

Subject: Follow-up to precautionary measures being implemented due to coronavirus outbreak in China

Jan 27

Members of the campus community,

The University of Regina is aware of rumours circulating on social media indicating that there may be individuals who recently travelled from Wuhan, China who are staying on campus.

The University has looked into this and can confirm that these rumours are unfounded.

As noted in the email to the campus community sent out this morning, as a precautionary measure, the University is taking a proactive approach to ensure faculty, staff and students travelling to and from China are aware of, and take steps to mitigate, their risk of contracting or spreading the virus.

This information, including a Mandarin version of the bulletin, will also be emailed to students this evening.

The U of R is continuing to monitor the situation and will provide the campus with further updates as required.
