL 391  
Contemporary Critical Theory and Practice I
A study of the rise and development of critical theory and practice from the early formalisms through structuralism. *** Prerequisite: ENGL 100 and 110 ***

ENGL 392  
Contemporary Critical Theory and Practice II
A study of the development of critical theory and practice in the era of poststructuralism and postmodernism. *** Prerequisite: ENGL 391 ***

ENGL 393  
Feminist Approaches to Literature
An overview of feminist critical theory, with applications to several literary texts. *** Prerequisite: ENGL 100 and 110 ***

ENGL 394  
Special Studies in Gender and Literature - an AA-ZZ series.
A study of several texts, with a specialized focus on the question of gender. The particular focus of each course will be chosen and announced each semester. *** Prerequisite: ENGL 100 and 110 ***

ENGL 395  
Special topics in the area of critical theory. The particular focus of each course will be chosen and announced each semester. *** Prerequisite: ENGL 100 and 110 ***

ENGL 399  
Methods for the Study of Literary Theory
An exploration of methods used in some recent approaches to reading literary texts. Students will be required to write papers which offer textual readings based on the application of these approaches. *** Prerequisite: ENGL 100 and ENGL 110 ***

Advanced Majors and Honours Courses in English

400-level courses are intended for advanced English majors and English honours students only. For admission to the courses, students must have completed a minimum of 60 credit hours of courses and have an average of at least 70% both overall and in English courses. They must also have successfully completed a minimum of 18 credit hours in ENGL courses, at least 3 hours of which must be at the 300-level. Note: 4XX HH-ZZ will be restricted to students formally accepted to Honours program or permission of the department head.

ENGL 400  
Studies in Old English Literature - an AA-ZZ series.
ENGL 405  
Studies in Middle English Literature - an AA-ZZ series.
ENGL 410  
ENGL 415  
ENGL 420  
Studies in Restoration and 18th-Century Literature - an AA-ZZ series.
ENGL 425  
ENGL 430  
ENGL 435  
ENGL 440  
Studies in Canadian Literature - an AA-ZZ series.
ENGL 445  
ENGL 450  
Studies in English Language - an AA-ZZ series.
ENGL 455  

ENGL 460  
Studies in Drama - an AA-ZZ series.  

ENGL 465  

ENGL 470  
Studies in Form - an AA-ZZ series.  

ENGL 475  
Special Studies in Genre - an AA-ZZ series.  

ENGL 480  
Studies in Literary Criticism and Theory - an AA-ZZ series.  

ENGL 485  
Special Studies in Literature - an AA-ZZ series.  

ENGL 490  
Honours Essay I  
Work towards an Honours Essay. Students will be expected to submit a draft or preliminary work, which will be graded. *** Prerequisite: Completion of 90 credit hours. *** 

ENGL 491  
Honours Essay II  
Completion of an Honours Essay, which will be graded by the supervisor in consultation with another member of the faculty. *** Prerequisite: ENGL 490 with a minimum grade of 70% *** 

ENHS 100  
Environmental Health Communications  
Instruction and practice in oral and written communication skills pertinent to environment health practice. The course emphasizes life-long learning and public relations in a First Nations context. Topics include: oral presentations; communications in conflict, non-conflict, and management situations; working with the media; effective development of reports, letters, and educational material. *** Prerequisite: CS 100 and ENGL 100 *** 

ENHS 101  
Health Administration  
An overview course concerned primarily with major administrative concepts for health professionals. *** Prerequisite: INHS 101 and ENGL 100 *** 

ENHS 210  
International Health Issues  
An examination of the organization and delivery of community and environmental health programs internationally, with an emphasis on issues affecting Indigenous peoples in developing countries. Using a case study approach, the the contribution of education, technology, indigenous beliefs and practices, economic and political systems, and foreign aid will be assessed. *** Prerequisite: INHS 101 and ENHS 100 *** 

ENHS 300  
Research Methods  
An introduction to research design and methods with reference to frameworks commonly used in environmental health. Students will read and interpret research literature in environmental health and science. They will gain an understanding of the ethical and practical considerations of conducting research particularly in reference to First Nations. *** Prerequisite: ENHS 210, ENGL 100, and CS 100. *** 

ENHS 305  
Environmental Economics and Community Development  
Community development and environmental health planning in First Nations are explored with an emphasis on the impact of economic factors on environmental health and science issues. Includes an overview of the principles of environmental economics. *** Prerequisite: ENHS 210 *** 

ENHS 310  
Food Hygiene and Protection I  
An introduction to the composition, structure, and of food. Topics include an overview of human nutrition, comparative nutritional value of foods, additives, contamination, spoilage, and preservation of food, with a focus on foods such as meat, fish, milk, and milk products. The course emphasizes examples from First Nations settings. *** Prerequisite: BIOL 220 or 221, and CHEM 240 *** 

ENHS 311  
Food Hygiene and Protection II  
An examination of health protection in the manufacture, preparation, and serving of food in commercial and domestic situations. The course reviews relevant legislation regarding food and food facilities, inspection techniques, hazards, and control strategies. Examples of food handling situations in First Nations settings are provided. *** Prerequisite: ENHS 310 *** 

ENHS 320  
Community Health and Epidemiology I  
Introduces the basic principles and methods of epidemiology in environmental health practice including outbreak investigations, the principles and methods of epidemiologic study design, analysis of data and interpretation of results. Examples of communicable and non-communicable disease epidemiology in First Nations are included. *** Prerequisite: STAT 151 or STAT 289, BIOL 220 or 221, and KHS 287. *** 

ENHS 321  
Community Health and Epidemiology II  
Students learn to apply epidemiologic principles to gain an understanding of the prevention and control of communicable diseases and environmental health hazards. Emphasis will be placed on communicable disease epidemiology, especially for communicable diseases that are relevant to First Nations. *** Prerequisite: ENHS 320 *** 

ENHS 350  
Land Use/Management  
A comprehensive study of land use, land reclamation, development, planning, and reviews. Special attention will be given to issues of importance of First Nations communities. *** Prerequisite: ENHS 340 or ENEV 320 *** 

ENHS 380  
Environmental Health Research Project  
An introduction to research design and methods including critical appraisal of environmental health and science research. Students will gain an understanding of ethical and practical considerations of conducting research particularly in reference to First Nations. Includes practical experience in research project development and data analysis. *** Prerequisite: ENGL 100, ENHS 320, ENHS 210, and CS 100. *** 

ENHS 401  
Water and Wastewater Management  
Introduction to the theory and design of water treatment and distribution systems, wells, cisterns, surface water systems, wastewater treatment and the principles of hydrology and hydraulics. Special attention is given to safe water supply designs for First Nations. The course reviews recreational water maintenance including lakes and swimming pools. *** Prerequisite: PHYS 119, and ENEV 321 or ENHS 400. *** 

ENHS 420  
Environmental Health Law and Ethics  
Provides knowledge about the main types of legislation encountered by environmental health personnel including enforcement, evidence collection, appropriate use of regulatory tools, development of prosecution beliefs, prosecution and courtroom procedures. Special attention is given to the current status of and the development of appropriate health regulations for First Nations. *** Prerequisite: ENHS 321 *** 

ENHS 422  
Shelter Environment  
Introduction to basic principles of modern shelter and building codes emphasizing plumbing, heating, ventilation, lighting, and chemical and biological hazards associated dwellings, hospitals, schools, offices, nursing homes, campgrounds, and daycare. Land-use planning and environmental health in emergency situations are reviewed. Issues are placed in a First Nations context. *** Prerequisite: PHYS 119, ENHS 350, and ENHS 435 ***
ENHS 430 3:3-0
Health Concerns in the Workplace Environment
Health and safety hazards found in the workplace environment are studied with special emphasis placed on common occupational health hazards in First Nations. Explores common workplace hazards, their causes and effects, and prevention measures; reviews risk assessment including probability of failure, hazard analysis, human reliability, and risk-based decision making. *** Prerequisite: ENHS 340 or ENVE 320 ***

ENIN 435 3:3-0
Pest Control
Control of pests, particularly rodents and arthropods which act as vectors in disease spread, with emphasis on diseases significant to First Nations. Chemical and biological pest control methods, their use, cost, regulation, and safety measures are included. The spread and control of vertebrate-borne diseases like rabies and salmonellosis are discussed. *** Prerequisite: BIOL 220 or 221, and KHS 267 ***

ENH 440 3:3-0
Environmental Toxicology
An introduction to the basic principles of environmental toxicology, the chemistry and source of toxic substances, human exposure and dose-response relationships. The methodologies, data sources, uncertainties and procedures for risk assessment are covered. The course emphasizes environmental toxins of concern to First Nations. *** Prerequisite: ENHS 340 or ENVE 320, and KHS 267 ***

ENIN 444 3:3-3
Statistical Quality Control
Lumped parameter linear analysis methods for mechanical, electrical, fluid and thermal systems. Linear differential equations to analyze system response to step and sinusoidal forcing functions. Analogous nature of these systems. *** Prerequisite: MATH 212 and MATH 213 (concurrent enrolment allowed). ***

ENIN 424 3:3-3
Mechanics of Deformable Solids
Introductory mechanics of materials, stresses and strains in two dimensions, torsion, indeterminate systems, beams-stresses and deflection, combined stresses, thin shells, columns, Mohr's circle for stress and strain. *** Prerequisite: ENGG 140 and MATH 110 ***

ENIN 425 3:3-2
Engineering Thermodynamics
Fundamental laws of thermodynamics and their application to various engineering systems. Ideal and actual processes, power and refrigeration cycles. *** Prerequisite: MATH 213 ***

ENIN 330 3:3-3
Simulation and Modelling
Engineering approaches to model building and simulation of continuous and discrete systems. Simulation languages. Numerical methods in continuous systems modelling. Case studies in discrete systems simulation. *** Prerequisite: STAT 289 and ENIN 233 ***

ENIN 340 3:3-2
Human Factors Engineering
Anatomical, physiological and psychological aspects of people in their work environment. Sensory processes and motor function, health and morale. Social factors, stress and psychosomatic effects. Work standards, safety and schedules. *** Prerequisite: ENIN 233 ***

ENIN 343 3:3-3
Manufacturing Processes and Machinery
Manufacturing processes, methods and related equipment. Foundry, heat treatment and welding. Operational characteristics of manufacturing and manufacturing support machinery and equipment. Basic structure and properties of metals. *** Prerequisite: ENIN 241 ***

ENIN 349 3:3-3
Industrial Machine Design
Machine design problems using analysis and codes. Machines components, and meshing components to achieve machine function. Elementary stress analysis of equipment configuration. Tolerances and allowances. Design drawings. *** Prerequisite: ENIN 241 ***

ENIN 350 3:3-2
Chemical Manufacturing Process
Mass and energy balances in chemical process industries. Applications including the petrochemical, pulp and paper, and mining industries. Environmental problems, thermodynamics, stoichiometry, chemical reactions, and computer applications. *** Prerequisite: CHEM 103 and ENIN 253, concurrent enrolment is allowed. ***

ENIN 355 3:3-4
Heat Mass and Momentum Transfer
Differential equations of momentum, heat and mass transfer; dimensional analysis; heat conduction and convection; boiling and condensation; molecular diffusion; convective mass transfer; analogies between momentum, heat and mass transfer. *** Prerequisite: ENIN 253 and ENIN 350. ***

ENIN 370 3:3-3
Introduction to Mechatronics
Introduction to mechatronics; sensors and transducers, signal conditioning, mechanical and electrical actuation systems. Control of DC/servo motors using Pulse Width Modulation; system modelling, dynamic response of systems, closed-loop controllers, microcontrollers, digital logic, and programmable logic controllers. *** Prerequisite: ENEL 280 and ENIN 233 ***

ENIN 400 1:1-0
ISE Project Start-up
Students form design teams and select a project topic and faculty supervisor. Each team develops a project proposal, which is presented both orally and in written form. *** Prerequisite: ENGG 113 and ENIN 453. Concurrent enrolment allowed in ENIN 453. ***

ENIN 413 3:0-0
ISE Team Design Project and Communications
Students team design project is to be completed, written in acceptable report form and presented. Instruction will be given on the preparation and presentation of engineering reports in various audio/visual media. *** Prerequisite: ENGG 400 ***

ENIN 430 3:3-2
Systems Management
Approaches to management and optimization through problem identification, formulation and qualitative and quantitative solutions. *** Prerequisite: ADMN 260, concurrent enrolment is allowed. ***

ENIN 433 3:3-2
Risk Assessment and Decision Analysis
Probability of failure, hazards analysis, human reliability, reliability assessment, event tree and fault tree analysis and risk-based decision-making; decision consideration, inspection, testing and maintenance for critical components. *** Prerequisite: STAT 289 and MATH 215 ***

ENIN 440 3:3-2
Statistical Quality Control
Assessment and control of manufacturing processes using control charts. Quality inspection using acceptance sampling plans. Statistical tolerancing and process capability studies. *** Prerequisite: STAT 289 ***

ENIN 444 3:3-3
Computer-Aided Engineering
Computerized design aids, finite element analysis, design verification, simulation and testing. Control fundamentals as applied to numerical control machine systems. Specification, design, implementation and documentation of a design system. Robotics. *** Prerequisite: ENIN 370 and CS 130 ***

ENIN 445
Computer Integrated Manufacturing
Components of computer-integrated manufacturing systems. Numerical controlled machines. Robot technology, group technology and flexible manufacturing systems. Computer-aided process planning, inspection and quality control, automated storage and retrieval systems. *** Prerequisite: ENIN 343 ***

ENIN 448
Facilities Planning and Design
Approaches to establishing location and layout of space, equipment and services for industrial facilities. Criteria and data for generating alternatives. Material handling, flow and balance. Environmental, human and cost consideration. *** Prerequisite: ENIN 343 ***

ENIN 453
Mechanical Systems Equipment
Design, operation and application characteristics of service equipment commonly used in manufacturing and process plant operations and facilities. Includes compressors, pumps, piping systems, valves, hydraulic systems, fans, heat exchangers. *** Prerequisite: ENIN 253 and ENEV 261 ***

ENIN 455
Energy Systems
Examination of a variety of existing and potential systems involving production, consumption and environmental impact of chemical, electrical and mechanical energy. Energy systems, Heat transfer and thermodynamic analysis. Economic analysis. *** Prerequisite: ENIN 253 ***

ENIN 456
Process Unit Operations and Design
Principles and equipment design for momentum, heat and mass transfer operations in industries such as petrochemical and refining, mining and mineral processing, pulp and paper, food processing. *** Prerequisite: ENIN 355, concurrent enrolment is allowed. ***

ENPE Petroleum Systems Engineering

Faculty of Engineering

ENPE 241
Introduction to Petroleum Engineering
Exposure to various disciplines within petroleum engineering including drilling, production, and reservoir engineering; professionalism and ethics in petroleum engineering. *** Corequisite: GEOL 102 ***

ENPE 250
Properties and Phase Behaviour of Petroleum Systems
Review of first and second law principles. Physical, chemical and thermodynamic properties of fluids and solutions; vapoour-liquid equilibrium, PVT relationships of petroleum fluid systems, compressibility, flash calculations. *** Prerequisite: ENPE 240 ***

ENPE 251
Reservoir Fluid Properties
Qualitative and quantitative phase behavior of petroleum reservoir fluids through the algebraic and numerical application of thermodynamic theory, equations of state, and empirical correlations; determination of engineering PVT parameters; phase behavior of hydrocarbon systems. *** Prerequisite: MATH 212 ***

ENPE 300
Fundamentals of Reservoir Engineering
Relationship of geology, basic reservoir properties, surface and interfacial phenomena, the flow of fluids through porous media, general material balance, steady state, transient models; classification of petroleum reservoirs, displacement of oil and gas, reservoir estimation principles. *** Prerequisite: ENPE 241 and 251 ***

ENPE 301
Petroleum Systems Engineering I
Introduction to derivation and solution of the equations describing flow in petroleum reservoirs; description of petroleum reservoir fluid and rock properties; log analysis, well testing, drilling, facilities, production engineering and integrated management systems approach. *** Prerequisite: ENIN 253 ***

ENPE 302
Applied Reservoir Engineering
Analysis and prediction of reservoir performance by use of material balance. Reservoir performance by use of decline curves. Pressure maintenance, oil trapping, capillary number correlations, fluid displacement, fractional flow, displacement efficiency, areal and vertical sweep efficiencies, waterflooding design and gas injections. *** Prerequisite: ENPE 251 and ENPE 300 ***

ENPE 355
Heat, Mass and Momentum Transfer
Differential equations of momentum, heat and mass transfer; dimensional analysis; heat conduction and convection; boiling and condensation; molecular diffusion; convective mass transfer; analogies between momentum, heat and mass transfer. *** Prerequisite: ENIN 253 ***

ENPE 370
Petroleum Production Operations
Principles of oil and gas production. Artificial lift, inflow performance relationships, well stimulation, production system design. *** Prerequisite: ENPE 300 and ENEV 261 ***

ENPE 371
Petroleum Stimulation Process
Acid stimulation, fracture stimulation. Cement squeeze and other areas involved in the stimulation process. *** Prerequisite: ENPE 301 ***

ENPE 380
Petroleum Treating Operations
Petroleum treating processes. Multiphase Separation equipment design and operations; hydrclyclosenes, desalination, dehydration, hydrate, prevention, emulsion treating, viscosity altering processes. *** Prerequisite: ENIN 355 ***

ENPE 381
Natural Gas Engineering
Determination of gas properties; estimation of reserves, material balance equation, decline curve analysis, deliverability of individual gas wells. Single and multiphase flow in pipes, gas-condensate reservoirs; design of production facilities, metering, compression, gas storage, transmission and pipeline transportation. *** Prerequisite: ENPE 241 and 251 ***

ENPE 400
1:1-0
ENPE Project Start-up
Definition of petroleum engineering design problems, identification of projects' topics and partners and supervisors, proposal writing for engineering projects, approaches for carrying out the research and design, approaches for communicating research and design results. *** Prerequisite: ENPE 241, ENPE 251, ENPE 300, ENPE 302, and ENPE 370. Concurrent enrolment allowed in ENPE 302 and 370 ***

ENPE 410
Enhanced Oil Recovery Methods
Displacement processes for recovering additional hydrocarbons. Waterflooding, gas flooding, solvent flooding, thermal recovery processes. Development of design techniques. *** Prerequisite: ENPE 300 and 302 ***

ENPE 419
3:0-0
PSE Design Project and Communications
Students team design project is to be completed in an acceptable written and oral report form. Instructions will be given on the preparation and presentation of the engineering report related to the petroleum industry. *** Prerequisite: ENGG 400 ***

ENPE 440
3:3-3
Well Logging and Formation Evaluation
Fundamentals of well logging for the determination of petrophysical properties in the near bore regiona, types of well logging devices and applications of well logs for petroleum system management. *** Prerequisite: ENPE 241 *** *** Co-requisite: ENPE 460 ***

ENPE 450
3:3-3
Well Testing
Basic principles of well testing and interpretation for oil and gas production, pressure transient theory, principles of superposition, application of well testing to homogeneous and heterogeneous reservoirs. *** Prerequisite: ENPE 300 ***

ENPE 460 Drilling Engineering
Drilling fluids, rotary drilling, drilling hydraulic, formation pore pressure and fracture resistance, casing design, directional drilling, horizontal drilling, drilling waste disposal. *** Prerequisite: ENPE 300 and ENEV 261 ***

ENPE 470 Reservoir Modelling
Fundamentals of modelling in petroleum engineering. Simulation methods as applied to specific problems in petroleum reservoir behavior; examples will be drawn from primary, secondary and tertiary recovery phases of petroleum production. *** Prerequisite: ENPE 300 and ENIN 330 ***

ENPE 475 Evaluation of Oil and Gas Properties
General business skills related to the understanding of oil field cash flow projections, rate of return, royalties, taxes and other factors in measuring value creation as it relates to the petroleum industry. *** Prerequisite: ENPE 300, 302 and ENGG 303 ***

ENPE 480 Petroleum Engineering Laboratory
Experiments which demonstrated the operation of process equipment including simultaneous heat and mass transfer, absorption, stripping, distillation, phase separation, multilipor in porous media. *** Prerequisite: ENPE 251, 300 and 302 ***

ENPE 486 Heavy Oil Recovery
Thermal Recovery Methods, theory and practice of thermal recovery methods; steam drive, cyclic steam injections, and insitu combustion. Models of combined mass energy transport. Estimates of heated reservoir volume and oil recovery performance. Wellbore heat losses and recovery production. *** Prerequisite: ENPE 302, 370 and ENIN 355 ***

ENPE 490 Petroleum Waste Management
Prevention and mitigation techniques in pipeline and oil field spills. Downhole disposal of waste fluids, surface disposal of oil field wastes, fire and other hazards, H2S and other toxic gases, safety standards. *** Prerequisite: ENPE 301 and ENEV 320 ***

ENPE 494 Health, Safety, Loss and Prevention
Facilitate the concepts of health, safety, loss and prevention as it relates to momentum, heat and mass transfer, thermodynamics, process control and design. Increase the recognition of the responsibility of the professional engineer in health, safety, loss and prevention. *** Prerequisite: ENPE 301 or ENEV 320 ***

ENPE 495 Directed Study in Engineering - an AA-ZZ series.
A course in special topics in which the student may do directed study in petroleum engineering under the supervision of a faculty member. * * A detailed outline of the proposal study must be approved by the Program Chair before registration. **

This course introduces issues that arise in large-scale software projects. Topics: introduction to software process, requirements analysis, UML, object modelling, design patterns, API design principles, debugging and testing strategies, performance, portability. Both individual and group programming projects will be assigned. *** Prerequisite: CS 230 and CS 372 ***

ENSE 471 User Interface Programming
This course focuses on the design and implementation of computer-based user interfaces. Topics: software architectures for interaction, computer graphics, I/O devices, user interface design methodologies and principles, user interface evaluation. *** Prerequisite: CS 230 and CS 372 ***

ENSE 472 Digital Networks
Introduction to information theory; network architectures and LAN implementation/configuration; network administration principles; communication protocols (i.e. TCP/IP, ATM, SONET, FDDI); transmission and interconnect standards (i.e. JPEG, MPEG, RS232); internet applications, wireless networks, physical lines (i.e. fibre, twisted pair, coax), interfaces (modems); networks performance, troubleshooting and system security. *** Prerequisite: CS 230 ***

ENSE 473 Operating Systems for Industrial Applications
Characteristics and analysis of real time systems; specifications for industrial system applications and operating system issues that impact on interfacing, communications and digital design, industry standards and reliability; exposure to some current systems (i.e., UNIX, OS/2, WINDOWS etc.); fundamental operating system concepts such as resource management, process scheduling, memory management and I/O control. *** Prerequisite: CS 230 ***

ENSE 474 Software Process Management
Planning, organizing, staffing, directing and controlling software projects; CMM and ISO 9000 process improvement fundamentals; life cycle deliverables; case studies of software projects; exposure to a team software project. *** Prerequisite: CS 230 and CS 372 ***

ENSE 475 Software Testing and Validation
Software testing strategies; functional and structural testing, unit and integration testing, system testing, acceptance tests, ATE systems, test executives, diagnostic design and ensuring testability; simulation for missing components; risk and reliability analysis, safety critical systems, security tests. *** Prerequisite: CS 230 and CS 372 ***

ENSE 477 Software Systems Engineering Design Project
Students work in teams on a practical software system project, requiring the application of software engineering fundamentals; requirement gathering and analysis, appropriate software methods and tools, testing and validation, and software process management. This course reinforces the engineering approach to development of a software system. *** Prerequisite: CS 230, CS 372, ENEL 387, and ENGG 400 ***

ENSE 480 Knowledge Base and Information Systems
This course analyzes the fundamentals of industrial knowledge management. Students will learn how to analyze a company and produce an information system. Topics include: Fundamentals of Knowledge Management Information Systems and their impact on the business process. Engineering an information system. Workflow Management Design and reengineering for change management. *** Prerequisite: CS 372 ***

ENSE 481 Embedded Systems and Co-design
Embedded systems are increasingly common in modern systems design. This course will teach students how to take advantage of embedded systems technology in their system designs. Topics include: advanced microcontroller real-time design, co-design, embedded systems design issues, power considerations, wireless considerations. *** Prerequisite: CS 372, ENEL 387, and ENEL 487 ***

ENSE 482 New Media technology

University of Regina Undergraduate Course Catalog – Spring • Summer • Fall 2006
This course aims at providing a basic level of understanding to make it possible for engineers to work with designers and understand some of the constraints in New Media design. Topics include: definition of New Media, New Media narratives, Multimedia, integration, and intermedia, the basic tools, New Media design. *** Prerequisite: CS 372 ***

**ENSE 483**

**Digital Wireless Systems**

This course provides the skills necessary to understand and use such systems from the point of view of protocol, bandwidth, and spectrum allocation. Topics include spectrum allocation, digital modulation, spread-spectrum communications fundamentals, digital radio protocols for modern wireless systems, working with CDPD, Bluetooth, and IEE 802.11a/b, interference and collision. *** Prerequisite: CS 372, ENEL 387, and ENEL 390 ***

**EOE**

**Outdoor Education**

**EOE 224**

**Introduction to Outdoor Education**

A foundational course utilizing an interdisciplinary approach to the study of the nature and scope of outdoor education, its potential in the education process; techniques of conducting outdoor learning experiences. *** Prerequisite: Second-year standing in the Faculty of Education. *** * Note: Normally offered in fall only. *

**EOE 338**

**Utilization of the Winter Environment for Outdoor Education**

A developmental course in outdoor education using an interdisciplinary approach to the acquisition of personal skills, knowledge, and attitudes related to the winter outdoor environment. *** Prerequisite: EOE 224 or permission of health and physical education subject area. *** * Note: Normally offered in winter only. *

**EOE 339**

**Utilization of the Summer Environment for Outdoor Education**

A developmental course in outdoor education using an interdisciplinary approach to the acquisition of personal skills, knowledge, and attitudes related to the summer outdoor environment. *** Prerequisite: EOE 224 *** * Accommodation Fee $250.00 *

**EOE 414**

**Implementation of Outdoor Education Programs**

A study of the ecological, historical, recreational, and aesthetic features of the year-round environment as a basis for designing a K-12 curriculum linked to outdoor education philosophy. Prerequisite: EOE 224 and 6 credit hours of study in areas related to outdoor education. *** * Note: Normally offered in winter only. *

**EPE 100**

**Introduction to Teaching Physical Education**

Designed specifically for students preparing to teach physical education at the middle and high school levels. Objectives, instructional procedures, and curriculum are considered for elementary school physical education. * Note: Normally offered in fall only. *

**EPE 215**

**Physical Education in the Elementary School**

An overview of teaching methods, curriculum content and materials, and their application in elementary physical education. Appropriate use of supplies and equipment.

**EPE 300**

**Curriculum Content and Instruction for Elementary and Secondary School Physical Education**

A study of the nature and scope of the school physical education program, analysis of selected curricula, development of curriculum support materials, study of program components, facilities, and equipment. *** Prerequisite: Minimum of 21 credit hours in approved physical education courses. *** * Note: Normally offered in fall only. *

**EPE 350**

**Theories of Instruction in Secondary School Physical Education**

A study of current trends in teaching physical education, analysis of teaching methods, course organization and management, utilization of teaching aids, and evaluation procedures. *** Prerequisite: Minimum of 18 credit hours in approved physical education courses and EPE 100. ***

**EPE 489**

**Post-Internship Seminar in Physical Education**

A clinical and problem-solving approach to the teaching of physical education in the secondary school. Opportunity will be provided for students to undertake individual studies of specified pedagogical problems. *** Prerequisite: Minimum of 21 credit hours in physical education or permission of subject area, and successful completion of internship. *** * Note: Normally offered in winter only. *

**EPS 100**

**Introduction to Education: Its Principles and Practices**

This role of the school and the teacher, the nature of teaching as a career. In-school and on-campus labs. This course should be taken in the first year of program. * Note: Normally Education students only. Space permitting, others may be admitted with special permission. Students must fill out the Workers' Compensation Agreement form.

**EPS 200**

**Principles and Practices of Secondary Teaching: 1**

Focus is on the purposes and tasks of the teacher as decision-maker. Content (declarative, procedural and attitudinal) consists of the fundamental processes and procedures of teaching. *** Prerequisite: EPS 100, a minimum of 6 Arts/Science/Other courses and courses in the Level II Certificate in Child and Family Studies. *

**EPS 201**

**Principles and Practices of Secondary Teaching: 2**

Students must fill out the Workers' Compensation Agreement form. * Note: Pass/fail grade mode.

**EPS 202**

**Théories et pratique de l'enseignement au secondaire, I**

Les buts et les responsabilités de l'enseignant(e) au secondaire sont ici considérés par rapport au processus de prise de décision. Le contenu du cours englobe la démarche et le processus de l'enseignement. *** Préalable: EPS 100, minimum de 6 cours en Arts/Sciences/Autres: admission au programme secondaire et recommandation de l'équipe de EPS 100 et de l'équipe de la première concentration. Les étudiants de BEAD ont la permission de suivre EPS 100 et EPS 200 en même temps. *** * Les étudiants doivent remplir le formulaire d'entente de la Commission des accidents de travail. Evaluation: Réussite/échec. *

**EPS 215**

**Principles and Practices of Elementary Teaching: 1**

This course provides instruction on, and practice in, basic instructional approaches. Students will develop further ability in, and understanding of, the roles of teachers in schools. * Note: Students must fill out the Workers' Compensation Agreement form. Pass/fail grade mode.

**EPS 216**

**Théories et pratique de l'enseignement à l'élémentaire, I**

Ce cours aborde les connaissances fondamentales et la pratique des stratégies pédagogiques à l'élémentaire. Il vise à rendre les étudiants capables de mieux comprendre et de s'approprier le rôle de l'enseignant. *** Préalable: EPS 100. *** * Les étudiants doivent
remplir le formulaire d'entente de la Commission des accidents de travail. Évaluation: Réussite/échec.

** EPSY 225 3:3-2 or 10
Principles and Practices of Elementary Teaching I
Building on EPSY 215, the course focuses on integrated and learner-centred instruction and the facilitation of learning. *** Prerequisite: EPSY 215 *** * Note: Students must fill out the Workers’ Compensation Agreement form. Pass/fail grade mode.

** EPSY 225 3:3-2 or 10
Théories et pratique de l'enseignement à l'élémentaire, II

** EPSY 350 3:3-1
Principles and Practices of Secondary Teaching: II
Making instructional choices: a holistic view to teaching process and procedures for the secondary school teacher is fostered. Students study, practice and reflect in classes, labs, and high schools. *** Prerequisite: EPSY 100; EPSY 200; developed major; developed minor; recommendations of the EPSY 200 instructor, EPSY 200 co-operating teacher and the major subject area. *** * Corequisite: EPSY 350; subject area instruction courses. *** * Note: Students must fill out the Workers’ Compensation Agreement form. Pass/fail grade mode.

** EPSY 350 3:3-3
Théories et pratique de l'enseignement au secondaire, II
Une approche globale du processus d'apprentissage-enseignement au secondaire à travers l'étude, la pratique et la réflexion. Préalable: EPSY 100, la première concentration achevée ainsi que la deuxième. La recommandation du professeur d'EPSY 200, de l'enseignant-coopérant de EPSY 200 ainsi que celle de l'équipe d'EPSY. *** * Les étudiants doivent remplir le formulaire d'entente de la Commission des accidents de travail. Évaluation: Réussite/échec.

** EPSY 225 3:3-0
Assessing Student Learning
An introduction to basic principles and practices in assessing learning during the early childhood, elementary and middle years. Focus will be on melding theory and practice. * Note: Normally offered in fall only.

** EPSY 225 3:3-0
Évaluation de l'apprentissage
Une introduction aux principes de base en évaluation de l'apprentissage des élèves à l'école. L'accent sera mis sur les liens entre la théorie et la pratique.

** EPSY 280 3:3-0
Introduction to Guidance
A course designed to acquaint the student with the field of guidance. Classroom teachers, as well as those aspiring to be guidance specialists, will find this course relevant. ** Permission of the Subject Area is required to register.

** EPSY 322 3:3-0
Students with Special Needs
An overview of working with students with special needs. Attention is paid to both the characteristics of these students and the implications of these characteristics for classroom practice. *** Prerequisite: EPSY 225 or PSY 210 or KHS 151 or SW 421. For elementary students, completion of pre-internship. For secondary minor students, one of PSY 210, KHS 151 or SW 421. *** * Note: EPSY 322 is normally a prerequisite for the remainder of the Special Education sequence. However, in special cases, for experienced teachers, with permission, EPSY 322 may be a corequisite for EPSY 323, 324, 326, 328 and 329.

** EPSY 322 3:3-0
L'apprenant avec des besoins particuliers
Ce cours vise à familiariser les futurs enseignants avec l'intervention auprès de l'apprenant exceptionnel. Le contenu aborde les caractéristiques particulières de cette clientèle et traite des implications pédagogiques. *** Préalable: Deux semestres de pré-internat.

** EPSY 323 3:3-0
Design Learning Environments for Students with Special Needs
A dynamic noncategorical approach to assessment, instruction and evaluation of students with special needs within the regular classroom. *** Prerequisite: EPSY 322

** EPSY 324 3:3-0
Individual Assessment and Instructional Adaptation for Students with Special Needs
A case study approach to assessment, instruction and evaluation of individual students with special needs. The emphasis is effective collaborative case management. *** Prerequisite: EPSY 322

** EPSY 326 3:3-0
Change, Collaboration and Consulting: Students with Special Needs
The course explores managing educational change systematically through consulting, collaborating, and conferencing. Current research and effective practice will be presented in a balanced integration of theory and practice. *** Prerequisite: EPSY 322

** EPSY 328 3:3-0
Communication Disorders and Students with Special Needs
This course focuses on a range of communication disorders (including identifying characteristics). Educational implications are discussed and practical classroom management strategies presented. *** Prerequisite: EPSY 322

** EPSY 329 3:3-0
Enhancing Classroom Management: Students with Special Needs
A dynamic, systemic approach to the development of a positive classroom environment. The course will address the growing numbers of students and teachers in conflict over behavioral expectations. Current research and effective practice will be examined in an effort to find workable manageable strategies to prevent and resolve such conflict. *** Prerequisite: EPSY 322, or permission of subject area.

** EPSY 330 3:3-0
Autism and Pervasive Development Disorders: Students with Special Needs
An overview of the nature of autism and pervasive developmental disorders, the associated characteristics, and strategies for instruction and behavioural interventions. *** Prerequisite: EPSY 322

** EPSY 331 3:3-0
Contemporary Trends in Inclusive Education
An exploration of contemporary trends and issues shaping the fields of inclusive and special education. Topics may include: functional assessment and positive behaviour support, self-advocacy and self-determination for students with developmental disabilities, issues of equity, gender, culture in inclusive education, and new curricula and pedagogies. *** Prerequisite: EPSY 322, EPSY 323, EPSY 324, and EPSY 328

** EPSY 332 3:3-0
Selected Topics in Inclusive Education - an AA-ZZ series.
A course dealing with current topics in inclusive education. *** Prerequisite: EPSY 322
**EPSY 350** 3:3-0 or 1  
*The Psychology of Learning and Adolescent Development*  
Introduction of selected principles of human learning and development as they apply to teaching in secondary schools. Topics include motivation and behaviour management, cognitive and behaviouristic learning theory, and cognitive, social, and personal development in adolescents.  
* Note: Normally offered in winter only. *

**EPSY 350** 3:3-0 or 1  
*Psychologie de l'apprentissage et développement de l'adolescente*  
Ce cours vise à familiariser l'étudiant.e avec les principes généraux d'apprentissage et de développement tels qu'ils s'appliquent à l'enseignement au secondaire: motivation, gestion de cours, théorie de l'apprentissage, théorie du développement au niveau psychosocial et individuel.

**EPSY 382** 3:3-0  
*Introduction to Counselling*  
This course is designed to enable paraprofessional counsellors to develop strategies which enable them to provide assistance related to educational, vocational, and personal needs and concerns of students.  
* Prerequisite: EPSY 280  
* Permission of the Subject Area is required to register.  
* Note: Normally offered in winter only. *

**EPSY 384** 3:3-0  
*Development and Maintenance of Self-Help Groups*  
The purpose of this course is to enable the students to develop and effectively maintain a self-help group.  
* Permission of the Subject Area is required to register. **

**EPSY 427** 3:3-0  
*Alcoholism Counselling*  
This course deals with causes of alcoholism, and suggests some intervention activities. This course has a basic how-to approach that does not require sophisticated knowledge of psychological theory.  
** Permission of the Subject Area is required to register. **

**ERDG 215** 3:3-0  
*The Teaching of Reading*  
This course prepares students to teach reading in the elementary school by developing an understanding of reading processes and current pedagogical approaches.  
* Prerequisite: ELNG 205, EPS 215 (concurrent enrolment allowed). **

**ERDG 332** 3:3-0  
*Reading in the Secondary School*  
Introduction to reading in secondary subject areas for secondary English teachers and others. Content includes the nature of reading processes and teaching strategies that address individual differences.  
* Prerequisite: EPS 100  
* Note: Normally offered in fall only. *

**ERDG 425** 3:3-1  
*Assessment and Treatment of Reading Difficulties*  
This course provides teachers with information about the assessment and treatment of reading difficulties. It also provides experience working with children who have reading problems.  
* Prerequisite: ELNG 205, ELNG 325 and ERDG 215 **

**ESCI 215** 3:3-3  
*Introduction to Teaching of Elementary School Science*  
Philosophy, objectives, curriculum materials, structure, and teaching of elementary school science. Enquiry approach to science education.  
* Prerequisite: Completion of first year in elementary program. **

**ESCI 300** 3:3-3  
*Curriculum and Instruction in Science (Grades 7-10)*  
Designed to familiarize prospective and practicing teachers with curriculum and instructional strategies in grades 7-10 science. This course is required of all secondary science students.  
* Prerequisite: At least 3 courses in the major or minor area, or permission of the subject area. **

**ESCI 302** 3:3-3  
*Environmental Education*  
Theory and practice in environmental education, including the history and philosophy of environmental education, course design (K-12), and issues investigation.  
* Prerequisite: ESCI 300 or permission of the subject area. **

**ESCI 350** 3:3-3  
*Curriculum and Instruction in Secondary School Science*  
The critical appraisal of secondary school science curricula through investigation of the nature, purposes, and trends in secondary school science and the construction of personal practical theory (framework) for instruction.  
* Prerequisite: ESCI 300 or permission of the subject area.  
* Note: Normally offered in winter only. *

**ESCI 351** 3:3-3  
*Special Topics in Secondary School Science Education*  
Special topics in curriculum and instruction in the secondary school sciences (biology, chemistry, and physics). Area of emphasis determined by student needs.  
* Prerequisite: ESCI 300 or ESCI 350, and at least 15 credit hours in science.  
* Note: Normally offered in winter only. *

**ESCI 354** 3:3-0  
*Curriculum and Instruction in Secondary School Physics*  
This course will explore fundamentals of teaching physics from a hands-on, student centred approach. A variety of instructional strategies will be explored, demonstrated and practiced. Content of the Saskatchewan Physics 20 and 30 Curricula will be examined.  
EVA 355 3:3-0
Teaching Methods for Secondary School Physics
This course explores teaching physics with a foundation of a constructivist learning model. A focus will be on developing instructional strategies and resources that are consistent with constructivist principles of learning. Content of the Saskatchewan Physics 20 and 30 Physics Curricula will be used as the central focus of resource creation.

ESCI 360 (formerly ESCI 392)      3:3-0
Learning and Assessment in Science Education
This course explores the design of assessment strategies based on a constructivist model of learning and use in science education. A range of alternative strategies will be examined including some focused on the exploration of STSE issues in science and society.

ESCI 370      3:3-0
Curriculum and Instruction in Secondary School Chemistry
This course will explore fundamentals of teaching chemistry from a hands-on, student centered approach. A variety of instructional strategies will be explored, demonstrated and practiced. Content of the Saskatchewan Chemistry 20 and 30 Curricula will be explored.

ESCI 371      3:3-0
Teaching Methods for Secondary School Chemistry
This course explores teaching chemistry with a foundation of a constructivist learning model. A focus will be on developing instructional strategies and resources that are consistent with constructivist principles of learning. Content of the Saskatchewan Chemistry 20 and 30 Curricula be used as the central focus of resource creation.

ESCI 401      3:3-0
Participatory Research in Science Education
A post-internship seminar course to examine specific aspects of the internship experience through reflection and research. *** Prerequisite: Internship. ** * Note: Normally offered in winter only. *

Critical Literacy in Social Studies: Issues for Pedagogical Practice
An integrative and reflective investigation of pedagogical issues in social studies oriented to promote a critical literacy for social studies education. *** Prerequisite: Internship and/or teaching experience. *** * Note: Normally offered in winter only. *

EVIS Visual Education

EVIS 101      3:3-0
Introduction to Visual Education
This course is designed specifically for students preparing for art education, kindergarten through grade 12. Theory, content, and practice related to visual education will be presented. *** Prerequisite: ART 100 or ARTH 100 ***

EVIS 202      3:3-0
Approaches to Teaching Visual Education
This course is designed for students in the arts education program. Emphasis will be on approaches to teaching visual education, kindergarten through grade 12. *** Prerequisite: EVIS 101 ***

EVIS 326      3:3-0
Domains and Theories of Instruction: Visual Education
Critical analysis of curriculum theory and development in visual education; students will develop curriculum based on personal development, artistic heritage, art in society, and critical analysis. *** Prerequisite: EVIS 101, and 202 or permission. ***

EVIS 328      3:3-0
Appreciation of the Visual Arts: Methods of Teaching
A developmental approach to nurturing understanding and appreciation of a variety of visual images; the fine arts and vernacular arts. Curriculum development and practical application. *** Prerequisite: EVIS 101, 202, 326 or permission. ***

FA Fine Arts

FA 100      3:3-0
Fine Arts and Ideas
This is an interdisciplinary course designed to introduce students to basic critical and aesthetic concepts in the Fine Arts. Central themes include the performance and reception of texts, as well as issues of gender and power. The course will be taught by faculty members from all four Fine Arts Departments.

FA 169      3:3-0
Experimental Course
Courses numbered with the last two digits 69 or 79 are designated experimental courses within the Faculty of Fine Arts. Experimental courses are those requiring pilot offerings prior to finalization of course content.

FA 170      3:0-3
Introduction to Movement/Dance
This is an introductory course to movement and dance. Through the study of modern dance technique and the use of solo, partner and group improvisation, exploration and interpretation, the student will work towards the development of the body as a sensitive, versatile and expressive instrument for performance. ** Permission of the Instructor is required to register. **

FA 179      3:3-0
Experimental Course
Courses numbered with the last two digits 69 or 79 are designated experimental courses within the Faculty of Fine Arts. Experimental courses are those requiring pilot offerings prior to finalization of course content.

FA 200      3:3-0
The Arts and Everyday Life
This course situates the arts in historical, social and political contexts. A variety of cultural artifacts including films, television, advertising, literature, the internet, music, theatre, photography, architecture, sculpture and painting are analyzed from an interdisciplinary theoretical perspective in order to understand the complex role of the arts in our lives. *** Prerequisite: Completion of 30 credit hours. ***

FA 269      3:3-0
Experimental Course

University of Regina Undergraduate Course Catalog – Spring • Summer • Fall 2006 - 52 -
Courses numbered with the last two digits 69 or 79 are designated experimental courses within the Faculty of Fine Arts. Experimental courses are those requiring pilot offerings prior to finalization of course content.

FA 279
Experimental Course
Courses numbered with the last two digits 69 or 79 are designated experimental courses within the Faculty of Fine Arts. Experimental courses are those requiring pilot offerings prior to finalization of course content.

FA 300
Selected Interdisciplinary Topics in Fine Arts - an AA-ZZ series.
Interdisciplinary courses designed as required for groups of senior undergraduates.

FA 369
Experimental Course
Courses numbered with the last two digits 69 or 79 are designated experimental courses within the Faculty of Fine Arts. Experimental courses are those requiring pilot offerings prior to finalization of course content.

FA 379
Experimental Course
Courses numbered with the last two digits 69 or 79 are designated experimental courses within the Faculty of Fine Arts. Experimental courses are those requiring pilot offerings prior to finalization of course content.

FA 400
Selected Interdisciplinary Topics in Fine Arts - an AA-ZZ series.
Interdisciplinary courses designed as required for groups of senior undergraduates.

FA 469
Experimental Course
Courses numbered with the last two digits 69 or 79 are designated experimental courses within the Faculty of Fine Arts. Experimental courses are those requiring pilot offerings prior to finalization of course content.

FA 470
Movement/Dance V
The development of interpretative skills will continue with further application of modern dance technique and the introduction of the principles of jazz dance. The use of repertoire and improvisation and compositional explorations will lead to solo, partner and group movement studies and choreography. ** Permission of the Instructor is required to register. **

FA 479
Experimental Course
Courses numbered with the last two digits 69 or 79 are designated experimental courses within the Faculty of Fine Arts. Experimental courses are those requiring pilot offerings prior to finalization of course content.

FA 499
Professional Placement - an AA-ZZ series.
Students will be given the opportunity to apply their knowledge in a specific professional role related to their major. The work experience will be undertaken by the student under supervision of a cooperating professional and a department coordinator. ** Permission of the Department Head of the student's fine arts major is required to register. **

FILM 200
Introduction to Film and Video
The course explores the differences between the photographic film, video, and audio processes. Students will also study the characteristics of the media through assignments, exercises, and screenings. *** Prerequisite: FILM 100 *** * Note: Restricted to Film majors. Materials Fee: $100. *

FILM 201
Film Production I
An introduction to production using professional cameras and recorders, and an introduction to 16mm film editing. *** Prerequisite: FILM 200 and 251 *** * Permission of the Department Head is required to register. ** * Note: Materials Fee: $100. *

FILM 202
Film Production II
A continuation of Film 201 with exercises emphasizing technique and grammar relating to film and video; practical experience in the various media. *** Prerequisite: A passing grade in FILM 201 in the semester immediately preceding. *** * Note: Materials Fee: $100. *

FILM 203
Animation
The basic principles and techniques of non-cel animation. Includes technical knowledge and operational skills of the animation camera and study of a variety of animation techniques such as cut-out, silhouette, model and puppet. *** Prerequisite: FILM 100 *** * Note: Restricted to Film majors. Materials Fee: $100. *

FILM 205
Introduction to Still Photography
Using basic photographic techniques, students will be led to an awareness of the photographic image as art form and as social document. *** Prerequisite: FILM 201, concurrent enrolment allowed. *** * Note: Restricted to Film majors. Materials Fee: $100. *

FILM 208
Introduction to Digital Media
This course will be an overview of the processes involved with creating interactive multi-media projects. Students will study and analyze current documents and through exercises create short multi-media presentations. **Prerequisite: FILM 201, concurrent enrolment is allowed. *** * Note: Restricted to Film majors. Materials Fee: $100. *

FILM 240
History of Film
This course concentrates on the evolution of the forms and themes of film from its origins to 1960, and on the changing relation of film to its social, cultural, and political contexts throughout this period. *** Prerequisite: FILM 100 ***

FILM 241
Contemporary Film
This course provides a critical and cross-cultural approach to developments in film since 1960. *** Prerequisite: FILM 100 ***

FILM 250
Traditions in Documentary
This course offers an overview of the documentary genre in film and video. It will investigate the genre in terms of subject matter and style, historical origins, forms and conventions, and relationships to cultural contexts. *** Prerequisite: FILM 100 ***

FILM 251
Traditions in Narrative
This course examines the parallels of narrative through an intensive look at oral and literary traditions and how they relate to contemporary media narrative forms. *** Prerequisite: FILM 100 ***

FILM 300
Film Production III
A course designed to create an awareness of the aesthetics of film and video, giving students the opportunity to gain experience in the planning and shooting aspects of production. *** Prerequisite: FILM 202 *** * Note: Materials Fee: $150 *

University of Regina Undergraduate Course Catalog – Spring • Summer • Fall 2006 - 53 -
Courses designed as required for groups of senior undergraduates. *  

**FILM 380-389**  
3:0-3  
Selected Topics - an AA-ZZ series.  
Courses designed as required for groups of senior undergraduates.  
Note: A materials fee of up to $100 may be required. *  

---

**FILM 390-395**  
3:3-0  
Directed Study - an AA-ZZ series.  
Supervised reading and research designed for individual students in either 3rd or 4th year.  

---

**FILM 400**  
3:0-4.5  
Film Production V  
Introduction to advanced production including research, script development, and videotape production.  
*** Prerequisite: FILM 301  
* Note: Materials Fee: $175 *  

---

**FILM 411**  
3:0-3  
Directing  
This course gives concentrated focus to the director's role and working relationship with actors, crew, script, etc. throughout the production process.  
*** Prerequisite: FILM 300  
* Note: Materials Fee: $100 *  

---

**FILM 440**  
3:0-3  
Seminars in Film Authorship  
An in-depth examination of the films or videotapes of a major director.  
The choice of director will vary from semester to semester and may be from any film or video tradition.  
*** Prerequisite: Any 300-level film and video studies course. ***  

---

**FILM 486-489**  
3:0-3  
Selected Production Topics - an AA-ZZ series.  
Advanced selected topics related to the production program.  
* Note: A materials fee of up to $100 may be required. *  

---

**FILM 490**  
3:0-3  
Research Methods  
Seminar open to students completing an honours concentration in film and video studies. Students will be expected to present a clear timetable and discuss thesis work in seminars throughout the term.  
** Admission to honours program is required to register. **  

---

**FILM 491**  
3:0-3  
Directed Study for Senior Honours Students - an AA-ZZ series.  
Supervised reading and research designed as required for individual students.  

---

**FILM 496-499**  
1-6:0-1-6  
Senior Directed Studies - an AA-ZZ series.  
Supervised reading and research designed for individual students in either third or fourth year.  
* Note: Materials Fee: $150 *  

---

Students with no background in French will register in FR 100. All students with any background in French (including elementary school, high school, immersion, living or studying in a French-speaking environment) registering in their first French course at the university must take a mandatory placement test. Students may apply online for placement test at URL http://uregina.ca/LRC/ftp/form.htm or they may inquire by phone at 585-4595.  

Note: FR 100, 101, 102, 110, 113, 114, 115, 215, 216, and 217 do not count towards a French major or minor but each receives degree program credit.

**Senior Courses in French** – The following courses, primarily intended for honours students, may be taken by other students with a good standing in French courses who obtain permission from the department head. Frequency of offering will depend on availability of faculty members.
The course serves to maintain status of students in everyday life. Composition pratique. Sensibilisation à l'organisation des idées et aux niveaux de langue requis pour une composition écrite efficace dans la vie courante et au travail. *** Préalable : Test de placement ou permission de l'Institut français. *** *** Prerequisite: Placement test or permission of the Institut français. ***

FRLI 208

Technique rédactionnelle - Writing Techniques
Practice of composition. Study of effective organization of ideas and of levels of language required for written communication at work and in everyday life. *** Préalable : Placement test or permission of the Institut français. *** *** Prerequisite: FR 207 or permission of the Institut français. ***

FRLS

French as a Second Language

Faculty of Arts

Institut français and Department of French

These are approved Faculty of Arts courses and carry full degree program credit.

Note: FRLS courses are restricted to students who have been accepted into the Certificate in French as a Second Language program.

FRLS 116 (formerly FRLI 200)

Principes et production du français oral 1 - Principles and Production of Oral French 1

Des documents culturels authentiques (audio, audio-visuels écrits) servent de point de départ à l'élargissement du vocabulaire et au développement de la compréhension et de l'expression orales. Audio-visual, audio and written authentic cultural documents are the starting point for vocabulary expansion, and for the development of oral comprehension and expression. *** Prerequisite: Placement test, and Grade 12 Core French or FR 102, or permission of department head. *** *** Corequisite: FRLS 119 ***

FRLS 117 (formerly FRLI 201)

Principes et production du français oral 2 - Principles and Production of Oral French 2

This intensive course is the continuation of FRLS 116. Ce cours intensif est la suite du cours FRLS 116. *** Prerequisite: FRLS 116 with a minimum grade of 60%. *** *** Corequisite: FRLS 120 ***

FRLS 118 (formerly FRLI 203)

Principes et production du français oral 3 - Principles and Production of Oral French 3

Ce cours intensif est la suite du cours FRLS 117. This intensive course is a continuation of FRLS 117. *** Prerequisite: FRLS 117 with a minimum grade of 60%. *** *** Corequisite: FRLS 121 ***

FRLS 119

Grammaire et rédaction 1 - Grammar and Writing 1

Cours intensif avec accent sur l'étude et l'application de la grammaire du français écrit. Principles fondamentaux de la rédaction en français. Exercices de rédaction. Intensive course with emphasis on the study and application of the grammar of written French fundamentals of writing in French, and; composition exercises. *** Prerequisite: Placement test, and Grade 12 Core French or FR 102, or permission of department head. *** ***
Corequisite: FRLST 116  ***  Note: Students may not receive credit for FRLS 119 and FR 113. *

FRLS 120  3:9-3
Grammaire et rédaction 2  -  Grammar and Writing 2
This intensive course is a continuation of FRLS 119. Ce cours intensif est la suite du cours FRLS 119. *** Prerequisite: FRLS 119 with a minimum grade of 60%. *** Corequisite: FRLST 117  ***  Note: Students may not receive credit for FRLS 120 and FR 115. *

FRLS 121  3:9-3
Grammaire et rédaction 3  -  Grammar and Writing 3
This intensive course is a continuation of FRLS 120. Ce cours intensif est la suite du cours FRLS 120. *** Prerequisite: FRLS 120 with a minimum grade of 60% *** Corequisite: FRLS 118  ***  Note: Students may not receive credit for FRLS 121 and FR 213. *

FRLS 212  3:3-3
Structure du discours oral  -  Structure of oral discourse
Accent sur la maîtrise de la grammaire et de la structure de la narration, de l’explication et de la description orales. Comprend un stage en milieu francophone. Emphasis on the mastery of grammar rules and the structure of oral narration, description, and explanation. Field experience in a francophone environment. *** Prerequisite: FRLS 118 and FRLS 121, both with a minimum grade of 60%, or permission of the department head. *** Corequisite: FRLS 218 ***

FRLS 218  9:9-3
Français écrit et culture francophone  -  Written French and Francophone Culture
Approfondissement de la grammaire du français écrit. Étude de textes portant sur certains aspects sociaux et culturels de la francophonie. Résumé et composition. Further study of the grammar of written French. Study of texts on cultural and social aspects of the francophonie. Exercises in summarizing texts and composition. *** Prerequisite: FRLS 118 and FRLS 121 with a minimum grade of 60% or permission of department head. *** Corequisite: FRLS 218 ***

GEOG 100  3:3-0
Introduction to Geography
An introduction to the human and natural environments from a geographical perspective. The fundamental themes, of human and physical geography, are examined by focusing upon global issues and regional patterns.

GEOG 205  3:3-0
Geographic Data: Collection, Interpretation, Display
Data collection, descriptive statistics, tabular and diagrammatic display. *** Prerequisite: GEOG 100 or permission of department head. ***

GEOG 207  3:3-0
Basics of Map and Air Photo Interpretations
Introduction to the interpretation of various kinds of maps, air photos and satellite images. *** Prerequisite: GEOG 100 or permission of department head. ***

GEOG 210  3:3-0
Canada
A systematic and regional geography of Canada. Elements of the natural environment; the human response in terms of territorial evolution, settlement and economic activity. Regions, regional identities, and regionalism. *** Prerequisite: GEOG 100 or permission of department head. ***

GEOG 220  3:3-1
Human Geography
Explanation of human placement in and interaction with the natural environment; assessment of concepts processes and patterns as related to distribution of human phenomena, including economic activity and settlement types. *** Prerequisite: GEOG 100 or permission of department head. ***

GEOG 221  3:3-1
Physical Geography
The physical basis of geography; climate, landforms, and the geographic water, soil, and plants. Emphasis is placed on processes that account for the earth’s natural landscapes and their geographic variability. *** Prerequisite: GEOG 100 or permission of department head. ***

GEOG 226 (formerly GEOG 200)  3:3-0
Environmental Issues
This course focuses on environmental issues studied from a geographical perspective. It introduces students to the philosophical, socio-economic, physical, and technological foundations underlying contemporary environmental issues. *** Prerequisite: GEOG 100 or permission of the department head. *** Note: Not to be taken by students who have successfully completed both of former GEOG 200 (Environmental Issues, 3 cr hr) or GEOG 221 (Physical Geography, 4 credit hours) and former GEOG 240 (Human Geography, 4 credit hours) *

GEOG 301  3:3-0
Nature and Philosophy of Geography
This course is an introduction to the history of geography, and to the research philosophies and methodological concepts applied in the discipline. *** Prerequisite: GEOG 100, 220, and 221 ***

GEOG 303 (formerly GEOG 405)  3:3-0
Geographical Information Systems and Science
Concepts and theories behind spatial data analysis using geographic information systems (GIS). Topics include: sources of spatial data, spatial models, solving spatial issues using raster and vector analysis methods. Operational training in GIS is included. *** Prerequisite: GEOG 205 or STAT 151 or permission of department head. ***

GEOG 305  3:3-0
Quantitative Techniques in Geography
An examination of the statistical techniques commonly used in the analysis of geographic data. Emphasis is placed upon spatial sampling, hypothesis testing, correlation, and regression. *** Prerequisite: GEOG 205 or permission of department head. ***

GEOG 307  3:3-0
Fundamentals of Cartography
Introduction to map making; map projections, scale and generalization, methods of representing objects by symbols, map compilation, and planning of legends. *** Prerequisite: GEOG 207 or permission of department head. ***

GEOG 309 (formerly GEOG 331)  3:3-0
Introduction to Remote Sensing in Geography
Basic concepts of remote sensing, a review of sensors and their images, emphasis on image interpretation and analysis, and introduction to application areas in geographic studies. *** Prerequisite: GEOG 207 or STAT 151 or permission of department head. ***

GEOG 310 (formerly GEOG 320)  3:3-0
Geography of Saskatchewan
A systematic and regional approach to the geography of Saskatchewan, emphasizing climate, natural resources, population, settlement, economy and changes in the same. *** Prerequisite: One of GEOG 210, GEOG 220, GEOG 221, or permission of department head. ***

GEOG 314  3:3-0
Europe
A systematic approach to the geography of Europe. Emphasis is placed on selected themes in the physical, historical, cultural, political, and economic geography of the area. Regional study will be limited to five or six selected countries and will help to illustrate the rapid changes taking place in Europe. *** Prerequisite: GEOG 220 or GEOG 221 or permission of department head. ***

GEOG 316  3:3-0
Geography of the Third World
The so-called “Third World” is examined from a spatial perspective. Topics of investigation include imperialism, population growth, political boundaries, and economic transition. *** Prerequisite: GEOG 220 or GEOG 221 or permission of department head. ***

GEOG 318  3:3-0
United States of America
A systematic and regional approach to the geography of the United States, emphasizing population movements and distribution, the natural environment, economic geography, and regional studies. *** Prerequisite: GEOG 220 or GEOG 221 or permission of department head. ***
**GEOG 321**  
*Meteorology*  
The basic principles of meteorology with special attention to weather conditions on the Canadian prairies.  ***Prerequisite: GEOG 221 or permission of department head. ***

**GEOG 322**  
*Economic Geography*  
Areal distribution of economic activity and characteristics of different industries. Theories of location, models of regional economic development, problems, resulting from different levels of economic development.  ***Prerequisite: GEOG 220 or permission of department head. ***

**GEOG 323**  
*Geomorphology*  
The study of landforms and the processes which create and modify them. Emphasis on the mechanics of geomorphic processes and how they relate to properties of earth materials.  ***Prerequisite: GEOG 221 or permission of department head. ***

**GEOG 324**  
*Urban Geography*  
The course examines cities as systems viewed at global, national, and local levels. Economic and social patterns and linkages are stressed. Special emphasis is placed on the Canadian urban system and the urban geography of Regina.  ***Prerequisite: GEOG 220 or permission of department head. ***

**GEOG 325**  
*Biogeography*  
An examination of the geographic distributions of plants and animals and the historical, geologic, and contemporary processes underlying those distributions. The course will include study of the influence of climate change, continental drift, and human activity on spatial distribution of flora/fauna.  ***Prerequisite: GEOG 221 or permission of department head. ***

**GEOG 326**  
*Environment and Resource Management*  
A systematic analysis of geographical aspects of theory and methods of natural resource management. Focus is on the geographer's role in resource analysis and policy decisions with examples from agriculture, forestry, wildlife, energy, and parks.  ***Prerequisite: GEOG 220 or GEOG 221, or permission of department head. ***

**GEOG 327**  
*Hydrology*  
Basic principles of hydrology and the geography of water. Emphasis on the surface components of the hydrological cycle, and on the collection and analysis of hydrometric data.  ***Prerequisite: GEOG 221 or permission of department head. ***

**GEOG 328**  
*Population Geography*  
The course examines the dynamics of population change, population theories, and population forecasting. The demographic experiences of different world regions are contrasted. Particular reference is made to the demography of Saskatchewan's population.  ***Prerequisite: GEOG 220 or permission of department head. ***

**GEOG 329**  
*Soil Geography*  
Introduction to the properties, and classification of soil. The geography of soil at local, regional, and global scales. Relationship of soil to geomorphology, climate, water, vegetation, and environmental change.  ***Prerequisite: GEOG 221 or permission of department head. ***

**GEOG 330**  
*Political Geography*  
The effect of political action on present-day geography, and of geography on political problems.  ***Prerequisite: GEOG 220 or permission of department head. ***

**GEOG 332**  
*Geography of Recreation and Tourism*  
Employing multiple analytical approaches, this course examines the economic, social, cultural, and environmental factors and processes of recreation and tourism, and their implications on the environment, space, and place, at a variety of geographical and temporal scales.  ***Prerequisite: GEOG 220 or permission of department head. ***

**GEOG 333**  
*Natural Hazards*  
Characteristics and human impacts of selected natural hazards. Risk evaluation and responses. General and case study approaches, with emphasis on atmospheric and geomorphic hazards in Canada and the developing world.  ***Prerequisite: GEOG 220 and 221, or permission of department head. ***

**GEOG 334**  
*Rural Geography*  
An introduction to the components of occupancy and production patterns in the rural landscape; settlement and land use. Emphasis is placed on the functions of rural areas. Introduction to rural planning.  ***Prerequisite: GEOG 220 or permission of department head. ***

**GEOG 336**  
*Cultural/Historical Geography*  
Theoretical and methodological approaches to the spatio-temporal expression of culture and to the historical development of present geographical conditions. Emphasis on sources for reconstruction of past environments and analyzing geographical change over time.  ***Prerequisite: GEOG 220 or permission of department head. ***

**GEOG 338**  
*Geography and Gender*  
An examination and comparison of the fe/male use and perception of space and place by time-period and culture and age: in homes neighborhoods, cities, rural areas, recreation, travel, environment, politics, race, education and ethnicity.  ***Prerequisite: GEOG 220, or a 200-level Women's Studies course, or permission from the department head. ***

**GEOG 390-391**  
*Directed Reading and Research - an AA-ZZ series.*  
Courses designed for individual students.  ***Permission of the Department Head is required to register. ***

**GEOG 396-397**  
*Selected Topics - an AA-ZZ series.*  
Courses designed as required for groups of senior undergraduates.  ***Permission of the Department Head is required to register. ***

**GEOG 409**  
*Advanced Spatial Analysis and Visualization (GIS)*  
Advanced topics in geomatics exploring the coupling and integration of computer-assisted cartography, spatial statistics and analysis, GIS, and remote sensing. Students will work in small groups to design geomatics solutions addressing selected planning, environmental management or research problems.  ***Prerequisite: GEOG 303, 305, 307, and 309, or permission of department head. ***

**GEOG 411**  
*Field Techniques in Physical Geography*  
Techniques for the acquisition and analysis of field data used in physical geographical research.  ***Prerequisite: GEOG 205 or permission of department head. ***

**GEOG 421**  
*Topics in Climatology and Meteorology*  
Weather and human activities. Response to weather hazards: hurricanes, thunderstorms, droughts. World climate regions. Climate change. Human impact of weather, weather forecasting and climatological information. Anthropogenic effects on the atmosphere.  ***Prerequisite: GEOG 321 or permission of department head. ***

**GEOG 422**  
*Regional Economic Development*  
Problems, processes, and patterns of regional economic development are examined in the context of developing and developed nations. Emphasis is placed on examples drawn from Canada, Western Europe, Latin America, and tropical Africa.  ***Prerequisite: GEOG 322 or permission of department head. ***

**GEOG 423 (formerly GEOG 423AB)**  
*Advanced Geomorphology*  
An advanced course in landforms and the processes that create and modify them. Topics include glacial, periglacial, and theoretical geomorphology, and the relationship between geomorphology and environmental change.  ***Prerequisite: GEOG 323 or permission of department head. ***

**GEOG 424**  
*Topics in Urban Planning*  
-
The course examines the classical roots of modern urban planning, the core concepts of planning theory, and the land-use plan. Emphasis is placed on urban planning in Canada and especially in Regina. Local field trips form an integral part of the course. ** Prerequisite: GEOL 324 or permission of department head. ***

**GEOL 426**
Topics in Water Resources Management
Regional, socio-economic, and environmental issues in water resources management. Study of water management in selected regions such as the Canadian prairies and the Columbia and Missouri River basins. **Prerequisite: GEOL 220 or 221, or permission of department head.***

**GEOL 429 (formerly GEOL 423AA)**
Glacial and Periglacial Geomorphology
An advanced course relating to cold environments and their geomorphic processes. Topics cover glacial and periglacial processes and their resulting landforms. Special attention will be paid to the Canadian Arctic environment and the history of glaciation in Canada, particularly during the last glacial episode during the Wisconsin advance and retreat. **Prerequisite: GEOL 323 or permission of department head.***

**GEOL 440 (formerly GEOL 496AA)**
Geography of the Caribbean
The course surveys the physical and human geography of the Caribbean basin. Particular focus is placed on environmental management and economic development issues. Detailed case studies are drawn from the geography of Jamaica. Note: The course includes a 7-day field trip to Jamaica conducted during the February mid-term break. **Prerequisite: GEOL 220 and GEOL 221, or permission of department head.***

**GEOL 490-491**
Directed Reading and Research - an AA-ZZ series.
Courses designed for individual students. ** Permission of the Department Head is required to register. **

**GEOL 496-497**
Selected Topics - an AA-ZZ series.
Courses designed as required for groups of senior undergraduates. ** Permission of the Department Head is required to register. **

**GEOL 499**
An exposition of a topic approved by the department. The thesis should draw some original conclusions on the topic concerned. * Note: The required 6 hours may be taken in one semester or spread equally over two consecutive semesters. *

---

**GEOL 102**
Environmental Geology
The nature of the earth. Plate tectonics and the geological time scale. Earthquakes, volcanism and surface processes with reference to their effect on the human environment. Earth resources. Waste disposal and pollution in a geological context.

**GEOL 201**
Internal Processes of the Earth
Internal earth processes and materials composing the earth. The geological time scale. Deformation and structures of earth materials. Plate tectonics, continental drift and mountain building. Earth resources. **Prerequisite: GEOL 102***

**GEOL 210**
Mineralogy I
Crystal structure and symmetry. Chemistry and occurrence of minerals. Mineral optics. Introduction to thin-section description of minerals in igneous, sedimentary and metamorphic rocks. Rock textures. **Prerequisite: GEOL 201, concurrent enrolment allowed.***

**GEOL 211**
Mineralogy II

**GEOL 220**
Paleontology
Classification, morphology, evolution, paleoecology, and stratigraphic distribution of the main groups of fossils. **Prerequisite: GEOL 102***

**GEOL 240**
Historical Geology
History of the earth from the Archean to the Cenozoic Era. Major physical and biological global events emphasizing North America and Western Canada. Stratigraphic correlation and characteristic fossil assemblages. **Prerequisite: GEOL 102***

**GEOL 250**
Structural Geology I
Primary structural features. Geometry of structural features including simple folds and faults. Relationship between structural features and land forms. Geological maps and air photos. **Prerequisite: GEOL 201***

**GEOL 270**
Resources of the Earth
An intermediate course on origin, global distribution, use and environmental impact of earth resources. Metallic minerals, energy resources, industrial minerals, social, economic and political implications of mineral resources. **Prerequisite: GEOL 102***

**GEOL 313**
Igneous Petrology I
Classification and genesis of igneous rocks. Introduction to the common igneous rock suites and associations. Study of hand specimens and thin sections. **Prerequisite: GEOL 211***

**GEOL 314**
Sedimentology
Classification, genesis, and petrology of sedimentary rocks. Sedimentary environments. Sedimentary structures. **Prerequisite: GEOL 201 and 211***

**GEOL 315**
Metamorphic Petrology
Metamorphic minerals, rocks and processes. Agencies and occurrence of metamorphism. Metamorphic grade, zones and facies. Metamorphic reactions and the petrogenic grid. Metamorphic textures. Anatexis and development of migmatites. **Prerequisite: CHEM 102 or 103, and GEOL 211***

**GEOL 340**
Stratigraphy
Principles and problems of stratigraphy. Geological history of North America in its world setting. Index fossils. Geological maps. **Prerequisite: GEOL 220, 240 and 314. GEOL 314 may be taken concurrently. ***

**GEOL 350**
Structural Geology II
Morphology, nomenclature and classification of large and small scale structures in the earth's crust. Natural stress-strain relations and structural analysis and interpretation. Major tectonic features of the earth. **Prerequisite: GEOL 250***

**GEOL 371**
Principles of Groundwater Flow
Principles of groundwater flow, properties of aquifers, geology of groundwater occurrence, and regional groundwater flow with examples from the Western Canadian Sedimentary Basin. **Prerequisite: GEOL 314, 340, MATH 110 or permission of department head. GEOL 340 may be taken concurrently. ***

**GEOL 396**
Geology Field Camp I
Geological study and mapping in an area of sedimentary rocks. Supervised study for eight days at the end of summer semester. A charge will be assess to cover accommodation and meals. **Prerequisite: Six courses (18 credit hours) in geology. *** * Note: Students must enrol in this course prior to February 15. *

**GEOL 400**
Undergraduate Thesis in Geology
Original investigation under the supervision of a faculty member. A thesis describing the research is written and presented, and defended. **Prerequisites: GEOL 313, 314, 315, 340, 350 and 396, a minimum grade point average of 70%. *** Permission of the Department Head is required to register. **
GEOL 413  
Igneous Petrology II  
Advanced study of the processes of magma formation and crystallization. Characteristics and genesis of igneous rock suites and associations. Study of igneous rock suites in hand specimen and thin section. *** Prerequisite: GEOL 313 ***  * Note: Offered in odd-numbered years only. *

GEOL 414  
Geology of Sedimentary Rocks  
Depositional models using modern sedimentary analogues to interpret the ancient environment. *** Prerequisite: GEOL 314 ***

GEOL 416  
Geology of Carbonate Rocks  
Modern and ancient depositional environments of limestone and dolomite. Diagenetic processes affecting carbonate rocks. *** Prerequisite: GEOL 314 ***

GEOL 450  
Geotectonics  
Internal features and processes of the earth: formation and evolution in the context of evolution of the solar system. The earth's lithosphere and lithospheric processes. Plate tectonics and orogenic activity. Lithotectonic associations and crustal evolution. *** Prerequisite: GEOL 350 ***  * Note: Offered in odd-numbered years only. *

GEOL 451  
Geology of North America  
Geology and geological history of North America, with emphasis on Canada. The nature of continental assembly, crustal evolution and geodynamics through time, and comparative studies of lithostratigraphy and magmatism in relation to geotectonic environment. Phanerozoic sedimentary basins. *** Prerequisite: GEOL 313, 315, 340 and 350 ***  * Note: Offered in even-numbered years only. *

GEOL 460  
Applied Exploration Geophysics  
Introduction to geophysical methods including seismic, magnetics, gravity, electromagnetics, IP, radiometrics, and remote sensing. Application to finding and developing petroleum pools and mineral deposits. *** Prerequisite: MATH 110, PHYS 112 or PHYS 119, GEOL 201 ***  * Permission of the Department Head is required to register. **

GEOL 470  
Metallic Mineral Deposits  
Occurrence, geological environment, and genesis of metallic mineral deposits. Survey of the world's most important mining districts. Basic concept of mineral exploration. Ore mineralogy and petrology. *** Prerequisite: GEOL 313, 314 and 315 ***

GEOL 471  
Applied Geochemistry  
Introduction to geochemistry of mineral deposits and igneous, sedimentary, and metamorphic rocks. Principles of radiometric dating of rocks. Practical problem solving in applied geochemistry. *** Prerequisite: CHEM 230, and two of GEOL 313, 314 and 315, or permission of department head. ***  * Note: Offered in even-numbered years only. *

GEOL 472  
Petroleum Geology  
Origin, accumulation, and occurrence of petroleum. Reservoir rocks, fluids and traps. Reservoir conditions and mechanics. Mechanical logs and subsurface methods. Application to finding and developing petroleum pools. *** Prerequisite: GEOL 340 or permission of department head. ***

GEOL 473  
Petroleum Geochemistry  
Production of organic matter and its accumulation and transformation in sedimentary rocks. Kerogen and the generation, migration and alteration of petroleum. Formation of coal. Application to oil and gas exploration. *** Corequisite: GEOL 472 or permission of department head. ***  * Note: Offered in even-numbered years only. *

GEOL 474  
Environmental Hydrogeology  
Water chemistry, water quality and contamination, discussion of remediation (clean-up) of soil and water, and computer modelling of various hydrogeological problems. *** Prerequisite: GEOL 371 and CHEM 230 ***  * Note: Offered in even-numbered years only. *

GEOL 490-495  
Directed Readings - an AA-ZZ series.  
Courses designed to meet the specific needs of individual students.

GEOL 496  
Geology Field Camp II  
Geological mapping and study in an area of crystalline rocks. Supervised study for five days at the end of summer semester. A charge will be assessed to cover accommodation and meals. *** Prerequisite: GEOL 396 and 350 ***  * Note: Students must enrol in this course prior to May 15. *

GER 100  
German Language & Culture I  
Introduction to speech acts, their underlying structures, paradigms, syntax and cultural context. Stress on communicative competence and cross-cultural awareness. Printed and electronic learning materials. *** Prerequisite: No previous background in German. Refer to the Department of International Languages Section of the Undergraduate Calendar (How to choose a language) for details. ***

GER 101  
German Language & Culture II  
Completion of overview of speech acts, their underlying structures, paradigms, syntax and cultural context. Further emphasis on oral and written communicative competence and cross-cultural awareness. Printed and electronic learning materials. *** Prerequisite: GER 100 or Grade 12 German, or permission of department. ***

GER 102  
German Language & Culture III  
Review of fundamental structures and paradigms; further practice in oral and written comprehension and expression; emphasis on extension of vocabulary, text-type recognition and production in an intercultural context. Printed and electronic learning materials. *** Prerequisite: GER 101 or 110 or permission of department. ***

GER 110  
Intensive Introductory German  
This course combines the material of German 100 & 101. * Note: Student may not receive credit for GER 100 or 101, and 110. *

GER 201  
Syntax and Communication  
Development of oral and written communicative independence; stress on idiomatic usage, text-type recognition and production. Printed and electronic learning materials. *** Prerequisite: GER 102 or permission of department. ***

GER 202  
Stylistics and Communication  
Strengthening of oral and written proficiency; extension of idiomatic usage, recognition and production of a broad range of text types and differing styles and registers. Printed and digitized-video materials. *** Prerequisite: GER 201 or permission of department. ***

GER 223  
German Culture and Civilization  
Highlights in the history and development of Germanic cultures and civilizations from the beginnings to the present day. Readings and discussions of events and developments in various fields. Topics may include the arts, literature, society and politics. *** Prerequisite: Any 200-level course in Arts, or ENGL 110, or permission of department. ***  * Note: This course can be used to fulfill the Arts second language core requirement only under special circumstances. Consult the department or your Faculty or College. Taught in English. *

GER 250  
Introduction to German Literature and Literary Genres  
This course serves as an introduction to German literature, literary genres and analysis. Representative German-language authors and works from a range of literary epochs will be examined, but emphasis will be placed on shorter works of modern German literature. *** Prerequisite: GER 201 or permission of department. ***

University of Regina Undergraduate Course Catalog – Spring • Summer • Fall 2006

- 61 -
GER 300
Advanced Idiomatic Usage and Review I
Strengthening of oral and written fluency, review and extension of complex idiomatic usage and syntax. Text-type, style and register recognition and production. Also included is an examination of events of the day as reported through the media; print, radio, television, internet. ** Prerequisite: GER 202 or permission of department. **
* Note: This course prepares students for further studies in culture, linguistics and literature, and/or for a period of study abroad in any area of study at a German-language university. Students who complete this course may qualify to take an examination leading to the internationally recognized Zertifikat Deutsch als Fremdsprache. *

GER 301
German for Reading Knowledge and Research I
Develops reading ability in specialized areas. ** Permission of the Department is required to register. **
* Note: This course does not fulfill the Arts second language core requirement. Recommended for advanced undergraduate and graduate studies.

GER 302
German for Reading Knowledge and Research II
Consolidates reading ability in specialized areas. *** Prerequisite: GER 301 or permission of department. ***
* Note: This course does not fulfill the BA language requirement. Recommended for advanced undergraduate and graduate studies.

GER 303
German for Business
Introduction to business German, business correspondence, resumes, reports, and presentations. *** Prerequisite: GER 201 or permission of department. ***

GER 304
Business German in the International Context
Issue-oriented social and economic concerns. *** Prerequisite: GER 201 or permission of department. ***

GER 327
Selected Topics in German Studies - an AA-ZZ series.
Readings and discussions of relevant or current issues focusing on a particular topic through literary and/or linguistic analysis: e.g. German identity, Multiculturalism, Women Writers, Gender Studies, Lifelong Learning and Aging, Germany in the European Context, Migrant and Minority Groups, Spelling Reform. Courses conducted in German and/or English. *** Prerequisite: GER 250, or ENGL 110, or any 200-level course in the humanities or history, or permission of department. ***
* Note: This course can be used to fulfill the Arts second language core requirement only under special circumstances. Consult the department or your Faculty or College.

GER 390
Tutorials in German - an AA-ZZ series.
*** Prerequisite: GER 202 ***
* Permission of the Department is required to register. **

GER 400
Advanced Idiomatic Usage and Review II
Continuation of GER 300. Strengthening oral and written fluency, review and extension of complex idiomatic usage and syntax. Text-type, style and register recognition and production. Also included is an examination of events of the day as reported through the media; print, radio, television, internet. Discussions, essay-writing and presentations in German. *** Prerequisite: GER 300 ***
* Note: This course prepares students for further studies in culture, linguistics and literature, and/or for a period of study abroad in any area of study at a German-language university. Students who complete this course may qualify to take an examination leading to the internationally recognized Zertifikat Deutsch als Fremdsprache.

GER 427
Selected Topics in German Literature - an AA-ZZ series.
Readings in specific periods or from individual authors. *** Prerequisite: GER 250 and 300, or permission of department. ***

GER 442
German Classicism
The classical period. Theory of culture, humanism and the masterpieces of Goethe, Schiller and other. *** Prerequisite: GER 250 and 300, or permission of department. ***

GER 443
German Romanticism
Studies in the development of German Romantic thought as expressed in the works of Novalis, Tieck and the later romantics such as Brentano, E.T.A. Hoffmann and others. *** Prerequisite: GER 250 and 300, or permission of department. ***

GER 450
German Realism
Selected readings in prose, poetry and drama from the works of writers like Heine, Grillparzer, Buchner, Keller, Storm, or Fontane. *** Prerequisite: GER 250 and 300, or permission of department. ***

GER 461
20th Century Literature (1900-1945)
Survey of German naturalism, expressionism, impressionism, aestheticism. Studies of selected writers such as Hauptmann, Thomas Mann, Hesse, Holmnnsthal, Rilke, Kafka, and Brecht. *** Prerequisite: GER 250 and 300, or permission of department. ***

GER 462
20th Century Literature (1945 to the present)
Introduction to contemporary 20th-century literature, including poetry, drama and the novel. A number of significant writers such as Boll, Durrenmart, Lenz, Grass, Frisch, Bachmann and Wolf will be selected. *** Prerequisite: GER 250 and 300, or permission of department. ***

GER 490
Tutorials in German - an AA-ZZ series.
*** Prerequisite: GER 202 ***
* Permission of the Department is required to register. **

GER 495
Directed Readings - an AA-ZZ series.
Options in a number of areas in the German language or literature. A four-year student may offer a research paper in lieu of one of these courses. *** Prerequisite: GER 250 and 300, or permission of department. ***

HIST 100
Introduction to History
A critical study of significant themes and topics in history. Students will gain an appreciation of history as a critical and interpretive discipline. Themes and topics vary from semester to semester.

HIST 200 (formerly HIST 203 and HIST 204)
Canada from the Age of Exploration to Confederation
An investigation of the meeting, transformation and development of societies in Canada between European landfall and the achievement of substantial self-government in 1867. Areas of interest: government, politics, economy, society and conflict in la Nouvelle France and British North America. *** Prerequisite: HIST 100 or completion of 15 credit hours. ***

HIST 201 (formerly HIST 205 and 206)
Canada From Confederation to World War II
A survey of Canadian history from Confederation to the outbreak of World War II including such topics as John A. Macdonald’s National Policy, western settlement, the rise of urban, industrial Canada, the impact of World War I, society and politics during the 1920s and the Great Depression. *** Prerequisite: HIST 100 or completion of 15 credit hours. ***

HIST 202 (formerly HIST 207)
Canada from World War II to the Present
A survey of the making of modern Canada since 1939, including such topics as the building of the welfare state, Canadian foreign policy, the military in war and peacekeeping, Quebec separatism, the women's
movement, Aboriginal rights, the new constitution and Charter of Rights, the economy and free trade. *** Prerequisite: HIST 100 or completion of 15 credit hours. ***

HIST 219 3:3-0
History of Canadian Women
Examination of women's involvement in Canadian economic, political, social, and cultural life, with focus upon changes in position, status, and perception. Emphasis will be placed upon newcomer women from the era of New France to the 1980s. *** Prerequisite: HIST 100 or completion of 15 credit hours. ***

HIST 224 (formerly HIST 220 and 221) 3:3-0
English History 1307 - 1603
Government and society from the accession of Edward II to the death of Elizabeth: relations with Wales, Scotland, France and Spain; The Hundred Years' War; trade; the effect of plague; The Wars of the Roses; heresy and the Reformation. *** Prerequisite: HIST 100 or completion of 15 credit hours. ***

HIST 225 (formerly HIST 221 and 222) 3:3-0
British History 1603-1832
Government and society from the death of Elizabeth to the Great Reform Act; political upheaval in civil war and Revolution; the rage of party; the emergence of Britain as a world power; economic expansion; colonial developments in North America and India; the Revolutionary Wars. *** Prerequisite: HIST 100 or completion of 15 credit hours. ***

HIST 231 3:3-0
The American Colonies and the United States, 1740-1877
Examination of such topics as colonial life: Anglo-Native relations: the Revolutionary era; economy, politics, religion, reform, and society in the early republic; antebellum America; slavery and race relations; gender and family issues: westward expansion, war, and diplomacy; Civil War and Reconstruction. *** Prerequisite: HIST 100 or completion of 15 credit hours. ***

HIST 234 3:3-0
The United States, 1877-1941
Topics covered include Western expansion and development; growth of the urban industrial order; immigration and ethnicity; African Americans; gender issues; society and culture; regionalism; politics; emergence of the United States as a world power. *** Prerequisite: HIST 100 or completion of 15 credit hours. ***

HIST 235 3:3-0
The United States Since 1941
Topics covered include America as a global power; domestic impact of the Cold War; politics; economic transformation; regionalism; African Americans; ethnic America; gender issues; social movements; society and culture. *** Prerequisite: HIST 100 or completion of 15 credit hours. ***

HIST 240 3:3-0
City and Civilization: An Introduction to Urban History
This course is intended as an introduction to urban history. Particular attention will be given to the cultural, economic and historical significance of the cities of Asia, North America and Europe. Looking at a variety of cities, lectures and seminars will address specific problems of urban development. *** Prerequisite: HIST 100 or completion of 15 credit hours. ***

HIST 245 3:3-0
History of Modern Mexico
This course examines Mexico's history since 1810. It explores and assesses the struggles for independence, caudillismo (strong-man rule), conflict with the United States, war with France, civil war, religion, positivism, neoliberalism, revolution, single party rule, gender relations, and Indo-Americans (Indians). *** Prerequisite: HIST 100 or completion of 15 credit hours. ***

HIST 252 3:3-0
Late Imperial China: Social and Economic History
Focuses on the Ming dynasty (1368-1644) and the Qing dynasty (1644-1912), when the traditional political, social, and economic institutions of China reached their fullest development. *** Prerequisite: HIST 100 or completion of 15 credit hours. ***

HIST 255 3:3-0
Japan before 1868
Examines Japan from prehistoric times up to the middle of the nineteenth century. Discussion will cover the political, social, economic as well as cultural developments of each period with emphasis on the means by which groups and individuals acquired and attempted to maintain their influence over others. *** Prerequisite: HIST 100 or completion of 15 credit hours. ***

HIST 256 3:3-0
History of Modern Japan
Examines the search for a new national identity in modem Japan through an analysis of political, social, economic and cultural changes from 1868 to the 1970s. *** Prerequisite: HIST 100 or completion of 15 credit hours. ***

HIST 260 3:3-0
Earliest Civilizations
An introduction, emphasizing the use of archaeological data, to the rise and development of the oldest civilizations in the Eastern Hemisphere, particularly those of Mesopotamia and Egypt. *** Prerequisite: HIST 100 or completion of 15 credit hours. ***

HIST 264 3:3-0
Ancient Greece and Rome
An introduction to Mediterranean civilization from c.1000 B.C. to the decline of the Roman Empire in Western Europe. *** Prerequisite: HIST 100 or completion of 15 credit hours. ***

HIST 265 3:3-0
Early Middle Ages 300-1100
This course covers the emergence of medieval Europe out of Roman, Germanic, and Christian influences. Topics include the Viking attacks, the rise of the Christian Church, the decline and revival of urban life, the "King Arthur" controversy, and the development of kingdoms and empires. *** Prerequisite: HIST 100 or completion of 15 credit hours. ***

HIST 266 3:3-0
Western Europe in the Later Middle Ages, 1100-1400
The themes of this course include: the crusades, heresies, Church reform, universities, chivalry and courtly love, towns and trade, anti-Semitism, women's roles, mysticism, Gothic art and architecture, kingdoms and representative governments, the Black Death, and Church-state relations. *** Prerequisite: HIST 100 or completion of 15 credit hours. ***

HIST 270 3:3-0
Europe, 1400-1648: Renaissance and Reformation
This course examines the Italian Renaissance in art, culture and thought; overseas explorations; Protestant and Catholic Reformations; rise of the nation state; the Thirty Years War; the Scientific Revolution. *** Prerequisite: HIST 100 or completion of 15 credit hours. ***

HIST 272 3:3-0
Gender, Family and Society: Early Modern Social History
A survey of Western European social organization and values from the 15th to the 18th centuries. Lectures will be organized around the life cycle (childbirth, courtship, marriage and death), the working life, and gender issues. *** Prerequisite: HIST 100 or completion of 15 credit hours. ***

HIST 277 (formerly HIST 274 and 275) 3:3-0
Europe, 1715-1870: Absolutism, Revolution and the Nation-State
This course surveys the varieties of absolutism under the old regime, the revolutionary upheavals of 1789, 1830 and 1848, and the rise of the nation-state, with particular attention to German and Italian unification. It also considers important social and cultural developments, including the Enlightenment, Romanticism, liberalism and socialism. *** Prerequisite: HIST 100 or completion of 15 credit hours. ***
HIST 278 (formerly HIST 276)        3:3-0
Twentieth-Century Europe
First World War, revolutions, peace treaties; League of Nations; fascism, nazism, the Spanish Civil War; causes and consequences of the Second World War; divided Europe since 1945. *** Prerequisite: HIST 100 or completion of 15 credit hours. ***

HIST 290        3:3-0
Selected Topics - an AA-ZZ series.
A survey course on topics of interest in a particular field of History. *** Prerequisite: HIST 100 or completion of 15 credit hours. ***

HIST 302        3:3-0
French-English Relations in Canada
The relationship between Canada's two largest language groups in the 19th and 20th centuries. *** Prerequisite: History course or 30 credit hours. ***

HIST 305        3:3-0
Socio-Cultural History of New France
A study of cultural, social and political institutions which characterized the colony before the Conquest. Topics include the process of immigration, the adaptation to a new environment, the role of the Church, the governmental and judicial institutions, the development of a new identity and the relationship with the First Nations. *** Prerequisite: History course or 30 credit hours. ***

HIST 307        3:3-0
Social History of the "Sixties" in North America
From the "beats" of the 1950s to the fall of Saigon in 1975, baby-boomer youth transformed society through the counterculture, sexual revolution, the new left, student power, environmentalism, and liberation movements, making the "Sixties" the homeland of today. The course compares the Canadian and US experiences of this turbulent era. *** Prerequisite: History course or 30 credit hours. ***

HIST 310        3:3-0
History of Native People in Canada
This course is on the history and historiography of Native people in Canada. It will cover aspects of the history of Native people from coast to coast since the time of European contact. It will also look at the changing ways in which historians have approached and interpreted that history. *** Prerequisite: History course or 30 credit hours. ***

HIST 314        3:3-0
The Legal History of Canada
Aboriginal approaches to law; colonial regimes and the arrival of European law; the development of modern institutions; individual, group, and majority rights in a democratic society. *** Prerequisite: History course or 30 credit hours. ***

HIST 316        3:3-0
Canadian American Relations
Focusing mainly on Canada's relationship with the United States in the 19th and 20th centuries, this course will investigate the process of political, economic, social, and cultural integration/subordination. *** Prerequisite: History course or 30 credit hours. ***

HIST 317 (formerly HIST 210)        3:3-0
The Prairies to 1896
The fur trade and Native-European contact; the acquisition of Rupert's Land by Canada; Indian policy after 1870; developments in transportation, settlement and politics. *** Prerequisite: History course or 30 credit hours. ***

HIST 318 (formerly HIST 211)        3:3-0
The Prairies Since 1896
Immigration and settlement; the creation of new provinces; cultural conflict and education; the agrarian movement and progressive revolt; depression and new party movements; post-war politics and government; the resource boom. *** Prerequisite: History course or 30 credit hours. ***

HIST 330        3:3-0
Women and Gender in the Prairie West
Examination of women's participation in settlement, development, and maturation of the prairie provinces, 1870-1970, from the perspectives of women's history and gender history. Emphasis will be placed upon newcomers, with particular attention to diverse, sometimes conflicting, class and ethnocultural interests. Some comparisons will be made with United States developments, especially those on the Great Plains. *** Prerequisite: History course or 30 credit hours. ***

HIST 332        3:3-0
United States Foreign Relations in the Twentieth Century
This course emphasizes the emergence of the United States as a world power, and its growing military, economic, and cultural dominance in the course of the twentieth century. Of special concern are United States relations with Europe, Asia and the Middle East and its increasing hegemony in the Western Hemisphere. *** Prerequisite: History course or 30 credit hours. ***

HIST 334        3:3-0
Gender in Modern America
This course will examine the ways in which race, ethnicity, class, region, and sexuality have shaped ideas about gender and gender ideals in the United States since the Civil War, as well as how these beliefs changed over time and were contested throughout modern U.S. history. *** Prerequisite: One HIST course or completion of 30 credit hours. ***

HIST 340        3:3-0
The European Urban Experience
A survey of the political and cultural history of modern European cities. Focusing on urbanism as one of the major forces of change since the industrial revolution, this course explores the way of life in a variety of European cities; the focus will be on the lesser or provincial city rather than the metropolis. *** Prerequisite: History course or 30 credit hours. ***

HIST 345        3:3-0
Twentieth-Century Europe
This course covers the major political and social developments in Europe from the First World War to the end of the Second World War, including the rise and fall of totalitarian regimes, the Cold War, and the collapse of the Soviet Empire. *** Prerequisite: History course or 30 credit hours. ***

HIST 346        3:3-0
Japanese Imperialism in China, Korea and Taiwan
This course explores processes of action and reaction in Japanese imperialism. Themes include: theoretical and historical motivations for imperial expansion, managing colonial societies, the economics of empire, the integration of settler communities, the culture of empire (particularly two-way culture flows), and the legacy of empire. *** Prerequisite: History course or 30 credit hours. ***

HIST 348        3:3-0
Imperialism in Latin America
This course investigates the several waves of imperialism that have swept the region, beginning with Christopher Columbus in 1492. It explores the various motivations for colonization, indigenous responses to the aggressions, and assesses the diverse effects of colonialism. *** Prerequisite: History course or 30 credit hours. ***

HIST 352        3:3-0
Shanghai and Tokyo
Compares the complex social, economic, cultural and political changes in these Asian cities since the first era of contact with the West. Themes include the development of a "new" urban lifestyle built around a rapidly-expanding middle class, the growth of a politicized urban proletariat and new roles for women. *** Prerequisite: History course or 30 credit hours. ***

HIST 356        3:3-0
Japanese Imperialism in China, Korea and Taiwan
This course explores processes of action and reaction in Japanese imperialism. Themes include: theoretical and historical motivations for imperial expansion, managing colonial societies, the economics of empire, the integration of settler communities, the culture of empire (particularly two-way culture flows), and the legacy of empire. *** Prerequisite: History course or 30 credit hours. ***

HIST 357        3:3-0
Revolution in Russia and China in the Twentieth Century
This course examines the revolutionary upheavals of Russia and China in the twentieth century from a comparative perspective. It pays particular attention to the different ways that leaders like Lenin and Mao Zedong interpreted and applied Marxist theory in their own societies. *** Prerequisite: History course or 30 credit hours. ***

HIST 366        3:3-0
Cultural History of the Middle Ages
This course approaches the culture of the medieval period, and traces historical trends in art, architecture, literature, and thought throughout the Middle Ages. *** Prerequisite: History course or 30 credit hours. ***

HIST 367        3:3-0
Women in Medieval Europe
This course will explore the roles of women in European society, economy, culture and religion from the end of the Roman Empire to c.1400. *** Prerequisite: History course or 30 credit hours. ***

HIST 370        3:3-0
The European Reformations
An examination of the Protestant and Catholic Reformations of the sixteenth century and the conflicts they engendered from the perspectives of: religion, society, politics, culture, and gender. *** Prerequisite: History course or 30 credit hours. ***
HIST 372  3:3-0
From Magic to Science: Intellectual Developments in Early Modern Europe
Between 1450 and 1700, the mental landscape of Europe changed dramatically. Renaissance magic flourished briefly, but was gradually discarded and replaced by a scientific world view. This course will place intellectual history within the context of political, social and cultural developments. *** Prerequisite: History course or 30 credit hours. ***

HIST 373  3:3-0
The European Witch Hunts 1400-1700
Examination of the origins, development, and decline of the witch persecutions in Western Europe from 1400-1700. Students will learn how historians draw on fields such as feminist theory, psychology, sociology, and anthropology in order to understand the complexities of this topic. *** Prerequisite: History course or 30 credit hours. ***

HIST 375  3:3-0
Paris in the Age of Revolutions
This course examines the revolutionary upheavals that convulsed the French capital between 1770 and 1880, with particular focus on the events of 1789, 1830, 1848, and 1871. It considers the relationship between Paris and its provinces, and the ways in which both metropolitan and provincial identities evolved and interacted. *** Prerequisite: History course or 30 credit hours. ***

HIST 376    3:3-0
Rising from the Ashes: Germany Since 1945
This course surveys the political, social and cultural history of post-war Germany, paying particular attention to the historiographical debates on the course and character of recent German history and the country's role in post-war Europe. *** Prerequisite: History course or 30 credit hours. ***

HIST 378    3:3-0
The Third Reich
This course will examine the historiographical controversies concerning the social and political history of the Third Reich. Topics to be considered include the origins of National Socialism, Nazi ideology, the Holocaust, and German opposition to Hitler. *** Prerequisite: History course or 30 credit hours. ***

HIST 381 (formerly HIST 281)  3:3-0
European Military History
A study of European warfare from the Renaissance to the Second World War. Particular attention is focused upon the interaction between war and economic, social, political, technological and cultural developments. *** Prerequisite: History course or 30 credit hours. ***

HIST 382 (formerly HIST 282)  3:3-0
The Military History of World War I and II
A study of key aspects in the military history of the First and Second World Wars. Subjects covered include war aims and strategic plans; the conduct of operations; the roles of naval and air power, scientific and signals intelligence; the economic and social dimensions of "total war". *** Prerequisite: History course or 30 credit hours. ***

HIST 390  1-6:1-6-0
Selected Topics - an AA-ZZ series.
Special topics in particular fields of History. *** Prerequisite: History course or 30 credit hours. ***

Honours Courses in History – Prerequisite: for all HIST 400-level courses is permission of department head.

HIST 400  3:3-0
Theories of History
This is a seminar course examining the variety of approaches to the study of history from 1900 to the present. Movements studied include Marxism, the Annales School, Feminist Theory, and Post-Modernism. ** Permission of the Department Head is required to register. **

HIST 403  3:3-0
Studies in Canadian Political History
An analysis of how prime ministers of Canada have envisioned the country, devised and implemented policies, and managed political affairs. Based on a comparative approach, the course is a study in power as it was exercised by such leaders as John Diefenbaker, Lester Pearson, Pierre Trudeau, and Brian Mulroney. ** Permission of the Department Head is required to register. **

HIST 405  3:3-0

University of Regina Undergraduate Course Catalog – Spring • Summer • Fall 2006
- 65 -
HIST 434        3:3-0
American Trials of the Twentieth Century
A consideration of landmark United States court decisions during the
twentieth century with emphasis on the changing social context in
which trials took place to understand how everyday life and popular
ideals affected the law, as well as to appreciate the impact of the
courtroom on modern American life.  ** Permission of the
Department Head is required to register.  **

HIST 435 (formerly HIST 335)        3:3-0
Frontier Hollywood, Myth and American History
This course explores the dynamic relationship between American film
and the mythical American frontier.  Myth and its cultural significance,
Frederick Jackson Turner's Frontier Thesis, the history of American
cinema, the role of myth in film, the genesis of the Western, and the
nature of Manifest Destiny, will be examined.  ** Permission of the
Department Head is required to register.  **

HIST 450        3:3-0
Modernity in Asia
This seminar introduces students to recent critical theories and
explores the meaning of 'modernity' as reflected in the relationship
between culture and society in 19th and 20th century Asian history. It
does so by associating readings in social theory with academic and
literary texts from or about the Asian region.  ** Permission of the
Department Head is required to register.  **

HIST 460 (formerly HIST 360)        3:3-0
Ancient History: Theory and Practice
The main focus is on the use of archaeological data in the study of ancient
history. Topics addressed include: domestication; human remains;
the environment; beliefs; the spread of cultures; the ownership of
antiquities; the use of technologies.  ** Permission of the Department
Head is required to register.  **

HIST 464 (formerly HIST 364)        3:3-0
Roman Social History
Thermes in the history of Roman society and social institutions. Topics
include childhood, family structure, health and diet, living
conditions, recreation, and social attitudes.  ** Permission of the
Department Head is required to register.  **

HIST 467        3:3-0
Marriage and Family in the Middle Ages
This course investigates the history of marriage and the family in
medieval Europe.  It covers such topics as: the development of
Christian attitudes towards marriage; marriage practices; family
structures and strategies; children and childhood.  ** Permission of the
Department Head is required to register.  **

HIST 474        3:3-0
War and Culture in Europe: World War I
This course examines the controversial idea of the Great War as a
watershed in European cultural history and the different ways in which
class, gender, nationality, politics and the passage of time have
conditioned the experience and memory of the war.  Writers', artists',
and historians' views are considered.  ** Permission of the Department
Head is required to register.  **

HIST 476        3:3-0
War and Culture in Europe: World War II
This course considers the cultural significance of the Second World
War in Europe.  Subjects covered include pre-war pacifism and
appraisal; soldiers' attitudes, experiences and memories; collaboration
and resistance; the experiences of women and civilians; the role of
politics and ideology; racism and the holocaust; post-war commemoration.
** Permission of the Department Head is required to register.  **

HIST 478        3:3-0
The Berlin Seminar
This course focuses on aspects of Berlin's history during the
nineteenth and twentieth centuries.  Themes include: the effects of
industrialization, the transformation of urban life during the Weimar
Republic, the Third Reich, the division of the city after World War II,
and changes following the collapse of the Wall.  ** Permission of the
Department Head is required to register.  **

HIST 490        1-3:1-3:0
Selected Topics - an AA-ZZ series.
Special topics in particular fields of History.  ** Permission of the
Department Head is required to register.  **

HIST 490-499        3:3-0

Honours Directed Studies
** Permission of the Department Head is required to register.  **

approaches, and the role of culture and communities in repairing harm done by criminal behaviour. *** Prerequisite: HJ 201 and completion of 60 credit hours. HJ 307, HJ 309, and HJ 310 are recommended. ***

HJ 423
Family Law and Family Policy
Examines legislation, policies, institutions, and processes relevant to family welfare. Considers issues such as child protection and the structure and operation of family courts. Includes comparisons with other jurisdictions. *** Prerequisite: HJ 201, and completion of 60 credit hours. HJ 307 is recommended. ***

HJ 424
International Law and Justice
Explores the role of law, courts and policy at the international level in the pursuit of criminal justice and social justice. Examines how advocacy and service organizations use these international mechanisms in pursuit of justice-related goals. *** Prerequisite: HJ 201 and completion of 60 credit hours. HJ 307 and HJ 309 are recommended. ***

HJ 425
Advocacy
The course examines the nature and role of advocacy in the pursuit of social, legal and criminal justice through changing programs, regulations and policies. Involves participation in an advocacy project.

HJ 426
Human Rights in Canada
Examines the historical development and legal framework of human rights at the national and provincial levels. Emphasizes remedies for human rights violations, current human rights issues in Canada and Saskatchewan, and the special implications of this topic for Aboriginal peoples. *** Prerequisite: HJ 201 and completion of 60 credit hours. HJ 309 and 312 are recommended. ***

HJ 427
Evaluating Justice
An introduction to evaluation and needs assessment for criminal justice, social services, health and education programs. Develops skills in designing useful evaluation studies for organizations dealing with criminal and social mandates. *** Prerequisite: HJ 201, and completion of 60 credit hours. HJ 307 and 310 are recommended. ***

HJ 430
Justice/Multidisciplinary Perspectives
Investigates philosophical perspectives molding Western concepts of justice and law. Special emphasis is given to current socio-legal discourse and its implications for law reform, legal practice and human services. *** Prerequisite: HJ 201 and completion of 60 credit hours. HJ 307 and HJ 309 are recommended. ***

HJ 432
Research Methods in Justice
Explores some research methods relevant to the study of social, community, legal and criminal justice. Includes examples of social sciences, criminological and/or legal approaches and methods. *** Prerequisite: HJ 201 and completion of 60 credit hours. ***

HJ 445
Practicum II (Advanced): Field Placement
Students become involved in human justice services/systems in the community, experiencing responsible patterns of professional service work. *** Prerequisite: HJ 202, 203, 307, 309, 432 or approved research methods course, completion of 90 credit hours and a minimum 70% average in the HJ major. *** *** Corequisites: HJ 446 and 447. ** * Note: Students must fill out the Workers' Compensation Agreement form prior to work placement.

HJ 446
Practicum II (Advanced): Seminar
The seminar assists with the integration of theory and practice, broadening students' knowledge. *** Prerequisite: HJ 202, 203, 307, 309, 432 or approved research methods course, completion of 90 credit hours and a minimum 70% average in the HJ major. *** *** Corequisites: HJ 445 and 447 ***

HJ 447
Practicum II (Advanced): Paper
Students build on the Field Placement and Seminar components of the Advanced Practicum through the preparation of a substantial research paper, which is also the basis of an oral presentation to other students and faculty members. *** Prerequisite: HJ 202, 203, 307, 309, 432 or approved research methods course, completion of 90 credit hours and a minimum 70% average in the HJ major. *** *** Corequisites: HJ 445 and 446 ***

HJ 449
Practicum III (Specialized)
Optional. Designed to meet specialized learning needs. Allows for extension or specialization beyond that provided HJ445/446/447. *** Prerequisites: Completion of HJ 445/446/447, with a minimum 70 percent average in the HJ major. ***

HJ 480-484
Advanced Selected Topics - an AA-ZZ series.
Advanced selected topics. *** Prerequisite: HJ 201, 202/203, 309, 310 and completion of 60 credit hours. ***

HJ 490-494
Advanced Directed Readings and Research - an AA-ZZ series.
Courses designed for individual students. ** Prerequisite: HJ 201, 202/203, 309, 310 and completion of 60 credit hours. ***

HS
Faculty of Kinesiology
and Health Studies

HS 200
Understanding Health and Illness
An exploration of the major theories and models of health and illness (biomedical, health promotion, population health). Problem-based seminar. *** Corequisite: HS 201 ***

HS 201
Research Methods in Health Studies
A review of major methodological approaches to health studies research (quantitative, qualitative, community-based/participatory research, and policy research). Problem-based seminar. *** Corequisite: HS 200 ***

HS 300
Health in Canada
A political, economic and social history of health and health care in Canada. Problem-based seminar. *** Prerequisite: HS 200 with a minimum grade of 70. ***

HS 301
Health Issues
An interdisciplinary examination of selected contemporary health issues. Problem-based seminar. *** Prerequisite: HS 200 ***

HS 400
Health Studies Inquiry
Systematic inquiry into a selected health topic. Students will identify health issues, develop researchable questions, conduct research and present findings. *** Prerequisite: HS 301 ***

HS 448
Fieldwork
Students will be given the opportunity to apply their knowledge in a specific professional role related to their area of interest. The work experience will be undertaken by the student under supervision of a cooperating professional and the Fieldwork Coordinator. *** Prerequisite: KHS 300 and completion of 75 credit hours. A minimum 60% PGPA; current CPR B and current Standard First Aid. *** ** Permission of the Faculty is required to register. **

HS 449
Health Field Experience Paper
Students must complete an assigned paper which will integrate academic learning with their work experience. *** Prerequisite: KHS 300 and completion of 75 credit hours. A minimum 60% PGPA is required. *** ** Permission from the Faculty is required to register. **
HUM 201 3:3-0
Landmarks of Western Thought: Selected Topics - an AA-ZZ series.
An examination of the selection of ideas that have, from ancient times to the present, profoundly influenced the development of western culture. The examples selected will be drawn principally from the areas of philosophy, religion, literature, and the arts. *** Prerequisite: ENGL 100 ***

HUM 206 3:3-0
Introduction to Cultural Studies
An introduction to cultural studies, focusing on the Canadian context within such areas as the historic development of the concept of culture; problems of cross-cultural analysis; the relationship between high and low culture in art; the relationship between a culture and its subcultures; the relationship between culture and technologies. *** Prerequisite: ENGL 100, ENGL 110 and the completion of at least 30 credit hours. ***

HUM 207 3:3-0
Power, Knowledge, and Postmodernity
Has the development of knowledge and science led to freedom, progress, and prosperity, or has it been an instrument of power and oppression? This course will rely on philosophical and literary works to explore the postmodern disenchantment with modern approaches to questions of power, knowledge, individuality, and gender. Prerequisite: ENGL 100, PHIL 100, PSCI 100, or completion of 15 credit hours. ***

HUM 250 3:3-0
Cree Literature in Translation
Representative examples of Cree literature from different parts of Canada will be read in translation. Both âtâhêwina (sacred stories, legends) and âcumowina (ordinary stories) will be discussed in terms of their relationship to Cree culture as a whole. *** Prerequisite: ENGL 100 and INDG 100 or permission of the head, Department of Indian Languages, Literatures, and Linguistics. ***

HUM 251 3:3-0
Saulteaux Literature in Translation
A study conducted in English of representative examples of Saulteaux literature as well as Ojibway literature from different parts of Canada. Both âtâhêwina (sacred stories, legends) and âcumowina (ordinary stories) will be discussed in terms of their relationship to Saulteaux culture as a whole. *** Prerequisite: ENGL 100 and INDG 100 or permission of the head, Department of Indian Languages, Literatures, and Linguistics. ***

HUM 260 3:3-0
Utopian Literature, Thought, and Experiment
Study of utopian texts from ancient Golden Ages to modern science fictions. Questions to be asked include whether a much improved human society is possible, what might bring it about, and what are the obstacles? In addition to utopian theory, study of planning the "ideal city," study of the challenges of living in "international communities," and other applications will be considered. *** Prerequisite: ENGL 100 ***

HUM 275 3:3-0
The Theme of Quest for Value and Meaning in Modern Literature
This course deals with the reflection of imaginative literature of the modern challenge to traditional assumptions about the value and meaning of human life. Various responses to this challenge will be examined in the writings of such authors as Joyce, Kafka, Sartre, T.S. Eliot, Lowell, Camus, Marcel, Faulkner, and Updike. *** Prerequisite: ENGL 100 ***

HUM 321 3:3-0
Studies in German Literature in English Translation I
Modern German drama, prose and verse after 1945. Course conducted in English. *** Prerequisite: A 200-level literature course in any language. ***

HUM 322 3:3-0
Studies in German Literature in English Translation II - an AA-ZZ series.
Selected topics: Focus may be on an author, a genre, or a theme. Course conducted in English. *** Prerequisite: A 200-level literature course in any language. ***
**Directed Study - an AA-ZZ series.**
Individual research in Indian art under the instruction of a faculty member of the student's choice. ***Prerequisite: Senior standing and qualifying scholarship record.***

**INA 400**
Graduating Exhibition
Students will participate in an exhibition at the end of the semester in which they have completed all of the coursework for their degree. ***Prerequisite: Graduating year of BFA program.***

**INA 410**
Traditional Indian Art III
Advanced studio explorations in the production of traditional Indian art. ***Prerequisite: INA 310 ***

**INA 420**
Two Dimensional Indian Art II
An advanced studio course exploring two-dimensional art making in the Indian community. ***Prerequisite: INA 320 ***

**INA 430**
Three-Dimensional Indian Art II
Advanced studio course exploring three-dimensional art in the Indian community. ***Prerequisite: INA 330 ***

**INA 490-495**
Directed Study - an AA-ZZ series.
Individual research in Indian art under the instruction of a faculty member of the student's choice. ***Prerequisite: Senior standing and qualifying scholarship record.***

Faculty of Fine Arts
Department of Indian Fine Arts – First Nations University of Canada

**INAH 100**
An Introductory Survey of North American Indian Art
A survey of North American Indian art from prehistory to the present. Analysis of styles in their historical context, development of the specialist's vocabulary.

**INAH 200**
Indian Art of the Andean Nations
A study of the art and architecture of the Andean Nations from prehistory to the present. ***Prerequisite: INAH 100 or ARTH 100 ***

**INAH 202**
Early Canadian Indian Art
A course investigating the change in Indian art styles and media as the result of European contact in Canada. ***Prerequisite: INAH 100 or ARTH 100 ***

**INAH 204**
Indian Art and the Twentieth Century
The course will examine twentieth-century Indian art. Politics, revolution, education, and economic issues of Canada, USA and Mexico will be considered as affecting stylistic developments. ***Prerequisite: INAH 100 ***

**INAH 300**
Pre-Columbian Art in North America
The ancient arts and cultures of pre-Columbian North America. ***Prerequisite: Two 200-level INAH or ARTH courses.***

**INAH 301**
Art and the World Council of Indigenous Peoples
A study of the arts produced by the member nations of the World Council of Indigenous Peoples. ***Prerequisite: 200-level INAH or ARTH course or INDG 200.***

**INAH 390-395**
Directed Studies - an AA-ZZ series.
Directed studies in the history of Indian art under the supervision of an instructor of the student's choice. ***Prerequisite: Senior standing and qualifying scholarship record.***

**INAH 401**
Saskatchewan Indian Art
A reading and research course in the evolution of Indian art in Saskatchewan. Research will include museum and archival visits as well as interviews with elders. ***Prerequisite: 4th-year standing with a major in Indian art history, Indian studies or art history.***

**INAH 490-495**
Directed Studies - an AA-ZZ series.
Directed studies in the history of Indian art under the supervision of an instructor of the student's choice. ***Prerequisite: Senior standing and qualifying scholarship record.***

**INCA**
Indian Communication Arts
Faculty of Arts
Department of Indian Communication Arts – First Nations University of Canada and School of Journalism

**INCA 200**
Summer Institute in Indian/Native Communication Arts
This four week course will give INCA students an introduction to the techniques of journalism and an opportunity to work with professional Indian/native journalists. Students will be required to focus on either print of broadcast journalism. ***Prerequisite: Completion of at least 24 credit hours of INCA/pre-journalism course requirements.***

**INCA 283**
History of Indian/Native Media in Canada
Students will review the role of communication in traditional societies, review and analyze the use of media in contemporary societies around the world, and attempt to redefine the role of communication media on Indian/native societies today. ***Prerequisite: INDG 100 and 101 or permission of department head.***

**INCA 284**
Management, Marketing, and Advertising for Indian/Native Media
This course introduces the range of practical and cultural logistics of management, marketing, and advertising for Indian/native media outlets. ***Prerequisite: INDG 100 and 101 ***

**INCA 290**
Indian Communication Arts Internship
The INCA internship gives students four months of intensive training in either print or broadcast media outlets. ***Prerequisite: Completion of at least 24 credit hours of INCA/pre-journalism course requirements.*** *Note: Students must fill out the Workers’ Compensation Agreement form prior to work placement.*

Topics in Cultural Heritage - an AA-ZZ series.
This course surveys the culture and history of selected Indigenous societies, with emphasis on the Indigenous cultural heritage of Canada. *** Prerequisite: INDG 100 and 101 or permission of department head.*** * Note: The course includes a field trip or significant cultural event.* |

INDG 224    | Indigenous Political Systems of North America                      | 3:3-0   |                  |
|             | This course examines the structures, processes, organizations, and dynamics of selected North American Indigenous political systems. *** Prerequisite: INDG 100 and 101 or permission of department head.*** |

INDG 225    | Principles of Indigenous Law                                       | 3:3-0   |                  |
|             | This course examines the concept of aboriginal rights, as well as other special rights of aboriginal people, from both Indigenous and western legal perspectives. *** Prerequisite: INDG 100 and 101 or permission of department head.*** |

INDG 228    | Indigenous History Within Canada: Eastern Canada                   | 3:3-0   |                  |
|             | This course surveys the history of Indigenous/ non-Indigenous relations in Eastern Canada from contact to the present, emphasizing the historical perspectives of specific Indigenous societies. *** Prerequisite: INDG 100 and 101 or permission of department head.*** |

INDG 229    | Indigenous History Within Canada: Western Canada                   | 3:3-0   |                  |
|             | This course surveys the history of Indigenous/ non-Indigenous relations in Western Canada from contact to the present, emphasizing the historical perspectives of specific Indigenous societies. *** Prerequisite: INDG 100 and 101 or permission of department head.*** |

INDG 232    | Indigenous Systems of Religion and Philosophy                      | 3:3-0   |                  |
|             | This course will examine the systemic nature and concepts of Indigenous religious and philosophical belief, thought, and practice. The holism of Indigenous perspectives will be demonstrated. *** Prerequisite: INDG 100 and 101 or permission of department head.*** |

INDG 234    | Ethnology of North American Indians                                | 3:3-0   |                  |
|             | This course is an investigation of the cultural and social systems of the culture areas of North America. Attention to ecological adaptation, social organization, value systems and integration of cultures will be combined with a focus on ethnological problems and anthropological methods. *** Prerequisite: INDG 100 and INDG 101, or permission of department head.*** * Note: ANTH 100 recommended.* |

INDG 236    | Indigenous Economic, Environmental, and Geographic Systems         | 3:3-0   |                  |
|             | This course will examine the interrelationships of Indigenous economies, environments, and geographies. The holism of Indigenous perspectives will be demonstrated. *** Prerequisite: INDG 100 and 101 or permission of department head.*** |

INDG 238    | Systems of Indigenous Identity, Culture and Society                | 3:3-0   |                  |
|             | This course will examine concepts central to Indigenous identity, including those categorized as cultural, social, and psychological. The holism of Indigenous perspectives will be demonstrated. Prerequisite: INDG 100 and 101 or permission of department head.*** |

INDG 258    | Gender Issues and Indigenous Societies                             | 3:3-0   |                  |
|             | This course examines the concepts of gender both within and among Indigenous societies. The holism of Indigenous perspectives will be demonstrated. *** Prerequisite: INDG 100 and 101 or permission of department head.*** |

INDG 270    | Introduction to Museums and First Peoples                          | 3:3-0   |                  |
|             | This web-based course introduces the history and the role of museums and examines museum practices concerning First Peoples at the Canadian Museum of Civilization. *** Prerequisite: INDG 100 and INDG 101, or permission of department head.*** |

INDG 280    | Research Issues in Indigenous Studies                              | 3:3-0   |                  |
|             | This course examines the dynamics of research in Indigenous studies, including ethics, sensitivities, protocols, and priorities. This course will
survey the history of research in Indigenous studies. *** Prerequisite: INDG 100 and 101 or permission of department head. ***

**INDG 281 Methods and Theory in Documenting Oral Traditions**
This course introduces methods and theory in the documentation of oral traditions and texts specifically focused on Indigenous contexts. *** Prerequisite: INDG 100 and 101 or permission of department head.***

**INDG 282 Methods in Indigenous Community-Based Research**
This course will provide the basic methods in applied research involving Indigenous people and their communities. *** Prerequisite: INDG 100 and 101 or permission of department head.***

**INDG 300 Indigenous Peoples and Development Change in Latin America**
This course is an introduction to problems of development and development change affecting Indigenous peoples of Latin America through comparative analysis and case studies. *** Prerequisite: INDG 200, or permission of department head. ***

**INDG 301 Contemporary Indigenous Issues in Canada**
This course examines issues confronting contemporary aboriginal societies, comparing and contrasting the present concerns and aspirations of aboriginal people in Canada. *** Prerequisite: Any 200-level course in Indigenous Studies or permission of department head. ***

**INDG 305 Urbanization and the Indigenous Peoples**
This course examines the increasing migration of Canadian Indigenous peoples to urban centers and their changing socio-economic conditions. Includes examination of government policy affecting off-reserve Indians, and urban Indian agents for change. *** Prerequisite: Any 200-level course in Indigenous Studies or permission of department head. ***

**INDG 320 Exchange Relations in Indigenous Societies**
This course is an examination of pre-contact and post-contact trade relations of Indigenous peoples of Canada. *** Prerequisite: INDG 228 or 229 or permission of department head. ***

**INDG 324 Politics and the Indigenous Peoples of Canada**
This course will survey the recent national political situation of Canadian Indians, Canadian Indian organizations and associations, major political issues, and future directions. *** Prerequisite: INDG 224 or permission of department head. ***

**INDG 325 The Indian Act**
This course will study and analyze the Indian Act(s) through lectures, seminars, and case studies, including its historical, legislative, and legal background, its effect upon Indigenous societies, and its future role. *** Prerequisite: INDG 224 or 225 or permission of department head. ***

**INDG 332 Indigenous Religions and Philosophy**
This course is an analytical investigation of the traditional world views, philosophies and religions of the Indigenous people of North America, including the narratives of Elders, creation stories, the Trickster, syncretism, ritual studies, dreams, reanimation and environmental ethics. The holism of Indigenous perspectives will be demonstrated. *** Prerequisite: INDG 232, or permission of department head. ***

**INDG 334 History of the Study of Indigenous Peoples as the "Other"**
This course contextualizes the extensive literature produced by scientists and humanists as a result of the study of Indigenous peoples. This course will cover the objective, subjective, reflexive, and representative aspects of Indigenous cultures and societies, approached through sociological knowledge and history of ideas. *** Prerequisite: INDG 100 and 101 or permission of department head. INDG 234 is recommended. ***

**INDG 338 Reserves - Their History and Development**
This course in a descriptive and analytical study of Indian reserves focusing on the social and political economy of the Indigenous peoples prior to and after European arrival, and the invention and implementation of the reserve as a structure of social control in government policy. Prerequisite: INDG 228 or 229 or permission of department head. ***

**INDG 340 Indian Reserve Economic Planning**
This course will examine economic development theory and planning processes, including human resource development, as they apply to the Indian reserve economy. The methods of conducting community economic base studies and preparing economic development plans will be examined. Critical evaluation of case studies of community economic development will be used to top analytical skills. *** Prerequisite: INDG 236 and INDG 282, or permission of department head. ***

**INDG 350 The Roles of Women in Indigenous Societies**
This course is an analytical investigation of the traditional and contemporary roles of Indigenous women in Indigenous societies, including legal status, social systems, political constituency, and spiritual power. *** Prerequisite: INDG 258 or permission of department head. ***

**INDG 360 Indigenous Economic Geography**
This course is a study of Indigenous socio-economic characteristics and management of community resources. *** Prerequisite: INDG 236 or permission of department head. ***

**INDG 372 Canadian Land Claims Settlement Processes**
This course explores the history and development processes of land claims in Canada resulting from efforts subsequent to the Calder decision and the announced policies of comprehensive and specific claims to contemporary developments, including the Nisg’a Final Agreement, the Delgamuukw decision, the Treaty Land Entitlement frameworks in place and the Indian Claims Commission. *** Prerequisite: INDG 100 and INDG 101, INDG 228 and 229 are recommended. ***

**INDG 375 Indigenous History Within the United States**
This course surveys the histories of selected Indigenous groups in their experience of being engulfed by the creation of the United States. This will be done by examining policy development and implementation and the experience of Indigenous people in their resistance and perseverance. *** Prerequisite: INDG 228 or 229 or permission of department head. *** * Note: The course includes a field trip. *

**INDG 380 Research Methods in Indigenous Studies**
This course is a survey of various research methods compatible with the goals of Indigenous studies research agendas. The course will include a sampling of various kinds of applied and pure research accomplishments. *** Prerequisite: INDG 290, 291, or 292 or permission of department head. ***

**INDG 390 Directed Reading and Research - an AA-ZZ series.**
Courses designated for individual students. ** Permission of the Department Head is required to register. **

**INDG 400 Indigenous Peoples Under International Law**
This course is a comparative political analysis of the major features in the development and application of international law as it pertains to Indigenous peoples. It focuses on the nature and evolution of the international Indigenous movement as well as the issues, ideas and limitations of using international law. *** Prerequisite: INDG 300, or permission of department head. ***
INDG 410  3:3-0  
Ethnic Identity Theory and Indigenous Studies
This course will examine ethnic identity theories in the social sciences and their application to the study of Indigenous societies.  *** Prerequisite: INDG 238 and any 300-level course in Indigenous studies or permission of department head.  ***

INDG 415  3:3-0  
North American Indigenous Religious Philosophies
This course analyzes traditional Indigenous religious systems of thought, practice, and beliefs, and the impact of these philosophies on contemporary Indigenous ideas.  *** Prerequisite: INDG 232 and any 300-level course in Indigenous Studies or permission of department head.  ***

INDG 421  3:3-0  
Issues in Self-Determination
This course explores models for self-determination, including economic development, land claims and other issues.  Prerequisite: INDG 224 and a 300-level course, or permission of department head.  ***

INDG 424  3:3-0  
The Principles of Indigenous Governance
This course analyzes the principles, structures, and development of Indian governments in Saskatchewan and Canada, emphasizing emerging models.  *** Prerequisite: INDG 324 or permission of department head.  ***

INDG 428  3:3-0  
Ethnohistory: Theory and Method in the Study of Peoples of the Americas
In this course, ethnohistory, an important methodological orientation within Indigenous studies, is examined by specific studies to discern applications of developing thought and practice.  *** Prerequisite: INDG 228 and 229 or permission of department head. INST 375 is recommended.  ***

INDG 430  3:3-0  
Aboriginal Peoples and the Canadian Constitution
This course examines the key struggle to entrench the rights of aboriginal peoples in the Canadian Constitution, changes in the Indian Act over time, and the processes of constitutional negotiations with federal and provincial governments.  *** Prerequisite: INDG 301 and INDG 324, or permission of department head.  ***

INDG 440  3:3-0  
Strategies for Indigenous Economic Development
This course examines key issues and strategies in Indigenous economic development.  *** Prerequisite: INDG 340 or permission of department head.  ***

INDG 480  3:3-0  
Indigenous Studies Field Research Practicum
This course is an applied field research project from design to final report stages, to be carried out under the supervision of the Department of Indigenous Studies.  *** Prerequisite: INDG 380 or permission of department head.  *** * Note: Students must fill out the Workers' Compensation Agreement form prior to work placement. *

INDG 490  3:3-0  
Honours Seminar
This seminar will meet to guide students in their honors proposal preparation and research.  *** Prerequisite: INDG 380 or permission of department head.  ***

INDG 491  1-3:1-3-0  
Honours Thesis
This course provides supervision of the writing and completion of the Honours thesis and its defense.  *** Prerequisite: INDG 490 or permission of department head.  ***

INDG 493  1-3:1-3-0  
Directed Readings & Research
Courses designed for senior undergraduate students.  *** Permission of the Department Head is required to register.  ***

INDG 496  1-3:1-3-0  
Selected Topics in Indigenous Studies - an AA-ZZ series.
This course is a study of the various story-telling traditions of Indigenous groups.  ** Permission of the Department Head is required to register. **

INHS 300  3:3-0  
Community-Based Indigenous Health Research Methods
This course will focus on basic community-based health research methods involving Indigenous populations in Canada. It will examine the dynamics of conducting applied health research in culturally appropriate ways including special attention to ethics, sensitivities, protocols, and health priorities. Western approaches and research paradigms to research will be analyzed as well as an overview of the importance of research by, with and for Indigenous communities. There will be an opportunity to understand practical applications of community-based research methods presented in the course.  *** Prerequisite: INHS 100, INHS 101, and INHS 210 ***

INTL 100  3:3-0  
Introduction to International Studies
This interdisciplinary course introduces students to a range of global issues, including the basics of world geography, history, political and economic systems, and culture. The strong cross-cultural perspective of the course provides students with the necessary foundation to specialize in their own area of interest within the international studies program.

INTL 300  3:3-0  
Globalization: Its Dynamics and Consequences
The course focuses on the driving forces and consequences of globalization. First, it seeks to bring clarity to the idea of globalization by engaging with major arguments. Second, it analyzes the distinct processes of globalization. Third, it explores how globalizing dynamics are linked to the local, national and regional transformations.  *** Prerequisite: INTL 100, and either of ECON 211 or PSCI 240.  ***

INTL 390  3-15;3-15-0  
Selected Topics in International Studies - an AA-ZZ series.
Current interest and occasional offerings, or overseas internships.  *** Prerequisite: INTL 100 (and potentially other courses).  ** Permission of the Coordinator is required to register. **
ISW 390  Communication Skills in Indian Social Work Practice
This course will provide students with an introduction to skills and theories for personal and professional communication, both within Indian and mainstream contexts. Active listening, assertiveness, interviewing and public speaking will be practiced throughout the class. Students will increase their competence as communicators in all areas of their lives.

ISW 392  Indian Social Work Practise II
This course focuses on examining and practicing skills that enhance the helping relationship through First Nations and congruent western counseling methods. Traditional values, principles and ethics are re-examined to support the development of a personal philosophy of being a helper.

ISW 403  Death, Dying, Loss and Grief
A traditional First Nations' perspective regarding death, dying and loss is examined. Death as a part of the cycle of life, terminal illness and grieving will be explored. Traditional practices and perspectives are discussed reflecting on the role of the social worker in this context.

ISW 405  Social Work with Victims of Abuse
Theories of abuse, power and control and victimization are examined with a particular focus on the historical abuses imposed on the First Nations of Canada. Legislative protections are reviewed. Understanding the process of healing from abuse is a primary objective emphasizing traditional approaches to balance and harmony.

ISW 407  Indian Children's Services
This course examines the history of Indian child welfare focusing on jurisdictional issues, fundamental agreements and programming. Traditional principles, values and philosophies for children are discussed in relationship to family systems, kinship care and service delivery systems. Also examined is the development of the Indian Child Welfare system.

ISW 411  Social Work with Indian Families
This course provides an overview of both Aboriginal and western social work models, historical development, and current practice issues. Students are introduced to a critical analysis of the social work profession, and exposed to a range of social work theories and models.

ISW 416  Ageing
This course reviews stages of life from a First Nations perspective focusing on how these relate to the needs, supports and services of the elderly. A focus on the role of traditional Elders will be explored. There is an emphasis on social work skills required when working with ageing individuals.

ISW 417  Alcohol and Drug Abuse
This class will examine addictions from the perspective of oppression and racism being major contributors. Healing, using traditional approaches balanced with Western methodology will be a primary focus.

ISW 420  Introduction to Social Work
This course provides an overview of both Aboriginal and western social work models, historical development, and current practice issues. Students are introduced to a critical analysis of the social work profession, and exposed to a range of social work theories and models.

ISW 425  Group Work in First Nations' Practice
Traditional and western theories of groups will be explored with a focus on group dynamics in various settings. Traditional teachings and learning and healing circles will be incorporated. The course provides preliminary skills for working with groups regarding problem solving, decision-making, power issues, conflict resolution and consensus.

ISW 437  Social Work with Indian Families
This course introduces social work with First Nation families with emphasis on colonization and the breakdown of family structures that were in place prior to colonization. The restructuring of First Nations families within a traditional model will be presented.

ISW 447  Indian Social Work Practise III
This course focuses on examining and practicing skills that enhance the helping relationship through First Nations and congruent western counseling methods. Traditional values, principles and ethics are re-examined to support the development of a personal philosophy of being a helper.
ISW 448  
Indian Social Work Practicum I  
This course provides the opportunity to do a practicum in First Nation organizations, on reserves and/or incorporating First Nations perspectives into social work practice. The practicum seminar assists students in the integration of theory and practice through sharing of experiences and knowledge.

ISW 450  
Community Development from a First Nations Perspective  
This course examines community structures that have been in existence for First Nations and how structures have changed throughout time. Community organization, adult education, organization principles are also addressed. Participatory research strategies and ethical issues are examined.

ISW 451  
Introduction to Human Service Research with/for First Nations  
This course introduces the basic methodologies, protocols and cultural appropriateness of social research with First Nations. Qualitative and quantitative tools are discussed while drawing on community-based participatory research. Students also study how research can be a vehicle for movement and development in the Aboriginal community.

ISW 458  
Social Work Practicum II  
The purpose of this class will be to increase students’ ability and skill in areas of social work intervention through practice. Emphasis is on initiation, consultation, development and implementation using social work skills. A clearer awareness and ability to integrate First Nations’ approaches into social work is expected.

ISW 469  
Social Policy Development and Services Delivery  
Students will gain familiarity with the Canadian context of social policy, and how First Nations communities both impact and are impacted by this broader context. The role social workers can play to influence social policy development, to enhance self-determination and other First Nations’ agendas will be explored.

ISW 478  
Traditional Counseling  
This course considers characteristics of traditional counselling, the inadequacies of Western-oriented social work counselling with many First Nations clients, and how traditional counselling could improve social work practice. This course is taught with Elders and is suggested for senior students.

ISW 482  
International Themes in Social Work with Indigenous Peoples  
Students will explore the international context of social work, human rights and ‘development’ with emphasis given to the experiences of Indigenous peoples. Roles of social workers within the broader context of globalization, international trade, the United Nations, non-government organizations and social movements will be explored.

ISW 485  
Selected Topics in Research - an AA-ZZ series.  
Individual or group practice in developing viable research proposals, analyzing specific problems in social work and carrying through library and/or field research projects.

ISW 495  
Individual and Group Inquiries - an AA-ZZ series.  
Tutorials, directed readings, “learning contracts” and other agreements stipulating specified objectives negotiated between an instructor and individual students or groups of students.

JAPN 100  
Japanese for Beginners I  
This introductory course will focus on developing the basic skills of reading, writing, listening and speaking, Hiragana and Katakana systems of writing are introduced. ** Prerequisite: No previous background in Japanese. ** * Note: Students may not receive credit for both JAPN 100 and JAPN 110. *

JAPN 101  
Japanese for Beginners II  
A continuation of JAPN 100. This course will continue to introduce the basic elements of Japanese, with more emphasis placed on communicative skills in daily life. Knowledge of Hiragana and Katakana is necessary for this class. Approximately 50 Kanji are introduced. *** Prerequisite: JAPN 100 or permission of department. *** * Note: Students may not receive credit for both JAPN 101 and JAPN 110. *

JAPN 102  
Japanese for Beginners III  
A continuation of JAPN 101 or JAPN 110. This course will focus on developing communicative skills using more complex structures in a culturally appropriate manner. Knowledge of Hiragana and Katakana is required. Approximately 100 Kanji characters will be introduced. *** Prerequisite: JAPN 101 or 110 or permission of department. *** * Note: Students may not receive credit for both JAPN 102 and JAPN 210. *

JAPN 110  
Intensive Japanese for Beginners  
This course combines the material of JAPN 100 and JAPN 101. *** Prerequisite: No previous background in Japanese. *** * Note: Students may not receive credit for JAPN 100, 101, and 110. *

JAPN 200  
Intermediate Japanese I  
Further development of oral communicative skills. The students will develop a deeper understanding of the language and culture and be able to handle comfortably daily living situations. Practice in recognition and writing of kanji characters. *** Prerequisite: JAPN 102 or permission of the department. *** * Note: Students may not receive credit for both JAPN 200 and JAPN 210. *

JAPN 201  
Intermediate Japanese II  
A continuation of JAPN 200 or 210. Introduction to more complex sentence structures in both casual and formal speech styles. All four language skills are emphasized and approximately 120 new Kanji characters are introduced. *** Prerequisite: JAPN 200 or 210 *** ** Permission of the Department is required to register. ** * Note: Students may not receive credit for both JAPN 201 and JAPN 210. *

JAPN 202  
Intermediate Japanese III  
A continuation of JAPN 201. This course will focus on strengthening communicative competence in casual, formal and honorific speech styles with continued emphasis placed on more complex patterns and structures. Approximately 90 new Kanji characters are introduced. *** Prerequisite: JAPN 201, or permission of department. *** * Note: Students may not receive credit for both JAPN 202 and JAPN 210. *

JAPN 210  
Intensive Intermediate Japanese  
This course combines the material of JAPN 102 and JAPN 200. *** Prerequisite: JAPN 101 or 110 or permission of department. *** * Note: Students may not receive credit for JAPN 102 or 200, and 210. *

JAPN 290  
Tutorials and Directed Readings in Japanese - an AA-ZZ series  
These courses are designed to increased student’s skills in reading, writing, comprehension and communication. ** Permission of the Department is required to register. **

JAPN 300  
Advanced Japanese I  
This course will focus on more vocabulary acquisition, Kanji characters and communication styles through authentic reading and conversations to develop more advanced knowledge. *** Prerequisite: JAPN 202 or permission of department. ***

JAPN 301  
Advanced Japanese II  
This course places further emphasis on the development of communicative competence with different speech styles. Reading and writing skills are further developed. *** Prerequisite: JAPN 202 or permission of department. ***
| JAPN 390 | 0-3:0-3:0 |
| These courses are designed to increase students' skills in reading, writing, comprehension, and communication. ** Permission of the Department Head is required to register. ** |

| JAPN 490 | 3:3-0 |
| *** Permission of the Department Head is required to register. *** |

| JRN 300 | 3:3-3 |
| Print Journalism I |
| Study and practice of news gathering, reporting and newspaper publication. *** Prerequisite: Admission to the School of Journalism. *** |

| JRN 301 | 3:3-3 |
| Broadcast Journalism I |
| Study and practice of current affairs, news gathering, writing and reporting for the broadcast media. *** Prerequisite: Admission to the School of Journalism. *** |

| JRN 302 | 3:3-0 |
| Rights and Responsibilities of the Journalist |
| Study of ethical and legal questions and the role of the journalist. *** Prerequisite: Admission to the School of Journalism. *** |

| JRN 303 | 3:3-0 |
| Research Techniques |
| Study and practice of basic research techniques in the journalistic process. *** Prerequisite: Admission to the School of Journalism. *** |

| JRN 304 | 3:3-0 |
| Interviewing for the Media |
| Study and practice of the interview as a basic tool of journalistic investigation. *** Prerequisite: Admission to the School of Journalism. *** |

| JRN 305 | 3:3-3 |
| Print Journalism II |
| Continuing study and practice of news gathering, reporting and newspaper production. *** Prerequisite: JRN 300 *** |

| JRN 306 | 3:3-3 |
| Broadcast Journalism II |
| Continuing study and practice of current affairs, news gathering, writing, and reporting for the broadcast media. *** Prerequisite: JRN 301 *** |

| JRN 307 | 3:3-0 |
| Research and Interviewing Techniques |
| Continuing study and practice of research and interviewing techniques as essential journalistic tools. *** Prerequisite: JRN 303 and 304 *** |

| JRN 308 | 3:3-0 |
| Journalism Topics |
| Study and discussion of selected topics of current interest to journalists, including ethical and legal issues. *** Prerequisite: JRN 302 *** |

| JRN 310 | 3:3-0 |
| History of the Media |
| An introduction to the history of the media, providing a broad examination of trends and developments, including the major milestones in media development. *** Prerequisite: Completion of 60 credit hours or permission of department head. *** |

| JRN 311 | 3:3-0 |
| Media, Power and Society |
| A critical analysis of the politics and structures of media power, focusing on such matters as media ownership, ratings, advertising, media manipulation, sensationalism, story content, marginalization and representation. *** Prerequisite: Completion of 60 credit hours or permission of department head. *** |

| JRN 312 | 3:3-0 |
| Photo Journalism |
| A photo journalist's role in the news gathering process. Communicating through pictures and the power of visual story telling. *** Prerequisite: Completion of 60 credit hours or permission of department head. *** |

| JRN 313 | 3:3-0 |
| Weeklies |
| An examination of the special demands of a weekly newspaper and its role in the community. *** Prerequisite: Completion of 60 credit hours or permission of department head. *** |

| JRN 314 | 3:3-0 |
| Feature Writing |
| Researching, organizing, writing, and editing short features to be in newspapers, television, radio, and magazines. *** Prerequisite: Completion of 60 credit hours or permission of department head. *** |

| JRN 315 | 3:3-0 |
| Journalism and Numbers |
| This course is designed to develop the journalist's skills in interpreting and reporting numerical information such as polls, surveys. *** Prerequisite: Completion of 60 credit hours or permission of department head. *** |

| JRN 316 | 3:3-0 |
| Print Editing |
| Study and practice of copy-editing skills, emphasizing on-line editing, headline writing and pagination, on deadline. *** Prerequisite: Completion of 60 credit hours or permission of department head. *** |

| JRN 400 | 15-0-0 |
| Internship |
| The internship is a period of three to four months to be served in the field in a work/study capacity. Students must accept placements as assigned. *** Prerequisite: Satisfactory completion of JRN 300, 301, 302, 303, and 304. *** |

| JRN 401 | 3:3-3 |
| Advanced Print Journalism |
| Advanced study and practice of news gathering, reporting, and newspaper production. *** Prerequisite: JRN 300 and 305 *** |

| JRN 402 | 3:3-3 |
| Advanced Broadcast Journalism |
| Advanced study and practice of current affairs, news gathering, writing, and reporting for the broadcast media. *** Prerequisite: JRN 301 and 306 *** |

| JRN 410 | 3:3-0 |
| Advanced Interviewing |
| Advanced study in interview preparation and effective interviewing techniques. *** Prerequisite: JRN 304 and 307 *** |

| JRN 411 | 3:3-3 |
| Documentary Theory and Production |
| An analysis of documentary traditions including aural/visual metaphors, narrative structure, social contexts, electronic methodologies and biases. Students will also produce a substantial work of their own. *** Prerequisite: JRN 301 and 306, or permission of the department head. *** |

| JRN 413 | 3:3-0 |
| Magazine Writing |
| Researching, organizing, writing, and editing longer articles to be published in magazines. *** Prerequisite: JRN 300 and 305 *** |

| JRN 414 | 3:3-0 |
| Investigative Reporting |
| Original, in-depth research into matters of major public interest and importance, organizing the material, writing it up and editing it with a view toward publication and/or broadcast. *** Prerequisite: Completion of the School's internship program. *** |
This course will focus on the biological foundations of lifespan development. Physical, cognitive, social, and emotional factors will be discussed from conception to late adulthood. * Note: normally offered in winter only. *

**KHS 154**

Sociology of Physical Activity and Sport

A general sociological perspective of physical activity, particularly the theoretical concepts and issues related to sport, leisure, and recreation. * Note: normally offered in winter only. *

**KHS 156**

Leadership

This course will provide the student with an in-depth theoretical and practical exploration of the concepts of leadership in Kinesiology and Health Studies. * Note: normally offered in fall only. *

**KHS 165**

Motor Learning

A survey of experimental findings, field observations and practical experiments related to the study of psychological factors affecting acquisition and performance of skill.

**KHS 168**

Human Anatomy

The study of human muscular and skeletal anatomy and the functional anatomy of the circulatory, respiratory, and nervous systems will also be examined.

**KHS 170**

Lifestyle and Health

The factors which affect an individual's health will be examined and the potential role of lifestyle choices in the maintenance of health will be discussed.

**KHS 171**

Holistic Health

The factors that affect an individual's health will be examined from a population health perspective. A variety of topics will be covered encompassing the role of the individual, the family and the community in personal health. * Note: Students will not receive credit for both KHS 170 and KHS 171. This is an online course. *

**KHS 181**

Philosophy and Practice of Yoga and T'ai Chi

Experimental Course: A study of the philosophical and practical aspects of movement through yoga and t'ai chi. This course will incorporate fundamental principles of flexibility training and proper technique. * Note: This is an applied activity-based course. *

**KHS 182**

Coaching Theory

The theory of coaching in sport with an emphasis upon the content of the National Coaching Certification Program. * Note: normally offered in the winter only. *

**KHS 190**

Introduction to Adapted Physical Activity and Recreation

An examination of the characteristics of persons with physical, developmental, and emotional disabilities and a practical opportunity to adapt physical activity and recreation to meet special needs.

**KHS 239**

Movement Education

A practical and theoretical examination of movement, emphasizing opportunities to acquire movement competence in games, dance, and gymnastics, and to apply Laban’s principles of movement. *** Prerequisite: KHS 139 (PAS 152) *** * Note: Normally offered in winter semester only. *

**KHS 240**

Administration of Voluntary Recreation and Sport Associations

An analysis of volunteer recreation and sport organizations with a particular focus on the Saskatchewan delivery system. *** Prerequisite: KHS 156 (PAS 246). *** * Note: Normally offered in fall only. *

**KHS 242**

Facility Design and Management

An investigation and analysis of physical activity facility design and management. *** Prerequisite: KHS 140 (PAS 230) and 156 (PAS 246) *** * Note: Normally offered in Winter only. *
KHS 261
Biomechanics
3:3-1.5
Human movement is investigated with particular reference to the laws of physics (mechanics) and anatomical concepts as applied to joint motion and muscular action. *** Prerequisite: PHYS 109 and KHS 168 (PAS 268) *** * Note: Normally offered in fall only. *

KHS 267
Human Physiology I
3:3-0
An introductory class that deals with cellular mechanisms and some of the functions and interactions between major physiological systems of the human body. *** Prerequisite: KHS 168 (PAS 268) ***

KHS 268
Human Physiology II
3:3-0
An advanced class in the major physiological systems that are involved in the preservation of homeostasis in the human body. *** Prerequisite: KHS 267 (PAS 250AA) *** * Note: Normally offered in the winter only. *

KHS 269
Exercise Physiology
3:3-1.5
The study of the physiological mechanisms involved during physical activity. The course covers the physiological effects of acute and chronic exercise on the metabolic, neuromuscular, respiratory, and cardiovascular systems. *** Prerequisite: KHS 267 (PAS 250AA) *** * Note: Normally offered in the winter only. *

KHS 283
Sport Psychology
3:3-0
A study of the psychological theories and concepts used in coaching individual and team sports and the factors related to their implementation. Special emphasis will be given to the theoretical models of anxiety, aggression, and activation. *** Prerequisite: KHS 150 *** * Note: Normally offered in winter of even years only. *

KHS 290
Therapeutic Recreation
3:3-0
An introduction to the foundations, history, and development of the profession of Therapeutic Recreation. Students will be supported in their journey to understand the specialized area of expertise that makes Therapeutic Recreation unique within the health professions. *** Prerequisite: KHS 190 (PAS 290). *** * Note: Normally offered in fall only. *

KHS 291
Assessment
3:3-0
This course examines the concepts of assessment as they apply within the disciplines of adapted physical activity and therapeutic recreation. *** Prerequisite: KHS 190 *** * Note: Normally offered in the fall only. *

KHS 292
Aging
3:3-0
This course provides the student with a basis for examining the relationship amongst physical activity, recreation, leisure and therapeutic recreation and aging. *** Prerequisite: KHS 170 (PAS 270) and 190 (PAS 290) *** * Note: Normally offered in the winter only. *

KHS 300
Pre-Fieldwork Seminar
0:2-0
This non-credit mandatory pre-fieldwork seminar will provide the student with an in-depth overview of the Fieldwork Program within Kinesiology and Health Studies. Students will gain an understanding of the policies, procedures, rules, and responsibilities for the student, faculty, and agency. *** Prerequisite: Completion of 60 credit hours. ***

KHS 339
Movement Education Theory
3:0-0
The scientific and philosophical foundation of movement education. Note: normally offered in winter of even years only. *** Prerequisite: KHS 239 (PAS 252) ***

KHS 341
3:3-0

Analysis of Administration in Recreation and Sport
An analysis, using case studies, of management theory as applied to the practice of sport and recreation administration. *** Prerequisite: Completion of 60 credit hours and KHS 140 (PAS 230). *** * Note: Normally offered in fall only. *

KHS 344
Government and Policy in Recreation and Sport
3:3-0
An investigation of the role that the various levels of government play in the delivery of physical activity and an appreciation of the role politics. *** Prerequisite: Completion of 60 credit hours. *** * Note: Normally offered in the fall of even years only. *

KHS 345
Legal Issues in Physical Activity, Recreation, and Sport
3:3-0
An investigation of the legal issues and the management of risk in the sport and recreation delivery systems. *** Prerequisite: Completion of 60 credit hours. *** * Note: Normally offered in the fall of odd years only. *

KHS 349
Sport Tourism
3:0-0
An examination of sport tourism from an economic perspective, incorporating social, cultural and environmental approaches. Sport management in peripheral areas and the developmental and organizational elements of sport tourism will be examined. * Note: This is an online course. *

KHS 370
Social Psychology of Health and Exercise
3:3-0
To provide exposure to various social psychological theories and models designed specifically in an attempt to understand health and exercise behaviours. *** Prerequisite: KHS 150 *** * Note: Normally offered in fall only. *

KHS 371
Care and Prevention of Athletic Injuries
3:3-1.5
An examination of the causes, symptoms, and appropriate treatment of athletic injuries and an opportunity to practice taping and other techniques used in the treatment and prevention of such injuries. *** Prerequisite: KHS 168 (PAS 268) *** * Note: Normally offered in winter only. *

KHS 372
Fitness Appraisal and Exercise Leadership
3:3-1.5
The scientific basis of physical fitness appraisal and exercise counselling will be examined, as will the administration of standardized tests of fitness and program leadership. Students will have the opportunity to become Certified Fitness Consultants. *** Prerequisite: KHS 170 (PAS 270) and KHS 269 (PAS 269) *** * Note: Normally offered in fall only. *

KHS 373
Training and Conditioning
3:3-1.5
This course provides an intensive examination of the scientific and technological theories, techniques, and planning methods utilized in training and conditioning. *** Prerequisite: KHS 261 and KHS 269 (PAS 269) *** * Note: Normally offered in the fall only. *

KHS 387
Wilderness Experience
3:1-2
This experientially based course enables students to develop proficiencies in camping, canoeing, and orienteering through both theory and practice. Active participation in a one-week trip in northern Saskatchewan is mandatory for all students. * Note: normally offered in the spring/summer only. Materials fee $65 *

KHS 390
Interventions in Therapeutic Recreation
3:3-0
This course examines the therapeutic recreation intervention process with emphasis on the various forms of interventions and strategies used to elicit changes in physical, social, emotional, and cognitive functioning. *** Prerequisite: KHS 290 *** * Note: Normally offered in the winter only. *

KHS 393
Etiology of Disease and Disability
3:3-0
A study of the nature of disease and changes in body tissues and organs that cause or are caused by disabilities. An examination of characteristics and capabilities of persons with disabling diseases. *** Prerequisite: KHS 190 (PAS 290) and KHS 268 *** * Note: normally offered in the fall of odd years only. *
KHS 394  3:3-0  Developmental Disabilities
A study of the characteristics and capabilities of persons with developmental disabilities, including the practical application of the adaptations necessary for their involvement in physical activity and recreation. *** Prerequisite: KHS 291 (PAS 291) ***  * Note: Normally offered in the winter only. *

KHS 395  3:3-0  Physical Disabilities
A study of the characteristics of persons with physical, sensory, and multiple disabilities, including the practical application of adaptations necessary in physical activity and recreation. *** Prerequisite: KHS 291 (PAS 291) ***  * Note: Normally offered in the winter only. *

KHS 400  3-15:0-0  Fieldwork
Students will be given the opportunity to apply their knowledge in a specific professional role related to their major. The work experience will be undertaken by the student under supervision of a cooperating professional and the fieldwork coordinator. *** Prerequisite: KHS 300 (PAS 300), completion of 75 credit hours within the program; completion of 18 of 27 credit hours within KHS major courses; a minimum 60% PGPA; minimum 65% major GPA; current CPR B and current Standard First Aid. ***  ** Permission from the Faculty is required to register. **

KHS 442  3:3-0  Outdoor Recreation Resource Management
Historical antecedents and current issues and practices in the use and management of parks, forests, wilderness areas, and other North American outdoor resources for recreation activity. *** Prerequisite: KHS 243 (PAS 333) ***  * Note: Normally offered in the winter of odd years only. *

KHS 443  3:3-0  Commercial Recreation and Sport Organizations
An investigation of commercial recreation, sport organizations, and facilities including their philosophy, history, and personnel requirements. *** Prerequisite: KHS 243 (PAS 333) ***  * Note: Normally offered in the winter of even years only. *

KHS 445  3:3-0  Recreation and Sport Marketing
An introduction to analysis of the consumer as a basis for marketing in sport and recreation. *** Prerequisite: KHS 243 (PAS 333) and ADMN 210 ***  * Note: Normally offered in the winter only. *

KHS 446  3:3-0  Sponsorship and Financing of Recreation and Sport
Focus on the various means of funding sport and recreation operations. *** Prerequisite: KHS 243 (PAS 333) ***  * Note: Normally offered in the fall only. *

KHS 450  3:3-0  Research Methods in Kinesiology and Health Studies
Focus on various research methods and statistical analysis used in kinesiology and health studies. Emphasis on ability to read and understand published research. *** Prerequisite: Completion of 75 credit hours and one of STAT 151 or SOST 201. ***  * Note: Normally offered in the fall only. *

KHS 451  3:3-0  Philosophy of Kinesiology
Philosophical consideration of concepts and issues in physical activity. Note: normally offered in winter only. *** Prerequisite: Completion of 75 credit hours. ***

KHS 470  3:3-0  Nutrition in Exercise and Sport
This course examines the basic principles of nutrition, including Recommended Nutrient Intakes, macro and micro nutrients and the important role that nutrition plays in sport, recreation, and athletic performance. The role of diet in overall disease prevention and health promotion will also be examined. *** Prerequisite: KHS 170 (PAS 270) and KHS 269 (PAS 269). ***  * Note: Normally offered in the fall only. *

KHS 472  3:3-1.5  Advanced Topics in Exercise Physiology
This course examines current methods of appraising performance and prescribing exercise in diverse population ranging from the general population to athletes and individuals involved with physically demanding occupations. *** Prerequisite: KHS 261 and KHS 372 (PAS 372) ***  * Note: Normally offered in the winter only. *

KHS 475  3:3-1.5  Clinical Exercise Physiology
An examination of the benefits of physical activity in symptomatic populations including cardiac, diabetic, obese and cancer patients. *** Prerequisite: KHS 472 (PAS 472) ***  * Note: Normally offered in the winter only. *

KHS 476  3:3-0  Health and Wellness Promotion
An examination of the benefits and methods of promoting a physically active lifestyle. Workplace wellness programs will be investigated. Prerequisite: KHS 170 (PAS 270) ***  * Note: Normally offered in the fall of odd years only. *

KHS 485  3:3-0  Independent Study - an AA-ZZ series.
An opportunity for senior students to pursue an in-depth independent study of a topic related to physical activity. The study is to be supervised by an approved faculty member.

KHS 486  3:3-0  Gender in Sport and Physical Activity
This course examines the relationship between gender, physical activity and sport. Emphasis will be placed on social, cultural, and organizational influences that affect men's and women's involvement in sport and physical activity. *** Prerequisite: Completion of 60 credit hours. ***  * Note: only offered in fall of odd years only. Students may only receive credit for one of KHS 486 and KHS 286. *

KHS 497  3:0-0  Adapted Physical Activity Senior Seminar
A critical examination of historical and contemporary trends and assumptions besetting activity for persons with disabilities. *** Prerequisite: Completion of 75 credit hours which includes KHS 291 (PAS 291) and, KHS 394 (PAS 394) or KHS 395 (PAS 395). ***  * Note: Normally offered in fall only. *

University of Regina Undergraduate Course Catalog – Spring • Summer • Fall 2006

- 79 -
KOR 100
Introduction Korean 1
This course is designed to give students a basic knowledge of the Korean language. At first, students will learn the writing system and pronunciation of Hang’ul. Grammar, vocabulary and expressions needed for everyday conversations and for reading and writing short texts will then be introduced. *** Prerequisite: No previous background in Korean. ***

KOR 101
Introduction Korean 2
A continuation of KOR 100. *** Prerequisite: KOR 100 or permission of department. ***
Basic Accounting Practises
An introduction to fundamental accounting principles developed through the cycle of bookkeeping procedure. Topics covered include: basic accounting concepts and terminology, books of original entry, ledgers, year-end adjustments, controlling accounts, cash controls and investment of surplus funds, introduction to manufacturing accounting, departmental accounting, bonds payable and sinking funds.

LG 025
Local Government Accounting
An examination of the history, purposes and principles of local government accounting, budgeting, audits, assessment and taxation. Emphasis is placed on Urban and Rural Municipalities and School Division accounting. *** Prerequisite: LG 024 ***

LGC
Faculty of Arts
Logic
Department of Philosophy and Classics

LGC 100
Introduction to Practical Logic
Introduction to the theory and practice of correct reasoning. Topics covered may include: fallacies in ordinary language, theories of definition, recognition and analysis of arguments, methods of deduction.

LING
Faculty of Arts
Linguistics
Department of Indian Languages, Literatures and Linguistics – First Nations University of Canada

LING 100
Introductory Linguistics
An introduction to the main subdisciplines of linguistic inquiry: Phonetics (speech sounds), Phonology (sound patterns), Morphology (word structure), Syntax (sentence structure) and Semantics (meaning). * Note: Students who have completed LING 200, ENGL 260 or FR 226 are not permitted to enrol in this course. *

LING 175
Survey of American Indian Languages
Introduction to basic concepts of linguistics, with examples from Indian languages. Speech sounds, word structure, sentence patterns, meaning patterns. Comparative linguistics and Indian language families of Canada and beyond.

LING 200
General Linguistics
Concepts in the study of language, with emphasis on speech sounds, sound patterns, word formation, sentence structure, and meaning. *** Prerequisite: ENGL 100 and 30 credit hours, or a course in a language other than English, or LING 175. ** Note: Students who have successfully completed ENGL 260 or FR 226 are not permitted to enrol in this course for credit.

LING 210
Phonetics & Phonology
The identification and production of speech sounds. Phonetic transcription. Study of the sound patterns of various languages. *** Prerequisite: One of LING 100, LING 200, CREE 206, ENGL 260, FR 226, NAK 206 or SAUL 206 ***

LING 211
Morphology
Word formation in languages, grammatical categories and morphological typologies. Inflectional and derivational categories. Morphology in selected theoretical frameworks. *** Prerequisite: One of LING 100, LING 200, CREE 206, ENGL 260, FR 226, NAK 206 or SAUL 206 ***

LING 212
Semantics
The study of meaning in language. Morpheme and word meaning, text meaning. Semantic components, domains/fields, and roles. Predictable variants of meaning, contexts, dictionaries, metaphors, cognition, Pragmatics, logic. *** Prerequisite: One of the LING 100, LING 200, CREE 206, ENGL 260, FR 226, NAK 206 or SAUL 206 ***

LING 213
Syntax
An introduction to grammatical analysis and syntactic variation cross-linguistically. Application to the analysis of grammatical structure of various languages. *** Prerequisite: One of LING 100, LING 200, CREE 206, ENGL 260, FR 226, NAK 206 or SAUL 206 ***

LING 220
Interdisciplinary Linguistics
Basic introduction to historical linguistics, language acquisition, writing systems, sociolinguistics, psycholinguistics, and other interdisciplinary areas of language study. *** Prerequisite: One of LING 100, LING 200, CREE 206, ENGL 260, FR 226, NAK 206 or SAUL 206 ***

LING 320
Historical Linguistics
Investigation of the ways in which languages change over time. Reconstruction of the older stages of a language through comparison with related languages. Reconstruction of the common ancestor language of related languages. *** Prerequisite: LING 210 and 211, and one of CLAS 110, LING 212, LING 213, or LING 220 ***

LING 327
Evaluation of Language Learning Processes
The cognitive and social aspects of second language mastery, and the processes of bilingual/bicultural development. Strategies for enhancing second language learning and acquisition. *** Prerequisite: LING 220 or an introductory course in the teaching of English or French as a second language ***

LING 360
Applied Linguistics
An introduction to the use of Linguistics in the teaching and learning of First Nations languages. A survey of topics including communication and structure, cross linguistic influence, teaching pronunciation, morphology, syntax and semantics, applications to orthography and literacy, etc. *** Prerequisite: One of CREE 206, NAK 206, SAUL 206, or LING 100, and two 300-level CREE or SAUL courses or two 200-level LING courses. ***

LING 380
Research Methods of Linguistics
Field methods and interview techniques. Library and archival research. Introduction to linguistic research. Formulation of alternative hypotheses and use of argumentation in choosing among them. Ethics of research. Scientific method. *** Prerequisite: LING 210 and 211 ***

LING 390-395
The topics may be chosen from a list of options or may be requested by the student. *** Prerequisite: Three 200-level linguistics courses and one 300-level linguistics course. *** Permission of the Coordinator of Linguistics or Head, Department of Indian Languages, Literatures, and Linguistics are required to register. **

LING 410
Seminar in Phonology
Consolidation of expertise in phonetic transcription, production, and phonological analysis. Common phonological processes. Contemporary phonological theory. Abstractness, naturalness, rule ordering, and rule interaction. *** Prerequisite: One of LING 210, CREE 310, SAUL 310, ***

LING 411
Seminar in Morphology
Morphological processes and structures. Complex systems. Evolution of morphological categories and language universals. Morphology in selected theories. *** Prerequisite: One of LING 211, CREE 311, SAUL 311 ***

LING 412
Seminar in Semantics
Semantic processes and structures. Semantic theories. Application of semantics in language acquisition and teaching. Diachronic semantics. *** Prerequisite: One of LING 212, CREE 312, SAUL 312 ***
LING 413  3:3-0
Seminar in Syntax
Contemporary syntactic theory. An examination of competing frameworks for syntactic analysis: relational grammar, transformational grammar, typological approaches. Natural syntax. *** Prerequisite: One of LING 213, CREE 313, SAUL 313 ***

LING 485-489  3:3-0
Structure of a Selected Language - an AA-ZZ series.
The major grammatical structures of a selected language or language family in typological, areal, and genetic contexts. Contributions to current issues in theoretical linguistics. ** Permission of the Coordinator of Linguistics or Head, Department of Indian Languages, Literatures, and Linguistics is required to register. **

LING 490-495  3:3-0
Directed Individual Research in Linguistics - an AA-ZZ series.
Courses designed as required for senior undergraduates. ***
Prerequisite: One of LING 410-413. ** Permission of the Coordinator of Linguistics or Head, Department of Indian Languages, Literatures, and Linguistics is required to register. **

LING 496-499  3:3-0
Topics in Descriptive, Theoretical, or Applied Linguistics - an AA-ZZ series.
Courses designed as required for groups of senior undergraduates. ** Permission of the Coordinator of Linguistics or Head, Department of Indian Languages, Literatures, and Linguistics is required to register. **

---

MATH 101  3:3-0
Introductory Finite Mathematics I
This is an introductory course intended to familiarize the students with the basic concepts of arithmetic, number theory, set theory, symbolic logic, and finite mathematics. Topics include logic, sets, numeration systems, arithmetic in non-decimal systems, system of integers, elementary number theory and modular arithmetic. There will be a strong emphasis on critical thinking, problem solving, understanding concepts and their applications. *** Prerequisite: Mathematics A30 ***
* Note: Students who have already received credit for any mathematical course (other than MATH 108) cannot take this class for credit, unless it is explicitly required in their program or they have received consent from the Head of the Department of Mathematics and Statistics.

MATH 103  3:3-0
Calculus for the Social & Management Sciences
Differentiation of algebraic, exponential, and logarithmic functions. Optimization, curve sketching, integration by substitution. ***
Prerequisite: Mathematics B30 with a grade of at least 65%, ***
* Note: This is a terminal course in calculus. Students who wish to take further calculus courses should initially take MATH 105 or 110. Students can only receive credit for one of MATH 103, 105 and 110.

MATH 104  3:3-0
Calculus IA
This course carries no credit. MATH 104 together with MATH 105 carry the same material as is covered in MATH 103 and 110, supplemented by a brief review of necessary topics from high school algebra and geo-trig. *** Prerequisite: Mathematics B30 and C30. ***
* Note: This is a course for students who wish to take MATH 110 or MATH 105 but do not have the prerequisites, or want a slower introduction to calculus. To receive credit for MATH 104 a student must register in the same numbered sections of MATH 104 and 105 in consecutive semesters. *

MATH 105  3:3-0
Calculus IB
This course is a continuation of MATH 104. Together with MATH 104 topics include a review of high school algebra and trigonometry, and all the topics covered in MATH 103 and MATH 110. *** Prerequisite: MATH 104 in the previous semester. ***
* Note: MATH 105 is intended to satisfy any MATH 103 or 110 requirement. Students can receive credit for only one of MATH 103, 105 and 110.

MATH 108  3:3-0
Mathematical Problems, Ideas and Personalities
This course explores some of the most significant and enduring ideas in mathematics: the great theorems, discoveries of beauty and insight that stand today as monuments to the human intellect. ***
Prerequisite: Mathematics A30 or permission of the department head. *** *
* Note: This course is designed mainly for students in arts or education who wish some exposure to mathematical ideas. It satisfied the critical thinking requirement in the Faculty of Arts.

MATH 110  3:3-1
Calculus I
An introductory class in the theory and techniques of differentiation and integration of algebraic and trigonometric functions. Topics covered include limits, optimization, curve sketching and areas. ***
Prerequisite: Mathematics B30 and C30 with a grade of at least 65% in each. It is strongly recommended that students with less than 80% in Mathematics B30 and C30 register in MATH 104. ***
* Note: Students can receive credit for only one of MATH 103, 105 and 110.

MATH 111  3:3-1
Calculus II
Differentiation and integration of exponential and logarithmic functions. Methods of integration and applications. Indeterminate forms, L'Hospital's rule and improper integrals. First order differential equations: separable equations, linear equations, exact equations, modeling and applications. Taylor Series. *** Prerequisite: A grade of at least 60% in either MATH 105 or 110. ***

MATH 122  3:3-0
Linear Algebra I
A course intended to introduce students to elementary linear algebra, particularly at a computational and applied level. Topics include matrices and systems of equations, inversion, determinants, vectors, inner products, eigenvectors and eigenvalues. ***
Prerequisite: Mathematics B30 with a grade of at least 70% or successful completion of a university-level mathematics or statistics course with a grade of at least 60%. ***

MATH 127  3:3-0
Introductory Finite Mathematics II
This course is a continuation of MATH 101. Topics include elementary linear programming, an introduction to matrices, counting methods - permutations and combinations, probability, statistics, and consumer mathematics - interest calculations, annuities and amortizations. Students who have already received credit for any university mathematics or statistics course numbered 111 or above cannot take MATH 127 for credit, unless it is explicitly required in their program or they have received consent from the Head of the Department of Mathematics and Statistics. ***
Prerequisite: Mathematics B30 or MATH 101 with a grade of at least 60%. ***
* Note: Mathematics 127 is not algebra, nor pre-calculus, nor calculus. It satisfies the critical thinking requirement in the Faculty of Arts.

MATH 131  3:3-0
Euclidean Geometry
This course is intended to familiarize the student with Euclidean geometry. Topics include the postulates and theorems of both classical and modern Euclidean geometry. ***
Prerequisite: Two university mathematics courses. ***
* Note: This course is designed for students without a strong background in Euclidean geometry. Students with at least 70% in Mathematics C30 should register in MATH 232. *

MATH 213  3:3-0
Vector Calculus
A study of vector functions and functions of several variables and their derivatives. Applied maximum and minimum problems, Lagrange multipliers, multiple integration, integration in polar, cylindrical and spherical coordinates. Green's, Stokes' and the Divergence Theorem. ***
Prerequisite: MATH 111 and 122 with a grade of at least 60%. ***
* Note: This course is designed for engineering and science students. Students cannot receive credit for this course if they have received credit for MATH 214.

University of Regina Undergraduate Course Catalog – Spring • Summer • Fall 2006 - 82 -
MATH 217       3:3-0
Differential Equations and Series
Second and higher order ordinary differential equations, their solutions and applications. Systems of differential equations. Laplace transforms. Infinite series, convergence tests, Fourier series, and series solutions to differential equations. *** Prerequisite: MATH 111 and MATH 122 with minimum grades of 60%. ***

MATH 221       3:3-0
Introduction to Proofs and Problem Solving
An introductory course intended to familiarize students with mathematical reasoning and proof techniques. Topics include propositional and predicate logic, sets, relations, functions, and problem solving techniques. *** Prerequisite: Mathematics B30 with a grade of at least 60% or a university mathematics course with a grade of at least 60%. ***

MATH 222       3:3-0
Linear Algebra II
A second course in linear algebra. There will be some emphasis on proofs. Topics include matrices, nullspace and column space, abstract vector spaces, subspaces, bases, inner product spaces, linear transformations as matrices and their products, applications of linear algebra. *** Prerequisite: MATH 103 or 110, and MATH 122 with grades of at least 60%. ***

MATH 223       3:3-0
Introduction to Abstract Algebra
An introductory course in abstract algebra. Topics include number systems and an introduction to groups, and some other mathematical structures. *** Prerequisite: One of MATH 110 or 122, and MATH 221 with grades of at least 60%. ***

MATH 232       3:3-0
Non-Euclidean Geometry
This course gives an explanation of the nature and foundations of geometry and uses for this purpose the system of non-Euclidean geometry. It outlines the concept of mathematical models and the historical and logical significance of the parallel postulate. *** Prerequisite: Two university mathematics courses and either 70% in Mathematics C30 or 60% in MATH 131. ***

MATH 261       3:3-0
Methods of Numerical Analysis
Number systems and errors, solutions of polynomial and other nonlinear equations, interpolation, numerical differentiation and integration, the cubic spline. *** Prerequisite: MATH 111, MATH 122, and CS 109 or 110 with grades of at least 60%. ***

MATH 300       3:3-0
Introduction to Set Theory
Sets, relations, and operations on them. Natural numbers. Finite and infinite sets, ordinals and cardinals. Recursion theorems. Arithmetic of cardinals and ordinals. A brief introduction to set-theoretic topology. Construction of the real numbers and basic properties. *** Prerequisite: MATH 221 and two other university Mathematics courses with grades of at least 60%. ***

MATH 301       3:3-0
Introduction to Mathematical Logic
Propositional and first-order predicate logic from a mathematical viewpoint. Axiomatically built theories and their models. Detailed study of one or more simple mathematical theories. Recursive functions. Basic ideas of automated theorem proving. *** Prerequisite: MATH 221 and 223 with grades of at least 60%. ***

MATH 305       3:3-0
Introductory Mathematical Analysis
Sequence, limits and continuity for functions on the real line, differentiation, and Riemann integration. *** Prerequisite: MATH 221 and 214 or 213 with grades of at least 60%. ***

MATH 308       3:3-0
Topics in the History of Mathematics
A survey of the history of Mathematics exploring the biographies, philosophies and techniques of great mathematicians. The course is directed specifically at Mathematics majors and Secondary Math Education students. *** Prerequisite: MATH 111, 122 and 221 with grades of at least 60%. ***
Special Functions
The Gamma and Beta functions, asymptotic series, the hypergeometric functions, Bessel functions, orthogonal polynomials. *** Prerequisite: MATH 281 or 215 or 122 and 212 with grades of at least 60%. ***

MATH 395-399 1-3:1-3-0
Directed Reading in Mathematics - an AA-ZZ series.
Prior to the registration of the student(s) the instructor must present to the department head a detailed outline of the material to be covered, the method of delivery and the method of evaluation.

MATH 411 3:3-0
Real Analysis II
Measurable functions, Lebesgue integrals, Lp spaces, modes of convergence, signed measures, Radon-Nikodym Theorem. *** Prerequisite: MATH 311 with a grade of at least 60%. ***

MATH 412 3:3-0
Complex Analysis II
This is a continuation of MATH 312. Topics include conformal mappings, argument principle, Rouche's theorem, harmonic functions, Riemann Mapping Theorem, infinite products, asymptotic expansions. *** Prerequisite: MATH 312 with a grade of at least 60%. ***

MATH 421 3:3-0
Number Theory II
This course is a second course in number theory. Topics include quadratic reciprocity, arithmetic functions, distribution of primes, and the prime number theorem. *** Prerequisite: MATH 321, 305 and 312 with grades of at least 60%. ***

MATH 422 3:3-0
Abstract Linear Algebra
A course which presents linear algebra in a theoretical setting. topics include vector spaces, dual spaces, linear transformations, Jordan canonical form, the spectral theorem and selected topics. *** Prerequisite: MATH 222 and 323 with grades of at least 60% or MATH 222 *** Permission of the instructor is required to register. **

MATH 423 3:3-0
Modern Algebra II
Continuation of Modern Algebra I with further study of rings, groups and fields. *** Prerequisite: MATH 323 with a grade of at least 60%. ***

MATH 424 3:3-0
Applied Algebra
This is a course in applications of algebra to a selection of topics concerning enumeration, coding, finite state machines and cryptography. *** Prerequisite: MATH 223 or 323 with a grade of at least 60%. ***

MATH 427 3:3-0
Graph Theory
This is the first in-depth course in graph theory. Topics included are connectivity, Euler tours and Hamiltonian cycles, matchings, colouring problems, planarity and network flows. Stress is placed wherever possible on constructive methods of proof. *** Prerequisite: MATH 327 or 329 or CS 310 with a grade of at least 60%, or permission of department head. ***

MATH 429 3:3-0
Nonlinear Optimization
This is a course designed mainly for students in mathematics, computer science, and business. It is a sequel to MATH 329. *** Prerequisite: MATH 329 and 213 or 214 with grades of at least 60%. ***

MATH 431 3:3-0
Differential Geometry I
Differential invariants of curves and surfaces in Euclidean three-space. *** Prerequisite: MATH 281 or 212 and 213 and 122 with grades of at least 60%. ***

MATH 432 3:3-0
Differential Geometry II
Continuation of topics covered in Differential Geometry I. *** Prerequisite: MATH 431 with a grade of at least 60%. ***

MATH 441 3:3-0
General Topology
An introduction to point set topology including separation axioms, compactness, connectedness, continuous functions and metric spaces. *** Prerequisite: MATH 311 with a grade of at least 60%. ***

MATH 461 3:3-0
Numerical Analysis II
Numerical solutions of ordinary differential equations. Numerical solutions of partial differential equations. Linear and non-linear problems. *** Prerequisite: MATH 361 with a grade of at least 60%. ***

MATH 481 3:3-0
Partial Differential Equations
Classification and basic properties of equations, separation of variables, Fourier series, Sturm-Liouville theory, Fourier and Laplace transforms. *** Prerequisite: MATH 381 with a grade of at least 60%. ***

MATH 482 3:3-0
Laplace Transforms
Properties of the Laplace Transform. Convolutions. The inversion integral. Applications to solutions of differential equations. *** Prerequisite: MATH 281 or 212 & 213 and 312 with grades of at least 60%. ***

MATH 483 3:3-0
Fourier Series and Orthogonal Functions
Weierstrass Approximation Theorems; mean-square approximation, summability and convergence theorems, Gibbs' phenomenon, applications. *** Prerequisite: MATH 305 and 383 with grades of at least 60%. ***

MATH 484 3:3-0
Calculation of Variations
The brachistochrone, the Euler-Lagrange equations, Hamilton's Principles, isoperimetric problems and min-max problems. *** Prerequisite: MATH 305 and 481 with grades of at least 60%. ***

MATH 485 3:3-0
Introduction to Functional Analysis
Metric, normed linear and inner-product spaces, linear operators and stress point theorems. Spectral decompositions the Stone-Weierstrass theorem, applications. *** Prerequisite: MATH 215 or 305 and 312 with grades of at least 60%. ***

MATH 486 3:3-0
Applied Analysis I
Topics include vector integral theorems, differential equations, Fourier series, Laplace transforms and functions of a complex variable. *** Prerequisite: MATH 212 and 213 with grades of at least 60%, *** * Note: This course is intended for beginning graduate students in engineering. It is open to mathematics students with permission of the department head. *

MATH 495-496 1-3:1-3-0
Directed Reading in Mathematics - an AA-ZZ series.
Prior to the registration of the student(s) the instructor must present to the department head a detailed outline of the material to be covered, the method of delivery and the method of evaluation.

MATH 497 0:1-0
Honours Seminar I
This is the first of two honours seminars. This course must be taken by all honours students in their fourth year. Students are required to attend all seminars and in addition to present a seminar on a topic determined in consultation with the Department Head. * Note: This seminar is restricted to honours standing students in mathematics. *

MATH 498 0:1-0
Honours Seminar II
This is the second of two honours seminars. This course must be taken by all honours students in their fourth year. Students are required to attend all seminars and in addition to present a seminar on a topic determined in consultation with the Department Head. * Note: This seminar is for Honours Standing students in mathematics. *

<tbody>
<tr>
<td>MU 100</td>
<td>Introduction to Music</td>
<td>3:3-0</td>
<td>Intended for students with minimal prior musical knowledge, this survey course addresses a wide range of topics in the history, literature, aesthetics and notation of music, with emphasis on developing critical listening skills. <em>Note: not available for credit in BMus, BMusEd, or BA (Music) programs.</em></td>
</tr>
<tr>
<td>MU 110</td>
<td>Jazz Appreciation</td>
<td>3:3-0</td>
<td>The origins of jazz and study of its various styles. Note: Not available for credit in BMus, BMusEd, or BA(music) programs.</td>
</tr>
<tr>
<td>MU 112</td>
<td>World Music</td>
<td>3:3-0</td>
<td>Not offered every year. The complex concept of &quot;world music&quot; and issues pertaining to the socio-cultural, historical, and political ideologies within various musics from around the world are explored using an interdisciplinary theoretical approach.</td>
</tr>
<tr>
<td>MU 121</td>
<td>Ear Training I</td>
<td>3:3-0</td>
<td>Study of sight-seeing, and melodic and rhythmic dictation. Limited to students majoring in Music, Music Education, and Arts Education. <strong>An entrance test in music theory is required to register.</strong></td>
</tr>
<tr>
<td>MU 122</td>
<td>Ear Training II</td>
<td>3:3-0</td>
<td>A continuation of MU 121. <em><strong>Prerequisite: MU 121</strong></em></td>
</tr>
<tr>
<td>MU 181</td>
<td>Functional Piano Techniques I</td>
<td>1.5:0-2</td>
<td>The development of keyboard proficiency. <em>Restricted to students in BMus, BMusEd and BA with a major in music.</em></td>
</tr>
<tr>
<td>MU 182</td>
<td>Functional Piano Techniques II</td>
<td>1.5:2-0</td>
<td>More advanced work in piano, continuing the work of MU 181. <em><strong>Prerequisite: MU 181 or permission of department head.</strong></em></td>
</tr>
<tr>
<td>MU 184</td>
<td>String Techniques</td>
<td>1.5:2-0</td>
<td>Techniques of all string instruments. <em>Restricted to students in BMus, BMusEd and BA with a major in music.</em></td>
</tr>
<tr>
<td>MU 185</td>
<td>Woodwind Techniques</td>
<td>1.5:2-0</td>
<td>Techniques of all woodwind instruments. <em>Restricted to students in BMus, BMusEd and BA with a major in music.</em></td>
</tr>
<tr>
<td>MU 186</td>
<td>Brass Techniques</td>
<td>1.5:2-0</td>
<td>Techniques of all brass instruments. <em>Restricted to students in BMus, BMusEd and BA with a major in music.</em></td>
</tr>
<tr>
<td>MU 187</td>
<td>Percussion Techniques</td>
<td>1.5:2-0</td>
<td>Techniques of all percussion instruments. <em>Restricted to students in BMus, BMusEd and BA with a major in music.</em></td>
</tr>
<tr>
<td>MU 188</td>
<td>Stage Band and Jazz Ensemble Techniques</td>
<td>1.5 or 3:2-2</td>
<td>Direction of stage band and jazz ensembles. Comparison of jazz and classical phrasing. Laboratory consist of participation in a jazz ensemble designated by the instructor. <em>Restricted to students in BMus, BMusEd and BA with a major in music.</em></td>
</tr>
<tr>
<td>MU 202 (formerly MU 201)</td>
<td>Music History Survey - Classical to Contemporary</td>
<td>3:3-0</td>
<td>Selected works, styles and trends. <em><strong>Prerequisite: Music reading ability.</strong></em></td>
</tr>
<tr>
<td>MU 203 (formerly MU 200)</td>
<td>Music History Survey - Antiquity to Baroque</td>
<td>3:3-0</td>
<td>Selected works, styles and trends. <em><strong>Prerequisite: MU 202 or permission of department head.</strong></em></td>
</tr>
<tr>
<td>MU 210</td>
<td>History of Ancient, Medieval, and Renaissance Period</td>
<td>3:3-0</td>
<td>Styles and trends of the period. Not offered every year. <em><strong>Prerequisite: MU 203 or permission of department head.</strong></em></td>
</tr>
<tr>
<td>MU 211</td>
<td>History of Baroque Period</td>
<td>3:3-0</td>
<td>Styles and trends of the period. Not offered every year. <em><strong>Prerequisite: MU 202 or permission of department head.</strong></em></td>
</tr>
<tr>
<td>MU 212</td>
<td>History of Classic Period</td>
<td>3:3-0</td>
<td>Styles and trends of the period. Not offered every year. <em><strong>Prerequisite: MU 202 or permission of department head.</strong></em></td>
</tr>
<tr>
<td>MU 213</td>
<td>History of Romantic Period</td>
<td>3:3-0</td>
<td>Styles and trends of the period. Not offered every year. <em><strong>Prerequisite: MU 202 or permission of department head.</strong></em></td>
</tr>
<tr>
<td>MU 214</td>
<td>History of Contemporary Period</td>
<td>3:3-0</td>
<td>Styles and trends of the period. Not offered every year. <em><strong>Prerequisite: MU 202 or permission of department head.</strong></em></td>
</tr>
<tr>
<td>MU 215 (formerly MU 413)</td>
<td>History of Canadian Music</td>
<td>3:3-0</td>
<td>The history of Canadian music to the present day. Not offered every year. <em><strong>Prerequisite: MU 202 or permission of department head.</strong></em></td>
</tr>
<tr>
<td>MU 221</td>
<td>Theory and Analysis of Music I</td>
<td>3:3-1</td>
<td>Introductory approaches to creating and analyzing music in the common-practice-period style. <strong>An entrance test in music theory is required to register.</strong></td>
</tr>
<tr>
<td>MU 222</td>
<td>Theory and Analysis of Music II</td>
<td>3:3-1</td>
<td>A continuation of MU 221, progressing to tonization of V and III, and to analysis of phrase structures. <em><strong>Prerequisite: MU 221</strong></em></td>
</tr>
<tr>
<td>MU 223</td>
<td>Accompanying</td>
<td>1.5:2-0</td>
<td>Practical work in accompanying solo literature, sight reading, and transposition. Each student enrolled assumes as a project the accompaniment of another student. <strong>Permission of the Department Head is required to register.</strong> <em>Note: Intended for B.Mus, Piano Performance majors.</em></td>
</tr>
<tr>
<td>MU 224</td>
<td>Language Diction for Singers</td>
<td>1.5:2-0</td>
<td>An introduction to language diction for singers. The International Phonetic Alphabet will be used to assist singers with the basic language found in the standard singer's repertoire.</td>
</tr>
<tr>
<td>MU 253</td>
<td>Accompanying</td>
<td>1.5:2-0</td>
<td>A continuation of MU 253. NOTE: intended for B. Mus Piano Performance majors. <em><strong>Prerequisite: MU 253</strong></em></td>
</tr>
<tr>
<td>MU 270</td>
<td>Opera Workshop</td>
<td>1.5:2-2</td>
<td>Practical work for the singing actor. Presentation of selected items from the repertoire. <strong>Permission of the Department Head is required to register.</strong></td>
</tr>
<tr>
<td>MU 281</td>
<td>Opera Workshop</td>
<td>1.5:2-2</td>
<td>Continuation of MU 281. <em><strong>Prerequisite: MU 281</strong></em></td>
</tr>
<tr>
<td>MU 283</td>
<td>Choral Techniques</td>
<td>1.5:0-0</td>
<td>An introduction to choral conducting and rehearsal techniques. The principles of voice production in choral singing. Participation in a choral group is required. <em><strong>Prerequisite: MU 222</strong></em></td>
</tr>
<tr>
<td>MU 284</td>
<td>String Techniques</td>
<td>1.5:2-0</td>
<td>Continuation of MU 184. Students will specialize in one instrument but not in their major. <em><strong>Prerequisite: MU 184</strong></em></td>
</tr>
</tbody>
</table>
MU 285 Woodwind Techniques  
Continuation of MU 185. Students will specialize in one instrument but not in their major.  *** Prerequisite: MU 185 ***

MU 286 Brass Techniques  
Continuation of MU 186. Students will specialize in one instrument but not in their major.  *** Prerequisite: MU 186 ***

MU 288 Stage Band Styles and Analysis  
Problems in stage band instruction and performance at an advanced level.  *** Prerequisite: MU 188 or permission of department head. ***

MU 308 Applied Music Recital  
A public recital in the major performance medium. For the student completing recital requirements in the BMus composition, music history, and music theory concentrations and in the BMusEd degree program.

MU 309 Applied Music Recital  
A public recital in the major performance medium. For students in the BMus program performance concentration. This recital is given in the third year of study.

MU 313 History of Chamber Music Literature  
The origins and development of chamber music. Not offered every year.  *** Prerequisite: MU 201 or permission of the department head. ***

MU 314 History of Instrumental Genres  
Not offered every year.  *** Prerequisite: MU 203 ***

MU 317 Introduction to Composition I  
Not offered every year. Introduction to the different writing styles in music composition since c. 1900.  *** Prerequisite: MU 222 ***

MU 318 Introduction to Composition II  
Not offered every year. Continuation of MU 317.  *** Prerequisite: MU 317 ***

Specific topics in music history and literature (for information consult Music Department). Not offered every year.

MU 321 Theory and Analysis of Music III  
A continuation of MU 222, including modulation to closely related key areas, chromatic harmony, and analysis of binary and ternary forms.  *** Prerequisite: MU 122 and 222 ***

MU 322 Theory and Analysis of Music IV  
A continuation of MU 321, including more chromatic harmony, modulation to foreign keys and an introduction to 20th-century music: its melodic, harmonic, rhythmic and formal procedures.  *** Prerequisite: MU 321 ***

MU 323 Counterpoint-18th-Century  
Two- and three-part counterpoint in the style of the 18th-century composers. Analysis of representative compositions and the composition of original examples for voices and instruments.  *** Prerequisite: MU 322 or permission of department head. ***

MU 324 Counterpoint-16th-Century  
Contrapuntal techniques as used in the 16th century. Students will compose in the modal style and analyze selected musical examples.  *** Prerequisite: MU 122, 203 and 222 ***

MU 325 Analysis  
Analytical techniques as applied to specific musical forms.  *** Prerequisite: MU 322 or permission of department head. ***

MU 326 (formerly MU 347) Introduction to Computers in Music  
Not offered every year. Computer techniques used in music such as notation, editing, sound production, and recording. Intended primarily for students in BMus, BMusEd and BA (Music) programs. * Note: Students must have music reading ability. *

MU 327 (formerly MU 346) Introduction to Electronic Music  
Not offered every year. Introduction to the techniques of composing with electronic equipment such as Pro Tools, Digital Performer, and Max/MSP.  *** Prerequisite: MU 326 and MU 321, or permission of department head. ***

MU 332 (formerly MU 343 and 344) Vocal Literature  
A survey of the solo vocal literature from the Baroque to the 21st Century.  ** Permission of the Department Head is required to register. ** * Note: Intended for BMUS Vocal Performance Majors.*

MU 333 String Literature  
A survey of the solo literature.  ** Permission of the Department Head is required to register. **

MU 334 String Literature  
A continuation of MU 333.  *** Prerequisite: MU 333 ***

MU 342 Instrumental Conducting  
Basic technique and its application. Work with ensembles.  *** Prerequisite: MU 322 or permission of department head. ***

MU 345 Analysis of Music Written Since 1900  
Theory and analysis of selected music written since c. 1900.  *** Prerequisite: MU 322 ***

MU 348 Jazz Improvisation  
Development of improvisatory skills in the jazz idiom. Students must be performers on jazz-related instruments.  ** Permission of the Department Head is required to register. **

MU 349 Piano Pedagogy  
Approaches to the teaching of the repertoire of the piano, surveying materials and methods appropriate to all levels of playing, and including a study of practice techniques.  *** Prerequisite: At least 4 semesters of applied music lessons in piano, or permission of department head. ***

MU 351 Keyboard Literature  
A survey of the performance material for keyboard instruments.  ** Permission of the Department Head is required to register. ** * Note: intended for B.Mus Piano Performance majors. *

MU 352 Keyboard Literature  
Continuation of MU 351.  *** Prerequisite: Mu 351 ***  * Note: Intended for B.Mus. Piano Performance majors. *

MU 353 Accompanying  
Continuation of MU 254.  *** Prerequisite: Mu 254 ***

MU 354 Accompanying  
Continuation of MU 353.  *** Prerequisite: Mu 353 ***

MU 355 Wind Band Literature  
Overview of historical Wind Literature as well as an in-depth study of selected works for Band and Wind Ensemble.  *** Prerequisite: MU 222 ***
MU 356                       3:3-0
Elementary Orchestration
Not offered every year. Study of different styles of orchestration since the Classical Period. *** Prerequisite: MU 340 ***

MU 361                       1.5:0-0
Chamber Music Ensemble
Coaching in performance problems and interpretation of selected items of chamber literature. Only a limited number of pianists may register. ** Permission of the Department Head is required to register. **

MU 362                       1.5:2-0
Chamber Music Ensemble
Continuation of MU 361. *** Prerequisite: MU 361 ***

MU 370                       1.5:3-2:1
The Business of Music
This course provides students with skills necessary to establish oneself post-graduation individually in the field of music/music pedagogy "grantsmanship," establishing a studio, taxation issues, adjudicating, touring, stage presence, advertising etc. *** Prerequisite: Completion of 60 credit hours. ***

MU 380                       1.5:2-0
Vocal Pedagogy
An examination of the pedagogic techniques for the development and training of the singing voice. The class will study the relevant areas of human anatomy, acoustics and phonetics, and compare the pedagogic approaches of the various national schools of voice training. ** Permission of the Department Head is required to register. ** * Note: Intended for BMus Vocal Performance majors. *

MU 381                       1.5:2-2
Opera Workshop
Continuation of MU 282. *** Prerequisite: Mu 282 ***

MU 382                       1.5:2-2
Opera Workshop
Continuation of MU 381. *** Prerequisite: Mu 381 ***

MU 383                       1.5:2-2
Choral Techniques
Continuation of MU 283 with more attention of choral materials. *** Prerequisite: Mu 283 ***

MU 390-391                   1.5 or 3:3-0
Supervised Research in Performance Studies

MU 392-393                   1.5 or 3:3-0
Directed Studies in Music Theory

MU 394-395                   1.5 or 3:3-0
Directed Studies in Music History

MU 409                       6:1-0
Applied Music Recital
A one-hour public recital in the major performance medium, for students in the BMus program concentrating in performance. This recital is to be given in the final year of study.

MU 412                       3:3-0
History of Opera
The rise and development of opera from its beginning to the present day. Not offered every year. *** Prerequisite: Mu 203 or permission of department head. ***

MU 414                       3:3-0
Women and Music
A survey of the works and careers of women composers and of the social contexts in which they worked. Recent work in feminist music criticism will also be discussed. Not offered every year. Music reading ability an asset. ** Permission of the Department Head is required to register. ** * Note: Music reading ability an asset. *

MU 415 (formerly MU 311)      3:3-0
History of Performance Practice
Performance styles appropriate to various eras, developed from the consideration of original sources and contemporary commentary. Editions may be prepared and performed. Not offered every year. *** Prerequisite: Mu 203 or permission of department head. ***

MU 417 (formerly MU 421)      3:3-0
Composition I
Individual projects. Intended principally for students majoring in composition who are preparing to compose for different instrumental and vocal combinations ranging from solo to orchestral. *** Prerequisite: MU 318 *** * Note: Students may not receive credit for MU 417 and the former MU 421. *

MU 418 (formerly MU 422)      3:3-0
Composition II
A continuation of MU 417. *** Prerequisite: MU 417 *** * Note: Students may not receive credit for MU 418 and the former MU 422. *

MU 419 (formerly MU 423)      3:3-0
Composition III
Continuation of MU 418. *** Prerequisite: Mu 418 *** * Note: Students may not receive credit for MU 419 and the former MU 423. *

MU 420 (formerly MU 424)      3:3-0
Composition IV
Continuation of MU 419. Students may not receive credit for MU 420 and the former MU 424. *** Prerequisite: MU 423 ***

MU 425                       3:3-0
Fugue
The study of fugal techniques. *** Prerequisite: Mu 323 or permission of department head. ***

MU 442                       1.5:0-0
Advanced Conducting
Score preparation and reading. Practical experience with actual performing groups. Consideration of more advanced compositions. *** Prerequisite: MU 342 or 383, or permission of department head. ***

MU 443                       1.5:0-0
Advanced Conducting
Continuation of MU 442. *** Prerequisite: MU 442 ***

MU 456                       3:3-0
Advanced Orchestration
Not offered every year. Study of major 20th and 21st century compositional developments and techniques of orchestration. *** Prerequisite: MU 356 *** * Note: Restricted to students majoring in Composition. *

MU 461                       1.5:0-0
Chamber Music Ensemble
Continuation of MU 362. *** Prerequisite: MU 362 ***

MU 462                       1.5:0-0
Chamber Music Ensemble
Continuation of MU 461. *** Prerequisite: MU 461 ***

MU 481                       1.5:2-2
Opera Workshop
Continuation of MU 382. *** Prerequisite: Mu 382 ***

MU 482                       1.5:2-2
Opera Workshop
Continuation of MU 481. *** Prerequisite: Mu 481 ***

MU 490-491                   1.5 or 3:3-0
Supervised Research in Performance Studies

MU 492-493                   1.5 or 3:3-0
Directed Studies in Music Theory

MU 494-495                   1.5 or 3:3-0
Directed Studies in Music History

MUEN 101                     0-1:0-0
University Concert Band
** Permission of the Instructor is required to register in the Fall. **

MUEN 103                     1.5:0-0
University Jazz Ensemble
** Permission of the Instructor is required to register in the Fall. **

MUEN 105                     1.5:0-0
Vocal Jazz Ensemble
** Permission of the Instructor is required to register in the Fall. **
MUEN 107 1.5:0-0
University Wind Ensemble
The Wind Ensemble is a competitively auditioned ensemble and admission is at the discretion of the ensemble director. Music majors must be registered in Concert Band in order to participate in Wind Ensemble. Non-music majors may register in Wind Ensemble only. ** Permission from the Instructor required to register in the Fall. **

MUEN 121 0-1.5:0-0
Composition - New Music Ensemble
** Permission of the Instructor is required to register in the Fall. **

MUEN 131 0-1:0-0
University Concert Choir

MUEN 135 1.5:0-0
University Chamber Singers
** Permission of the Instructor is required to register in the Fall. **

MUEN 155 1.5:0-0
Collegium Musicum
** Permission of the Instructor is required to register in the Fall. **

MUEN 157 0 or 1.5:0:0
Miscellaneous Ensemble - an AA-ZZ series.
** Permission from the Instructor required to register in the Fall. **

MUEN 159 1.5:0-0
Percussion Ensemble
** Permission of the Instructor is required in the Fall. **

MUEN 171 0-1:0-0
University Chamber Orchestra
** Permission from the Instructor is required to register in the Fall. **

NAK Nakota (Assiniboine)

NAK 100 3:3-0
Introduction to Nakota I
Introduction to the Nakota language, with emphasis on oral expression, basic grammar, and writing in Roman orthography.

NAK 101 3:3-0
Conversational Nakota II
A continuation of NAK 100. Further grammar and conversation practice for Nakota. *** Prerequisite: NAK 100 ***

NAK 104 3:3-0
Nakota Grammar and Orthography I
This course is designed for students who speak some Nakota. Emphasis is on Roman orthography and basic grammar, with some attention to dialect variation. ** Permission of the Department Head is required to register. **

NAK 105 3:3-0
Nakota Grammar and Orthography II
A continuation of NAK 104. Further study of the grammar and orthography. An introduction to short composition. *** Prerequisite: NAK 104 or permission of department head. ***

NAK 206 3:3-0
Nakota Linguistics
Linguistic concepts for the scientific analysis of Nakota. Development of linguistic terminology in Nakota for language teachers. *** Prerequisite: NAK 105 or permission of department head. ***

PAST Pastoral Studies

PAST 310 3:3-0
Introduction to Pastoral Studies
The course will introduce the student to Pastoral Studies: history and theology; correlation with social sciences; application and preparation. ** Permission of Director required to register. **

PAST 320 3:3-0
Pastoral Care
The course will explore several theories of pastoral care, related skills, and their application to specific ages, social groupings, institutions and problem areas. *** Prerequisite: PAST 310 and PSYC 101, 102, and PSYC 210 or PSYC 220. ***

PAST 330 3:3-0
Foundations of Pastoral Care
The course examines the religious foundations of a Christian understanding of ministry and pastoral care. Attention will be paid to constitutive components of ministry, drawing on resources from the fields of biblical studies, ecclesiology, ethics, theological anthropology and ecumenism. *** Prerequisite: PAST 310 as well as a 100-level RLST and a 200-level RLST course. ***

PAST 340 3:3-0
Contemporary Spirituality
This course will define the circumference of an adequate Christian spirituality from (a) the individual and personal viewpoint, (b) a broader historical focus, and (c) an academic stance that will supply the tools for one’s personal critical assessment. ** Permission of Director required to register. **

PAST 390 1-3:1-3-0
Selected Topics in Pastoral Studies - an AA-ZZ series.
This course will examine selected topics in Pastoral Studies in some detail. Topics may include: Life-span development and pastoral care; Pastoral care in parishes; Pastoral care in schools.

PAST 400 0:0-0
Pastoral Studies Practicum
Required of all students. With support of practicum supervisor, students will become directly involved in pastoral counseling to clients in the community. This practicum is 80 hours, however, the exact days or hours per day will be negotiated between the student and the agency. *** Prerequisite: PAST 310 and PAST 320 ***

PHIL Philosophy

PHIL 100 3:3-0
Introduction to Philosophy
Introduction to the theories of morality, knowledge, and metaphysics through a critical examination of such historically significant philosophical problems as the nature and justification of value judgments, the possibility of knowledge, the existence of God, the possibility of immortality.

PHIL 210 3:3-0
Pre-Socratics and Plato
A critical survey of philosophy concentrating on the pre-Socratics and Plato. Special attention will be given to historical continuity between theories and to the genesis of perennial philosophical problems. *** Prerequisite: PHIL 100 or completion of 15 credit hours. ***

PHIL 211 3:3-0
Aristotle and Later Greek Philosophy
A critical survey of philosophy concentrating on Aristotle and later Greek philosophers such as the Stoics, the Epicureans, and Plotinus. Topics may include language, ethics, psychology, politics, and other major divisions of human thought. *** Prerequisite: PHIL 100 or completion of 15 credit hours. ***
PHIL 212 3:3-0
Medieval Philosophy
A study of the work of major philosophers from the 5th to the 15th century selectively drawing from the writings of Boethius, Augustine, Abelard, Aquinas, Roger Bacon, Duns Scotus, and Ockham. *** Prerequisite: PHIL 100 or completion of 15 credit hours. ***

PHIL 213 3:3-0
Early Modern Philosophy
A critical examination of some of the works of the major empiricist and rationalist philosophers. The philosophers discussed will be selected from Descartes, Leibniz, Spinoza, Locke, Berkeley, Hume, and Kant. Special attention will be given to the conflict between empiricism and rationalism. *** Prerequisite: PHIL 100 or completion of 15 credit hours. ***

PHIL 214 3:3-0
Late Modern Philosophy
A critical survey of philosophy in the 19th and early 20th centuries. The background of contemporary philosophy and its historical continuity will be developed with such philosophers as Hegel, Marx, Kierkegaard, Schopenhauer, Mach, and James. *** Prerequisite: PHIL 100 or completion of 15 credit hours. ***

PHIL 215 3:3-0
Contemporary Anglo-American Philosophy
A critical examination of the main philosophical movements of the 20th century with major emphasis on Anglo-American analytic philosophy. The philosophers discussed will normally be selected from Russell, Moore, Wittgenstein, Aver, Carnap, Ryle, Quine, et al. *** Prerequisite: PHIL 100 or completion of 15 credit hours. ***

PHIL 216 3:3-0
Existential Philosophy
A discussion of the writings of representative existentialist thinkers, including Kierkegaard, Nietzsche, Jaspers, Heidegger, Marcel, Sartre, and Camus. *** Prerequisite: PHIL 100 or completion of 15 credit hours. ***

PHIL 230 3:3-0
Epistemology
A critical examination of some problems presented by the relation between knowledge and scepticism, appearance and reality, illusion and perception, as well as traditional epistemological theories such as empiricism, rationalism, pragmatism, and phenomenalism. *** Prerequisite: PHIL 100 or completion of 15 credit hours. ***

PHIL 231 3:3-0
Philosophical Issues in Psychology
An introduction to philosophical issues in psychology which will include many but not all of the following topics: consciousness, mental representation, motivation, emotion, personality, intentionality, psychological explanation, artificial intelligence, perception, innatism, and the relation between psychology and neurophysiology. *** Prerequisite: PHIL 100 and either of PSYC 101 or 102, or completion of 15 credit hours. ***

PHIL 240 3:3-0
Metaphysics
The nature of metaphysics and a critical examination of the arguments about the existence of God, the relation between mind and body, the distinction between appearance and reality, and of such traditional theories as materialism, dualism, and idealism. *** Prerequisite: PHIL 100 or completion of 15 credit hours. ***

PHIL 241 3:3-0
Philosophy of Science
A critical examination of some of the problems of the nature of scientific theory, the status of scientific laws, induction and the foundation of probability, confirmation, analysis of causality, and the nature of scientific explanation. *** Prerequisite: PHIL 100 or completion of 15 credit hours. *** * Note: This course is an elective in the Science and Technology studies minor.

PHIL 242 3:3-0
Philosophy of Religion
An analysis of religious claims concerning the existence of God, religious experience, faith, revelation, and immortality. Modern and contemporary works will receive major attention. *** Prerequisite: PHIL 100 or completion of 15 credit hours. ***

PHIL 243 3:3-0
Philosophy of Human Nature
A study of classical and contemporary views on human nature. These views will be drawn from a variety of philosophical traditions such as the classical and medieval tradition, the Cartesian view, and the dialectical tradition, as well as recent views to be found in the writings of naturalistic, analytic, phenomenological, and existential philosophers. *** Prerequisite: PHIL 100 or completion of 15 credit hours. ***

PHIL 244 3:3-0
Philosophical Study of Angels
A critical examination in speculative metaphysics of the idea of angels which will investigate arguments both for the possibility and for the actual existence of such beings, as well as an exploration into the possibilities of what such beings might be like. *** Prerequisite: PHIL 100 or completion of 15 credit hours. ***

PHIL 245 3:3-0
Philosophy of Feminism
A philosophical examination of key issues of and about feminism. Topics may include: feminist epistemology, conceptions of equality, censorship, pornography, employment equity. *** Prerequisite: PHIL 100 or completion of 15 credit hours. ***

PHIL 250 3:3-0
Introduction to Symbolic Logic
An introduction to the syntax and semantics of propositional and first-order predicate logic: natural language translations and logical form; truth tables; semantic trees, natural deduction systems. *** Prerequisite: LGC 100, or PHIL 100, or a mathematics course, or permission of department head. *** * Note: This course is designed for students with abilities in formal reasoning such as algebra and formal logic. It satisfies the math/logic requirement of the Faculty of Arts. *
PHIL 275
Environmental Ethics
A philosophical examination of moral, social, and political issues concerning the environment. Topics may include: the nature of Nature; the moral status of non-human animals, species, and eco-systems; the relationship between economic systems and the environment; environmental aesthetics; ownership and use of resources; population and future generations; eco-feminism. *** Prerequisite: PHIL 100 or completion of 15 credit hours. ***

PHIL 276
Professional Ethics
Philosophical consideration of ethical problems which arise in the context of the conduct of various professions. Areas may include business ethics, biomedical ethics, ethics of education, ethics of privacy and confidentiality (with applications to journalism, social work, psychology), and environmental ethics. *** Prerequisite: PHIL 100 or completion of 15 credit hours. ***

PHIL 278
Aesthetics
Introduction to the philosophy of art through an examination of such problems as the definition of art, the nature of beauty and aesthetic experience, interpretation and criticism, structure and form. The writings of great thinkers in the subject, from Plato to the present time, will be examined. *** Prerequisite: PHIL 100 or completion of 15 credit hours. ***

PHIL 279
Marxism
A critical examination of the origins, development, and central themes of Marxist philosophy. Special emphasis will be given to the analysis of the philosophical texts of Marx, Engels, and Lenin. *** Prerequisite: PHIL 100 or completion of 15 credit hours. ***

PHIL 290-295
Selected Topics in Philosophy - an AA-ZZ series.
A critical examination of some selected topics in philosophy. *** Prerequisite: PHIL 100 or completion of 15 credit hours. ***

PHIL 310
A critical examination of the thought of a particular philosopher or philosophical movement. Emphasis is on a detailed analysis of original sources. Philosophers who have been taught include Aristotle, Kant, Wittgenstein, Sartre, and Heidegger. *** Prerequisite: One 200-level philosophy course or permission of department head. ***

PHIL 328
Advanced Topics on Kant - an AA-ZZ series.
A seminar on Kant. An intensive study of one or more aspects of Kant's philosophy. ** Permission of the Department Head is required to register. **

PHIL 330
Philosophy of Mind
A critical examination of problems related to the nature of mind through such theories of mind as dualism, materialism, behaviourism, or such problems as privacy, intentionality, the possibility of a private language, or though the examination of contemporary works on the problem. *** Prerequisite: One 200-level philosophy course or permission of department head. ***

PHIL 331
Philosophy of Language
Attention will be given to the theories of meaning, the relation of meaning to language in use, empiricist criteria of meaningfulness, and particular problems such as vagueness, open texture, and metaphor. *** Prerequisite: One 200-level philosophy course or permission of department head. ***

PHIL 332
Philosophy of History
A study of philosophical problems concerning the nature of historical explanation and knowledge, causality in history, historical necessity, meaning, purpose, and truth. The approaches of authors such as Hegel, Nietzsche, Collingwood, and others will be considered. *** Prerequisite: One 200-level philosophy course or permission of department head. ***

PHIL 333
Phenomenology
An exploration into the phenomenological movement begun by Husserl and developed in contemporary thinkers such as Heidegger, Merleau-Ponty, etc. Primary emphasis will be on the clarification of the method, goals, and general world view of the movement through textual analysis of each philosopher. *** Prerequisite: One 200-level philosophy course or permission of department head. ***

PHIL 334
Phenomenology of Perception
Perception will be presented as dialectical relation of human consciousness and the world. Such topics as space, time, mobility, sexuality, and freedom will be discussed. *** Prerequisite: One 200-level philosophy course or permission of department head. ***

PHIL 335
Topics in Philosophy - an AA-ZZ series.
A critical examination of some selected philosophical problems. *** Prerequisite: One 200-level philosophy course or permission of department head. ***

PHIL 342
Topics in the Philosophy of Science - an AA-ZZ series.
Topics studied may include: philosophy of the social sciences; philosophy of biology; philosophical aspects of evolution; scientific realism and antirealism; philosophy of space and time; science and metaphysics. *** Prerequisite: PHIL 241, or permission of department head. ***

PHIL 350
Advanced Symbolic Logic
A review of predicate logic; the metatheory of propositional and predicate logic; tense and temporal logics; deontic logic; the logic of conditionals and relevance logic. *** Prerequisite: PHIL 250 or permission of department head. ***

PHIL 351
Philosophical Logic
Quantification and ontology; existence and identity; truth meaning, realism and antirealism; model extensions of propositional and predicate logic; tense and temporal logics; deontic logic; the logic of conditionals and relevance logic. *** Prerequisite: PHIL 250 or permission of department head. ***

PHIL 360
Topics in the Philosophy of Mathematics
This course may cover such topics as: the existence of mathematical entities; mathematical knowledge and truth; phenomenology of mathematics; and the nature of infinity. Readings may include the relevant writings of such thinkers as Plato, Aristotle, Kant, Leibniz, Berkeley, Husserl, Frege, Russell, Quine, Poincaré, Gödel, Hilbert, Tarski, Brouwer, Weyl, and Wittgenstein. *** Prerequisite: PHIL 250, or 350, or 351, or permission of department head. ***

PHIL 370
Advanced Ethics - an AA-ZZ series.
A study of recent theorizing about problems in the realm of moral philosophy. *** Prerequisite: One 200-level philosophy course or permission of department head. ***

PHIL 371
Advanced Social and Political Philosophy
A study of recent theorizing about problems in the realm of social and political philosophy. *** Prerequisite: One 200-level philosophy course or permission of department head. ***

PHIL 372
Studies in Ethical Theory - an AA-ZZ series.
A critical examination of particular ethical topics, points of view, or movements. *** Prerequisite: One 200-level philosophy course or permission of department head. ***

PHIL 378
Topics in Aesthetics
Selected problems in contemporary aesthetics, such as aesthetic experience, art, criticism, and natural beauty. *** Prerequisite: PHIL 278 or permission of the instructor. ***
PHIL 410 3:3-0
A seminar in a particular philosopher or a philosophical movement. ** Permission of the Department Head is required to register. **

PHIL 411 (formerly PHIL 310AD or 410AD) 3:3-0
Wittgenstein - an AA-ZZ series.
A seminar on Wittgenstein: an intensive study of one or more aspects of Wittgenstein's philosophy. *** Prerequisite: PHYS 210, PHYS 213, and PHYS 230, or permission of the instructor. ***

PHIL 428 (formerly PHIL 328/428) 3:3-0
Advanced Topics on Kant - an AA-ZZ series.
A seminar on Kant. An intensive study of one or more aspects of Kant's philosophy. ** Permission of the Department Head is required to register. **

PHIL 430 3:3-0
Epistemology
Seminar on selected topics within the theory of knowledge. ** Permission of the Department Head is required to register. **

PHIL 431 3:3-0
Metaphysics
Seminar on selected metaphysical problems. ** Permission of the Department Head is required to register. **

PHIL 435 3:3-0
Advanced Topics in Philosophy - an AA-ZZ series.
A seminar in a particular philosophical problem. ** Permission of the Department Head is required to register. **

PHIL 440 3:3-0
Philosophy of Action
This course examines the main competing theories of human action and agency. It will consider such issues as: the nature of action, mistake, accident, inadvertence, etc.; the nature of the relevant mental antecedents of action; the relations which hold between behaviour and its mental antecedents; intentionality and unintentionality; practical reasoning and planning; autonomy and heteronomy; the extent of intention and responsibility. *** Prerequisite: PHIL 231, or 330, or permission of department head. ***

PHIL 450 3:3-0
Advanced Topics in Formal Logic
Advanced topics studied may include: model theory, recursion theory, axiomatic set theory, proof theory and undecidability, Church's thesis and constructive mathematics, non-classical logics. *** Prerequisite: PHIL 350 or permission of department head. ***

PHIL 470 3:3-0
Ethics - an AA-ZZ series.
Seminar on selected topics within moral philosophy. ** Permission of the Department Head is required to register. **

PHIL 471 3:3-0
A seminar in a particular area of value theory. ** Permission of the Department Head is required to register. **

PHYS 401 - 405
Physics Co-op Work Term I - IV
Four month co-op work term approved by the department and arranged by the co-op co-ordinator.

PHYS 109 3:3-1.5
General Physics I
General algebra-based physics, including classical mechanics and geometrical optics. *** Prerequisite: Mathematics B30 and C30. *** * Note: May not taken for credit if a student has received credit for PHYS 111 or PHYS 112. Students cannot receive credit for both PHYS 105 and PHYS 109. *

PHYS 111 3:3-3
Mechanics
Kinematics in one, two and three dimensions, dynamics of particles and rigid bodies, including work, energy, and rotational kinematics and dynamics. *** Prerequisite: Physics 30 and MATH 110 (may be taken concurrently). ***

PHYS 112 3:3-3
Waves and Optics
A course dealing with oscillations, wave motion, sound and geometrical and physical optics. *** Prerequisite: PHYS 111 (recommended) or 109, and MATH 105 or 110 (may be taken concurrently). ***

PHYS 119 3:3-1.5
General Physics II
A continuation of PHYS 109: Fluid mechanics, heat and thermodynamics, waves, sound, radiation, electrotechnics and electric current. *** Prerequisite: PHYS 109 or ENGG 140 *** * Note: May not be taken for credit if a student has credit for PHYS 111 or 112. *

PHYS 200 3:3-0
From Quarks to the Cosmos
A conceptual approach will be used in this course which is directed towards liberal arts students. The aim is to understand the physical world, from the microscopic (building blocks of nature), through the macroscopic (everyday phenomena), to the galactic (universe). Only simple algebra will be employed. * Note: Physics majors may not take this course for credit. *

PHYS 201 3:3-3
Electricity and Magnetism
An introduction to electricity and magnetism for science and engineering students, covering the topics of electrostatics, D.C. circuits, magnetism, and electromagnetic induction. *** Prerequisite: PHYS 111 or 119, and MATH 213. Math 213 may be taken concurrently. ***

PHYS 202 3:3-0
Classical Mechanics I
A course in intermediate mechanics for physics majors and honours students as well as engineering students. Topics include motion of systems of particles and rigid bodies, accelerated reference frames and central forces. *** Prerequisite: PHYS 111 or 119 or ENGG 141 and MATH 213. Concurrent enrolment allowed in MATH 213. ***

PHYS 242 3:3-1.5
Introduction to Modern Physics
Special theory of relativity, introduction to wave mechanics, early quantum physics, Bohr atom, radioactivity, and nuclear reactions. *** Prerequisite: PHYS 201 ***

PHYS 261 3:3-1.5
Heat and Thermodynamics
An introduction to the concepts of temperature and thermometry, the laws of thermodynamics and applications, kinetic theory. *** Prerequisite: PHYS 111 and MATH 111 ***

PHYS 292 3:3-1.5
Physics of Continuous Media
An introduction to elasticity and elastic moduli, fracture, fluid flow, viscous effects, compressible flow, ideal fluid flow and applications. ** Prerequisite: PHYS 202, MATH 213, and MATH 217. All courses may be taken concurrently. ***

PHYS 301 3:3-0
Classical Mechanics II
The mechanics of rigid bodies, Hamilton and Lagrange equations of motion and their applications, oscillations and normal co-ordinates. *** Prerequisite: PHYS 202, MATH 213 and 217. MATH 217 may be taken concurrently. ***

PHYS 311 3:3-0
Electromagnetism
Maxwell's equations, dielectric and magnetic properties of matter, and multipoles. *** Prerequisite: PHYS 201, MATH 213 and 215. MATH 215 may be taken concurrently. ***

PHYS 315 3:3-0
Selected Topics in Modern Physics
Selected topics from the areas of superconductivity, special theory of relativity, nuclear technology, plasma physics, and lasers. A seminar for engineering students; other students may take it with permission of the department head. *** Prerequisite: PHYS 201. PHYS 311 is recommended. ***

PHYS 319 3:3-0
Health Physics
An introductory course on radiation, its sources and its biological effects. *** Prerequisite: PHYS 242 or 119 ***

PHYS 322  3:3-0
Physical Optics and Electromagnetic (E/M) Radiation
Maxwell's equations and E/M waves, the E/M spectrum, energy of an E/M wave, the Poynting vector, optics of planar surfaces, interference, coherence, polarization, Rayleigh scattering, Cerenkov radiation, and applications including waveguides and antennas. *** Prerequisite: PHYS 311 ***

PHYS 342  3:3-0
Atomic Physics
Operator formalism of modern quantum mechanics, commutation relations, the Schrödinger equation and its applications for the harmonic oscillator and one-dimensional potentials, central fields, the hydrogen atom and complex atoms. *** Prerequisite: PHYS 242 and 351. PHYS 351 may be taken concurrently. ***

PHYS 351  3:3-0
Mathematical Physics I
Curvilinear co-ordinates and special functions. Fourier series, integrals and transforms, boundary value and initial value problems. *** Prerequisite: MATH 213 and 215 ***

PHYS 352  3:3-0
Mathematical Physics II
Tensor calculus, group theory, and non-linear dynamics. *** Prerequisite: PHYS 351, concurrent enrolment is allowed. ***

PHYS 362  3:3-0
Statistical Mechanics
The theory of classical and quantum statistical mechanics and applications to systems of physical interest including lasers and atomic lasers. *** Prerequisite: PHYS 261 and 342. PHYS 342 may be taken concurrently. ***

PHYS 372  3:0-6
Modern Experimental Physics
An intermediate laboratory course normally taken by physics majors and honours students in their third year, from subject matter covered in third-year courses. *** Prerequisite: PHYS 201, 202 242, 261 and 292. ***

PHYS 401  3:3-0
Quantum Mechanics I
Axiomatic formulation, representations, angular momentum and spin, perturbation theory, systems of identical particles, matrix mechanics. *** Prerequisite: PHYS 301 and 342 ***

PHYS 402  3:3-0
Quantum Mechanics II
Scattering theory, relativistic quantum mechanics, many body theory and molecular binding. *** Prerequisite: PHYS 401 ***

PHYS 411  3:3-0
Advanced Classical Mechanics
Hamilton-Langrange equations, Hamilton-Jacobi theory and applications, transformation theory and special relativity. *** Prerequisite: PHYS 301 and 351 ***

PHYS 421  3:3-0
Solid State Physics
Physics of crystalline solids, binding, energy bands, lattice vibrations and electronic properties. *** Prerequisite: PHYS 342 and 362 ***

PHYS 430  3:3-0
Introduction to General Relativity
Law of universal gravitation, the equivalence of inertial and gravitational mass, Riemannian geometry, Einstein's field equations, Schwarzschild solution, black holes and gravitational collapse, cosmology. *** Prerequisite: PHYS 411 ***

PHYS 432  3:3-0
Nuclear Physics
Radioactive decay mechanisms, interactions of nuclear radiation with matter, spectroscopy, nuclear models, and applications to medicine, material science and engineering. *** Prerequisite: PHYS 342 and 401. PHYS 401 may be taken concurrently. ***

PHYS 442  3:3-0
Introduction to Elementary Particle Physics
Classification of particles, particle detectors and accelerators, invariance and conservation laws, hadron-hadron interactions, weak interactions, quark model and group theory, introduction to QCD. *** Prerequisite: PHYS 401 ***

PHYS 471  3:0-6
Honours Physics Laboratory
Fourth-year lab combining modern experimental techniques together with material from 400-level courses. *** Prerequisite: PHYS 301, 311, 322, 342 and 372 ***

PHYS 490  0:0-0
Physics Seminar
This course must be taken by all honours physics students in both semesters of their fourth year, and by applied/industrial physics cooperative students in one semester of their final semester of study. Students are required to attend all seminars and to present a seminar on a topic determined in consultation with the department head.

PHYS 491-499  1:3:1-3-0
Directed Readings - an AA-ZZ series.
Courses designed to meet the specific needs of individual students. These courses are restricted to students in an honours program.

PLST 448  15:0-0
Practicum: Professional Training and Paper
Students will undergo the final stage of their training. This will involve a four month period of work with an approved sponsoring police service and completion of an assigned paper. *** Prerequisite: Completion of a term at an approved Police College or equivalent training with an approved police service, admission to the BA in Police Studies, a minimum 60% PGPA and 65% major GPA. *** Permission of the Coordinator of Police Studies is required to register. **

PLST 449  3:3-0
Practicum: Paper
Students must complete an assigned paper which will integrate academic learning with contemporary policing. *** Prerequisite: Completion of 75 credit hours of pre-police studies (including 15 credit hours of transfer credit for police college (or equivalent) training), admission to the BA in Police Studies, a minimum 60% PGPA and 65% major GPA, and permission of the Coordinator of Police Studies. ***

PR 030  1.5:2.5-0
Foundations of Public Relations
This survey course is designed to familiarize students with the basic concepts and principles of public relations and business communications. Topics include: ethics, the law, professional development, education, qualifications, skills, career options and diversity; the role of public relations in building relationships in communicating messages.
PR 031  1.5:2.5-0  Writing and Editing  
This course focuses on writing and editing as fundamental skills in the practice of public relations. Elements of good writing, its role in organizational communication and specific applications in various media along with an introduction to editing, interviewing and the role of design in carrying the written word are examined. *** Prerequisite: PR 30 ***

PR 032  1.5:2.5-0  Effective Communication Planning  
Developing a communication plan for a non-government organization and the role of planning in the total management process will be the focus of this course. Also emphasized are: the value of strategic communication by effective use of goals and objectives, audience and issue identification, and measurement of results. of strategic communication by effective use of goals and objectives, audience and issue identification and measure of results. *** Prerequisite: PR 030 ***

PR 033  1.5:2.5-0  Communication Techniques  
This course is a hands-on approach to the tools and techniques used by public relations professionals. Students receive an introduction to the major tools and are required to apply them to case work so as to be able to write and produce most elements of a public relations campaign. *** Prerequisite: PR 30 ***

PR 035  1.5:2.5-0  Public Relations in Non-Profit and Volunteer Organizations  
This course is an introduction to public relations as it applies to non-profit and volunteer organizations. Topics include: fund raising, media relations, lobbying, designing news releases, printing news conferences, public events and audio visual presentations, etc. *** Prerequisite: PR 030, and PR 032 or PR 033 ***

PR 036  1.5:2.5-0  Advanced Writing and Editing  
This course builds on the content of PR 31 to cover advanced interviewing, writing and editing skills. Application of these skills in production of additional media - annual reports, speeches, feature articles and advertising copy - is discussed along with the implications of new technology in the writer's workplace. writer's workplace. *** Prerequisite: PR 30 and 31 ***

PR 037  1.5:2.5-0  Research and Evaluation Methods  
Considering the role of research and evaluation in public relations, the student will learn theory and practical uses of research generally, along with specific research techniques and options. The importance of evaluation is emphasized. Ethics within research and the field of communications is a key theme. *** Prerequisite: PR 30 ***

PR 038  1.5:2.5-0  Ethical/Critical Issues in Public Relations  
The course provides an understanding of current ethical questions and professional codes of ethics when working towards ethical standards within an organization and performing public relations tasks for media, the public and other constituencies. Emphasis on case studies and current literature will explore applications of ethical practice in crisis situations. *** Prerequisite: PR 30 ***

PR 039  1.5:2.5-0  Media Relations  
A comprehensive analysis of the media and skills to accomodate the needs of different media will be developed. How the media works, what is considered news and how to prepare for the differences in print and electronic interviews are discussed. Legal, moral and logistical constraints challenging the media are explored. *** Prerequisite: PR 30, and PR 032 or PR 033. ***

PR 040  1.5:2.5-0  Electronic Information Design  
Explore new ways to develop and disseminate information other than traditional paper-based formats. Covering the basics of electronic information design and development, this course will outline processes, standards and guidelines for ensuring electronic information is appealing, accessible, useful and manageable. *** Prerequisite: PR 030, and PR 032 or PR 033. ***

PR 041  1.5:2.5-0  Intranet Usability  
This course will focus on planning and developing intranet content that aligns with the organization's business goals and meets its users' needs. It will outline the elements of a unified content-management strategy and provide guidelines for ensuring content usability. *** Prerequisite: PR 30, and PR 032 or PR 033. ***

PR 042  1.5:2.7-0  Approaches to Fundraising  
This course will cover various aspects of fundraising including government regulations, ethical concerns, accessing funding, agencies, market and audience research, and publicity and promotion. Essentials of event planning, as they relate to fundraising, will comprise a portion of this course.

PR 043  1.5:1.5-0  Selected Topics in Public Relations - an AA-ZZ series.  
Selected topics in public relations/communications. *** Prerequisite: PR 030 and PR 032, or PR 033 ***

PSCI 100  3:2-0  Introduction to Political Science  
This course introduces fundamental concepts and methods used in the discipline and acquaints students with political institutions, processes, and theories important to public life in Canada and the world.

PSCI 210  3:3-0  Introduction to Political Thought  
This course introduces students to basic ideas and some major figures in the history of political thought. Central issues such as justice, political authority, rights, legitimacy, and sovereignty will be explored by way of reference to the ideas of some of the major figures in the history of political theory. *** Prerequisite: PSCI 100 ***

PSCI 220  3:3-0  Comparative Politics  
An introduction to comparative analysis of international and developing states. Topics include: the economies and political traditions of the countries in question; contemporary patterns of politics and policy-making, individual and collective rights, governmental power and the functioning of executives, legislatures, bureaucracies, parties, and pressure groups in the context of current policy problems. *** Prerequisite: PSCI 100 ***

PSCI 230  3:3-0  Canadian Politics  
An examination of the political structures and important forces shaping political decision-making in Canada. Emphasis is placed on national institutions and events. *** Prerequisite: PSCI 100 ***

PSCI 240  3:3-0  World Politics  
This course is designed to help the student develop tools for understanding the complexities of international politics. As a comprehensive introduction to the subject, it will therefore seek an analysis of the basic behavioural rules, processes, patterns and contending ideologies that underlie the spectrum of state relations in the international arena. *** Prerequisite: PSCI 100 ***

PSCI 290  3:3-0  Selected Topics - an AA-ZZ series.  
Courses in selected topics. *** Prerequisite: PSCI 100 or permission of the department head. ***
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Credits</th>
<th>Course Title</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSCI 310</td>
<td>3:3-0</td>
<td>Ancient Political Thought</td>
<td>This course examines the political thought of the ancient world. It focuses primarily on Plato and Aristotle, but can also include the pre-Socrates, Thucydides, Cicero, etc.   *** Prerequisite: PSCI 210 ***</td>
</tr>
<tr>
<td>PSCI 311</td>
<td>3:3-0</td>
<td>Early Modern Political Theory</td>
<td>An examination of the ideas of major figures in early modern political thought such as Machiavelli, Hobbes, Locke, and others with a view to exploring the differences between ancient and modern political thought. It will explore issues such as the origin of the state, conceptions of the individual, the nature and limits of community.  *** Prerequisite: PSCI 210 ***</td>
</tr>
<tr>
<td>PSCI 321</td>
<td>3:3-0</td>
<td>American Politics</td>
<td>This course introduces students to the American political system. It may explore some or all of the following: American political philosophy, constitutionalism, political culture, civil rights and liberties, the operation of the major federal institutions, political participation and the meaning of citizenship, and policy making in a volatile world.  *** Prerequisite: PSCI 220 or permission of department head. ***</td>
</tr>
<tr>
<td>PSCI 322</td>
<td>3:3-0</td>
<td>Chinese Politics</td>
<td>This course focuses on modern Chinese politics, especially the post-Mao transition from revolution to reform. It introduces students to different approaches to the study of Chinese politics. In addition to the general overview of China's political traditions, revolution, and political institutions, some specific topics will also be examined.  *** Prerequisite: PSCI 220 ***</td>
</tr>
<tr>
<td>PSCI 324</td>
<td>3:3-0</td>
<td>The Political System of India or another South Asian Country</td>
<td>An examination of the political system and foreign policy perspectives of India or another South-Asian country.  *** Prerequisite: PSCI 220 ***</td>
</tr>
<tr>
<td>PSCI 325</td>
<td>3:3-0</td>
<td>Political Participation in Comparative Perspective</td>
<td>This course surveys the various conventional and unconventional political activities of North American citizens in the 20th and early 21st centuries. It will examine the theories and methodologies used to study citizens’ political involvement, and focus on contemporary and historical examples of citizens engaging in conventional and unconventional activities, including voting, party activism and non-violent civil disobedience.  *** Prerequisite: PSCI 220 ***</td>
</tr>
<tr>
<td>PSCI 331</td>
<td>3:3-0</td>
<td>Canadian Federalism</td>
<td>This course examines the Canadian federal system from several analytical perspectives in order to come to conclusions about the nature of the system and its impact on the political system in Canada. It pays particular attention to the development and present form of the Canadian constitution.  *** Prerequisite: PSCI 230 ***</td>
</tr>
<tr>
<td>PSCI 332</td>
<td>3:3-0</td>
<td>Politics of Quebec</td>
<td>This course is designed to enhance the understanding of those unfamiliar with Quebec politics. It concentrates on the development of Quebec in Canada, its relationship with other regions and the federal government, and the continuing question of Quebec independence.  *** Prerequisite: PSCI 230 ***</td>
</tr>
<tr>
<td>PSCI 334</td>
<td>3:3-0</td>
<td>Canadian Politics and the Charter of Rights</td>
<td>This course will examine the influence of the Charter of Rights on political issues and social change in Canada. Emphasis will be on civil liberties, group rights and political and socio-economic conflict, and the evolving roles of party politics, the judiciary, and extra-Parliamentary politics.  *** Prerequisite: PSCI 230 ***</td>
</tr>
<tr>
<td>PSCI 336</td>
<td>3:3-0</td>
<td>Canadian Labour in Politics</td>
<td>This course will examine the role of the trade union movement in Canadian politics. This will involve an examination of the relationship of trade unions to political parties, corporate capital, and the state, as well as a study of ideological tendencies within trade unions.  *** Prerequisite: PSCI 230 ***</td>
</tr>
<tr>
<td>PSCI 337</td>
<td>3:3-0</td>
<td>Women in Politics</td>
<td>Women and Politics: This course examines women’s exclusion from Canadian political life from Confederation to the present day, focusing on the concept of citizenship. It considers the ways in which the discipline of political science has theoretically and pedagogically been informed by male dominance. It takes into account the impact of feminism on political processes and institutions, such as federalism, the Constitution, and political parties. Finally, it focuses on current political agendas, policies, and discourse.  *** Prerequisite: PSCI 230 ***</td>
</tr>
<tr>
<td>PSCI 338</td>
<td>3:3-0</td>
<td>Aboriginal People and Politics</td>
<td>This course considers the relationship between indigenous peoples and the Canadian state. Questions of the nature of colonialism, capitalism, citizenship and identity are raised, based on a critical reading of Canadian history and contemporary politics.  *** Prerequisite: PSCI 230 ***</td>
</tr>
<tr>
<td>PSCI 340</td>
<td>3:3-0</td>
<td>Topics in International Law</td>
<td>This course will focus on the development of international law as a universal law with emphasis on selected topics and cases.  *** Prerequisite: PSCI 240 ***</td>
</tr>
<tr>
<td>PSCI 341</td>
<td>3:3-0</td>
<td>Canadian Foreign Policy</td>
<td>This course introduces the student to the study of Canadian foreign policy.  *** Prerequisite: PSCI 230 ***</td>
</tr>
<tr>
<td>PSCI 342</td>
<td>3:3-0</td>
<td>International Diplomacy and the United Nations System</td>
<td>This course will examine the various approaches to diplomacy and the dynamics of international conflict resolution and peace enhancement through a study of the legal framework, institutional structure, and political processes of the United Nations System, and other multilateral organizations. It will also involve observation and simulation at the national and international level.  *** Prerequisite: PSCI 240 ***</td>
</tr>
<tr>
<td>PSCI 343</td>
<td>3:3-0</td>
<td>International Political Economy</td>
<td>A critical examination of the relationship and interaction between world politics and the international economy, including topics such as international trade, financial debt crisis, multinational corporations, foreign aid and investment. Theoretical attention will be particularly paid to hegemony and leadership theory, development and underdevelopment, regionalism and integration, international regimes and globalization.  *** Prerequisite: PSCI 240 ***</td>
</tr>
<tr>
<td>PSCI 344</td>
<td>3:3-0</td>
<td>Political Economy of Development and Underdevelopment</td>
<td>This course considers the ways in which economic development has occurred in different states, taking into account transformations in global capitalism, superpower states, and political-economic alliances, and domestic political formations. Theoretical materials may include liberal and realist accounts as well as neo-Marxist critiques.  *** Prerequisite: PSCI 220 or 240 ***</td>
</tr>
<tr>
<td>PSCI 345</td>
<td>3:3-0</td>
<td>Canada in the Global System</td>
<td>This course examines how national and international political and economic developments have affected Canada's ability to maintain its political and economic sovereignty. Attention is focused on the paradigmatic shift in political and economic thinking that took place in the 1970s and 1980s, including trade liberalization and the expansion of NAFTA, FTAA and the WTO.  *** Prerequisite: PSCI 230 ***</td>
</tr>
<tr>
<td>PSCI 350</td>
<td>3:3-0</td>
<td>Electoral Systems and Voting</td>
<td>Analysis of the voting behavior of individuals and its relation to electoral systems. Examples from Canada and other countries will be examined and compared.  *** Prerequisite: PSCI 220 or 230 ***</td>
</tr>
<tr>
<td>PSCI 356</td>
<td>3:3-0</td>
<td>Local Government in Canada</td>
<td>An introduction to municipalities and local government bodies in Canada. Topics include the origins, transformation, structure and functioning of local governments, current issues and problems. The course will examine political institutions, processes and trends in both urban and rural settings, particularly in the Prairies.  *** Prerequisite: PSCI 100 or permission of the department head. ***</td>
</tr>
</tbody>
</table>
PSCI 424  3:3-0
Local and Community Politics
This course addresses political processes and structures at the local level, and community as a venue for political action. Topics such as community power; local interest groups; issues and conflicts; local democracy; and the local/global dichotomy will be considered. Examples will be drawn from both urban and rural settings. *** Prerequisite: PSCI 210 or PSCI 230, or permission of the department head. ***

PSCI 390  3:3-0
Selected Topics - an AA-ZZ series.
Courses in selected topics. *** Prerequisite: PSCI 100 and completion of 9 credit hours in PSCI, or permission of department head. ***

PSCI 400  3:3-0
Honours Seminar I (Fall Semester)
A seminar course for honours students held in conjunction with PSCI 401. Students must prepare and present a research proposal. ** Permission of the Department Head is required to register. ** * Note: Students who do not achieve a grade of 75% in this course may not continue in the Honours program in political science. *

PSCI 401  3:3-0
Honours Seminar II (Winter Semester)
A seminar course for honours students held in conjunction with PSCI 400. Students are required to write and present an extensive research paper based on the proposal prepared in PSCI 400. *** Prerequisite: PSCI 400 with a minimum grade of 75%. ***

PSCI 412  3:3-0
Modern Political Theory: The Continental Tradition
An exploration of the ideas of some or all of the following: Rousseau, Kant, Hegel, Marx, Schopenhauer, and Nietzsche. *** Prerequisite: PSCI 310 or 311, or permission of the department head.

PSCI 413  3:3-0
Modern Political Theory: The English Liberal Tradition
An exploration of the ideas of some or all of the following: Burke, Bentham, Hume, J. Mill, J.S. Mill, and Green. *** Prerequisite: PSCI 310 or 311, or permission of the department head.

PSCI 415  3:3-0
Contemporary Political Theory
This course offers a selection of readings in contemporary political theory. Emphasis will be placed on the way current political thought addresses fundamental and emerging political concerns. The readings may draw upon sources such as political economy, feminism, critical theory, environmentalism, post-modernism, and recent developments in liberal, democratic, and neo-Marxist approaches. *** Prerequisite: PSCI 310 or 311, or permission of the department head.

PSCI 420  6:6-0
Topics in Comparative Politics
An intensive examination of the nature of the state and relations between state and society in a comparative context; development of methodological and theoretical frameworks for the study of comparative institutions. *** Prerequisite: One of PSCI 323, 324, or 325, or permission of department head.

PSCI 422  6:6-0
West European Politics and the European Union
An examination and comparison of governments and political processes in Western Europe. The state systems of Germany, Britain, France and Italy will be examined in depth, along with the emerging subnational & multi-level system of governance and policies of the European Union (EU). The impact of the EU on global and domestic member state politics and policies will also be explored. *** Prerequisite: One of PSCI 323, 324, or 325, or permission of department head.

PSCI 423  3:3-0
East European Political Systems
The politics of modern East Europe. An intensive examination of the internal political economies and external politics of the successor states to the Soviet Union, and selected East European states. A detailed investigation of the factors leading to the disintegration of the "communist" system, and the systems which have replaced it. *** Prerequisite: PSCI 220 or permission of department head.

PSCI 424  3:3-0
Interest Groups and Social Movements
This course examines how interest groups affect the policy-making process in Canada. It assesses the respective role and influence of "institutionalized" interest groups (such as business groups, professional associations and unions) and "issue-oriented" groups (such as the environmental, women's, human rights and peace movements). Other countries will be examined as well. *** Prerequisite: One of PSCI 323-325 or 331-338; or permission of department head.

PSCI 431  3:3-0
Politics of Saskatchewan
This course examines the government and politics of Saskatchewan. It emphasizes the changes that have occurred in the party system, structures of government, and the public service in the province during the past twenty years. *** Prerequisite: One of PSCI 331-338, or permission of department head.

PSCI 432  6:6-0
Comparative Provincial Politics
The examination of selected provincial governments. In particular, interprovincial co-operation and interprovincial mechanisms are reviewed. *** Prerequisite: PSCI 331 or 333, or permission of department head.

PSCI 433  3:3-0
Political Parties
This course examines historical changes in the Canadian federal and provincial party system and organizations, as well as some party changes in Europe. Some of the specific issues that are addressed include: the emergence of a fourth party system, party decline, party financing, initiatives to enhance intra-party democracy, and the use of new media technologies. *** Prerequisite: One of PSCI 323-325, or 331-338; or permission of department head.

PSCI 434  3:3-0
Politics and the Media
This course examines in detail the structural and ideological aspects of the media in Canada and the world. Topics considered include the political economy of the media, its relationship to the political process and the internal structure of media institutions as they fulfill ideological functions. *** Prerequisite: A minimum of 3 PSCI classes at the 300- or 400-level, or permission of department head.

PSCI 436  3:3-0
Selected Topics in Public Policy
An examination of the methodological and theoretical approaches to the study of the policy process and an analysis of selected policy issues. *** Prerequisite: One of PSCI 331, 333, 334, 336, 337, or 338, or permission of department head.

PSCI 437  3:3-0
Selected Topics in Politics and the Environment
An opportunity to analyze specific theoretical and empirical environmental issues confronting decision makers both in government and the corporate sector. *** Prerequisite: A minimum of three PSCI courses at the 300- or 400-level, or permission of department head.

PSCI 438  3:3-0
Selected Topics in the Canadian Constitution
An advanced seminar on the major constitutional negotiations in Canada since WWII. This course places particular emphasis on the patriation of the Constitution in 1982. *** Prerequisite: PSCI 331, or permission of department head.

PSCI 439  3:3-0
The Politics of Health
This course examines the roles of the federal and provincial governments in the area of health policy. It traces the history of government involvement in medicare, workers’ compensation, and occupation health. *** Prerequisite: A minimum of three PSCI courses at the 300- or 400-level, or permission of department head.
PSCI 440  
Topics in International Relations  
6:6-0  
An advanced seminar on theories of the international system and selected topics in international affairs. *** Prerequisite: One of PSCI 340, 341, 342, 344, or 345, or permission of department head. ***

PSCI 470  
The Third World and Political-Economic Change  
6:6-0  
An advanced seminar concerned with political, social, and economic change in selected underdeveloped countries; an investigation into the dynamics of underdevelopment and the nature of the world economy with a view toward assessing different theoretical conceptions of the relations of third-to first-(and second-) world countries. *** Prerequisite: One of PSCI 323, 324, or 325, or permission of department head. ***

PSCI 480  
Provincial Legislative Internship Program  
6:0-0  
The study of Saskatchewan’s provincial political institutions, politics, public policies, public management, and public administration through a combination of direct observations, directed readings, and research and analysis. ** Must be chosen by a Legislative Internship Selection Committee prior to registration. ** * Note: All activities will take place at the Legislative Building in Regina. The internship runs for 6 months, from January – June.

PSCI 490-495  
1-3:1-3-0  
Directed Readings - an AA-ZZ series.  
Courses designed for individual students. ** Permission of the Department Head is required to register. **

PSYC 101  
Introductory Psychology A  
3:3-0  
An introduction to the social science aspects of psychology, including the study of adjustment, disorders, development, personality and the social environment of the person.

PSYC 102  
Introductory Psychology B  
3:3-0  
An introduction to the natural science aspects of psychology, including the study of brain and behavior, perception, learning, memory, cognition, motivation and emotion.

PSYC 204  
Research Methods in Psychology  
3:3-0  
A survey of research methods used in psychology. Students may be asked to participate in class research projects. *** Prerequisite: PSYC 101 and 102 ***

PSYC 210  
Developmental Psychology  
3:3-0  
A study of developmental processes across the lifespan; the interaction between environmental and biological processes; maturational and learning factors; how these interact with social influences in the developing person. *** Prerequisite: PSYC 101 and 102 ***

PSYC 220  
Social Psychology  
3:3-0  
The study of human behaviour in its social context dealing with the impressions we form of others and emphasizing the influence of group membership and interactions upon important psychological processes. *** Prerequisite: PSYC 101 and 102 ***

PSYC 230  
Perspectives on Personality  
3:3-0  
An integrative course examining various perspectives on the study of the person. *** Prerequisite: PSYC 101 and 102 ***

PSYC 255  
Biological Foundations of Behaviour  
3:3-0  
An introduction to the structure and function of the nervous system. Emphasis is placed on the contributions a general understanding of fundamental brain mechanisms has made to contemporary theories of normal and abnormal behaviour. *** Prerequisite: PSYC 101 and 102 ***

PSYC 270  
Human Information Processing  
3:3-0  
A survey of theory and research findings in the areas of thought, skills, problem-solving, and expertise. *** Prerequisite: PSYC 101 and 102 ***

PSYC 305  
Statistics in Psychology  
3:3-0  
An examination of statistical principles and their application to the solving of research problems in psychology. This course reviews descriptive statistics and emphasizes univariate inferential statistics of both the parametric and non-parametric type. *** Prerequisite: PSYC 204 or SOST 201 *** * Note: Students who have completed both STAT 151 and 152 may not take this course for credit. STAT 151 and 152 will fulfill the major requirement. *

PSYC 310  
Child Psychology  
3:3-0  
An in-depth study of prenatal, infancy, early and middle childhood developmental stages, and the relationship of these stages to pertinent caregivers. *** Prerequisite: PSYC 210 ***

PSYC 311  
Adolescent Psychology  
3:3-0  
An in-depth study of adolescent development with special reference to adolescent identity from a female and male perspective, and with attention to the relationship of physiological, cognitive, and sociological dimensions. *** Prerequisite: PSYC 210 ***

PSYC 320  
Advanced Topics in Social Psychology  
3:3-0  
A comprehensive examination of major topics, key issues, and current debates in social psychology. *** Prerequisite: PSYC 220 ***

PSYC 330  
Psychology of Women  
3:3-0  
An examination of the major theories, research methodologies, and data in the field of the psychology of women. Philosophical values of feminism and the psychological impact of women’s historical roles in society will be considered throughout. *** Prerequisite: PSYC 101, 102, and two 200 level courses in the social sciences, or permission of the instructor. ***

PSYC 333  
Abnormal Psychology  
3:3-0  
A comparative study of the nature and development of normal and disordered patterns of personality and behaviour. *** Prerequisite: PSYC 230 ***

PSYC 335  
Psychology of Individual Behaviour and Interpersonal Relations  
3:3-0  
A study of the relationship between the self-concept and social behaviour in terms of the theoretical formulations of motivation, attitude formation, and group process. *** Prerequisite: PSYC 220 and 230 ***

PSYC 336  
Humanistic Psychology  
3:3-0  
A comprehensive examination of the major theorists and key issues in humanistic psychology. *** Prerequisite: PSYC 230 ***

PSYC 337  
Psychodynamic Psychology  
3:3-0  
An examination of theories and issues in psychodynamic psychology. *** Prerequisite: PSYC 230 ***

RDWT 120 (formerly ENGL 090) 1:5-3-0
Reading and Writing I
Practice in fundamentals of critical reading and writing skills. This course prepares students to take ENGL 100.

University of Regina Undergraduate Course Catalog – Spring • Summer • Fall 2006

- 97 -
Belief in Jesus, his presentation in Christian scriptures, the practice and belief. Topics covered include the background to early Christianity, the centrality of Jesus the Christ for Christian theology and its impact on society and culture.

**RLST 228**
Christianity
An introduction to the foundations of Christianity dealing with topics such as the centrality of the story of Jesus, its roots in Judaism, its sources of authority, characteristic practices, historical and theological development, major denominational families. Some contemporary issues may also be briefly outlined. *** Prerequisite: RLST 100, or permission of department head. ***

**RLST 229**
Themes of the Christian Bible
This course will explore the main themes of what is known as the Christian Bible (Old and New Testaments). Themes such as election, covenant, people of God, mission, creation, monotheism, grace, fidelity, prophecy, sin, judgement, messiah, and exodus will be considered. *** Prerequisite: RLST 100, or permission of department head. ***

**RLST 241**
Islam
An introduction to the foundations of Islam, including the life of the prophet Muhammad, the Qur'an, beliefs and practices, and the development of fundamental Islamic ideas and institutions. Emphasis will be placed on the contemporary faith of Muslims as they deal with these primary themes. *** Prerequisite: RLST 100, or permission of department head. ***

**RLST 245**
Biblical Literature - Hebrew Bible
A survey of the various books of the Hebrew Bible (Old Testament or Tanakh) from historical, literary, and theological perspectives. *** Prerequisite: RLST 100, or permission of department head. ***

**RLST 248**
Introduction to the New Testament
This course provides a historical survey of the New Testament from a religious studies perspective. It examines New Testament writing as a whole, and lays the groundwork for more detailed study of the Pauline literature, the Gospels, the Johannine literature, and other books of the New Testament. *** Prerequisite: RLST 100, or permission of department head. ***

**RLST 258**
Orthodox Christianity
A survey of the historical and theological development of the Orthodox Church from Pentecost to the modern period. Particular attention will be given to the Seven Ecumenical Councils, the conversion of the Slavs, the differences with Rome and the West, the monastic contribution and influence, and the communist persecutions. *** Prerequisite: RLST 100, or permission of department head. ***

**RLST 267**
Religion in Canada
This course is a survey of significant religious traditions in Canada, their intellectual background, development of their faith and practice, and their interaction with the Canadian context. *** Prerequisite: RLST 100, or permission of department head. ***

**RLST 268**
Emerging Religious Movements
This course examines beliefs and practices of some emerging new religions including New Age, Wicca, Neo-paganism, Scientology, Unification Church, UFO groups, Solar Temple, Transcendental Meditation and Soka Gakai. The emphasis will be upon the historical roots and teachings of new religions, and issues related to their popularity and interpretation. *** Prerequisite: RLST 100, or permission of department head. ***

**RLST 271**
Religious Experiences and Psychological Perspectives
This course offers an opportunity to study a wide range of religious experiences from a variety of cognitive, ego- and trans- egocentric psychological perspectives. Current research in such areas as social psychology, personality development, and parapsychology will be considered in the search for alternative ways of describing or perceiving such experiences. *** Prerequisite: RLST 100, or permission of department head. PSYC 101 is recommended. ***

**RLST 273**
Issues in Religion and Science

This course will examine the interface between religion and the natural and social sciences, beginning with a historical, methodological and philosophical overview. Current issues such as genetic engineering, population control, evolutionary theory, environmentalism, technology and values, and the ethics of scientific experimentation will be studied. *** Prerequisite: 30 credit hours including RLST 100, one natural and one social science, or permission of the department head. ***

**RLST 275**

**Women in World Religions**

This course surveys the role and religious experiences of women in various world religions. Lecture material will cover the accumulated traditional teachings on women and the feminine in each religion, with attention to specific historical developments. Contemporary scholars and issues will be highlighted with an emphasis on feminist methodologies. *** Prerequisite: RLST 100 or permission of the department head. ***

**RLST 281**

**Intermediate Classical Chinese for Religious Studies**

An intensive continuation in the instruction of Classical Chinese language, with special emphasis on readings of the texts of Confucianism, Daoism or Chinese Buddhism. *** Prerequisite: RLST 181 or permission of the department head. ***

**RLST 284**

**Intermediate Sanskrit for Religious Studies**

Emphasis will be on advanced grammar and translation practice in Sanskrit language. This course will engage students in reading selected excerpts from the Mahabharata, Hitopadesa and the Puranas. This course is useful for students in South Asian studies in religion, history, classics, and linguistics. *** Prerequisite: RLST 184, or permission of department head. ***

**RLST 288**

**Intermediate Coptic for Religious Studies**

An intensive continuation in the instruction of the Sahidic dialect of the ancient Coptic language, with special emphasis on the reading of actual ancient Coptic texts. Special emphasis will be placed on the Coptic Gnostic literature and on Egyptian Patriotic apophthegmata. *** Prerequisite: RLST 188, or permission of department head. ***

**RLST 290**

**Selected Topics - an AA-ZZ series.**

Courses designed as required for groups of undergraduates. *** Prerequisite: RLST 100, or permission of department head. ***

**RLST 300**

**Theory and Methodology for the Study of Religion**

This course will focus on fundamental theoretical and methodological issues pertaining to the academic study of religion. It includes an examination of selected theories of the origin, character, and function of religion as a human phenomenon. Students will be encouraged to apply class material to their particular areas of specialization. *** Prerequisite: Two 200 level RLST courses, or permission of department head. ***

**RLST 301**

**Religion After Modernity**

This course will examine four different theoretical locations, postpatriarchy, postmodernism, poststructuralism and postcolonialism, which have emerged in the Academia since 1960. The process will be to analyze how each of these theoretical locations has impacted the study of religion. *** Prerequisite: Two 200 level RLST courses, or permission of department head. RLST 300 recommended. ***

**RLST 303**

**Deities: India**

This course focuses on the role of gods, goddesses and other creatures in South Asian religion. Emphasis will be on the interrelationship of notions of the divine, colonialism, post-colonialism and the gender dimensions of religious practice. Theories of myth and ritual as they apply to religious tenets will be explored. *** Prerequisite: RLST 203, or permission of department head. ***

**RLST 307**

**Zen Buddhism and its Contemporary Interpretations**

This course examines the historical development of Zen techniques, Zen experience, and religio-aesthetic expressions such as poetry, painting, the tea ceremony, martial arts, gardening, and calligraphy. The course also explores the philosophical and psychological implications of Zen and its contemporary significance for inter-religious dialogue. *** Prerequisite: RLST 207, or permission of department head. ***

**RLST 311**

**Confucianism in East Asia**

This course is an introduction to the basic ideas of Confucianism including its background and development; its concepts of the world, ethical values of its philosophy and its religious beliefs and practices. The impact of Confucianism on the East Asian societies in ancient and modern times is also covered. *** Prerequisite: RLST 211 or permission of the Instructor. ***

**RLST 313**

**Taoism and the Contemporary World**

An introduction to the basic teachings of Taoism, with special emphasis on the philosophical and religious thought of Lao Tzu and Chuang Tzu. The course will also examine the meaning of Taoism for today's world. *** Prerequisite: RLST 211, or permission of department head. ***

**RLST 315**

**Hellenistic Religions**

This course will explore the religions of Hellenistic and Roman antiquity, including Judaism and Christianity as Hellenistic-Roman religions. It will do so with special reference to the social conditions that generated such diversity, and to which these religious expressions aimed to respond. *** Prerequisite: RLST 215, or permission of department head. ***

**RLST 319**

**Contemporary Jewish Thought**

The development and range of modern Jewish thought from Cohen to Baeck, Rozenzweig, Buber, Heschel, Kaplan and Plaskow. The Holocaust and its aftermath and the significance of the establishment of the State of Isreal will be studied using Kook, Rubenstein, Fackenheim, and Maybaum. Gender issues will also be examined. *** Prerequisite: RLST 219, or permission of department head. ***

**RLST 322**

**Origins of Modern Antisemitism and the Holocaust**

The religious and cultural roots of antisemitism and its manifestations in Western civilization: the rise of racist and political antisemitism in Europe; seminal issues in the history of the Holocaust; an analysis of the various political and cultural responses to the events of this period. *** Prerequisite: One of RLST 219, 227, 228, 229, or 248, or permission of department head. ***

**RLST 327**

**Quests for the Historical Jesus**

The course will introduce students to the modern quest to separate the historical, human Jesus from the theologically-motivated accounts of his behavior and teaching in the earliest Christian gospels. The background of this "quest" and its key techniques, and recent scholarly reconstructions of the historical Jesus will be analyzed. *** Prerequisite: One of RLST 227, 228, 229, or 248, or permission of department head. ***

**RLST 328**

**Medieval Christianity**

This course will study the theological, cultural, spiritual, and institutional developments in the Western Church from the beginning of the Middle Ages to the Reformation. Special emphasis will be placed on the development of doctrine. *** Prerequisite: One of RLST 227, 228, 229, or 248, or permission of department head. ***

**RLST 329**

**Issues in Reformation Thought**

This course studies scientific religious thinkers and issues of the Reformation era, with special reference to such figures as Martin Luther and John Calvin. Topics include original sin and salvation, free will and predestination, church-state relations, and the sacraments. *** Prerequisite: One of RLST 227, 228, 229, or 248, or permission of department head. ***

**RLST 331**

**Modern Christianity**

This course covers the period from the Reformation to the 1950’s, including responses to the rise of the natural and social sciences and the Industrial Revolution; fundamentalism, neo-orthodoxy. *** Prerequisite: One of RLST 227, 228, 229, or 248, or permission of department head. ***

**RLST 332**

**
Contemporary Christianity
Central issues in Christian thought since 1950, including secularism, Vatican II, the meaning of "God," liberation theology, the Third World theologies, feminist theology, theology and the environment, war and peace. *** Prerequisite: One of RLST 227, 228, 229, or 248, or permission of department head. ***

RLST 333  
3:3-0

Liberation Theology
This course studies recent Christian thought classified as "liberation theology": Black, feminist, Latin American, and the contextual "third world theologies" of Africa and Asia. *** Prerequisite: One of RLST 227, 228, 229, or 248, or permission of department head. ***

RLST 334  
3:3-0

Catholicism
This course examines Catholicism as a collection of churches and as a tradition within Christianity. Topics covered include: origins, history and current transformations of Catholicism; characteristic emphases on sacramentality, mediatorial and community and how these shape the Catholic world view, its institutions, practices, beliefs, attitudes toward other groups, contemporary challenges. *** Prerequisite: RLST 100 and one of (RLST 227, 228, 229, or RLST 248), or permission of department head. ***

RLST 336  
3:3-0

Christian Denominationalism in North America
This course examines the development of Christian denominationalism in North America. Historical, phenomenological, and comparative approaches will contrast Catholicism, Orthodoxy, and Protestantism, and the development of North American Protestant groups. *** Prerequisite: One of RLST 227, 228, 229, 248, or 267, or permission of department head. ***

RLST 341  
3:3-0

Islam in the Modern World
This course explores the Muslim encounter with the modern age. It examines the traditional religious stance of the Islamic community, and the significant movements and influences that have affected it. It studies specific problems faced and decisions taken, and analyzes adaptations and tensions in Islamic faith and life resulting from the encounter. *** Prerequisite: One of RLST 241, 267, or 275, or permission of the department head. ***

RLST 342  
3:3-0

Islamic Philosophy, Theology, Law and Mysticism
An examination of the development of the main streams of Muslim philosophy, theology, law, and mysticism. The contributions of major Islamic thinkers in these areas will be considered and their intellectual legacy will be assessed. *** Prerequisite: One of RLST 241, 267, 275, or 370, or permission of the department head. ***

RLST 345  
3:3-0

Biblical Literature: Advanced Studies in the Hebrew Bible
A comprehensive study of selected parts of the Hebrew Bible (Old Testament or Tanakh). This course will focus on the Pentateuch (the first five books), the historical books from Joshua through Kings, the prophetic literature, wisdom literature, and/or poetry. These will be studied from critical, historical, literary and theological perspectives. *** Prerequisite: One of RLST 219, 229, 245, or 355, or permission of the department head. ***

RLST 348  
3:3-0

The Synoptic Gospels
The course will focus on a study of the New Testament gospels and their sources, particularly the so-called “synoptic tradition” - the Gospels of Matthew, Mark, and Luke as well as their sources, both written and oral. *** Prerequisite: RLST 248 or permission of the department head. ***

RLST 349  
3:3-0

The Gospels and the Letters of John
The course will focus on the distinctive "Johannine school," which produced the Gospel of John and the three epistles of John. Emphasis will be placed on the distinctive theology of this sect within Christianity, and the chequered history of its relations to both the Judaism and Christianity of its day. *** Prerequisite: RLST 248, or permission of department head. ***

RLST 351  
3:3-0

The Life and Letters of Paul
This course will focus on a study of the New Testament writings by and about Paul, including the "undisputed" Pauline letters (Romans, 1 and 2 Corinthians, Galatians, Philippians, 1 Thessalonians, and Philemon), the letters whose authorship is more questionable, and the narratives about Paul in Acts of the Apostles. *** Prerequisite: RLST 248, or permission of department head. ***

RLST 352  
3:3-0

The Birth of the Church
The main emphasis will be on a study of the later New Testament writings: those which show the first signs of the church defining itself as an institution. These writings include especially Luke-Acts, the later pseudo-Pauline letters (1 and 2 Timothy, Titus), the so-called "general epistles," and the Apocalypse (Revelation). *** Prerequisite: RLST 248, or permission of department head. ***

RLST 355  
3:3-0

Sacred Texts in Comparative Perspective
A comparative survey and analysis of sacred texts in world religions, focusing on themes, authority, oral and written tradition, literary influence, and problems of translation, interpretation and cross-cultural encounter. *** Prerequisite: One 200-level RLST class from 203-211 and one 200-level RLST class from 215-241, or permission of department head. ***

RLST 369  
3:3-0

Religious Pluralism
This course examines the major theories concerning religious pluralism. It also explores the various aspects related to interreligious dialogue in today's religiously pluralistic world. *** Prerequisite: One course from RLST 203-211 plus one course from RLST 215-241, or permission of department head. ***

RLST 370  
3:3-0

Mysticism in World Religions
An examination of major mystical traditions both Eastern and Western, and an investigation of various theories concerning the phenomenon of mysticism. *** Prerequisite: Two 200-level religious studies courses or permission of department head. ***

RLST 372  
3:3-0

Myth, Symbol and Ritual
This course is an introduction to the critical study of the categories of myth, symbol and ritual. To do this we will examine different theoretical approaches and engage myth, symbol and ritual as they emerge in a variety of cultural locations. *** Prerequisite: Two 200-level RLST courses, or permission of department head. ***

RLST 377  
3:3-0

Goddesses and Women
This course surveys the feminine elements in religion. Important goddesses from religious texts will be examined with an emphasis on contextualizing their worship and assessing their status. Selected religions in which women play major leadership roles and the intersection of motherhood and patriarchy with religion will be analyzed. *** Prerequisite: One 200-level RLST course, or permission of department head. RLST 275 is recommended. ***

RLST 384  
3:3-0

Advanced Readings in Sanskrit Literature for Religious Studies
This course is designed to accommodate students who wish to develop their Sanskrit language skills beyond the 200-level. It is directed towards upper level undergraduate students and Master's students whose programs in religious studies require Sanskrit language acquisition. *** Prerequisite: RLST 284 or permission of the department head. ***

RLST 390  
3:3-0

Selected Topics - an AA-ZZ series.
Courses designed for individual undergraduate students. *** Prerequisite: One 200-level RLST course or permission from coordinator. ***

RLST 403  
3:3-0

This course will explore some selected themes, topics and religious practices of South Asian religions (Hinduism, Jainism and Sikhism) such as philosophical systems, karma and rebirth, and ritual practice. It will also examine selected figures, myths and texts. *** Prerequisite: RLST 303, or permission of department head. ***

RLST 407  
3:3-0

Studies in Buddhist Thought - an AA-ZZ series.
An examination of selected topics and movements in the history of Buddhist thought such as the Madhyamika doctrine of emptiness, the Hua-yen concept of interrelatedness, and the Zen teaching of absolute...
nothingness. Includes the study of significant texts and figures. ***
Prerequisite: RLST 307, or permission of department head. ***

RLST 411
Studies in East Asian Religions - an AA-ZZ series.
An examination of selected topics and movements, and religious
practices of East Asian religions, such as Confucianism and Taoism
through the examination of selected figures, myths, and texts. ***
Prerequisite: RLST 311 or RLST 313, or permission of department head. ***

RLST 415
This course examines specific topics related to the religions of ancient
Greece and Rome. It includes but is not limited to Minoan and
Mycenaean religions, women’s roles in ancient Greek and Roman
religions, death practices, deities, festivals, initiation rites, religion of
the Roman Arena, gender, and myth. *** Prerequisite: RLST 315 or
permission of the department head. ***

RLST 419
An examination of selected themes and movements in the history of
Jewish thought such as Zionism, feminism, post-holocaust theology
and God. Includes the study of significant texts and figures. ***
Prerequisite: RLST 319 or RLST 322, or permission of department head. ***

RLST 427
Studies in Christianity - an AA-ZZ series.
An examination of selected themes and movements in the history of
Christianity such as feminism, peace movements, ecumenism and
interreligious dialogue. Includes the study of significant texts and figures. ***
Prerequisite: One course from RLST 327-336 or from
RLST 345-352, or permission of department head. ***

RLST 441
An investigation of selected topics in the study of Islam such as
Muslim fundamentalists, Islamic feminists, the Qur’an and its
interpretation, issues in Islamic history, legal interpretation and human
rights, and relationships of Muslims with Christians, Jews and other
religious groups. Includes the study of significant texts and figures. ***
Prerequisite: RLST 341 or RLST 342, or permission of department head. ***

RLST 490
Selected Topics - an AA-ZZ series.
Courses designed for individual honours or qualifying-year students.
*** Prerequisite: One 300-level religious studies course or permission
of department head. ***

RLST 498
Honours Seminar
Honours seminar. ** Permission of the Department Head is required

| Languages, Literature and Linguistics – First Nations University of Canada |
|-------------------------------|---------------------|
| SAUL 100 | Elementary Saulteaux I |
|          | Introduction to basic grammar, reading, and writing. Emphasis on oral expression and practice with electronic learning materials. No prior knowledge of Saulteaux is assumed. |
| SAUL 101 | Elementary Saulteaux II |
|          | A continuation of SAUL 100. Further grammar and oral practice of Saulteaux. This course completes preparation for SAUL 102. *** Prerequisite: SAUL 100 *** |
| SAUL 102 | Structure of Saulteaux I |
|          | A survey of major word and sentence structures of Saulteaux, with some attention to dialect variation. Composition and reading of short stories and dialogues. *** Prerequisite: SAUL 101 *** |
| SAUL 103 | Structure of Saulteaux II |
|          | A continuation of SAUL 102. Further study and analysis of grammatical structures, dialect variation, and more composition and reading of short stories and dialogues. *** Prerequisite: SAUL 102 *** |
| SAUL 104 | Saulteaux Grammar and Orthography I |
|          | This course is designed for students who already speak Saulteaux. Emphasis is on writing in standard Roman orthography. An introduction to short compositions and analysis of grammatical structures. *** Prerequisite: Fluency in Saulteaux *** |
| SAUL 105 | Saulteaux Grammar and Orthography II |
|          | A continuation of SAUL 104. Further writing practice, grammar, and short compositions. Examination of materials produced in orthographies other than standard Roman orthography. *** Prerequisite: SAUL 104 *** |
| SAUL 202 | Saulteaux Literature and Grammar |
|          | Analysis of complex grammatical structures, with an introduction to oral and written literature such as ordinary stories and traditional tales. *** Prerequisite: SAUL 103 or 105 *** |
| SAUL 205 | Expository Writing in Saulteaux |
|          | Study and analysis of non-fiction literature in Saulteaux, such as biography, history, politics, news stories, narratives, and technical writing. Practice in writing and revising such literature. *** Prerequisite: SAUL 103 or 105 *** |
| SAUL 206 | Saulteaux Linguistics |
|          | Linguistic concepts for the scientific analysis of Saulteaux. Development of linguistic terminology in Saulteaux for language teachers. *** Prerequisite: SAUL 103 or 105 or permission of the department head. *** |
| SAUL 209 | Creative Writing in Saulteaux |
|          | Standard Roman orthography will be used by students to compose original writings in Saulteaux. Students will critique each other’s work as well as published materials. *** Prerequisite: SAUL 202 *** |
| SAUL 310 | Saulteaux Phonology |
|          | The study of the sound system and phonological processes of Saulteaux and related dialects with reference to contemporary phonological theory. Application to Ojibway writing systems. *** Prerequisite: SAUL 206, or permission of department head. *** |
| SAUL 311 | Saulteaux Morphology |
|          | The study of the internal structure of Saulteaux words. Morphological processes of Saulteaux will be examined with reference to contemporary linguistic theory. *** Prerequisite: SAUL 206, or permission of department head. *** |
SAUL 312
Saulteaux Semantics
The study of meaning as applied to the Saulteaux language. The investigation of meaning at the level of the morpheme, word, phrase and sentence. The exploration of Saulteaux semantic components, domains and roles. Meaning variation, context and pragmatics. *** Prerequisite: SAUL 206, or permission of department head. ***

SAUL 313
Saulteaux Syntax
The study of grammatical morphology and word order in Saulteaux with reference to contemporary syntactic theory. The structure of Saulteaux phrases, clauses and sentences. *** Prerequisite: SAUL 206, or permission of department head. ***

SAUL 330
Saulteaux Syllabics
Introduction to the Saulteaux syllabics writing system. Reading and writing in syllabics. *** Prerequisite: SAUL 202 ***

SAUL 340
Oral Tradition of Saulteaux
Stories and legends on audio and video cassettes will be analyzed and transcribed by students. Storytelling sessions with students and elders. Visiting lectures will also be included in the course. *** Prerequisite: SAUL 202 ***

SAUL 390-395
Topics may be chosen from a list of options open to the students. *** Prerequisite: A 300-level Saulteaux course ***

SAUL 410
Seminar in Saulteaux Phonology
Advanced discussion of phonological theory and its application to the Saulteaux sound system. Investigation of complex phenomena in Saulteaux phonology at the word, phrase and sentence levels. *** Prerequisite: SAUL 310 or LING 210 ***

SAUL 411
Seminar in Saulteaux Morphology
Advanced discussion of morphological theory and its application to Saulteaux word structure. Investigation of complex phenomena in Saulteaux morphology. *** Prerequisite: SAUL 311 or LING 211 ***

SAUL 480
Saulteaux Language Field Methods
Advanced survey of field method techniques, including the conducting of interviews, the gathering of linguistic material, and the recording, transcription, and translation of Saulteaux texts. *** Prerequisite: SAUL 340 and LING 380 ***

SAUL 490-495
Courses designed as required by senior undergraduates. *** Prerequisite: Three 300-level Saulteaux courses. *** ** Permission of the Department Head is required to register. **

SOC 100
Introduction to Sociology
This course introduces students to basic sociological concepts, debates, and modes of analysis. Through discussion of issues such as the cultural development of humans, the socialization process and the structures of global society, students will be introduced to the distinctive approach of sociology.

SOC 201
Globalization and Development
This course introduces students to sociological analyzes and theories of the rise of global society. Specific topics may include issues such as the development of capitalist industrial societies, local and global inequalities, and the ways in which economic, technological, and political changes shape the world we live in. *** Prerequisite: SOC 100 or permission of department head. ***

SOC 202
Cities and City Life
This course introduces students to classic and contemporary sociological analyses and theories of urban life. The course normally emphasizes urbanization and urbanism in Canada, but may also examine historical and cross-cultural aspects of urban life. *** Prerequisite: SOC 100 or permission of department head. ***

SOC 203
Canadian Society
This course introduces students to issues of particular relevance to Canadian society. The course considers the historical origins and contemporary expressions of different topics, which may include such things as industrialization and de-industrialization, cultural industries, Canada's position within a global economy, and environmental issues. *** Prerequisite: SOC 100 or permission of department head. ***
impact of social change on family relationships, changing definitions of the family, children's rights, concepts of fatherhood and motherhood, and same-sex marriage. *** Prerequisite: Any 100-level course in the social sciences or permission of department head. ***

SOC 215 3:3-0
The Sociology of Crime and Criminal Justice
This course introduces students to sociological perspectives on the study of crime and justice. The course examines sociological concepts of deviance, punishment, and social control. *** Prerequisite: SOC 100 or permission of department head. ***

SOC 217 3:3-0
Rural Societies
This course introduces students to classic and contemporary sociological perspectives on rural life. Topics include issues such as the impact of the global economy on rural societies, rural to urban migration, and social cohesion and social conflict within rural communities. *** Prerequisite: Any 100-level course in the social sciences or permission of department head. ***

SOC 222 3:3-0
The Sociology of Health
This course introduces students to sociological perspectives on health and illness. The course will examine the history of health care, including the Canadian Health Care System. Current debates over the future of Medicare will be examined, including the relative roles to be played by public and private systems. *** Prerequisite: SOC 100 and one other social science course, or permission of department head. ***

SOC 225 3:3-0
Technology and Society
This course introduces students to an analysis of the role of technology in modern society. Specific topics that the course might cover include the nature of technology practice, technological change, invention, patents and intellectual property, and ethical issues involving technology. *** Prerequisite: SOC 100 or permission of department head. ***

SOC 230 3:3-0
Nature and Society
This course introduces students to social science perspectives on the relationship between society and the natural environment. The course analyzes the ways in which various kinds of people and human actions affect environments. Specific topics that might be covered in this course include sustainability, environmental conflicts, and environmental movements. *** Prerequisite: SOC 100 or permission of department head. ***

SOC 280 3:3-0
History of Sociology
This course introduces students to the origins and development of Sociology as a distinctive mode of social analysis. The course covers the period from the 18th century to the present, with particular emphasis on the period from the mid-19th through the mid-20th centuries. *** Prerequisite: SOC 100, or permission of department head. ***

SOC 290 3:3-0
Models of Social Thinking
This course introduces students to some of the major theoretical paradigms in Sociology. The course investigates the ways in which different modes of sociological thought affect how we perceive, understand, and explain human social relationships and actions. *** Prerequisite: SOC 100, or permission of department head. ***

SOC 300 3:3-0
Issues in Social Policy
This course examines the nature and development of social policies in Canada. It engages with debates about the meaning of social well-being, and how best to promote it locally, nationally, and/or internationally. *** Prerequisite: Two 200-level sociology courses or permission of department head. ***

SOC 301 3:3-0
Origins of Modern Society
This course analyzes the social, political, and economic forces that gave rise to contemporary social conditions. The course includes an overview of different sociological explanations of social development and change. *** Prerequisite: Two 200-level sociology courses, or permission of department head. ***

SOC 302 3:3-0
Issues in Modern Sociology - an AA-ZZ series.
This course examines topics that are important in contemporary Sociology. Specific topics will reflect research interests of members of the Department and will vary in different offerings. Students should check with the Department for more information about any specific section of SOC 302. *** Prerequisite: Two 200-level Sociology courses or permission of department head. ***

SOC 306 3:3-0
Great Social Thinkers - an AA-ZZ series.
This course introduces students to detailed analytical reading in Sociology. Specific topics will vary, and may involve the work of a single social thinker, school of thought, or work. Students should check with the Department of Sociology and Social Studies for information on any specific section of SOC 306. *** Prerequisite: Two 200-level Sociology courses or permission of department head. ***

SOC 307 3:3-0
Sociology of Knowledge
This course introduces students to a detailed analysis of sociological perspectives on the social roots of knowledge and cultural life. It has a particular focus on the ideological main streams of thought in contemporary industrial society. *** Prerequisite: Two 200-level sociology courses or permission of department head. ***

SOC 308 3:3-0
Issues of Power and Justice
This course focuses on sociological explanations of the ways in which societies create and maintain systems of stratification. The course places particular emphasis on the various theories of social class and power that have emerged from the Industrial Revolution to the present day. *** Prerequisite: Two 200-level Sociology courses or permission of the department head. SOC 208 is recommended. ***

SOC 310 3:3-0
Sociology of Work
This course provides an overview of sociological perspectives on work in a globalized world. Specific topics that might be examined in this course include paid and unpaid work, alienation and resistance, and the ways in which class, gender, and race shape experiences and practices of work. *** Prerequisite: Two 200-level Sociology courses or permission of department head. ***

SOC 312 3:3-0
Studies in Feminism
This course analyzes feminist thought as both political practice and as academic discourse. The course examines different perspectives in feminist thought as they relate to other social theories and as they relate to political and social action. *** Prerequisite: Two 200-level sociology courses, or one 200-level sociology course and WMST 200, or WMST 200 and one additional 200-level social science course, or permission of department head. ***

SOC 314 3:3-0
The Sociology of Underdevelopment
This course involves a detailed analysis of aspects of underdevelopment. It introduces students to various sociological theories of underdevelopment in the context of specific topics. Topics that might be covered include specific world regions, particular theoretical issues, or other aspects of underdevelopment. *** Prerequisite: Two 200-level Sociology courses or permission of department head. ***

SOC 315 3:3-0
Case Studies and Issues in Crime and Justice
This course examines selected issues and cases in the field of Canadian crime and justice within the frameworks of traditional and contemporary criminological theory. *** Prerequisite: SOC 215 and one other 200-level course in sociology or permission of department head. ***
SOC 318  
Classical Social Theories  
This course provides an overview of the emergence and development of sociological theories in the 19th and early 20th centuries. ***  
Prerequisite: Two 200-level sociology courses, one of which must be SOC 280 or SOC 290, or permission of department head. ***

SOC 319  
Contemporary Social Theories  
The course provides an overview of the development of sociological theories through the 20th century into the 21st century. ***  
Prerequisite: Two 200-level sociology courses, one of which must be SOC 280 or SOC 290, or permission of department head. ***

SOC 320  
Myth, Meaning, and Modernity  
This class will explore myth as the "deep narratives" that form the basis of human groups, including the changes that modernization brings to systems of meaning and the social consequences of those changes. ***  
Prerequisite: Two 200-level sociology courses, or permission of department head. ***

SOC 325  
Science and Technology  
This course examines the interrelationship between science and technology on the one hand, and social norms and values on the other. Specific topics that might be covered include women and science, the environment, and the social impact of technology. ***  
Prerequisite: Two 200-level courses in sociology, or STS 210 and one other 200-level course in sociology, or permission of department head. ***

SOC 330  
Sociology of the Environment  
This course examines social theories, social concepts, and methodological issues related to the understanding of the environment in classical and modern sociological theory. Specific topics might include the social construction of nature, gender, class, race and the environment, sustainability, and the challenges of interdisciplinarity. ***  
Prerequisite: Two 200-level sociology courses, or permission of department head. ***

SOC 390  
Directed Readings and Research - an AA-ZZ series.  
Courses designed for individual students. ** Permission of the Department Head is required to register. **

SOC 396  
Selected Topics in Sociology - an AA-ZZ series.  
Courses designed as required for groups of senior undergraduates. List and prerequisites vary according to specific topics covered. ** Permission of the Department Head is required to register. **

SOC 400  
Honours Seminar  
A weekly seminar devoted to the discussion of special issues in sociology, to reports of research projects, and to the presentation of papers by both students and faculty. ** Permission of the Department Head is required to register. **

SOC 401  
Honours Seminar  
A weekly seminar devoted to the discussion of special issues in sociology, to reports of research projects, and to the presentation of papers by both students and faculty. ** Permission of the Department Head is required to register. **

SOC 404  
Honours Research  
A senior undergraduate research methods seminar with special focus on controversies in social science methodology. ** Permission of the Department Head is required to register. **

SOC 440  
Theoretical Perspectives on Science, Culture, and Knowledge  
This senior seminar is a capstone class in which students analyze and reflect upon the major theoretical issues in Science, Culture, and Knowledge. ***  
Prerequisite: One 300-level course from Sociology List A and completion of 75 credit hours, or permission of department head. ***

SOC 450  
Theoretical Perspectives on Social Justice  
This senior seminar is a capstone class in which students analyze and reflect upon the major theoretical issues in Social Justice. ***  
Prerequisite: One 300-level course from Sociology List B and completion of 75 credit hours, or permission of department head. ***

SOC 460  
Theoretical Perspectives on Development and the Environment  
This senior seminar is a capstone class in which students analyze and reflect upon the major theoretical issues in Development and the Environment. ***  
Prerequisite: One 300-level course from List C and completion of 75 credit hours, or permission of department head. ***

SOC 480  
Issues in Social Theory  
This senior seminar is a capstone class in which students analyze and reflect upon the major issues in the development of social theory. ***  
Prerequisite: One 300-level course from List D and completion of 75 credit hours, or permission of department head. ***

SOC 490  
Directed Readings - an AA-ZZ series.  
Courses designed for individual students. ** Permission of the Department Head is required to register. **

SOC 496  
Selected Topics in Sociology - an AA-ZZ series.  
Courses designed as required for groups of senior undergraduates. ** Permission of the Department Head is required to register. **

SOC 499  
Honours Paper  
Candidates for the Honours degree work with a committee to prepare an honours paper in accordance with the department's guidelines. **  
Prerequisite: SOC 404 *** ** Permission of the Department Head is required to register. **

SOSC 206  
Essays in Social Thought  
An examination of major themes in social science thought, with an emphasis on the preparation of written work which analyzes and discusses these themes.

SOST 110  
Introduction to Mass Media  
This course introduces students to analyses of the mass media of communication in modern societies.

SOST 201  
Statistics for the Social Sciences  
This course introduces students to the basic methods of statistics with applications to the social sciences. ***  
Prerequisite: Any 100-level course in the social sciences. ***  
Note: Students may not receive credit for both SOST 201 and STAT 151. SOST 201 is a prerequisite for some courses in other departments. Students doing double majors should be sure to take SOST 201 in sequence in order to receive credit for it.

SOST 203  
Social Science Methodology  
A course designed to familiarize the student with the potential and limitations of scientific analysis in the social sciences. Emphasis will be placed on the problems encountered in the selection, observation, classification, and quantification of social phenomena. ***
Prerequisite: Any 100-level course in the social sciences. It is recommended that students complete at least 30 credit hours before taking this course. ***

**SOST 220**  
*The Status of Women in Contemporary Society*
This course analyses the status of women in global society as well as in local societies and cultures. Specific issues covered in this course might include such topics as: women's participation in political life, the impacts of development and economic change on women's lives, and issues of women's health. *** Prerequisite: Any 100-level course in the social sciences or permission of department head. ***

**SOST 306**  
*Applied Methods: Quantitative Approaches*
In this course, students will produce and analyze quantitative data, using a survey and other methods. Students will be introduced to computer programs and use these to assist in writing reports and papers that analyze the data. This class is intended for sociology majors. ** Prerequisite: One 200 or 300-level sociology course and SOST 203, or permission of the department head. ***

**SOST 307**  
*Applied Methods: Qualitative Approaches*
This course is a practical exploration of the principles and methods of qualitative analysis, including interviews, focus groups, participant observation, content analysis, and discourse and media analysis. Students will design and conduct a research project. ** Prerequisite: One 200- or 300-level sociology course and SOST 203, or permission of department head. ***

**SOST 377**  
*Concepts of Time and Space*
This course is an interdisciplinary approach to the analysis of time and space as basic concepts and conditions in people's lives. ** Prerequisite: Four 200-level courses in one or two of the disciplines in the social sciences, the humanities, fine arts, education, and science, or permission of department head. ***

**SOST 390**  
*Directed Readings - an AA-ZZ series.*
Courses designed for individual students. ** Permission of the Department Head is required to register. **

**SOST 396**  
*Selected Topics - an AA-ZZ series.*
Courses designed as required for groups of senior undergraduates. ** Permission of the Department Head is required to register. **

**SOST 490**  
*Directed Readings - an AA-ZZ series.*
Courses designed for individual students. ** Permission of the Department Head is required to register. **

**SOST 496**  
*Selected Topics - an AA-ZZ series.*
Courses designed as required for groups of senior undergraduates. ** Permission of the Department Head is required to register. **

<tr>
<th>SPAN</th>
<th>Spanish</th>
</tr>
</thead>
<tbody>
<tr>
<td>Faculty of Arts</td>
<td>Department of International Languages</td>
</tr>
</tbody>
</table>

**SPAN 100**  
*Introductory Spanish I*
Focuses on the acquisition of basic skills of pronunciation, reading, writing, and conversation, for students with little or no Spanish experience. Includes instruction in basic grammar, syntax, and vocabulary for culturally appropriate interaction. ** Prerequisite: No previous background in Spanish. Refer to the Department of International Languages Section of the Undergraduate Calendar (How to Choose a Language) for details. ** Note: Students may not receive credit for both SPAN 100 and SPAN 110. *

**SPAN 101**  
*Introductory Spanish II*
A continuation of the skill development started in SPAN 100. Emphasis on a variety of verb tenses and moods, as well as expansion of basic vocabulary. ** Prerequisite: SPAN 100 or Grade 12 Spanish, or permission of department head. ** Note: Students may not receive credit for both SPAN 101 and SPAN 110. *

**SPAN 103**  
*Spanish for Heritage Speakers I*
For students who have oral ability in Spanish but no formal study (students from Spanish speaking families). Focuses on the development of reading and writing skills, grammar, spelling and vocabulary expansion. ** Permission of the Department Head is required to register. ** Note: Students who have taken SPAN 100, 101, or 110 will not be able to take 103 for credit. *

**SPAN 110**  
*Intensive Spanish for Beginners*
This course combines the material of SPAN 100 and SPAN 101. ** Prerequisite: No previous background in Spanish. ** Note: Students cannot receive credit for SPAN 100 or 101, and SPAN 110. *

**SPAN 200**  
*Intermediate Spanish I*
Further development of oral and written skills through the intensive review and expansion of basic grammatical concepts and the expansion of vocabulary and culturally appropriate communication through oral activities, readings and compositions. ** Prerequisite: SPAN 101 or 110 or permission of the department. ** Note: Students may not receive credit for both SPAN 200 and 210. *

**SPAN 201**  
*Intermediate Spanish II*
A continuation of Spanish 200. ** Prerequisite: SPAN 200 or permission of the department. ** Note: Students may not receive credit for both SPAN 201 and SPAN 210. *

**SPAN 203**  
*Spanish for Heritage Speakers II*
A continuation of the skill development begun in SPAN 103. Stronger emphasis on grammar content, verb tenses, syntax, reading and writing. ** Prerequisite: SPAN 103 *** Note: Students who have taken Spanish 200, 201, or 210 will not be able to take Spanish 203 for credit. *

**SPAN 210**  
*Intensive Intermediate Spanish*
This course combines the material of SPAN 200 and SPAN 201. ** Prerequisite: SPAN 101 or 110 or permission of the department. ** Note: Students may not receive credit for SPAN 200 or SPAN 201, and SPAN 210. *

**SPAN 215**  
*Introduction to Hispanic Culture*
Expands on the cultural knowledge acquired in the Spanish language courses. An introduction to the Spanish-speaking regions of the world, and the study of some traditional distinctive features of Hispanic societies. ** Prerequisite: SPAN 200 or 203 ***

**SPAN 290**  
*Selected Topics in Hispanic Studies - an AA-ZZ series.*
Study of a selected topic or topics in Hispanic literature or culture. ** Prerequisite: SPAN 200 or 203, and SPAN 215 ***

**SPAN 300**  
*Advanced Spanish I*
Continued development of oral and written communication. Emphasis is on the study of problematic points of grammar and idiomatic usage, as well as vocabulary expansion, through readings, compositions, presentations and class discussions. ** Prerequisite: SPAN 201, 203, or 210 ***

**SPAN 301**  
*Advanced Spanish II*
A continuation of Spanish 300. ** Prerequisite: SPAN 300 ***

**SPAN 320**  
*Formerly SPAN 315*  
*Spanish American Civilization*
This course examines the historical bases and cultural movements that formed the identity of Spanish Americans. Students are invited to amplify their language and analytical skills through an interdisciplinary study of the civilizations of Spanish Americans and the role they play in the community of nations. ** Prerequisite: SPAN 201 or SPAN 203, and SPAN 215, or permission of department. ***
SPAN 321 (formerly SPAN 415)  3:3-0
Spanish Civilization
This course examines the historical bases and cultural movements that formed Spain. Students are invited to amplify their language and analytical skills through an interdisciplinary study of the civilization of Spain and the role it plays in the community of nations. *** Prerequisite: SPAN 201 or SPAN 203, and SPAN 215, or permission of department. ***

SPAN 390  3:3-0
These courses are designed to increase students' skills in reading, writing, comprehension and communication. ** Permission of the Department Head is required to register. **

SPAN 400  3:3-0
Selected Topics in Spanish Language
Emphasis on study of advanced points of grammar, stylistics and idiomatic usage through reading, writing, translation and discussion. *** Prerequisite: SPAN 301 ***

SPAN 420  3:3-0
Spanish American Literature
A study of the main literary trends and authors of Spanish America from the pre-Columbian period to the present through an exploration of their social, historical, ideological and aesthetic contexts. It is designed to encourage students' critical reading and further develop their language skills. *** Prerequisite: SPAN 320 or SPAN 321, or permission of department. ***

SPAN 421 (formerly SPAN 416)  3:3-0
Spanish Literature
A study of the main literary trends and authors of Spain through an exploration of their social, historical, ideological and aesthetic contexts. It is designed to encourage students' critical reading and further develop their language skills. *** Prerequisite: SPAN 320 or SPAN 321, or permission of department. ***

SPAN 490  3:3-0
** Permission of the Department Head is required to register. **

STAT 051 - 054  0:0-0
Statistics Co-op Work Term I - IV
Four-month Co-op work term approved by the department and arranged by the Co-op coordinator.

STAT 151  3:3-0
Statistical Methods I
An introductory course in statistical methods including descriptive statistics, bivariate data, probability, and statistical inference. *** Prerequisite: Algebra 20 or Mathematics A30. ** * Note: Students may not receive credit for this course if they have received credit for EPSY 320, SOST 201 or STAT 289 *

STAT 152  3:3-0
Statistical Methods II
A continuation of STAT 151. Topics include inferences involving variances, regression, correlation, chi-squared tests, analysis of variance, multiple regressions and non-parametric tests. *** Prerequisite: STAT 151 with a grade of at least 60%. *** * Note: STAT 152 is a service course for other disciplines and is not intended for statistics majors. *

STAT 251  3:3-0
Probability Distributions
Discrete and continuous random variables, their distributions and moments. The central limit theorem. *** Prerequisite: STAT 151 and MATH 111 with grades of at least 60%. ***

STAT 252  3:3-0
Mathematical Statistics
Estimation, hypothesis testing, least square estimation, analysis of variance, categorical data analysis, and non-parametrics statistics. *** Prerequisite: STAT 251 with a grade of at least 60%, ***

STAT 254  3:3-1
Applied Regression Analysis
Diagnostics in simple linear regression, multiple linear regression, and an introduction to analysis of variance. At least one statistical computer package will be introduced. *** Prerequisite: STAT 151 with a grade of at least 60%. ***

STAT 257  3:3-1
Applied Sampling Techniques
Simple random sampling, systematic sampling, stratified and cluster sampling, ratio and regression estimators. *** Prerequisite: STAT 151 with a grade of at least 60%. ***

STAT 289  3:3-0
Statistics & Numerical Analysis for Engineers
Topics include probability, distributions, confidence levels, standard deviation, linear regression, statistical tests, finite differences, errors, numerical solutions of equations, numerical differentiation and integration. *** Prerequisite: MATH 111 with a grade of at least 60%. *** * Note: STAT 289 is designed for engineering students. Students may not receive credit for both STAT 289 and STAT 151. *

STAT 296  3:3-0
Non Parametric Methods
Review of probability theory and basic concepts of statistical inference, tests and confidence intervals based on the binomial distribution methods based on ranks (two or more independent samples, two or more related samples), goodness-of-fit tests. *** Prerequisite: STAT 151 with a grade of at least 60%. ***

STAT 351  3:3-0
Probability I
Multivariate random variables, conditioning, order statistics, the multivariate normal distribution, convergence, Poisson process. *** Prerequisite: STAT 251 and MATH 213 with grades of at least 60%. ***

STAT 352  3:3-0
Advanced Mathematical Statistics
Properties of tests of statistical hypotheses including power, uniformly most powerful tests and maximum likelihood tests. Properties of estimators. The Rao-Blackwell theorem, Cramer-Rao inequality and their proofs. *** Prerequisite: STAT 252 with a grade of at least 60%. ***

STAT 354  3:3-0
Linear Statistical Models
Linear models. Least squares method, the normal equations and least squares estimates. Single factor and two factor experiments, fixed effects. *** Prerequisite: STAT 252 and MATH 122 with grades of at least 60%. ***

STAT 357  3:3-0
Sampling Theory
Simple random sampling, stratified random sampling, ratio and regression estimators, systematic and cluster sampling. *** Prerequisite: STAT 252 with a grade of at least 60%. ***

STAT 359  3:3-0
Experimental Design
Topics include completely randomized designs, analysis of covariance, randomized complete block designs, Latin square designs and an introduction to factorial designs. *** Prerequisite: STAT 252 or 352 with a grade of at least 60%. ***

STAT 384  3:3-0
Categorical Data Analysis
Odds ratio, measures of correlation, two-way and higher-way contingency tables, log-linear and logit models, multinomial response models, and models for matched pairs. *** Prerequisite: STAT 252 or 352 with a grade of at least 60%. ***

STAT 391  3:3-0
Statistical Computing
Generation of random numbers, linear and nonlinear least squares problems, general optimization methods, resampling methods and simulation methods. *** Prerequisite: CS 109 or 110, and STAT 251 with grades of at least 60%. ***
Science and Technology in the Ancient World
This class surveys the origins of science in China, India, the Ancient Near East, and Europe to the fifth century CE. *** Prerequisite: Completion of 15 credit hours. ***

STS 231
Science and Technology in the Medieval World
This class surveys the development of science in China, India, Islam, and Europe from the fifth century CE to the Renaissance. *** Prerequisite: Completion of 15 credit hours. ***

STS 232
History of Astronomy
A survey of the development of astronomy, from its origins in the ancient civilizations of Babylon, Egypt, and Greece, to modern times. *** Prerequisite: ASTR 101 or completion of 15 credit hours. ***

STS 270
Theories and Methods in Science and Technology Studies
STS is an interdisciplinary field of study. This class introduces students to the major theories, methods, and approaches used in STS. *** Prerequisite: Any STS course or completion of 15 credit hours. ***

STS 271
Science, Technology and Gender
This class examines the role of gender in the practice of science and technology. Issues include the history of women in, and exclusion from, science and technology, the feminist critique of science, and the gendering of technology. *** Prerequisite: Any STS course or WMST 100 or completion of 15 credit hours. ***

STS 330
The Darwin Controversies
This class will examine the scientific, political, and religious controversies surrounding the theory of evolution from the nineteenth century to the present. *** Prerequisite: STS 200 or completion of 30 credit hours. ***

STS 331 (formerly HPS 350)
Concepts of Matter, Time, Space, and Motion
Study of selected writings from antiquity to the present on the concepts of Geometry, Space, Time, Space-Time, Matter, and Motion. *** Prerequisite: PHIL 241 or completion of 60 credit hours. ***

STS 370 (formerly HPS 341)
The Rationality of Science
Controversy between rationalists (e.g., Popper, Lakatos) and non-rationalists (e.g., Kuhn, Feyerabend) regarding scientific methods, progress, objectivity, truth, knowledge and interest, ideologies and research traditions, and realism and antirealism. *** Prerequisite: PHIL 241 or completion of 60 credit hours. ***

STS 371
Philosophy of Biology
An examination of a range of philosophical questions concerning the theory of evolution: the debate between evolutionism and creationism; questions concerning fitness, adaptationism, the units of selection, systematics, sociobiology, and clonal ethics; questions such as: are there laws in biology? is biology reducible to physics? *** Prerequisite: STS 330 or one 200-level philosophy course (PHIL 241 is recommended) or completion of 30 credit hours. ***

STS 372
Issues in Cognitive Science
An examination of the various theories that have influenced psychological and computational theorising, leading to an appreciation of the interdisciplinary connections uniting different areas of cognitive science. *** Prerequisite: PSYC 270 or PHIL 231 or completion of 30 credit hours. ***

STS 373
Technology in the Non-Western World
This class will examine the nature and role of technology in both traditional cultures and developing societies. This will be done in context of the alternative values and social institutions that exist in those societies. Issues involving globalization and technology transfer will also be addressed. *** Prerequisite: One 200-level STS course or permission of the STS coordinator. ***

STS 400
Theoretical Perspectives on Science and Technology
Successful completion of 30 university credits (including transfer credit) is a prerequisite to register in all 300- and 400-level Social Work courses. This prerequisite does not apply to First Nations University of Canada, Yukon BSW or Aurora CSW students.

Women's responses, including their collective efforts to make change, are considered. *** Prerequisite: Completion of 30 credit hours. ***

** SW 410 Work, Unemployment and Social Work **
This course is designed to help students understand the relationship between unemployment, work, and labour market issues, and social welfare policy and social work practice. The class draws on a range of social, economic and political theory and date, and seeks to relate them to everyday issues of practice. *** Prerequisite: Completion of 30 credit hours. ***

** SW 411 Social Work with Victims of Abuse **
This course will focus on 1)physical, emotional, and sexual abuse perpetrated by persons in positions of trust on less powerful individuals, and 2)sexual assault by strangers. Individual, community-based, and societal responses to all individuals involved (victims, perpetrators, family members) will be explored. The roles played by the helping professionals in the social service, legal, medical, criminal justice fields as well as lobby groups and support services will be discussed. *** Prerequisite: Completion of 30 credit hours. ***

** SW 412 Mental Health Services **
An examination of the structure and function of mental health services in society with particular reference to their historical, ideological and theoretical foundation and some current issues, problems and trends. *** Prerequisite: Completion of 30 credit hours. ***

** SW 414 Social Work Practice in Child Welfare **
This course will focus on the field of child welfare and specifically on the roles played by social workers in child welfare. Emphasis will be placed on the current national and provincial governing child welfare practice and current issues facing child welfare service delivery. *** Prerequisite: Completion of 30 credit hours. ***

** SW 415 Poverty, Human Service and Social Welfare **
This course will examine the values, ideological and structural issues and principles underlying the poverty issue in a historical context, critically assess the effectiveness of the role of poverty, and related concepts such as equality, equity, fairness, etc. *** Prerequisite: Completion of 30 credit hours. ***

** SW 416 Aging **
This course considers social work practice, research, education and policy with seniors. Attention will be on the majority living in the community as well as the small minority who are institutionalized. Adaptation of generic social work skills in effective intervention with and on behalf of seniors will be examined. *** Prerequisite: Completion of 30 credit hours. ***

** SW 417 Alcohol and Other Drug Abuse **
This course will discuss alcohol and other drugs in terms of their effects on individuals, families and society. *** Prerequisite: Completion of 30 credit hours. ***

** SW 418 Social Work with Multicultural Communities **
Issues in multiculturalism within Canadian society and social work practice and policy are the focus of this course. Topics covered include various theoretical perspectives on multiculturalism, religious diversity and issues of systemic oppression. Experiences of immigrants and refugees, including barriers to integration are considered. *** Prerequisite: Completion of 30 credit hours. ***

** SW 419 Social Work in Rural Settings **
Rural social problems and issues as well as the political and economic settings in which they occur will be explored. Theories and concepts useful in the performance of rural social work will be a major focus. *** Prerequisite: Completion of 30 credit hours. ***

** SW 420 The Legal Environment of Social Work Practice **
The practice of social work has long been intertwined with the practice of law and the legal systems of society. This course will review legislation pertinent to social service programs, that governing the professional practice of social work, and the duties and obligations of social workers giving evidence before legal tribunals. *** Prerequisite: Completion of 30 credit hours. ***

** SW 421 Human Growth and Behaviour **
This course considers major biological, psychological, social and cultural factors of normal growth and behaviour throughout the life cycle. Fundamental ideas from a range of theories pertinent to various practices of social workers will be reviewed. Emphasis in the course is placed on the individual's continuing adaptation as a person families, groups, organizations and communities. *** Prerequisite: Completion of 30 credit hours. ***

** SW 425 Social Work Practice with Groups **
This course will provide students with an introduction to group work theory and practice. This course will provide the student with a beginning level of understanding of group work theory and develop beginning level group work skills. *** Prerequisite: Completion of 30 credit hours. SW 346 is recommended. ***

** SW 427 Expressive Arts and Play **
This is an interdisciplinary course that introduces art, dance, drama, music, narrative and play as expressive approaches to work in the helping professions. The emphasis in this course is on use of the expressive arts and play as means of communication for a broad cross section of the population. *** Prerequisite: Successful completion of 30 university credits (including transfer credit). ***

** SW 437 Social Work with Families **
This course is an introduction to understanding and working with families. Emphasis is on the family as a system progressing through the family life cycle. Several dimensions of family functioning will be discussed. Students will be exposed to various approaches to family practice. *** Prerequisite: Completion of 30 credit hours. SW 346 is recommended. ***

** SW 438 Interdisciplinary Approaches to Human Service Practice **
Attention will be given to functions and responsibilities of various professionals using a multi-disciplinary approach. Topics covered will include: assessment and diagnosis of behavioral, emotional and learning disorders, treatment approaches, professional roles, use of community resources and evaluation of outcome in therapy. Case studies will be used to illustrate important principles. *** Prerequisite: Completion of 30 credit hours. ***

** SW 440 Counselling Theories and Skills **
This is a survey of several counselling theories and approaches with specific emphasis on their application. The course will look at the counselling relationship and the counselling process in a variety of help situations. From a generalist orientation, focus will be on the social worker in the role of counselor, both with individuals and groups. *** Prerequisite: Completion of 30 credit hours. ***

** SW 444 Social Work Practicum II **
Required of all students. Students with support of agency supervision become directly involved in social work services, systems within the community and experience socially responsible professional practice. Seminars assist in the integration of theory and practice by
broadening the professional knowledge base through sharing of experience and knowledge. **Prerequisite: SW 210, 350, 346, 347, 390, 451, 460 and SW 469**. *Note: All students must have a minimum GPA of 70% on the social work portion of the BSW to be eligible to register for SW 448. CSW students require a minimum GPA of 70% on all courses taken up to the point of application.* **Prerequisite: Completion of 30 credit hours.***

**SW 450**

**Community Work in Generalist Practice**

This course examines the principles, concepts, values, traditions, processes and practices of community work locally, nationally and internationally. It explores options and strategies open to the social worker to mobilize resources and enhance community autonomy. **Prerequisite: Completion of 30 credit hours.***

**SW 451**

**Introduction to Human Service Research**

Students will examine research and methodologies specific to contemporary social work and social welfare studies. Attention is given to outcomes, statistical analysis and other research procedures, as well as applications for social work practice and agency policy decisions. **Prerequisite: Completion of 30 credit hours.*** *Note: Not recommended as a first social work course.*

**SW 458**

**SW Practicum II**

This course is required for all degree students. Its purpose will be to increase the student's ability and skill in the area of social work intervention through practice. It is intended that students will pick up from where they left off in Practicum I. **Prerequisite: Approval of faculty practicum co-ordinator. All students must successfully complete SW 447 with a GPA of 70%, SIFC students only.***

**SW 460**

**Ethics in Social Work**

This course is designed to sensitize students to the central role of ethics in modern Social Work practice. The course deals with the theory and value foundations of Social Work practice, the issue of the relation between the diverse value systems in Canadian society and Social Work values, and the major ethical dilemmas and issues in Social Work practice. **Prerequisite: Completion of 30 credit hours.***

**SW 465**

**Program Development and Service Delivery Systems**

This course considers social policy as a field of study and practice for social workers, the development of social policy as well as characteristics, functions and processes common to human service organization and delivery systems. A base for understanding the interaction of the values, structures, policies and services will be provided through study of social work and as resources provided by the instructor. Canadian and international approaches... **Prerequisite: Completion of 30 credit hours.***

**SW 468**

**History of Social Services**

Aspects of the history and philosophy of social welfare with a focus on the legacy of the poor law era as reflected in early Canadian health and welfare systems. Consideration of the values and ethical base of the social services and profession of social work. **Prerequisite: Completion of 30 credit hours.***

**SW 469**

**Contemporary Social Welfare Policy**

This course focuses on the relationship between post-World War II social policy and the western Welfare state, examining the links between economic, political, and ethical views of society and outcomes in response to human needs. Consideration will be given to current social policy trends and their implications for social policy programs and Social Work practice. **Prerequisite: Completion of 30 credit hours.***

**SW 470**

**Social Work in Health Settings**

The course will focus on the knowledge, attitudes and skills social workers need in order to practice effectively in health care settings. Case studies will be utilized to illustrate the intricacies of issues in health care and encourage critical analysis by students. **Prerequisite: Completion of 30 credit hours.***
THEA 130 3:3-3
Introduction to Costume Construction
An introduction to the craft of costume construction, pattern drafting, sewing techniques, cutting, fabrics and their application to theatre costume.

THEA 140 3:3-0
Introduction to Stage Management
A study of basic techniques used by the stage manager, including assembling the prompt book, rehearsal and performance procedures, equipment. * Note: Offered in fall semester. *

THEA 150 3:3-0
Dramaturgy I
An introduction to the fundamentals of play analysis with an emphasis on modern and post-modern texts. The course will explore the dynamic of the relationship between script, stage and audience.

THEA 160 3:3-0
Introduction to Acting
A basic course in actor development that focuses on exploring the acting problem through theatre games, character study and ensemble playing.

THEA 221 3:3-3
Stage Properties
An introduction to the materials and techniques of the design and construction of stage properties. Skills acquired in class will be applied to production. *** Prerequisite: THEA 120 ***

THEA 222 3:3-0
Elementary Scene Design
An introduction to the work of the scene designer: a study of design techniques with emphasis on solving spatial and textural problems; three-dimensional projects. *** Prerequisite: THEA 120 or permission of department head. *** * Note: Offered in winter semester. *

THEA 231 3:3-0
Elementary Costume Design
Introduction to costume design principles of line and form. Continuation of construction and cutting techniques begun in THEA 130 applied to design of production costumes. *** Prerequisite: THEA 130 *** * Note: Offered in winter semester. *

THEA 241 3:1-4
Technical Theatre
A practical examination of the theatre technician's role in stage carpentry, rigging and the movement of scenery, including the study of equipment specifications and developments in theatre technology.

THEA 242 3:1-4
Practical Stage Management
The theory and practice of stage management is expanded to include working on a Department Production. *** Prerequisite: THEA 140 *** ** Permission of the Department Head is required to register. **

THEA 243 3:1-4
Elementary Lighting
A study of lighting that includes instruments, control boards, colour media, basic electricity and hang and focus procedures.

THEA 244 3:1-4
Elementary Sound
An introduction to the equipment and techniques used to construct sound scores and reinforced sound.

THEA 250 3:3-0
Dramaturgy II
Introduction to the work of a professional dramaturge, including the analysis and preparation of pre-modern plays for performance and critical and historical materials for director, designer, actor, and audience. *** Prerequisite: THEA 150 ***

THEA 251 3:3-0
Historical Approaches to Theatre
An introduction to the sources, methodology, theory and application of historical approaches related to the study and practice of theatre, with emphasis on current approaches and various theatrical periods. *** Prerequisite: THEA 150, concurrent enrolment allowed. ***

THEA 252 3:3-0
Critical Approaches to Theatre
An introduction to the methodology, theory, and application of critical approaches to drama as text and in production, with emphasis on current approaches and plays of various styles and periods. *** Prerequisite: THEA 150, concurrent enrolment allowed. ***

THEA 260 3:1-4
Acting Theory and Practice
A basic study of theories on acting: what the actor's problems are and how the great actors and theorists of the past and present have solved them. * Note: Offered in winter semester. *

THEA 261 3:1-4
Acting I
A course in actor development that explores the actor problem through theatre games and ensemble playing, with special emphasis on improvisation and specialized approaches to character study. * Note: Offered in fall semester. *

THEA 262 3:1-4
Acting II
A continuation of the actor development work taken in THEA 261, with the application of acting techniques to the study of text. *** Prerequisite: A grade of 70% or higher in THEA 261. *** ** Permission of the Department Head is required to register. ** * Note: Offered in winter semester. *

THEA 271 3:1-0
Voice I
A basic course in voice production, including such things as breathing and centering, placement, articulation, and projection. * Note: Offered in fall semester in odd numbered years only. *

THEA 272 3:1-0
Movement & Dance I
A basic course in movement for actors. * Note: Offered in fall semester in odd numbered years only. *

THEA 273 3:1-0
Voice II
A continuation of work done in THEA 271, with more emphasis placed on the "actor" and the vocal skills required for her or his craft, rather than on the self. *** Prerequisite: A grade of 70% or higher in THEA 271 *** *Offered in winter semester in even numbered years only.*

THEA 274 3:1-0
Movement & Dance II
A continuation of the work in THEA 272 with emphasis placed in the "actor" and the physical skills required for her or his craft, rather than on the self. *** Prerequisite: A grade of 70% or higher in THEA 272. *** *Offered in winter semester in even numbered years only.*

THEA 323 3:3-0
Intermediate Scene Design
A continuation of the work done in THEA 222; an applied study of stage and scene design problems; orthographic projects. *** Prerequisite: THEA 222 *** * Note: Offered in fall semester only. *

THEA 324 3:3-0
Advanced Design I
An advanced study of specific practical problems in design; preparation and completion of comprehensive design projects. *** Prerequisite: THEA 323 *** * Note: Offered in winter semester only. *

THEA 332 3:3-0
Intermediate Costume Design
Design techniques as related to theatre costume. Emphasis on renderings, scale models, methods and materials. Period drafting and cutting costume props. Historical research. *** Prerequisite: THEA 231 *** * Note: Offered in fall semester only. *

THEA 333 3:3-0
Costume History
The study of clothing draped and closed. Emphasis on social political and economic effects on line, form and decoration of historical costume as related to theatre costume. *** Prerequisite: THEA 231 ***
THEA 334
Advanced Design II
An advanced study of costume design and practical application. Preparation and completion of a costume design project related to a production. *** Prerequisite: THEA 332 ***

THEA 344
Intermediate Technical Theatre
Studying the role of the technical director in the planning and realization of productions, with emphasis on the structural aspects of design. *** Prerequisite: THEA 241 ***

THEA 345
Production Management
Research into current practices of production administration and management. *** Prerequisite: THEA 140 ***

THEA 346
Intermediate Lighting
Examining the principles, theories, and equipment employed by a lighting designer. Areas of investigation include color; light sources, and control systems, drafting of plans and script analysis. *** Prerequisite: THEA 243 ***

THEA 350
Studies in Greek and Roman Theatre
Studies in the history and literature of Greek and Roman theatre. *** Prerequisite: One of THEA 250, 251, 252, or Two 100 level HIST and/or ENGL courses. ***

THEA 351
Studies in Theatre of the Middle Ages and 16th Century Italy
Studies in the history and literature of the European theatre in the Middle Ages and Italian Renaissance. *** Prerequisite: One of THEA 250, 251, 252, or two 100 level HIST and/or ENGL courses. ***

THEA 352
Studies in Tudor and Stuart Theatre
Studies in the history and literature of the English theatre during the Tudor and Stuart periods. *** Prerequisite: One of THEA 250, 251, 252, or two 100 level HIST and/or ENGL courses. ***

THEA 353
Studies in Theatre of the Golden Age of Spain & French Neoclassicism
Studies in the history and literature of the theatre of the Spanish Golden Age and neoclassical France. *** Prerequisite: One of THEA 250, 251, 252, or two 100 level HIST and/or ENGL courses. ***

THEA 354
Studies in Restoration and Eighteenth-Century Theatre
Studies in the history and literature of Restoration and eighteenth-century theatre. *** Prerequisite: One of THEA 250, 251, 252, or two 100 level HIST and/or ENGL courses. ***

THEA 355
Romanticism, Popular Theatre and Musical Theatre in the 19th Century
Studies in the history and literature of the nineteenth century, including romanticism and musical theatre. *** Prerequisite: One of THEA 250, 251, 252, or two 100 level HIST and/or ENGL courses. ***

THEA 356
Studies in Realism and Naturalism
Studies in the history and literature relating the modern theatrical styles of realism and naturalism. *** Prerequisite: One of THEA 250, 251, 252, or two 100 level HIST and/or ENGL courses. ***

THEA 357
Studies in Symbolism, Surrealism, and the Absurd
Studies in the history and literature relating the modern theatrical styles of symbolism, surrealism, and the absurd. *** Prerequisite: One of THEA 250, 251, 252, or two 100 level HIST and/or ENGL courses. ***

THEA 358
Studies in Expressionism and Epic Theatre
Studies in the history and literature relating the modern theatrical styles of expressionist, epic and documentary theatre. *** Prerequisite: One of THEA 250, 251, 252, or two 100 level HIST and/or ENGL courses. ***

THEA 359
Studies in Post-Modern Theatre
Studies in the history and literature relating to theatre in the post-modern period. *** Prerequisite: One of THEA 250, 251, 252, or two 100 level HIST and/or ENGL courses. ***

THEA 363
Acting III
Continues the actor development work of the prerequisite courses and expands the study of technique and text with work on several scenes and the presentation of a final course project. *** Prerequisite: A grade of 70% or higher in THEA 262 *** ** Permission of the Department Head is required to register. ** * Note: Offered in fall semester only. *

THEA 364
Acting IV
Continues the scene work of Acting III, and expands the study of acting technique through rehearsing and performing a role in a department production. *** Prerequisite: A grade of 70% or higher in THEA 363. *** ** Permission of the Department Head is required to register. ** * Note: Offered in winter semester only. *

THEA 365
Supervised research, rehearsal and production work designed as required for individual students working on productions. This course will normally be taken in conjunction with another theatre course.

THEA 375
Voice III
A continuation of work in THEA 273. *** Prerequisite: THEA 273. *** * Note: Offered in fall semester, in even numbered years only. *

THEA 376
Movement & Dance III
A continuation of work in THEA 274. *** Prerequisite: THEA 274. *** * Note: Offered in fall semester in even numbered years only. *

THEA 377
Voice IV
A continuation of work in THEA 375. *** Prerequisite: THEA 375 *** * Note: Offered in winter semester in odd numbered years only. *

THEA 378
Movement & Dance IV
A continuation of work in THEA 376. *** Prerequisite: THEA 376. *** * Note: Offered in winter semester, odd numbered years only. *

THEA 380
Studies in Canadian Theatre
Studies in Canadian theatre history and drama. *** Prerequisite: One of THEA 250, 251, 252, or two 100 level HIST and/or ENGL courses. ***

THEA 381
Selected Topics - an AA-ZZ series.
Courses in special subjects as required for groups of senior undergraduates.

THEA 390
Directed Study - an AA-ZZ series.
Supervised reading and research designed as required for individual students. This course will normally be taken in conjunction with another 300 or 400 level course. ** Permission of the Department Head is required to register. **

THEA 396
Directed Study for Honours Students
Supervised reading and research involving advanced research materials and methodology and study relating to an increasingly focused research topic. *** Prerequisite: THEA 250, 251, and 252, and admission to the honours program. ***

THEA 397
Theatre Study Tour
A tour to a major theatre centre involving attendance at plays, backstage tours, lectures, and demonstrations, and at least one substantial piece of writing. ** Permission of the Department Head is required to register. **
THEA 410  3:3-3
Directing
An introduction to the theory and practice of stage direction; scene work, and analysis in the classroom. ** Permission of the Department Head is required to register. **

THEA 411  3:0-3
Playwriting I-One-Act Plays
Composition of original one-act scripts with detailed discussion of dramaturgical problems having to do with such matters as style, structure, and characterization. ** Permission of the Department Head is required to register. **

THEA 412  3:0-3
Playwriting II-Full-Length Plays
Composition of original full-length scripts with detailed discussion of dramaturgical problems having to do with such matters as style, structure, and characterization. *** Prerequisite: THEA 411 or ENGL 252 *** **Permission of the Department Head is required to register. **

THEA 425  3:3-1
Scene Design Research I
Research and preparation for a completed scenic design project supervised by the departmental designer; completion of related academic assignments. *** Prerequisite: An average of at least 75% on four design courses above the 200 level. ***

THEA 426  6:3-6
Scene Design II
Planning, supervising, and mounting a completed scenic design project for a department production; completion of related academic assignments. *** Prerequisite: A grade of at least 75% in THEA 425. ***

THEA 429  3:1-4
Design Assistantship
A course in which the student works as a design assistant for a production designed by a faculty member. *** Prerequisite: A grade of 75% or higher in THEA 334. ***

THEA 435  3:3-1
Costume Design/Research I
Research and preparation for a completed costume project; completion of related academic assignments supervised by the departmental designer. *** Prerequisite: An average of 75% in four design courses above the 200 level. ***

THEA 436  6:3-6
Costume Design II
An advanced study of specific practical problems in costume design. Preparation and completion of comprehensive design projects for a production. *** Prerequisite: THEA 435 ***

THEA 437  3:3-3
Design Portfolio
Study of professional practice and the documentation of projects relevant for graduate studies and the profession. *** Prerequisite: THEA 425 or 435 ***

THEA 446  6:1-4
Lighting Design Practice and Theory
Theoretical and practical approaches to lighting design, including a major lighting design project. *** Prerequisite: THEA 346 ***

THEA 447  6:1-4
Production Management/Technical Direction
The practice of production management and technical direction including production organization, management practices, production scheduling, budgeting and resource management. ** Permission of the Department Head is required to register. **

THEA 450  3:3-0
Studies in Theatre Aesthetics
Studies relating to dramatic theory and criticism from Aristotle to the postmodern period. *** Prerequisite: One of THEA 350-359, or a 200-level HIST or literature course in any language. ***

THEA 451  3:3-0
Applied Criticism
Theory and practice of preparing reviews and critiques relating to theatrical productions. Students will be required to attend plays and present several reviews or critiques in written and oral form.

THEA 452  3:3-0
Advanced Studies in Dramaturgy - an AA-ZZ series.
Designed for advanced dramatic students wishing to undertake a focused research project, possibly in conjunction with a practical project involving a production or new play development.

THEA 454  3:3-0
Selected Topics in Theatre History - an AA-ZZ series.
The study of selected topics in theatre history and/or literature at the advanced level. For details of the specific topic to be studied each semester, consult the Theatre Department.

THEA 456  3:3-0
Comparative Studies in Theatrical Style, Form, and/or Place - an AA-ZZ series.
The comparative study of selected theatrical styles and forms, possibly relative to different cultures or regions. For details of the specific topic to be studied each semester, consult the Theatre Department.

THEA 459  3:3-0
Advanced Studies in Canadian Theatre and Drama
The advanced study of selected topics in Canadian theatre. For details of the specific topic to be studied each semester, consult the Theatre Department. *** Prerequisite: One of THEA 350-359 or a 200-level HIST or literature course in any language. ***

THEA 463  3:3-3
Acting Styles I
An examination of the acting styles of different periods and genres, and how the actor incorporates such into performance by developing style as part of character. *** Prerequisite: THEA 364 *** * Note: Offered in fall semester only. *

THEA 464  3:3-3
Acting Styles II
A continuation of the work in Acting Styles I. *** Prerequisite: THEA 463 *** * Note: Offered in winter semester only. *

THEA 467  3:0-6
Performance in Production I
Public performance of a role in a department production. ** Permission of the Department Head is required to register. **

THEA 468  3-6:0-3-6
Performance in Production II
Public performance of a role in a department production. ** Permission of the Department Head is required to register. **

THEA 481  3-6:3-6-0
Selected Topics - an AA-ZZ series.
Courses in special subjects as required for groups of senior undergraduates.

THEA 490  1-6:1-6-0
Directed Study - an AA-ZZ series.
Supervised reading and research designed as a graduating project for individual students. This course will normally be taken in conjunction with another 300 or 400 level course.

THEA 496  3:0-1
Directed Studies for Senior Honours Students
Supervised reading and research involving primary research materials and the development of a proposal for a research topic suitable for the honours essay. *** Prerequisite: THEA 396 ***

THEA 497  3:0-1
Honours Essay
Supervised research and writing of the honours essay. *** Prerequisite: THEA 496 ***
UNIV University

Student Affairs

As University 100 and University 110 are designed to support first-year success, students are encouraged to register in these courses. These courses encourage the development of skills expected of graduates.

Note: Other faculties may not accept UNIV 100 and/or UNIV 110 for credit towards a degree program. The courses are used in the total number of attempted hours and in the evaluation of your academic record with the University. Please consult your academic advisor.

UNIV 100
Introduction to University
1.5:1.5-0
This course enhances knowledge of the University and the process of achievement in higher education through the development of skills, strategies, and attitudes required for success. *** Prerequisite: First semester students only. *** * Note: This course may not be repeated. Grading: Pass/Fail. *

UNIV 110
Writing for Academic Success
1.5:1.5-0
This course introduces the student to the elements of successful written communication across university disciplines. Emphasis is on how to transfer writing skills from one assignment, course, and subject area to another. It takes an interactive and problem-solving approach to a variety of practical writing tasks. * Note: This course may not be repeated. *

WMST Women's Studies

Faculty of Arts
Women's Studies Program

WMST 100
Introduction to Women's Studies
3:3-0
This course will examine the historical development of feminism and women's studies. Women's representation in academic practice will be analyzed using examples from humanities, the arts, and social sciences. Strategies for change and for the empowerment of women will be considered.

WMST 200
Feminisms: Feminist Theories and Knowledge
3:3-0
An examination of theoretical and epistemological issues related to feminist and indigenous systems of knowledge. Course materials will bring diverse theorists into dialogue with such topics as gender, identity, sexuality, the body, work, the family, language, violence, representation. *** Prerequisite: WMST 100 or permission of coordinator. ***

WMST 201
Women, the Environment and Change
3:3-0
This course is an interdisciplinary and cross-cultural exploration of issues revolving around women, the environment and change. Some topics explored will be a feminist view of the social, historical and cultural roots of the environmental crisis, environmental rights and ethics, and women's participation in environmental movements to name a few. *** Prerequisite: WMST 100 or permission of the coordinator. ***

WMST 202
Women and Reproductive Technologies: Ancient and Modern
3:3-0
This course is an interdisciplinary, cross-cultural, and historical exploration of women and reproduction through a feminist lens. Topics will range over a broad spectrum of social, cultural and scientific issues. These may include: women's reproductive knowledge and midwifery and/or rituals and taboos surrounding conception among others. *** Prerequisite: WMST 100, or permission of coordinator. ***

WMST 220
Feminist Research and Methodology
3:3-0
Feminist Research and Methodology
This course strengthens student research and writing skills. Methodology and methods used by feminist researchers will be combined with practical experience in designing and conducting research. A range of topics including ethics, qualitative and quantitative research, conducting library research, interviewing, using the internet critically, and evaluating resources will be covered. *** Prerequisite: WMST 100, or permission of coordinator. ***

WMST 280
3:3-0

Selected Topics - an AA-ZZ series.
Courses designed as required for groups of undergraduates.
*** Prerequisite: WMST 100, or permission of coordinator. ***

WMST 301 (formerly WMST 380AF)
Women and Health: Local and Global
3:3-0
This course examines a wide range of issues in women's health and wellness from a critical feminist perspective. It will cover a range of topics such as the ramifications of the biomedical model for women's health, disparities in women's health, AIDS, mental health, violence against women, aging, disabilities, and reproduction. *** Prerequisite: WMST 100, or permission of coordinator. ***

WMST 302 (formerly WMST 380AI)
Feminism, Gender and Science
3:3-0
This course is an interdisciplinary, cross-cultural and historical exploration of diverse issues revolving around the relationship between Gender and Science. Topics explored may include: a feminist exploration of women's historical and contemporary placement within science, the diverse ways women view science and are viewed within science, among others. *** Prerequisite: WMST 100, or permission of coordinator. ***

WMST 361
Gender, Race and the History of Art (Crosslisted with ARTH 361)
3:3-0
Seminar on the impact of feminist post-colonial critiques on the discipline of art history. Readings, discussions and papers will focus on topics such as body imagery, the gaze, sexuality, primitivism, orientalism, the canon and the culture wars, the studying of non-Western cultures, etc. *** Prerequisite: Any 200-level WMST course or permission of the coordinator. ***

WMST 367
Gender and Language (Crosslisted with ENGL 367)
3:3-0
A study of issues related to gender and language, including stylistic variation between the sexes, differing male and female strategies for dealing with social context, and sexist language. *** Prerequisite: WMST 200, or permission of coordinator. ***

WMST 372
Mapping Gender: Symbolic, Mythic and Ritual Discourses
3:3-0
This course is a comparative investigation of gender ideology. The endeavour will be to analyze the operations of gender ideology through the signing systems of symbol, myth and ritual in multiple geographical, historical and cultural locations, e.g. ancient Greece and Rome, medieval Europe, modern day Turkey, New Guinea, and the Middle East, and so forth. *** Prerequisite: WMST 100 or RLST 100 or permission of coordinator. ***

WMST 380
Selected Topics - an AA-ZZ series.
Courses designed as required for groups of students.

WMST 390
Directed Reading and Research - an AA-ZZ series.
Courses designed for individual majors.

WMST 420 (formerly WMST 480AA)
Mapping Sexuality: Discursive Formations
3:3-0
This course examines sexualities cross-culturally and historically. Subjects such as heterosexuality, homosexuality, heterosexualism, transsexuality, so-called sexual deviancy, and gay and lesbian culture will be investigated. Included will be an elucidation of sexualities via recourse to social, cultural, religious and ritual practices. *** Prerequisite: WMST 100 and WMST 200, or permission of coordinator. ***

WMST 421 (formerly WMST 480AB)
Feminism, Women and Globalization
3:3-0
An examination of the conditions of women's lives in a global context. Engaging feminist theoretics within postcolonialism, anti-racism and civil rights locations, this course examines women's issues such as poverty, environmental damage, labour, power and so forth and subsequent feminist responses generated from a variety of geopolitical locations. *** Prerequisite: WMST 100 and WMST 200, or permission of coordinator. ***

WMST 480
Selected Topics - an AA-ZZ series.
Courses designed as required for groups of undergraduates. *** Prerequisite: WMST 200 or permission of the coordinator. ***

WMST 490
Directed Readings and Research - an AA-ZZ series.

University of Regina Undergraduate Course Catalog – Spring • Summer • Fall 2006 - 114 -
Courses designed for individual majors.

WMST 498       1-3:1-3-0
Honours Seminar
Courses designed for individual majors. *** Prerequisite: Admission to the Honours program. *** ** Permission of the Coordinator is required to register. **

WMST 499       1-3:1-3-0
Honours Essay
Courses designed for individual majors. *** Prerequisite: Admission to the Honours program. *** ** Permission of the Coordinator is required to register. **
