1.4 HOW TO SEARCH COURSES ON THE WEB

- The first step is getting to the Course Catalog online, which is available on the University's home page at www.uregina.ca. The Course Catalog link is on the UR Self-Service page, which can be accessed by either using the Quicklinks, other menu tags, or by searching Course Catalog using the search function. The Course Catalog can be found on the left menu of the Web Services page.
- Click on "Academic Calendar". "Academic Calendars & Course Catalog" will appear. Under the heading "Course Catalog", click on "UR Self-Service" and the "Catalog Term" will appear. The catalog term you choose will give you information relevant to that term. You should look at the Term in which you are planning to register.
- Once the term has been selected, click on Submit. This will take you to the Search function. The Subject is the only required field that must be entered. By clicking on one subject, and then, while holding the shift button, on another subject above or below, you can select several subjects at once. Note: You must search by "Subject" (see table above). The output will be the courses that have the selected subject code(s).
- You may wish to submit a Course Number Range.

- If you enter a number into the “from” box, then only that course will be outputted.
- If you enter a number in the “from” box AND the “to” box, both courses, and all courses in between, will be outputted.

Note: All output will be in alphabetical order by Subject Code and then by Course Number.

- You may also search by “Title”. You do not have to enter the full title.
 - If you search for a word, it will give you ALL titles that contain that word.

Note: The search is case sensitive. If you search for MaTH, no courses will be retrieved.

- You may search by “Level”. If you enter a “Subject”, and then choose “Level Undergrad”, all undergrad courses for the subject will display.
- Lastly, you may search by “Credit range”, that is the number of credits you are looking for, for each course.
- Once your search criteria is placed, select “Get Courses” to retrieve the result.

1.5 FORMAT OF ONLINE COURSE CATALOG

The online format is slightly different.

Appearing will be the “Subject Code”, “Number”, and a dash with the “Full Course Title”.

Below that will be the “Course Description”, which is the same description as the printed Course Catalog. This is the location where you will see the description, prerequisites, corequisites, approvals, and any special notes.

After the description will be the “Hours”. The “Credit”, “Lecture”, “Lab”, and “Other hours” will be clearly labelled.

Following will be the “Level” of the course, the possible “schedule types”, and the “Faculty” and “Department” to which the course belongs.

The final information on this page is “Course Attributes”. Please ignore this information. It is to be used for future reference and may not currently be held true.

Note: You can click on anything that is underlined.

- You can click on the title which will take you to basically the same page, but shows Registration Restrictions placed on the course.

Note: It is the restriction that is on at the Section level that affects registration (which in most cases is different from that of Catalog).

- A schedule type that is underlined means there are sections scheduled for this course during the semester that you choose as the Catalog Term. If you click on one, you will get a list of the CRNs and the information about the sections for that specific course.

The Self Service Class Schedule works the same and is located in the same area. The only difference is there are more search options. and there is more information that relates directly to the section. When searching the Class Schedule, you can get to the course's Catalog record (to check out the description, prerequisites, co-requisites, approvals needed, notes, etc.) by clicking on the View Catalog Entry link.
